Editorial Comment: Keeneland Conference Plenary Sessions: Richard J. Umbdenstock, Part 2

Keywords

public health services and systems research, phssr

In lieu of a formal, written editorial comment, and to highlight what an online journal is able to accomplish with integrated formats, the editors of *Frontiers* have decided to use the recorded reactor panel given by Dr. Robert Pestronk, Executive Director of the National Association of County and City Health Officials, and Dr. Paul Jarris, Executive Director of the Association of State and Territorial Health Officials. In order to best provide the content, we've split the commentary into two pieces, the first being Dr. Pestronk, the second, Dr. Jarris. Below you will find Dr. Jarris' comments, and at the following link you will find Dr. Pestronk's:
