Academic Analytics
Academic Analytics

Academic Analytics is a comprehensive data service. Our tools include:

Benchmarking
Explore your institution's research activity and compare to peers.

Medical Insight
Compare research activity for scholars in clinical disciplines.

Research Insight
Discover subject matter experts, funding, honorific awards, and more.

Faculty Insight
Give scholars control over their pre-populated profile. Administrative Leaders can easily conduct reviews and workflows.

External Discovery Site
Showcase your institution's scholarship on a public-facing website.

Alumni Insight
Explore the careers of bachelor's, master's, doctoral, and postdoctoral alumni.

Industry Insight
Discover and connect your university with valuable industry partners.
