Who, constituting a quorum, and presenting certificates of their
election, severally took the oath prescribed by the Constitution of this Commonwealth, and repaired to their seats.

Mr. Bright nominated Mr. John T. Bunch, of the city of Louisville, as a suitable person to fill the office of Speaker.

No other nomination being made, on motion, he was declared unanimously elected Speaker of this House; and being conducted to the chair, returned thanks for the honor conferred upon him, and recommended the preservation of order and decorum.

Mr. Price nominated Micah T. Chrisman, of Boyle county, as a suitable person to fill the office of Clerk of this House.

No other nomination having been made, he was declared unanimously elected Clerk of this House; and thereupon took the oath required by law.

Mr. McKenzie nominated Thomas S. Pettit, of Daviess county, as a suitable person to fill the office of Assistant Clerk of this House.

No other nomination being made, on motion, he was declared unanimously elected Assistant Clerk of this House; and thereupon took the oath required by law.

Mr. Cantrill nominated James M. Hines, of the county of Warren, as a suitable person to fill the office of Sergeant-at-Arms to this House.

No other nomination being made, he was declared unanimously elected Sergeant-at-Arms to this House; and thereupon took the oath required by law.

Mr. Duke nominated R. A. Thompson, of the county of Franklin, as a suitable person to fill the office of Door-keeper to this House.

No other nomination being made, on motion, he was declared unanimously elected Door-keeper to this House; and thereupon took the oath required by law.

Mr. Corbett moved the following resolution, viz:

Resolved, That the general rules of the last session of this House be, and they are hereby, adopted as the rule of proceedings for the present session of this House, and that the Public Printer forthwith print the usual number of copies of the same.

Mr. Chrisman moved the following amendment thereto, viz:

Resolved, That there be added to the standing committees of this House a Committee on Railroads, to whom shall be referred, and whose duty it shall be to consider, all matters relating to or affecting the railroads of this Commonwealth, including the incorporation or organization and management of all railroads now or hereafter to be constructed; and report their proceedings or opinion in reference thereto to this House.
Mr. McKee moved the following as a substitute for the resolution and amendment, viz:

Resolved, That a committee of five be appointed to revise the rules of this House, and until they report, the rules adopted at the session of 1867-8 be adopted.

And the question being taken on the adoption of the substitute, it was decided in the affirmative.

Mr. Phister moved the following resolution, viz:

Resolved, That a committee of three be appointed by the Speaker to inform the Senate that the House of Representatives is now organized and ready to proceed to business.

Which was twice read and adopted.

And Messrs. Phister, Spalding, and McKenzie were appointed said committee, who, having retired, after a time returned and reported that they had performed that duty.

A message was received from the Senate by Messrs. Turner, Carlisle, and Bradley, informing this House that the Senate had met, formed a quorum, and elected its officers, and were ready to proceed with legislative business.

And that they had also appointed a committee, to act in conjunction with a similar committee to be appointed by this House, to wait upon the Governor, inform him of the organization of the General Assembly, and were ready to receive any communication he might desire to make to this General Assembly.

Mr. Hardin moved the following resolution, viz:

Resolved, That a committee of three be appointed to inform the Governor that this General Assembly is now organized and ready to receive any communication he may have to make, after having first advised the Senate of their appointment for this purpose; and that they act in conjunction with the committee appointed by the Senate.

Which was twice read and adopted.

And, thereupon Messrs. Hardin, Bright, and McKenzie were appointed said committee.

Mr. Spalding moved the following resolution, viz:

Resolved, That the Sergeant-at-Arms furnish each member of this House with three newspapers, to be selected by the members respectively.

Which was twice read and adopted.

Mr. Phister moved the following resolution, viz:

Resolved, That the ministers of the several churches in this city be requested to open the daily sessions of this House with prayer.

Which was twice read and adopted.
Mr. Hindman moved the following resolution, viz:

Resolved, That all reporters for newspapers, who desire to report the proceedings of this House from day to day, are invited to seats on this floor.

Which was twice read and adopted.

Mr. Hardin, from the joint committee appointed to wait upon the Governor, inform him of the organization of the General Assembly, and that they were ready to receive any communication he may be pleased to make to them, reported that they had discharged that duty, and were informed by the Governor that he would forthwith communicate to the two Houses, in their respective chambers, a message in writing.

A message from the Governor, by Mr. Churchill, Secretary of State, was received, taken up, and read as follows, viz:

Fellow-Citizens of the Senate and House of Representatives:

The Constitution of Kentucky imposes upon me an obligation to communicate to the General Assembly, from time to time, information of the state of the Commonwealth, and to recommend to them such measures as I may deem expedient and necessary for the public welfare. In the performance of this duty, I avail myself of the occasion to tender to you, individually, my cordial greetings. The pleasure of again meeting you in your legislative capacity is enhanced by the satisfaction which the prosperous condition of the Commonwealth at this time so justly inspires.

We have abundant cause to thank and praise God for the bounties of His providence vouchsafed to us during the vicissitudes of another year. To healthy seasons and abundant harvests, He has been pleased to add the continued and peaceful enjoyment of our civil and religious privileges. New and inexhaustible sources of prosperity have been opened. Extended lines of railway communication—some already completed, others in rapid construction—are bringing into closer contact distant portions of the Commonwealth; while an enlarged variety and amount of interests, productions, and pursuits, are cementing new ties of intercourse and trade between all our people; extending the circle of reciprocal benefits between the States themselves, and imparting new strength to that chain of mutual dependence which binds them all in closer fellowship.

Our prosperity and advancing progress in commercial and industrial development proportionably increases representative responsibility. At no period in the past did the necessities of the Common-
wealth more earnestly demand of the Representatives of the people than at this hour, a system of wise, enlarged, liberal, and provident legislation.

FINANCES.

The reports of the Auditor and Treasurer exhibit to you a detailed statement of the receipts and expenditures of the Government during the past year. You will also find, in the Auditor's Report, an estimate of the receipts and expenditures for the fiscal year ending on 10th October, 1870. A brief abstract from this Report exhibits the following results:

The public debt of the Commonwealth, on the 10th of October, 1868, amounted to $3,626,220.21. Add increase of school bonds, being amount of surplus school money 1st July, 1869, $8,556.61. Making $3,635,177.52. During the fiscal year ending 10th October, 1869, there was redeemed by the Commissioners of the Sinking Fund State bonds amounting to $328,000.00. Amount of State debt 10th October, 1869, $3,307,177.52. Deduct the amount of bonds dedicated to the School Fund, and not redeemable, $1,648,288.52. Leaving the amount of the State debt proper, upon the 10th October, 1869, $1,658,894.00.

This indebtedness of the Commonwealth consists of 6 per cent. bonds which have matured and are outstanding, $95,894.00; 5 per cent. bonds due and outstanding, $1,000.00; 6 per cent. bonds maturing in 1870 and 1871, $1,119,500.00; Military bonds maturing in 1885, $316,000.00; 6 per cent. bonds maturing between 1871 and 1873, $100,000.00; $1,658,894.00.

The balance in the State Treasury on 10th October, 1868, $331,269.68. Receipts for the fiscal year ending 10th October, 1869, $678,905.70. Making $1,016,175.38. Expenditures for the fiscal year ending 10th October, 1869, $908,321.66. Leaving balance in Treasury on 10th October, 1869, $958,783.42. Add amount belonging to Sinking Fund 10th October, 1869, but not transferred, $51,703.03. Add amount loaned by Commissioners of Sinking Fund to revenue proper, under legislative acts, $840,849.05. Add amount loaned out by Commissioners of Sinking Fund to Kentucky River Navigation Company, $10,000.00; $1,259,335.50.

If, therefore, the loan made by the Commissioners of the Sinking Fund to the Revenue proper, of $840,849.05, was returned, the balance in the Treasury of cash on hand, upon 10th October, 1869, would be $1,259,335.50; which sum, if applied to the extinguishment of the outstanding indebtedness of the Commonwealth, would reduce the State debt, exclusive of the school bonds not redeemable, to $399,568.50.
To meet this indebtedness, the Commissioners of the Sinking Fund hold 389
shares in the Bank of Kentucky, which, at par, is
7,000 shares Bank of Kentucky

In the Bank of Louisville, 400 shares
In Louisville, Cincinnati and Lexington Railroad, 300 shares of preferred
stock

In Lexington and Frankfort Railroad, 2,178 shares, at 50 cents (which is a
low estimate).

Bond of Louisville and Frankfort Railroad

Stocks in turnpike roads, at par value, $2,544,899 65, estimated at cash
value.

Annual rent of Kentucky locks and dams

Bond of Louisville and Frankfort Railroad

Value of turnpike roads, at par value, ESTIMATED $2,544,899 65

Rent of the Kentucky Penitentiary

Deducting State debt_________________________________________________________ $1,287,883 46

Excess of resources of Sinking Fund over the State debt________________________ $888,294 96

The financial condition of the Commonwealth, it will be seen
from this summary, is in a most healthy and prosperous condition.
If our outstanding bonds were now due, and the $840,849 05, due
by the Revenue Department proper to the State, were returned, our
resources are more than sufficient to pay off at once the State debt.

This item of $840,849 05 was created by loans of money, at differ-
ent periods, to supply existing deficiencies in the annual current
revenue, which was insufficient to meet the ordinary necessities of
the State Government. The first of these loans was made as early
as 1861. It was doubtless supposed, at that time, that the excess of
revenue over the disbursements would soon permit the money bor-
rowed by the Revenue Department to be returned. The depressed
condition of the Commonwealth, for several years succeeding the
late civil war, rendered full collections of the revenue, in many of
the counties, utterly impossible. Many sheriffs were compelled
to ask of the Legislature extensions of time for the payment of the
revenue. Heavy losses, in many instances, followed these exten-
sions. In addition, $57,511,770 of taxable property was, by the
manumission of our slaves, withdrawn from the tax lists. The
natural consequence was, an excess of expenditures over receipts.
To supply these deficiencies from time to time, the Commissioners
of the Sinking Fund were empowered, by various and continued
legislative enactments, to make advancements to the Revenue De-
partment, which were to be returned to the Sinking Fund.

These loans have been increased within the past two years to
enable the disbursing officers of the Government to meet and dis-
charge extraordinary appropriations made by the Legislature, for
which no provision was made at the time of their passage. How-
ever unwise may be the policy of making appropriations without at the same time providing the means for their liquidation, and however much such legislation tends to embarrassment in the finances of the State, the objects of these appropriations were too vitally necessary to the welfare of the Commonwealth to permit the Commissioners of the Sinking Fund to doubt as to their duty in making additional loans for their payment. When it is remembered that these extraordinary appropriations were made in part to erect fire-proof public offices; to found and erect that noble charity, a House of Reform for Juvenile Offenders; to add another wing to our Institution for Feeble-minded Children; to complete additions (already begun) to our Lunatic Asylums; to remove obstructions from Licking river; to make large and necessary additions to the Kentucky State Prison; I am quite sure the people of Kentucky will not only cordially approve the enlightened policy of the Legislature which made them, but will cheerfully respond to any increased temporary assessment required to refund the money used in their payment.

While the Commissioners of the Sinking Fund have always promptly responded to any loan on the part of the Revenue Department required for existing exigencies, and will always rejoice to do so, it must not be forgotten that the resources intrusted to their custody and management have been consecrated by the Constitution as an inviolable fund for the payment of the public debt. The spirit and letter of that instrument alike demand that prompt legislative provision should be at once made for the return of the money loaned.

An examination of the Auditor's estimates for the next fiscal year renders it self-evident that the expenditures will exceed the receipts by a very large sum. In that estimate he includes the loan due by the Revenue Department to the Sinking Fund. A special assessment of a very inconsiderable amount, to be levied for two or three years, would scarcely be felt, and would enable the Revenue Department promptly to liquidate its indebtedness, and also to meet any balance to become due on extraordinary appropriations already made.

I respectfully recommend that some action be taken by you for a revision of our revenue laws. It is an important subject, which cannot safely be postponed. Our present revenue system is thoroughly defective. Many of its provisions are incongruous and inconsistent, and in their operation have led to mischievous results.
It requires reform. Many subjects which should be assessed, and would yield a large revenue, have never been on our revenue lists, and escape taxation altogether. Many others which are listed do not pay a sufficient tax, ratably with other property. Our mode and standard of assessment are not uniform, and operate unequally and unjustly. The same property, in some portions of the Commonwealth, is assessed by a specie standard, while in others by a paper standard. A large amount of revenue is lost by unequal valuations by the assessor.

Some provision is required to insure greater punctuality in the payment of the taxes. Great losses have occurred in extending indulgence to collectors of the revenue, by special acts, in individual cases, postponing the time at which by law he is required to pay it into the Treasury. Such a system, if tolerated, will be followed by serious pecuniary embarrassment.

Great difficulty, and some loss in the revenue, has occurred from the operation of the law now in force permitting sureties on the official bond of the collector of the revenue to be released from liability thereon, after service of a rule upon his principal to appear in the county court and give counter-security. If such a practice prevails, great embarrassment must follow. Collectors of the revenue should be required to execute a valid and sufficient bond, and the sureties should remain bound for the entire official term of their principal. Cases of recent occurrence demonstrate, as I learn, the necessity of some change in the provisions of the law upon this subject.

I recommend that you provide by law for the appointment of three competent commissioners, charged with the duty of revising our revenue laws, who shall have power to sit during the recess of the General Assembly, and report the result of their labors to that body for approval.

STATE AGENCY.

Since your adjournment there has been paid, upon the war claim of this Commonwealth against the Government of the United States, the sum of $14,308.48.

The original claim, divided into eleven installments, amounted to $3,560,103.62.
Amount received thereon 2,136,809.55

Add an additional twelfth installment, which was forwarded to Washington on 24th November, 1869, amounting to 27,288.49

Making whole claim $1,320,622.56
This will be further increased by claims now in the Quarter-Master General's Office, constituting the thirteenth installment, which amount to about seventeen thousand dollars, and increase by that sum our present existing demand.

It is impossible to say how much of our entire demand will be realized, or at what period. I went to Washington in July last, accompanied by the Quarter-Master General, to ascertain, by a personal examination, the causes which delayed the payment of this claim. That delay is mainly attributable to the stringent requisitions of the present laws as to the character of proof required by the Department in support of the various items in each account. In addition, large items are disallowed for technical objections to the character and grade of proof. Many of the officers in command in Kentucky, during the war, upon whose order men and supplies were furnished by Kentucky to the United States, have died or been scattered to different and distant portions of the country. It is difficult, therefore, to procure, in many instances, the testimony of the officers making the requisition. Again, many of the requisitions for supplies and troops furnished by Kentucky were made by the officer in command in an emergency, where the danger and necessity forbade the possibility of communicating with the War Department. While our demand has been fully proved, in many instances, for supplies and men furnished under such circumstances, it has yet been disallowed, because the requirement of the law, that the order of the War Department directing the requisition must first be produced; and as no order ever emanated in the character of claim last cited, its production was impossible. Several of the States procured special acts of Congress, directing a settlement of their war claims on equitable principles. Similar legislation on behalf of Kentucky would soon lead to a prompt settlement of our claim.

The heavy amount of business in the bureaus where the war claims of all the States are examined and audited, is another unavoidable cause of delay. I am satisfied that our State Agent has been efficient, energetic, and untiring in his efforts, and that a failure to realize a larger amount of our debt is in nowise attributable to him. I am of opinion that there is no longer a necessity for continuing the State Agency. I have not abolished it, because all the installments had not been forwarded, and because the services of our Agent were required in correcting errors of law and fact, in the statement given by the Auditor, for his alleged rejection of items in
our account. Our State Agent expected confidently to have realized
a large and further payment about this time, and may do so before
the close of the year.

In lieu of the Agency, I recommend that the Commissioners of the
Sinking Fund be authorized to employ some responsible person, upon
a contingent compensation exclusively, to be agreed on between
them, for the collection, at his own cost, of the balance now due the
Commonwealth.

INSURANCE.

The subject of insurance is one which, by the large proportions to
which the business has already attained, and its rapidly increasing
importance, demands your most deliberate consideration. There is
good reason to believe that the premiums paid for insurance in Ken-
tucky amount to millions of dollars, while the values at hazard are
incomparably greater. The experience of several of the States of
the Union, in bringing these operations under governmental super-
vision, is now of sufficient duration, and has so borne the test of
trial, as to vindicate its claims to the favorable consideration of
every Commonwealth which has not adopted the system. Events of
recent occurrence are a sufficient and significant warning to us that
the people of Kentucky should have the advantage of its protection,
before greater disasters shall bring upon those, who now have the
power to avert them, the serious reproach of neglected duty. Insur-
ance, in some of its branches, is claimed to be a science. It is most
certainly a system, not well understood by many who seek its bene-
fits. If, however, the officers of companies engaged in such business
be placed under the supervision of a skilful official, invested both by
reputation, interest, and the sanctions of an oath, to the faithful dis-
charge of the high trust committed to him, the want of understanding
by men of other avocations will thus, to a large degree, be
rendered harmless.

The people of this Commonwealth have been accustomed to look
to the Auditor's Office for information on this subject. The estab-
ishment of a bureau, in connection with that office, under the super-
vision of the Auditor, charged with the enforcement of all laws upon
this subject, and clothed with supervisory power and control, will,
under proper legislative guards and restrictions, tend, in a great
measure, to screen the people against the impositions of fraudulent
or unsound corporations. A commissioner in such a bureau can
apply the proper tests to determine how far the companies are en-
titled to the confidence and patronage of our people, and by timely interference prevent serious losses.

As an additional safeguard, all companies doing business in this State should be required to deposit with the Auditor or Treasurer a large amount of the valuable securities in which it may, by law, be authorized to invest their capital and accumulations, to be held in trust for the benefit and security of all its policy-holders, unless evidence is furnished that a like deposit has been made, for like purposes, in some other State.

Another additional safeguard should consist in some standard of valuation, or rule of reserve, as applicable to life insurance, to be established and fixed by law. In this country, the maintenance of adequate reserves is admitted to constitute the only sure basis upon which to build a stable life insurance company; but it is safer to secure by law compliance with a line of conduct so essential to popular safety, than to admit of latitude to either the judgment or fidelity of fallible man. The highest authorities on insurance assert confidently that the maintenance of such legalized reserves, with registry of distinctive numbers, date, and computed values of all policies, in detail, and open to public inspection, with these values or reserves invested in safe interest-bearing securities, render life insurance companies continuously solvent, and clothe them with an ability to settle with promptness the remotest demands upon them. I have no such knowledge as authorizes me to speak, save from the statement of the most accomplished and experienced writers on this subject.

The interests involved in these institutions are of the most sacred character. Their beneficiaries are the widows and orphans of our land; and the insurance companies trustees of the hard earnings of honest, industrious husbands and fathers, who seek through their agency to provide for their dependent loved ones, when death has deprived them of the power to make further effort for their protection and support. These interests; these beneficiaries; these husbands and fathers of our beloved Commonwealth, loudly clamor for legislative protection; and it is a remarkable fact in support of such a claim, that the sound and solvent companies zealously desire this legislative supervision, as an additional guarantee to a confiding public, and as a protection against the unequal and injurious competition of spurious companies.
The revenue laws regulating the taxes from parties engaged in insurance are imperfect, and demand revision. The intervention of county court clerks, as the first recipients of the taxes on insurance companies, may be dispensed with to great advantage. Let all insurance companies or their agents, empowered to do business in Kentucky, report in detail the amount of business done by them directly to the Auditor, and pay directly the taxes due into the State Treasury. Impose heavy penalties for failing to report. No ground for fraud or neglect of duty would then be afforded to these companies, and the money would much sooner find its way into the Treasury.

By a proper system of reciprocal provisions and guards, I am persuaded harmony in the operations of insurance companies of this and other States may be secured, the public interest protected, and facilities afforded for the examination of the merits and solvency of all the companies, with great saving of time and of expense. Nor would the Commonwealth incur any increased expenditure by such legislation. By a judicious plan of assessments and fees, to be made and paid by the various insurance companies, under the provision of law, which need not be onerous or oppressive to them, all the expense of the proposed scheme of supervision can be provided to be paid by the parties who ought to pay, to the great benefit of good companies as well as to the public. I am fortified in this conclusion by the fact that one insurance company in this Commonwealth, at the last session of the Legislature, procured the passage of an act authorizing it to deposit its securities with the Auditor, and volunteered to pay all extra cost growing out of the deposit thus made; deeming such action the best guarantee of its ability to meet all demands of those holding policies in it.

SURVEY OF CUMBERLAND RIVER.

In pursuance of a legislative act approved 16th March, 1869, requesting me to appoint a competent engineer to survey and examine that part of the Cumberland river lying between the town of Williamsburg and the mouth of Laurel river, and report to the next General Assembly what obstructions there are in the way of the navigation of said river, the probable cost of removing said obstructions, and the advantage to be derived by the State from said removal, upon 26th day of April, 1869, I appointed John C. Broadhead, who will, during your present session, doubtless present his report.
CITIES OF HICKMAN AND COLUMBUS.

By a joint resolution of the General Assembly, approved 10th March, 1869, I was directed to appoint some competent civil engineer to examine the cities of Columbus and Hickman, and report to the next General Assembly if the banks of the Mississippi at those points can be preserved from washing, and the probable cost. In the performance of this duty, I appointed George McLeod, an engineer of large experience and eminent distinction, who accepted the appointment, and will make his report during your present meeting.

CALL OF A STATE CONVENTION.

Twenty years have nearly elapsed since the adoption of the present Constitution of Kentucky. More than half of the members of the Convention that framed it have passed away. It would be indeed wonderful had not so long an experience of the practical operation of any organic system of human government, however seemingly perfect its provisions, developed errors and defects which required amendment.

During the past eight years wonderful innovations in our domestic polity have taken place. Remembering that no alteration can be effected in our fundamental law for six years to come, under any circumstances, I am of the opinion that our best interests demand that the General Assembly should so far recognize the existing circumstances of a new era as to submit the question of a call of a Convention to the people. An affirmative popular vote would be required to sanction it twice in four years before a Convention could be called. Amid the active agencies which now surround us, few can doubt that very many changes in our present Constitution would be absolutely required before that period arrives. I therefore recommend the passage of a law submitting this question to the popular vote.

EDUCATION.

The subject of education, at all times important to the welfare of the Commonwealth, continues, in a most unexampled degree, to meet with popular approval. The proposed tax for Common School purposes, submitted by the last Legislature to the people of Kentucky, although three times greater than any previous tax for a similar purpose ever before submitted to a popular vote, was, in despite of our monetary condition, carried by a majority of twenty-five thousand votes. The necessity of adequate means, hitherto deemed the chief
cause to which the want of success in our Common School System has been attributed, can no longer justly be urged as an obstacle to the glowing results promised by its adoption.

The people of Kentucky have responded with an overwhelming unanimity to the imposition of the additional assessment, deemed by the Superintendent of Public Instruction ample to put the system on a solid and permanent basis. It will be for the representatives of the people, sympathizing cordially with their generous constituency, to give shape to their wishes by all legislation deemed necessary for realizing the large amount so liberally voted by them.

The efficient Superintendent of Public Instruction, in addition to his report, has already prepared a well-considered plan, which he will lay before you, and to both of which I invite your deliberate and careful consideration.

MILITIA.

The reports of the Adjutant General and Quarter-Master General will be laid before you. I commend them to your favorable consideration. Both these officers concur that our present laws regulating the militia are defective, and wholly inadequate to provide an efficient force that can be relied upon in case of need. No one doubts the necessity of a disciplined and well-regulated militia, for the purposes of State defense and the maintenance of law. I incline to the opinion that we must look chiefly to a volunteer system, to which encouragement should be given, for effective organization into companies, regiments, and battalions. I suggest the repeal of our present statutes on the subject, in order that a more effective system may be adopted, in accordance with the suggestions which will hereafter be submitted in special communications from the departments of the Adjutant and Quarter-Master General.

GENERAL CRIST.

I was directed by a joint resolution of the General Assembly to cause the remains of General Henry Crist to be removed from Bullitt county, and reintered in the Cemetery near Frankfort, and to cause a suitable monument to be erected to his memory.

This duty has been performed. Upon drawing a warrant on the Auditor for the expenses incurred thereby, it was ascertained that the legal provision, requiring a vote by ayes and nays on the journal of each House for every appropriation of money, had not been complied with, and the Auditor, in the discharge of his official duty,
declined very properly to audit it. It will be proper for the General Assembly to make an appropriation to liquidate this claim.

CHARLES A. WICKLIFFE.

The present year will be hereafter noted by the bereavement to our country of its distinguished dead. The few months last past, especially, have witnessed a rich harvest gathered to the garner of death! Within that period Pierce, Bell, Peabody, Walker, Stewart, Wool, and Kendall have all passed away. To this sad list Kentucky mournfully adds another of her own loved sons.

Gov. Charles A. Wickliffe departed this life, near the city of Baltimore, in the State of Maryland, on 31st October, 1869. His remains were immediately brought to Kentucky and interred in the family cemetery, near Bardstown, where they will sleep until "the graves give up their dead."

Few men have enjoyed such a succession of public honors as were shared by Governor Wickliffe. For half a century he was almost constantly in the public service. As Governor of the Commonwealth; as Lieutenant Governor; in the Cabinet; in Congress; in the Constitutional Convention; in the legislative halls, or as a revisor of the statutes of Kentucky, he was the same faithful, honest, dignified, and able advocate of the rights, honor, and interests of Kentucky.

The continued confidence reposed in him by his native Commonwealth is his highest eulogy. He has passed away, "full of years and full of honor," leaving a bright example to those whom he has left behind him.

It devolves upon you to take such notice of his death as his character, public services, and virtues, so eminently demand.

FIRE-PROOF PUBLIC BUILDINGS.

The Commissioners intrusted with the construction of fire-proof public buildings had hoped that the substantial, beautiful, well-arranged structure now in course of rapid construction, would have been completed before the meeting of the General Assembly.

The Commissioners contracted for the completion of the building on or before the first of December, under heavy stipulated damages in the event of a failure upon the part of the contractor to finish it completely by that time; but in this they have been sadly disappointed. It has been an unfavorable season for building, and the contractor was somewhat tardy in beginning the work. They hope, by
the month of May, to realize its entire finish. It will be built for the amount of the appropriation, though a few changes may be suggested in the report of the Commissioners, which will be laid before you in a few days, and which will give you in detail the arrangement and capacity of the building, and its entire contract cost.

**Penitentiary.**

I submit the annual report of the Inspectors of the Penitentiary. The number of convicts on 2d December, 1859, was six hundred and fifty, showing a gradual increase over the past year. The management, discipline, and operation of the prison, under the present humane and efficient lessee, have been satisfactory and prosperous. The health of the convicts has been good; they have been treated with kindness; and a chaplain has been especially assigned to them, who ministers regularly to their spiritual wants.

I am persuaded, however, that our prison system requires thorough reformation. While much has been accomplished by the establishment of the House of Reform, whose successful operation will, in a great degree, withdraw juvenile offenders from the noxious atmosphere of our Penitentiary, much yet remains to be done for the attempted reformation of the older adepts in crime. The whole subject is full of thoughtful interest, and is now actively commending itself to the enlightened benevolence of the Christian world.

I still retain the opinion, expressed in my former messages, that much good might be accomplished by a classification and separation of the convicts. I am of opinion that a plan might be devised by which, in case of surplus earnings, the convict, under proper restrictions, might, upon his discharge, receive a certain portion of such surplus; or, in case of pinching need, his family might receive it before his term of service expired.

Might not so humane a provision touch a hardened heart, and soothe it with the consolation that he was not entirely cast off, as a hopeless criminal? Would it not prove a powerful incentive to good behavior and fidelity, and, upon his discharge, perhaps prove a potent agency in his ultimate and entire reformation? Great good has been accomplished in the prisons of the larger States by lessening the term of service as a reward for the good conduct of the convict. By special legislative provision, the convicts are allowed to earn certain deductions from the period of imprisonment, by good conduct, obedience, and fidelity to the regulations of the prison. While for misconduct, deductions already earned are canceled.
A joint resolution was passed at the last session of the General Assembly directing me to appoint three Commissioners to visit the prisons of other States, and make a report upon the whole subject of prison discipline. In obedience to that resolution, I appointed Hon. I. T. Martin, of Harrison; Hon. E. D. Standeford, of Jefferson; and J. W. South, Esq., of Woodford. These gentlemen have performed the duty assigned them, and will no doubt present a full and interesting report. I therefore forbear, at this time, from making further suggestions on this interesting and important subject.

**HOUSE OF REFORM.**

Under the provisions of an act of the General Assembly, establishing a House of Reform for Juvenile Delinquents, I appointed Wm. Bradley, of Hopkins; W. W. Bush, of Simpson; R. K. White, of Louisville; J. Warren Grigsby, of Lincoln; W. C. P. Breckinridge, of Fayette; and Richard Stowers, of Pendleton, as Commissioners to locate the charity, and purchase a tract of land for its use. Mr. Stowers was prevented by sickness from accepting the appointment. I substituted Hon. John W. Menzie, of Pendleton, in his stead.

I have the honor of submitting the report of these Commissioners. It will be seen that they have located the House of Reform in the county of Jefferson, upon the Louisville, Lexington, and Cincinnati Railroad, near Hobbs' Station. A tract of land containing two hundred and thirty acres has been purchased for twenty thousand dollars, a conveyance executed, and the money paid. Of this sum, the city of Louisville generously donated to the Commissioners the sum of eight thousand dollars, while twelve thousand was paid by the State.

I appointed M. L. Clark, of Franklin; R. C. Hudson, of Oldham; and A. C. Vlllalnboundingham, of Simpson, under a provision of the same act, Commissioners to contract for and superintend the buildings. General Clark declined his appointment, in consequence of his acceptance of the position of Superintendent of the Public Offices being erected in Frankfort. I appointed S. L. Gaar in his stead. I have the honor to submit their report. It will be seen they have agreed upon the plan of said buildings, and have advertised for proposals for their erection. During this month the contracts will be let out, and by the first of next September the buildings will be completed and ready for the reception of its future inmates, at a cost of thirty-five thousand dollars. It will devolve upon you to provide, by
appropriate legislation, for the organization of the charity and its future operations; to designate the trustees and the mode of their appointment, and what officers are to be connected with the institution, and how appointed.

LABOR AND IMMIGRATION.

It is self-evident that our native labor, white and colored, is insufficient for our present necessities. For a sufficient supply we must look to foreign immigration. But our need does not stop there. We must look to Europe also for capital and labor, if we desire to increase our population, and develop our industrial and mineral wealth. How, then, is the tide of European immigration to be induced to flow into Kentucky? How are the teeming hosts of European immigrants, now seeking American shores, to find it to their interest to make their future homes in this Commonwealth? These are questions which demand your deliberate and earnest consideration. By liberal and prompt legislation, you may do much to accomplish their wise solution, and that, too, at a very inconsiderable cost.

It is useless to deny that the most erroneous impressions, not only in Europe, but in many of the Eastern and Northern States of our own country, prevail with regard to Kentucky—I might add, the entire South. The belief is common there, and it is industriously circulated abroad (and, in times of great political excitement, even at home), that there is in Kentucky, and the Southern States, no security for person or property; that we are lawless and vindictive, and that white labor cannot prosper among us; in a word, that no foreign emigrant, differing in political sentiment with a majority of the Kentucky people, would find it safe to settle here. It is also true, great ignorance prevails generally among the European masses as to the physical geography, the natural resources, the industries, climate, and productions of our State. So long as such impressions prevail, it is needless to expect the strong tide of emigration to turn towards us.

How are they to be removed? I reply, bring to the knowledge of the emigrating classes, while still in their old homes, and before their minds are made up as to their new, our social condition; our political system; our free schools; our climate; the varied character of our soil; the cost of land; our low rate of taxation; the maintenance of law and order; our freedom of religious opinion; our means and mode of transit.
Promptly extirpate prejudice and remove error from the minds of the emigrants before their departure for America, by the free circulation among them, in their own language, of entire statements, carefully and correctly prepared, embodying the social, political, and industrial statistics of Kentucky, and half your work is done. Instruct them as to the resources of our Commonwealth, and the advantages they hold out to capital, labor, and skill for a permanent settlement among us.

The iron-masters of Europe, with their capital, experience, and skill, must, through such cheap agencies, become acquainted with our industrial and mineral wealth. Let the substantive fact disclosed by our partially completed geological survey, that Kentucky possesses a greater area of coal of good quality than is contained within the limits of any other State in the world, be impressed upon the mind of all Europeans who contemplate emigration. Let specimens of Kentucky coal be sent abroad to the great Industrial Expositions of Russia, France, and England, accompanied by exact statements of the thickness and quality of the seams within the coal-bearing area of this Commonwealth, in proof of their superiority over any in Great Britain. Inform them of the rich and boundless deposits of iron ore which accompany the coal; the accessibility of both to commercial transit by rivers and railroads now completed or in course of construction; the high elevation of our coal and iron-bearing lands, whereby they can be easily mined above the surface. Impress upon the foreign miners, furnace-men, and machinists, the inducements to emigration, as developed by the liberal compensation of the American workingman over the wages of labor in Europe.

It must be by such means of statistical information, circulated in cheap and convenient form, that we must stimulate mechanical industry in Kentucky in drawing to us capital, not less than an abundant supply of intelligent and skilled operatives from the mining and manufacturing districts of Europe.

How are these statistics to be prepared? How circulated? In what form, and at what cost?

Two modes suggest themselves as satisfactory replies. The results may be accomplished by separate State action on the part of Kentucky alone, or by conjoint action of Kentucky with some of the Southern or Middle States.
The Commercial Convention, which recently assembled at Louisville, proposed a general agency for the whole South, and suggested that the Southern States should, by joint contribution, raise a fund to enable such agent to prepare, translate, publish, and circulate abroad, such advertisements in French, English, German, Italian, Dutch, Danish, Swedish, and Norwegian, accompanied by cheap and suitable maps, with proper facts as statistics illustrative of the physical geography, natural resources, and industries of the States represented by him. The name of Commodore Maury, known alike to the Old World and New for his experience, his talents, scientific attainments, and high character, was associated as the representative of such an agency.

Kentucky might well establish a conjoint agency with Virginia, West Virginia, and Tennessee, and avail herself, by such action, at a probable cost of ten thousand dollars per annum, and reap the rich reward of increased wealth and an overflowing population, which, in a few years, would follow such action. If that be deemed unwise, then Kentucky might accomplish much by individual action.

The same objects might be accomplished by the establishment of an Immigration Agency in Kentucky alone, at a somewhat increased cost. I dwelt so fully on the agencies and instrumentalities of our exclusive State action, in my last message, that I deem it unnecessary to do more than to refer you to them.

**Geological Survey.**

I renew my suggestions, contained in my communication last year to the General Assembly, for a completion of our Geological Survey. The highest interests demand its completion. I have no reason to change the opinion therein expressed, that we might yet obtain the benefit and assistance of the United States Coast Survey, and their corps of accomplished engineers, in the prompt completion of the work, if the General Assembly would, by joint resolution, ask Congress to allow the Director, Professor Pierce, in his proposed plan for estimates for extending his operations into the valley of the Ohio and Mississippi, to include Kentucky. If this were done, we should, at a very trifling and inconsiderable cost, have an accurate and valuable topographical map of the Commonwealth.

**Registry of Births and Marriages.**

The law requiring the registry of births and marriages was, about the beginning of the war, repealed. The Medical Societies through-
out the Commonwealth are greatly interested in having a similar statute re-enacted.

Most civilized countries, and especially many of the American States, provide for such a registry. Statistics, says a learned writer, are the account-books of a nation, revealing the state of its affairs and the excellencies or defects of its institutions. They substitute real and distinct knowledge for vague and general impressions. They dispel doubt and conjecture, elicit facts not previously suspected, and overturn error. It was long doubted whether female life exceeded in duration that of male, and it has only been within the past twenty years that certainty on the subject has been attained. It was formerly confidently believed that an open winter was most fatal to life, and that more persons die of surplus than want; but statistics show the reverse of these proverbs to be true.

The interest of sanitary medicine would be advanced and benefited by the proposed law. It is believed that many valuable lives are saved annually in countries where accurate mortuary returns are made. The causes of disease and death having been ascertained and reported, the removal of such incidental causes directly diminishes the death rate.

Valuable results would follow the differential statistics between the white and colored race, and might, after a series of registrations, afford accurate knowledge of the status and ultimate destiny of the African race.

The proposed law would be practically beneficial to large classes of our community, in a variety of cases where both marriage and death become, in judicial investigation, the turning points in which title to character and property are both sometimes directly involved. I have had no such experience of the operation of the former law as to speak advisedly of its benefits. Impressed with the value of statistics generally, and in deference to the learning and experience of the medical profession in Kentucky, I have deemed it my duty to call your attention to the propriety of some action, if you deem it advisable.

LUNATIC ASYLUMS.

A recent visit to the Eastern Lunatic Asylum impressed me strongly with the beneficent and practical results developed by the late liberality of the Legislature to these institutions. The new buildings are entirely finished, making the structure compare favorably with any in the West. The management of both indicate the steady
progress of enlightened humanity—in the wise and well-considered measures of affectionate care and relaxation, and varied amusements, which now mark the treatment of the sad and unfortunate inmates.

The reports from both institutions will be laid before you as soon as received, and will disclose any further requirement needed by these noble charities.

INSTITUTION FOR FEERLE-MINDED CHILDREN.

This charity continues to dispense its blessings to the unfortunate children who are its inmates. An additional wing is in the course of construction, which, when completed, will greatly add to the appearance, and afford large increased accommodations for additional pupils.

The report of its operations for the past year will, when received, be laid before you.

KENTUCKY INSTITUTION FOR THE DEAF AND DUMB.

It is with sadness that I communicate to you the death of J. A. Jacobs, Superintendent of the Kentucky Institution for the Deaf and Dumb, which occurred at Danville, from a brief attack of paralysis, on the 27th of November last. To the Commonwealth, the death of Mr. Jacobs is a public calamity; to the dumb inmates, so long the objects of his care, his loss is irreparable.

For more than forty years he was the faithful and zealous principal of that charity. His entire life was devoted to its service; the wants and cares of the mutes his constant study. Greater fidelity has rarely marked the life of any public servant. Active, benevolent, charitable, and unobtrusive, there was a simplicity in his life that won all who knew him. But he had a higher title! He was a Christian, full of faith and full of humility.

I recommend, in token of his faithful and long-continued service, that some public notice be taken of his death.

KENTUCKY RIVER.

In accordance with the provisions of an act of the General Assembly, passed at its last session, the Commissioners of the Sinking Fund, after due advertisement, leased to the Kentucky River Navigation Company the locks and dams upon that river, for the term of fifty years, at an annual rental of fifteen hundred dollars. A lease drawn by the Attorney General, with proper and reciprocal obligations, was executed, and the property surrendered to the company by me in the name of the State.
I am gratified to state that the company have completed all their surveys, and will soon put ten additional locks under contract, which will extend the navigation of the river to the Three Forks.

The liberal subscriptions by the various counties bordering upon the river, with a liberal subscription by the city of Louisville, give confident assurance of the entire completion of the work in a very reasonable time.

CIVIL RIGHTS BILL.

In obedience to the joint resolution of the General Assembly, directing me to test the constitutionality of the Civil Rights Bill, I have employed counsel, and am informed that two cases involving the validity of the act have been taken to the Supreme Court of the United States, and will be argued in March next.

LAW AND ORDER.

While quiet and order have prevailed generally in the State, several acts of violence occurred during the past summer which induced me, at the written request of the Judge and Commonwealth's Attorney of the circuit in which they occurred, to call out the militia, both infantry and cavalry, under circumstances which I may take occasion hereafter to make the subject of a special communication.

I am happy to inform you that the law was fully supported and maintained, and several of those charged with its alleged violation have been arrested, and are now in jail awaiting their trial.

While no one can feel more sensibly than I do the high and delicate responsibility of calling out the military force at any time, or under any circumstances, and while I should never do so save in support of, and in strict subordination to, the civil authority, yet I shall never hesitate promptly so to do, at any cost and under all hazards, whenever it becomes necessary for the arrest and bringing to justice of all those who combine together, no matter under what pretense, to trample the law under their feet by acts of personal violence.

WOLFE ISLAND.

The suit between Missouri and Kentucky, involving the title to this island, which, as an original proceeding, has been pending in the Supreme Court of the United States for several years, is now fully prepared, and will be argued before that tribunal and decided, in all probability, during the present winter.

In this connection I herewith submit a written report of W. R. Bradley, of Hickman, who was employed by the late James Harlan,
while Attorney General, to take proof in this cause, and who claims additional compensation for services rendered in its preparation. I commend it to your consideration.

UNNECESSARY LEGISLATION.

I feel it my duty to call your attention to the increasing legislation on local and individual interests, already provided for through general laws and the judicial organs of the country. When it is remembered how large a portion of the session is consumed in transacting this description of business, and how greatly the public expenses are augmented, I am satisfied that, apart from all other considerations, you will deem it a subject worthy of your consideration.

Another fruitful source of expense is the legislative grant of acts of incorporation to every species of trade and calling, the creation of companies under which no organization has ever taken place, and under which none was contemplated at the time. I am sure one million of dollars has, in the past ten years, been wasted by legislative acts of incorporation under which no organization has been attempted, or by acts for local or individual interests already provided for by general legislation.

A very easy remedy suggests itself. I recommend the passage of one general law of incorporation for banks, and other companies, under which, when the requirements of such general statutes are complied with, any company can organize by putting the terms of its organization on record and giving notice. This is successfully done in Ohio, New York, and many of the other States. It would save this Commonwealth a very large sum each year, and relieve the Legislature of much useless labor.

FEDERAL RELATIONS.

The position held by Kentucky towards the Federal Government as a sovereign State in the American Union, demands from me a passing word upon the subject of our Federal Relations.

The dark shadows of the past are breaking away before the bright gleams of the future grandeur of the American Republic. The lever of self-interest must soon readjust the disturbed equilibrium of our Federal system. The material resources of the Southern States will soon find ample capital in the East or in Europe for their development. Peace has followed discord, and love must supplant hate. Every State will be brought back into the Union at no distant day. Local self-government will re-establish itself in all the States; public
opinion, unawed by bayonets or military power, will, through the ballot-box, be reflected in such governmental shape as the majority of the enlightened freemen in each State may determine, subject to the limitations of the Federal Constitution.

Free intercourse between various sections of our Union, through the medium of our railways, will hasten this consummation. The more we see and know of each other, the higher will be our mutual appreciation, the greater will be our deference for each other’s opinions and judgment, and the stronger must be the ties of Union.

Our country, amid all the trials, convulsions, and conflicts of the past eight years, presents today a proud spectacle of matchless energy and incalculable wealth. Already one railway spans the continent, connecting the Pacific slope with the Atlantic ocean. A few years must and will witness a similar connection between the richest and most productive portions of our Southern States. Its completion is certain during the next decade.

Kentucky will then be traversed from north to south, and from east to west, by these national thoroughfares. Who shall measure the growth in prosperity and renown which shall follow the results of such mighty enterprises? Let us, therefore, neither despond nor despair. Let us rather take courage of our hopes than our fears. We must be tolerant to the caprices of folly and prejudice. Time will dissipate their mischief. Let us, however, never cease to be true to ourselves, to our State, and to our entire country.

The fundamental truths of Magna Charta were more than forty times re-asserted in the British Parliament against the usurpations which threatened to subvert them. Let us fearlessly reassert, and in our action maintain, that the Federal structure of American self-government is one of limited and enumerated powers, and that the maintenance and vindication of the reserved rights of the States is the greatest safeguard of civil liberty.

"It is self-control that is the greatness of the American people. It is obedience to their own law that constitutes their power. It is because they have declared that their Constitution is the bulwark of their safety; it is because they appeal from the heat of passion to the day of calm reflection, that they have proved themselves worthy of the liberty that their fathers conquered for them."

When centralized power attempts the usurpation of an authority not conferred by the Constitution of the United States, let us, in the name of every limitation contained in that instrument, calmly, as
freemen, continue to protest against it. Though unpopular and odious to the dominant party now, many, very many, may live to look to the inviolable maintenance of such political truths as the only palladium of national and individual safety.

Commending to you the honor and interests of our beloved Commonwealth; promising upon my part a most hearty and cheerful co-operation, I earnestly invoke the Divine blessing on your deliberations.

J. W. STEVENSON.

DOCUMENTS ACCOMPANYING GOVERNOR'S MESSAGE.

Report of Commissioners to locate State House of Reform for Juvenile Delinquents.

STATE OF KENTUCKY.
Louisville, Nov. 15, 1869.

To His Excellency John W. Stevenson, Governor:

Sir: In compliance with an act of Assembly, entitled "An act to establish a State House of Reform for Juvenile Delinquents," your Commissioners, Wm. Bradley, of Hopkins; W. W. Bush, of Simpson; J. Warren Grigsby, of Lincoln; W. C. P. Breckinridge, of Fayette county; and R. K. White, of the city of Louisville, appointed to select and purchase a suitable tract of land for the location of the State House of Reform, met by appointment on the 12th day of April, at the mayor's office in the city of Louisville, and organized a Board by the election of R. K. White as Chairman, and W. W. Bush as Secretary.

After an interchange of views, the Board adjourned over until the following day, when it again met, and proceeded to the examination of such tracts of land as had been offered for sale to the State for the purpose indicated by the act.

The Board again adjourned over to meet in Louisville on the — day of May, having in the meantime advertised in the public newspapers for proposals to be made to their Chairman in Louisville, on or before the day of their next meeting.

On the — day of May your Board again met, according to adjournment, and, after having made an extensive survey of the country along the different lines of railroad, personally examining numerous tracts of land in different sections of the State, and after duly consid-
erating all the offers of money, material, or land to be donated, determined, on the — day of June, to purchase of Jacob Hite, sr., and James T. Hite, a tract of land lying in Jefferson county, on the waters of Goose creek, near Hobb's Station, on the Louisville, Lexington, and Cincinnati Railroad, known as the "Cave Spring Farm," containing two hundred and thirty acres.

The Board accepted a donation of eight thousand dollars from the city of Louisville, made for the purpose of securing the location of said House of Reform in the county of Jefferson, and also accepted of S. L. Gaar and Wesley Whips a donation of a strip of land fifty feet in width, extending from the front line of said "Cave Spring Farm," along the dividing line between the lands of said S. L. Gaar and W. Whips, to the north side of the Louisville, Lexington, and Cincinnati Railroad, for the purposes of an avenue or highway from the House of Reform to the said railroad. The price agreed upon for the two hundred and thirty acres of land was twenty thousand dollars; the State to pay twelve thousand dollars, and the Hites accepting the warrant of the Auditor of the city of Louisville upon the city Treasury for remaining eight thousand dollars, without recourse.

The Board of Commissioners then adopted a resolution designating their Chairman as a committee to receive deed of conveyance, and to present the same to the Attorney General, and upon his approval of title, to present the same to the Auditor of State and request the payment of the sum of twelve thousand dollars to the Messrs. Hite.

On the 29th day of June, 1869, the duties imposed by the aforesaid resolution were discharged. The Attorney General approving the title, the Auditor of State received the deed and issued his warrant upon the Treasury for the twelve thousand dollars; and the warrant of the Auditor of the city of Louisville was delivered by the undersigned to the vendors. The deeds of conveyance are now upon record in the clerk's office of the county of Jefferson.

The undersigned, by direction of the Board, immediately gave notice, through the past-office, to each of the Building Committee appointed by your Excellency to take charge of the building of the said House of Reform.

All of which is most respectfully reported.

Your obedient servant,

R. K. WHITE, Chairman Board of Commissioners.
Report of the Commissioners to contract for and superintend the erection of the State House of Reform for Juvenile Delinquents.

November 22d, 1869.

To His Excellency J. W. Stevenson, Governor of Kentucky:

We, the undersigned Commissioners, appointed to contract for the erection of buildings for the House of Reform for Juvenile Delinquents, would respectfully report—

That our action has been delayed by the resignation of General Clark, one of the original Commissioners, whose place was filled by your Honor in the appointment of S. L. Gaar, of Jefferson county, but he did not receive any official notice of the fact until the 14th day of September last. Since then, we have been actively engaged in adopting plans for said buildings, which we have now advertised to let in the early part of December, and which we hope to have completed by the first of September next, and ready for the reception of inmates.

The probable cost of the buildings we propose to let will be about $35,000, and will accommodate about 125 inmates; the main building 75, and the family building 50.

We would further state, the main building will have capacity to accommodate 350 or 400 inmates, with some additional family houses, if circumstances should hereafter require it. Each additional family building will cost about $7,000 or $8,000. This information as to capacity we get from Superintendents of similar institutions in other States.

All of which we respectfully submit.

A. C. Vallandingham,
S. L. Gaar,
R. C. Hudson,

Commissioners.

Report of W. R. Bradley in regard to Wolf Island.

Frankfort, Ky., November —, 1869.

John W. Stevenson, Governor of Kentucky:

Dear Sir: Having been, in the year of 1859, appointed by the Hon. James Harlan, Attorney General for the State of Kentucky, as one of the counsel of the State to aid in the preparation of the proof to be taken in the suit then, and now, pending in the Supreme Court of the United States, wherein the State of Missouri is complainant and the
State of Kentucky is defendant, and having accepted the position, I at once entered upon the discharge of my duties, and deem it proper at this time to report to you my acts in the premises.

In May, 1859, being notified of the intention of the counsel of Missouri to take the deposition of Jonathan Ramsey, I attended at his house, near Jefferson City, Missouri, and cross-examined him on the part of Kentucky.

After having fully posted myself in regard to the proof proper to be taken on the part of the State of Kentucky, I proceeded to take the same; and having taken a number of depositions, had them closed and mailed, directed to the proper officer in Washington city; but from some cause they did not reach their destination, of which fact I was not notified until in the Spring of 1866.

The Legislature of Kentucky, by an act passed in February, 1866, allowed to me for my services so rendered five hundred dollars.

Shortly after the adjournment of the Legislature, in 1866, I was notified that the proof taken by me had not reached the Clerk's office of the Supreme Court; and regarding my appointment as continuing, and the same being recognized by the then Governor of Kentucky, I at once began preparations for re-taking the proof on the part of Kentucky, and such other additional proof as could be gotten up; and having received notice that Judge C. A. Newcomb had been appointed to represent the State of Missouri, in the place of the Hon. Robert Hatcher, I put myself in communication with him, making with him such agreements in regard to the taking of depositions by consent as would suit our convenience.

Under this agreement I attended at Cape Girardeau, Missouri, on the 26th of July, 1866, and cross-examined John C. Watson, whose deposition was taken on the part of Missouri; thence to Scott county, Missouri, and cross-examined Abram Hunter.

In November, 1866, by agreement, I commenced taking depositions on the part of Kentucky at Columbus, Kentucky, taking eight at this point. From this point I proceeded to Ballard county, where I took the depositions of seven witnesses at their houses, they being unable to get to Columbus, being old men and quite feeble.

After this I took three more in the town of Clinton, and while at Frankfort, Kentucky, on other business of the State, I took two more.

Previously to February, 1866, and before I had learned of the loss of the depositions taken by me, I procured H. C. Black, Esq., sur-
veyor of Ballard county, to go with me upon the ground, and take such observations as he thought necessary to make out a map showing the position of the river as of the date spoken of by the witnesses, and its present position, and laying down surrounding objects. This he did, and furnished me with the same, which I thought at that time correct and sufficient; and in February, 1866, his claim for services was laid before the Legislature, and an appropriation made to him of sixty dollars.

But when re-taking the depositions, and more minutely examining the ground, I found the maps were not as full, and the position of the river as accurately laid down, as I desired. I therefore, with Mr. Black, again went upon the ground, and took such observations as we deemed necessary, and made out three new maps—one showing the position of the river and surroundings, as described by the witnesses when they first knew them; one showing the position of the river and surroundings now; and a third embodying the two views upon one map—the last more clearly showing the changes in the river at this point. In this work Mr. Black and myself were engaged some five or six days, and, after the completion of the same, I took Mr. Black's deposition proving the correctness of the maps: all of which proof has been forwarded to the proper office, and I am happy to inform you that the same has reached its destination, and has been regularly filed in the suit.

In December, 1866, by agreement with Mr. Newcomb, I met him in St. Louis, Missouri, for the purpose of cross-examining witnesses whose depositions he desired to take; but after reaching that point, I was informed by Mr. Newcomb, that, in consequence of the ill-health of a part of the individuals whose depositions he had intended taking, he would be compelled to postpone the same.

I was instructed by Mr. Harlan to keep an account of money expended by me for traveling expenses, paying witnesses, and examiner's fees, &c. This I did, but have lost the memorandum kept of expenses in the first taking; but they were settled shortly after the services rendered.

The expenses that have accrued since that time, in the preparation of the last proof, up to March, 1868, including my traveling expenses, witnesses, and examiner's fees, copies of records, &c., &c., amount to one hundred and forty-seven dollars and thirty cents, which has been re-paid to me by the State; but since March, 1868, I have, in
the way of expenses, paid out thirty-nine dollars and twenty-five cents, which has not been re-paid by the State.

All of which is respectfully submitted to your Excellency.

W. R. BRADLEY.

The Speaker laid before the House the following report of the Secretary of State, showing the vote of the qualified voters of Kentucky upon the propriety and expediency of imposing an additional tax of fifteen cents on each one hundred dollars' worth of taxable property in the State, taken in pursuance to an act of the 22d of January, 1869, viz:

Office of the Secretary of State,  
Frankfort, December 7th, 1869.

To the Hon. John T. Bunch, Speaker of the House of Representatives:

I desire, through you, to make the following report to the General Assembly of the Commonwealth of Kentucky. By the provisions of an act, entitled "An act for the benefit of the Common School System," approved January 22d, 1869, to take the sense of the qualified voters of this Commonwealth upon the propriety and expediency of imposing an additional tax of fifteen cents on each hundred dollars' worth of property in the State, to increase the Common School Fund, it was made the duty of the Secretary of State to report to the General Assembly a statement of the vote so taken within five days after its next meeting, that the Legislature might adopt such measures as it may deem advisable to carry out the purposes of the act.

On the first Monday in August last, after full, due, and legal notice had been given, a poll was opened in the various precincts of all the counties to ascertain the will of the qualified voters of the State upon this proposed tax, and by the returns sent to the Secretary of State, duly certified and properly authenticated according to the requirements of the act, I find that seventy-nine thousand and eighty-five votes were cast in favor of the tax, and fifty-four thousand and four hundred and eight votes against it; from which it appears that the majority in favor of the imposition of this tax was twenty-four thousand six hundred and seventy-seven.
Appended to this report will be found the vote cast in every county in this Commonwealth. Most respectfully,

SCHOOL TAX.

Said portrait was painted only a short time before the death of Judge Marshall by the late J. R. Lambdin, Esq., an artist of more than ordinary excellence and repute. Believing that this portrait is worthy of a place upon the walls of one or another of the public offices of the State, I desire now to carry out the design, by me long entertained, of presenting the same to the Commonwealth of Kentucky through your honorable body. Should you regard my proposition as one worthy of your consideration and acceptance, I shall be pleased to hand over the painting referred to, to any constituted agent of the State designated by your honorable body.

With sentiments of high regard,

Your obedient servant,

Thomas C. McCreery, upon the expiration of his present term of office.

Messrs. Corbett and Prather were directed to bear said message; and, after a time, Mr. Corbett reported that they had discharged that duty.

In pursuance to an act of Congress of date of 25th July, 1866, entitled "An act to regulate the times and manner of holding elections for Senators in Congress," and of an act of the General Assembly of the Commonwealth of Kentucky, approved January 15, 1867, at 12 o'clock, M., on this day, the Senate of Kentucky being then in session, entered the Hall of this House, then in session, and then and there commenced and held a joint session of the two Houses of the General Assembly of the Commonwealth of Kentucky—the Speaker of the Senate presiding over, and the same composed of a majority of all the members of each House elected to said General Assembly.

The Journals of the Senate and of this House on yesterday were then read by the Clerks of each House.

Beck received 3 votes; Hon. J. M. Rice received 6 votes; Hon. Oscar Turner received 17 votes; and Hon. John Q. A. King received 4 votes.

And it appearing, from an inspection of the Journals, that no person had received a majority of all the votes cast, and a majority of all the members elected to each House of the General Assembly, it was thereupon announced by the Speaker of the Senate and Presiding Officer of the joint session, that no person was named and elected to serve as Senator aforesaid.

Mr. T. E. Moss then withdrew the name of Hon. John Q. A. King.

On motion, the House then adjourned.

THURSDAY, DECEMBER 16, 1869.

Mr. Duerson presented the petition of sundry citizens of Henry county, praying to be annexed to the county of Oldham.
Which was received, the reading dispensed with, and referred to the Committee on Propositions and Grievances.

Mr. Bowles, from the Committee on Enrollments, reported that the committee had examined enrolled resolutions, which originated in this House, of the following titles, viz:

Resolution in relation to the election of a United States Senator to succeed T. C. McCreery;
Resolution for the benefit of Wm. N. Robb, John A. Crittenden, Howard Todd, and W. Duvall;

And had found the same truly enrolled.
Whereupon the Speaker affixed his signature thereto.
Ordered, That Mr. Bowles inform the Senate thereof.
A message was received from the Senate, announcing that they had passed a bill which originated in this House, of the following title, viz:

A bill to incorporate the Bowling Green Gas Company.

That they had passed bills of the following titles, viz:

1. An act to amend an act, entitled "An act to endow an Asylum for the Tuition of the Deaf and Dumb," approved December 7, 1822.
2. An act for the benefit of the Asylum at Danville for the Tuition of the Deaf and Dumb.
3. An act to amend an act, entitled "An act to incorporate the Frankfort Flouring Mill Company," approved March 16, 1869.
4. An act to change the time of holding the court of common pleas in Warren county.
5. An act in relation to certain conveyances of real estate by the Highland Coal Company.

Which were read the first time, and ordered to be read a second time.

The rule of the House and constitutional provision as to the second reading of said bills being dispensed with,

Ordered, That they be referred—the 1st and 2d to the Committee on the Judiciary, with instructions to report thereon on Saturday, at 10 o'clock, A. M.; the third to the Committee on Corporate Institutions; the 4th to the Committee on Circuit Courts; and the 5th to the Committee on Codes of Practice.

Mr. Dille, from the Board selected by this House, and to whom was committed the matter of contest for a seat therein between James B. Thomas and Elijah Hurst, from the counties of Harlan and Perry, presented the following report, viz:

The Board selected by the House of Representatives to determine the contest on the petition of James B. Thomas, contesting the election of Elijah Hurst to a seat in this House, as a member thereof, from the representative district composed of the counties of Harlan and Perry, have determined the same so far as they conceive they have jurisdiction thereof.

The Board has heard proof, both oral and written, much of which is both irrelevant and impertinent. They have determined that the election, though conducted certainly in a manner reprehensible, and which should not be countenanced, cannot be set aside for fraud, which is one of the grounds specified in the notice. That there was a combination or coalition of men, styling themselves the "loyal league," and bound together for some purpose, is abundantly proven. What was exactly the nature, extent, and objects of this league; who and what were its officers and their powers and duties, are questions
the Board have been unable fully to solve. That it was a "league," or conclave of a political character, is sufficiently certain; and that they were bound together by oaths of a horrid character, has been fully disclosed. Some of the witnesses could not, and others declined to, make a full exposition, upon the grounds that they would implicate themselves. The principal officer, styled the "Great or Grand Mogul," seems to have been clothed with very ample and extraordinary powers, as, from the proof, he seems to have been invested with the power of absolving members from their oaths; and in attempting to prove that this "league," or its members, did not, by intimidation, control the election in one precinct—that of Martin's Fork—there was also an effort to prove that the "Grand Mogul" had granted absolution to the voters of that precinct, and that one James Hall figured there as the "Martin's Fork tiger," and contestant, Thomas, received a majority at that precinct. There is no direct proof, however, that voters were positively intimidated or prevented from voting, though there seems to have been a general apprehension of danger expressed by many. There is no proof of any overt act of this character.

The first ground stated in the notice to contest the election is, that Thomas, the contestant, "received a majority of the legal votes cast in the representative district." This the Board are unanimously of opinion is not sustained.

2d. That the election was procured by fraud and bribery.

There was some proof that both money and whisky had been used by the friends of both parties, but none to implicate the member returned; and most of the testimony on this ground was of what might be termed inadmissible, being "hearsay" and supposition. None of the other grounds contained in the notice are sustained.

The Board are not fully satisfied that Elijah Hurst, returned as member, was, at the time of the election, eligible, and that he was not clerk of the Harlan county court; but as this was not a ground specified in the notice, they were of opinion that they were not the proper tribunal to determine that matter. There was an additional notice, specifying this as one ground; but as the statute requires that the notice shall state the grounds of contest, and none other shall afterwards be heard as coming from such party, and as this ground was not stated in the original notice, and the additional one was not given in the time required by the statute, they declined to determine the question or decide whether or not he was, at the time of the election, clerk of the Harlan county court, and, consequently, ineligible, and whether or not he had resigned as such clerk.

They are unanimously of opinion that James B. Thomas was not elected a member of this House from the Representative District of the counties of Harlan and Perry; and for this, and the reasons set forth above, report the following resolution, the adoption of which they recommend:

Resolved, That the petition of James B. Thomas, contesting the election of Elijah Hurst, to serve in this House as a member elect from the counties of Harlan and Perry, be dismissed, and that the Board selected to determine that contest be dissolved.

N. C. DILLE,
Chairman of the Board.
The question was then taken on the adoption of the resolution presented by said Board, and it was decided in the affirmative.

On motion of Mr. Adams, leave was given to bring in a bill for the benefit of Joseph E. Hays.

Ordered, That the Committee on Claims prepare and bring in the same.

On motion of Mr. Chrisman, leave of absence, indefinitely, is granted Messrs. Baugh and Hurst.

According to order, the House took up for further consideration a bill to amend section 1, of chapter 53, of the Revised Statutes.

Ordered, That said bill be recommitted to a Committee of the Whole House, and that the same be made the special order of the day for Tuesday, January 11th, 1870, at 12 o'clock, M.

A message was received from the Governor by Mr. Samuel, Assistant Secretary of State, announcing, that the Governor had approved and signed an enrolled bill, which originated in this House, of the following title, viz.:

According to order, the House took up for further consideration a resolution heretofore offered by Mr. Hindman, entitled Resolution in regard to a recess:

Mr. Phister offered the following amendment to said resolution:

Strike out after enacting clause and insert: "That when the Legislature adjourns on the 24th of December, 1869, it will adjourn to meet on the 27th of December, 1869; and that when it adjourns on the 31st of December, 1869, it will adjourn to meet on the 3d day of January, 1870."

Mr. McKenzie offered the following as a substitute for the original resolution and the amendment thereto:

Resolved by the General Assembly of the Commonwealth of Kentucky, That when this Legislature adjourns on the 24th day of December, 1869, it will adjourn to meet on the 5th day of January, 1870.

Mr. Bowles then moved the previous question.

And the question being taken, "Shall the main question be now put?" it was decided in the affirmative.

The question was then taken on the adoption of the substitute offered by Mr. McKenzie, and it was decided in the affirmative.

The yeas and nays being required thereon by Messrs. Phister and Hindman, were as follows, viz.:
Those who voted in the affirmative, were—

Mr. Speaker (Bunch), N. C. Dille, James Kilgore,

D. M. Bowen, G. W. Little, R. K. Smith,

Mr. Phister then moved to amend the substitute so adopted by striking out the words “18th of December,” and inserting in lieu thereof the words “22d December,” and by striking out the words “5th of January,” and inserting “4th of January.”

Mr. McKenzie called for a division of the question.

The question was then taken on striking out the words proposed, and it was decided in the negative.

And so the amendment offered by Mr. Phister was rejected.

The question was then taken on the resolution as amended, and it was decided in the affirmative.

Mr. Cantril read and laid on the table the following preamble and joint resolutions, viz:

WHEREAS, It has been represented to the General Assembly of the Commonwealth of Kentucky, that the marshaling of the assets of the Kentucky, Globe, and Hope Insurance Companies, in liquidation, by the Louisville chancery court, under the acts of the Legislature of Kentucky repealing the charters of the aforesaid companies, has become oppressive to citizens of this Commonwealth, who reside in sections of this State remote from the sitting of the said Louisville chancery court; and whereas, the said Louisville chancery court has asserted, and is exercising jurisdiction over the persons and property of citizens in many sections of this Commonwealth, and enforcing, by the summary process of rule, the payment of assessments made by receivers of said insurance companies, appointed by said Louisville chancery court; and whereas, the assessments thus made, enforced, and collected, are largely absorbed in the payment of costs to officers of said Louisville chancery court, leaving but little, if anything, to be appropriated to the liquidation of the indebtedness of the aforesaid insurance companies, without a fresh resort to the harsh and oppressive practice of issuing rules on a second assessment for the liabilities of said insurance companies, to be again absorbed in the payment of large and enormous cost bills of officers of said Louisville chancery court, and not appropriated in payment of losses sustained by parties who have been insured in the aforesaid insurance companies; and whereas, the said Louisville chancery court asserts, and maintains its jurisdiction to coerce the payment of assessments, made as aforesaid, against citizens residing in any portion or section of the State of Kentucky, and which said jurisdiction is a question of grave doubt under the Constitution of the State of Kentucky; and whereas, the said Louisville chancery court, by the pleadings, interlocutory orders, reports, rules, and judgments had, taken, rendered, and made in marshaling the assets of the aforesaid insur-
ance companies, has made the record so voluminous that the expense of a transcript of the same would be largely in excess of any sum or sums of money involved on the proceedings had under any given rule to coerce payments of assessments made as aforesaid, and thus the right and privilege of appeal to the Court of Appeals of the State of Kentucky is, in effect and to all purposes, denied to citizens of this Commonwealth, whose rights of property have been passed upon, by the rendition of judgment, on rules issued as aforesaid, however aggrieved the citizen defendant may be thereby; and whereas, the said Louisville chancery court, in marshaling the assets of said insurance companies, under the acts repealing their several charters as aforesaid, is administering the affairs of corporations whose charters are repealed, by continuing policies of insurance therein, and not absolutely terminating their legal existence severally, as was contemplated by the Legislature of the State of Kentucky in passing the aforesaid repealing acts; therefore, be it

1. Resolved by the General Assembly of the Commonwealth of Kentucky, That the Speaker of the House of Representatives do appoint five members, and the Speaker of the Senate do appoint three members, who, when appointed, shall constitute an investigating committee, with power and authority to go to the city of Louisville, and examine all the original papers on file, and the orders and judgments contained in the records of the following causes in said Louisville chancery court, to-wit: "The Kentucky Insurance Company against C. W. Osborn and others, No. 21,797." "The Globe Insurance Company against S. Overton and others, No. 22,505;" and "James Stephens against The Hope Insurance Company, No. 22,531." And the said committee shall have power to send for persons and papers, and shall report by bill or otherwise the relief required, to the present session of this Legislature.

2. And be it further resolved, That all jurisdiction of the Louisville chancery court in and of the aforesaid causes, or any parts thereof, be, and the same is hereby, suspended for the period of ninety days from and after the passage of this resolution.

On motion of Mr. Cantrill, the rule of the House requiring joint resolutions to lie one day on the table being dispensed with,

Ordered, That said report be printed, and referred to the Committee on Charitable Institutions.

On motion of Mr. McKee,

Ordered, That a message be sent to the Senate, asking leave to withdraw therefrom the announcement of the passage by the House of Representatives of a bill of the following title, viz:

A bill for the benefit of Clementine L. Maguire.

Ordered, That Mr. McKee do bear said message.
And after a time Mr. McKee returned, and laid said bill on the Clerk's table.

Mr. McKee then moved to reconsider the vote by which said bill passed the House of Representatives.

Said motion was placed in the orders of the day.

The House then took up the motion, made on yesterday, to reconsider the vote by which the House of Representatives passed a bill from the Senate, entitled

An act changing the location of the State road leading from London, Laurel county, to Booneville, in Owsley county.

And the question being taken on said motion, it was decided in the affirmative.

The question was then again taken on the passage of said bill, and it was decided in the negative.

And so said bill was disagreed to.

Mr. Bowles presented the following report of the commissioners appointed under an act of the last General Assembly in regard to the navigation of the Big Sandy river, viz:

To the General Assembly of the Commonwealth of Kentucky:

By a resolution of the General Assembly, approved February 27th, 1869, the undersigned were appointed commissioners "to go upon the Big Sandy river, from its mouth to the forks of the Louisa Fork, above Pikeville, and examine the obstructions which may exist to the safe navigation of said river, and report the cost of removing the same."

In compliance with said resolution, we herewith respectfully submit the following report:

The Big Sandy river waters the counties of Boyd, Lawrence, Johnson, Floyd, and Pike. If obstructions were removed, it would be safely navigable at most seasons of the year for steamboats, coal barges, and rafts, a distance of one hundred and twenty miles; that is, from its mouth to the forks of the Louisa Fork, above Pikeville. It is now navigated by steamboats of a small class, at certain stages of the water, to Pikeville; but great danger is incurred for a distance of ninety miles, between the first forks and Pikeville.

The obstructions to navigation consist exclusively in shoals, rocks, and sunken trees or timber in the stream, and trees standing on the banks and projecting over the stream. These, we are satisfied, though destructive to permanent navigation at present, can be easily removed. The shoals between Louisa and the mouth are mere sand shoals, not numerous, and easy of removal. The shoals above Louisa, which cause annually the loss of thousands of dollars by the wreck of coal barges and lumber rafts, are numerous, and consist of stones of various size. The stone, however, is sandstone, and yields readily to blasting, being thereby removable at a moderate expense. These stones are by far the most serious obstruction to navigation.
The other obstructions, as we have said, consist of snags or sunken timber between the shoals, and growing trees bending over the banks. Steamers and crafts descending the stream are always in danger, and very often lost, by means of snags and sawyers—more especially the coal barges, which, when loaded, sink deep into the water. Coal barges of large size can only be run when there is a tide or rise of from eight to ten feet in the river at or below Pikeville. When the river is at this stage the channel, or rather the navigable surface of the channel, is much narrower, by reason of the trees bending over the banks. At some points on the river the trees extend over the channel to an extent that completely obstructs the passage of steamboats when the water is high. Their removal is absolutely necessary, and can be readily effected by a reasonable expenditure of money.

We have spared no pains to arrive at a correct estimate of the cost of removing the obstructions above referred to, having communicated with persons employed in similar enterprises; and, from all the information we can gain, coupled with our personal knowledge of the work necessary to be done, we believe the obstructions could be removed, and the river rendered safely navigable for second-class steamboats and ordinary coal barges, from its mouth to Pikeville, a distance of one hundred and twenty miles, for the sum of seventy-five thousand dollars.

We may be permitted to add, in conclusion, that we are confident this improvement, properly carried out, would be of incalculable benefit to this section of Kentucky, and add very greatly to the revenues of the State. The entire region watered by the Big Sandy, from Catlettsburg, at its mouth, to Pikeville and above that point, is immensely rich in the great leading minerals, iron, coal, and salt. The coal of the Sandy valley has no superior, and scarcely an equal in quality or quantity on the continent. The numerous veins, from four and a half to seven feet in thickness, are inexhaustible. (For the truth of these statements, reference is made to the State Geological Report, volume 1, page 205; volume 2, page 231; and volume 4, page 421.) Recent practical test has proven that this coal, known to manufacturers as "Pig-Iron Coal," is capable of making or smelting good iron in its crude state. Within five miles of the mouth of the river we have the largest iron furnace in America, yielding nine hundred tons of iron per month, and being in blast six days in the week. This furnace makes a superior quality of "hot blast iron," using the coal obtained from this country in its natural state, without coking. The coal, the iron, and the limestone used, are all taken from the same hill, a combination of mineral advantages which exists nowhere else in the United States, so far as we are informed.

By removing the obstructions to navigation in the Big Sandy river, its valley would yield iron enough to supply a large portion of the demands of the United States, and coal enough to supply the whole Ohio valley below Catlettsburg. We are three hundred and fifty miles nearer Cincinnati, Louisville, and New Orleans than the Pennsylvania coal-fields, that now feed the lower Ohio and Mississippi valleys. From the mouth of the Sandy to any point below, at cer-
tain reasons of the year, we have great advantages over Pittsburg as a shipping point, and by a timely appreciation of the merits of the subject we have presented, and a reasonable appropriation to a section of the State which has received little, if any, assistance from the Treasury of the State to develop its resources, the people of Kentucky would be released from the millions of tribute paid annually to Pennsylvania for coal and iron, thereby swelling the public treasure, and adding to the private prosperity of our fellow-citizens.

Begging the indulgence of your honorable body for this digression, we are,

Respectfully,

ALEX. L. MARTIN,
M. B. GOBLE,
ROBER EASTHAM,
O. C. BOWLES,
Commissioners.

Resolved, That the House Committee on Railroads be instructed to investigate the kind and character of car fastenings and couplings used on the various railroads of the State, and for this purpose shall have power to send for persons and papers, and may, at their discretion, visit the machine-shops of the various railroads at Louisville, for the more complete investigation of said subject, and that they report by bill or otherwise.

**Cave City, Barren County, Ky.,
Tuesday, January 18, 1870**

To the Legislature of the State of Kentucky:

We, the undersigned, citizens of Cave City and vicinity, respectfully represent to your honorable body our present unfortunate situation, and pray that some relief be granted to us.

On Monday morning, the 17th inst., before daybreak, a tornado swept over the country from the direction of Glasgow Junction, leveling the forests and habitations of man and beast to the ground, killing and wounding a large number of our citizens, and desolating the country within its track.

At Cave City and vicinity nearly one hundred (100) families (white and black) are homeless and ruined, and are now receiving the hospitalities of their more fortunate neighbors. If the people of Kentucky do not render us immediate assistance, terrible distress will follow. Many of our people are without homes, clothing, food, or money, the terrible tornado having carried away and destroyed everything on the surface of the earth within its course.

We humbly ask that your honorable body take such steps as will render us immediate assistance, and enable our unfortunate citizens to be provided with shelter and food.
CAVE CITY, January 20, 1870.

Messrs. Leslie, Lewis, Downing, and Adair:

Gentlemen: To know anything of our troubles and distresses, you will have to come and see. It is impossible to tell it or write it on paper. Do all you can for us.

From your friends,

H. P. CURD,
A. McCOY,
W. T. HOBLITZELL.

GLASGOW JUNCTION, KY., January 17, 1870.

General Joseph H. Lewis:

Dear Sir: I left home this morning to come to this place on business, and when I reached the Dripping Springs road I discovered the fearful effects of a tornado, which swept fearfully over our county last night about 4 o'clock. General, I have seen the fearful effects of tornadoes in several States, but nothing to compare with this. Many persons were killed. All houses, fences, and trees were drifted as the leaves of the forest. I can form no estimate of the extent of the damage, but hundreds are ruined. I will not undertake to give particulars. It will be several days before the loss of life and any estimate of damage can be ascertained. Will not the great State of Kentucky promptly appropriate $20,000 or $25,000 to partially relieve the ruin and distress in this great old county of Barren? I and my neighbors are not injured. It must have been three miles to the west of me, and along near Walnut Hill, Prewit's Knob, and Cave City.

Yours truly,

W. H. EDMUNDS.

P. S. If something is not done to relieve the sufferers, many, a great many, clever people will be ruined; and it would not surprise me if it would not result in the present suspension of the branch railroad.

Yours, &c.,

W. H. EDMUNDS.
Major P. H. Leslie and General Lewis:

We are requested by many of our citizens to communicate to you that a great calamity has befallen our county. On Sunday night the western and northern parts of the county were visited by a most terrific tornado. Twelve persons are known to have perished, and as many as one hundred are seriously wounded. In addition, perhaps not less than four hundred are homeless; and the destruction of property is very great—cannot be estimated. It is thought and hoped that you may be able to obtain some aid from the State, if you will call the attention of your respective Houses to this distressing calamity. Most assuredly, if the extent of destruction to life and property could be fairly portrayed, the Legislature would do all that money could do to aid the sufferers. We have raised and forwarded about $500, and much clothing. Every vestige of property owned by many persons is swept from the face of the earth, and they are left destitute indeed. About forty houses are totally destroyed in Cave City.

Hoping you may be able to obtain some relief, we remain your friends, respectfully,

J. P. NUCKOLS,
C. L. HILL,
N. H. JONES,
D. M. ASHBY.

Cave City, Ky., January 20, 1870.

Lieut. Governor Leslie and General J. H. Lewis:

Gents and Friends: I write to you from the midst of the most woeful distress that has ever been known in our country. We are in the midst of the wounded, the suffering, the dead, and dying. You have seen the accounts of our wreck and ruin in the papers. They do not and can not exaggerate our condition. Many of our friends have come to see us, and all are bathed in tears, and are so horrified that they have no words of consolation. I am, myself, in the midst of the ruin, and in the middle of the storm—King's track. I could not sell all I have left, out of a property worth, at a low estimate, $7,000, for fifty dollars. We are all wounded more or less. My business books, papers, notes, accounts, are all lost. There are many in a worse condition than myself—for worse—having lost all, and, besides, are widowed and orphaned, and have no relatives or friends able to help them. But it is unnecessary for me to multiply words. I can give you no idea of the wo and want, the misery and suffering. I write with an arm and head both badly wounded, and trace every letter with great difficulty. If it can be done, help us. Get us an appropriation. Lunatics, feeble-minded, nor any other class, are not more objects of public charity. What you do, "do quickly." Send to our committee.

§ 8. It shall be the duty of the president of said company to render, under oath, a true and full statement of the receipts and disbursements of said company, to the Auditor of Public Accounts, on or before the 10th day of January of each year; and all the receipts of said company for tolls, which shall remain after paying said bridge-keeper and necessary repairs and costs of carrying on the business of said company, shall be paid by said president into the Treasury of the State, on or before the 10th day of January of each year, and the Treasurer shall give a receipt therefor, which shall be recorded in the books of said company; and when said receipts to the State shall amount to five thousand dollars, then, from and after that time, the net income of the company shall be equally divided, and paid to the stockholders in said company according to their shares of stock, the State being one stockholder to the amount aforesaid of eight thousand dollars, and her dividends shall be paid into the treasury as aforesaid.

And so the main question was ordered.

The question was then taken on the adoption of the second amendment offered by Mr. Hindman, and it was decided in the negative.

Ordered, That said bill be engrossed and read a third time.

Said bill being engrossed, was read a third time as follows, viz:

WHEREAS, The growing importance and value of the mineral resources of this Commonwealth make it the duty of legislation to devise measures and means for its full development, and that portion of our great State watered by the Big Sandy river, from its mouth to its mountain sources, is well known to abound in the leading minerals—iron, coal, and salt; and whereas, obstructions, such as loose stone, snags, sunken timber, sand drifts, and leaning trees, now render the navigation of said river hazardous and dangerous, by reason of which heavy losses attend the efforts of a large portion of the citizens of this Commonwealth in their attempts to bring to market these valuable products; and believing that a judicious and proper expenditure in removing the obstructions will greatly improve the navigation of said river, and that it can thereby be made safe and reliable for a large portion of the year for steamboats, coal barges, and rafts, for a distance of a hundred and twenty miles above its mouth; therefore,

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That the sum of seventy-five thousand dollars is hereby appropriated, to be paid out of any money in the Public Treasury not otherwise appropriated, to be expended as hereinafter provided, in the removal of obstructions, and in the improvement of the navigation of the Big Sandy river from its mouth, at Catlettsburg, to its forks at Louisa, and from its forks at Louisa, on the west fork, to its forks above Pikeville, and on the Tug fork, to the mouth of Wolf creek; the expenditure of which shall be superintended by commissioners to be named; and on conditions hereinafter set forth.

§ 2. That James A. Barrett, Nelson Hamilton, William J. May, Jay H. Northup, and George N. Brown, are hereby appointed commissioners, any three of whom shall constitute a board to do business, whose duty it shall be to employ a competent water-line engineer, and have proper surveys made of the river, from its mouth to the points
named as aforesaid, with a view to ascertain the best method of permanently improving said river, and with a view of extending said improvements along the whole line of the river between the points above named, and the probable cost of removing the obstructions; and upon estimates and specifications furnished by said engineer, they are to let out the work by contract to the lowest responsible bidders. The party or parties contracting shall be required to give bond and security that the work shall be done in proper manner, and in the time required by the contract; but before the letting of contracts, it shall be the duty of the commissioners to give at least fifteen days' notice of the same, by posting notices upon the court-house doors of the counties wherein said sections of work to be let may be located, and by causing the same to be inserted in the Big Sandy Herald, or some other newspaper in the ninth congressional district, for at least two weekly issues immediately before said contracts are let; and they shall receive sealed proposals for said work, reserving to themselves the right to reject any bid which may to them appear unreasonable.

§ 3. That all contracts letting out the work under this appropriation shall be executed in duplicate writings, and signed by at least three of the commissioners and the party or parties so contracting; and it must be expressly stipulated that all work, when done, must be approved by the said commissioners in writing, and paid for, when thus approved, by duplicate vouchers drawn on the Auditor of Public Accounts, executed by three or more of the commissioners; which vouchers must give the name of the contractor, and indicate the section and kind of work performed for which it is given in payment. It shall be the duty of the commissioners to forward the original of said voucher to the Auditor of Public Accounts, who shall file the same in his office; and when the duplicate is presented to the said Auditor of Public Accounts, he shall draw his warrant on the Treasury in favor of the holder of said duplicate voucher for the amount of the same, and the Treasurer shall pay the same out of the fund appropriated by the first section of this act.

§ 4. It shall be the duty of the commissioners to visit the localities as the work is progressing, and especially to be present at the letting and closing of contracts; and in no case are they to pay for any portion of the work in advance. Their own per diem and expenses shall be payable quarterly, and other necessary current expenses, including pay of civil engineer and attendants, shall be payable monthly, all of which payments shall be made by duplicate vouchers, drawn upon the Auditor of Public Accounts, as hereinbefore been specified in case of contractors; which vouchers must designate each and every expense incurred, and on what account.

§ 5. The pay of said commissioners shall be three dollars per day, and all necessary expenses while on duty; and they are required to report to the next session of the General Assembly the progress of the work.

§ 6. The said commissioners shall have power to negotiate for the purchase of any mill-dams on said river that have been built by virtue of any act of the Legislature, or that have been legalized by the Legislature after having been built; and in case said commission-
ers cannot agree with the owners of said dams, they may file their petition in the county court of the county in which said dams are located; and the same proceedings shall be had thereon to condemn said dams as are now had to condemn the right of way over land under the laws of this State; and said commissioners shall, upon final hearing of said case, pay the owners of said dams out of the funds hereby appropriated, according to the final judgment of the court.

§ 7. That nothing in this act shall be so construed as to require the commissioners to employ a water-line engineer, unless they shall regard the same as necessary to carry out the provisions of this act.

§ 8. That before the said commissioners shall enter upon the discharge of their duties, they shall each take an oath to honestly, faithfully, and impartially discharge the duties imposed upon them by the provisions of this act.

§ 9. This act shall take effect from its passage.

Joint Resolution ratifying the proposed Fifteenth Article of Amendment to the Constitution of the United States, relative to the right of citizens to vote.

WHEREAS, The Fortieth Congress of the United States has proposed to the Legislatures of the several States the following article of amendment to the Federal Constitution, namely:

"ARTICLE XV.

"SECTION 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States, or by any State, on account of race, color, or previous condition of servitude.

SAMUEL MERRILL.

STATE OF IOWA, EXECUTIVE OFFICE.

I, SAMUEL MERRILL, Governor of the State of Iowa, and keeper of the Great Seal thereof, do hereby certify that the foregoing is a true copy of a Joint Resolution therein named, passed by the General Assembly of the State of Iowa on the third day of February, A. D. 1870.

In testimony whereof, I have hereunto subscribed my name, and caused to be affixed the Great Seal of the State of Iowa, at Des Moines, this fourth day of February, A. D. 1870.

STATE OF KENTUCKY, EXECUTIVE DEPARTMENT, 
FRANKFORT, KY., February 8, 1870.

Gentlemen of the Senate and House of Representatives:

I herewith transmit a special communication from the Managers of the Eastern Lunatic Asylum, through their Chairman, Hon. M. C. Johnson, which I have this moment received, and to which I invite your consideration.

J. W. STEVENSON.
LEXINGTON, KY., February 7, 1870.

To His Excellency John W. Stevenson, Governor of Kentucky:

The Managers of the Eastern Lunatic Asylum have directed me, as their Chairman, to present to the General Assembly of Kentucky their recommendation of an allowance of two thousand dollars to Dr. W. S. Chipley, late Superintendent, for his services in planning and superintending the erection of the new buildings, under the direction of the Legislature.

The buildings were erected at a cost of about one hundred and forty-two thousand dollars, being some eight thousand dollars less than their estimated cost—leaving that amount of the appropriation unexpended, which has been returned to the Treasury. Dr. Chipley had a leading part in making all the contracts for said buildings, vigilantly supervised the fulfillment of those contracts, and made the settlements with the contractors under the general control of the Board. The Board have no hesitation in saying that his services in these respects were valuable to the State, in securing good materials and workmanship, and in saving much to the State in expenditure. These services were additional to his general duties as Superintendent, for which his salary was only a very moderate compensation.

In view of these facts, the Board have made their recommendation of an allowance.

Will your Excellency communicate this recommendation to the General Assembly?

Respectfully,

Your obedient servant,
M. C. JOHNSON, Chairman M. E. L. A.

MONDAY, FEBRUARY 14, 1870.

The Speaker laid before the House a communication, which was taken up and read as follows, viz:

To the Honorable the Speaker of the House of Representatives of the State of Kentucky:

At a meeting of the members of the Louisville bar, held on the 7th February, 1870, in the Jefferson common pleas court-room, to consider the bill now pending before the Legislature relating to the office of commissioner and receiver of the Louisville chancery court, a memorial and resolutions were adopted, and the undersigned, as Chairman, was directed to send to each branch of the Legislature a copy of those proceedings.

Allow me, therefore, with great respect to you and that branch of the Legislature over which you have the honor to preside, to present to you a copy of those proceedings, with the request that you will lay them before the House of Representatives.

I have the honor to be, sir, very respectfully,

Your obedient servant,

HAMILTON POPE, Chairman.

Meeting of the Louisville Bar in reference to the Office of Commissioner and Receiver of the Louisville Chancery Court.

Pursuant to the call published in the morning papers, a full meeting of the Louisville bar was held in the common pleas court-room at three o'clock yesterday. On motion of Junius Caldwell, Esq., the meeting unanimously elected Hon. Hamilton Pope Chairman, and Pinckney F. Green was chosen Secretary.

The Chairman succinctly stated the object of the meeting.

Gov. Thomas E. Bramlette, chairman of a committee appointed at a previous preliminary meeting of the bar, reported the following memorial to the Kentucky Legislature:
To the Honorable General Assembly of the Commonwealth of Kentucky:

Understanding that certain legislation would be attempted, during your present session, materially changing the present law concerning the office of commissioner and receiver of the Louisville chancery court, a very large majority of the bar of Louisville, and nearly all the regular practitioners in said court, signed a protest against any legislation that would interfere with the term of Mr. Smith, the present incumbent. There was no necessity for this movement, and it was not made with the concurrence of, or upon consultation with, the bar, and we had hoped that this protest would prove sufficient; but we learn with regret that a persistent effort is still being made to procure some legislation by which his office may be taken from him, or to divide the office of commissioner from that of receiver, and that the Judiciary Committee of the House have in contemplation the introduction of a bill of some such purport. We respectfully represent to your honorable body that this is a subject in which we are most deeply interested, not only for litigants, but for ourselves; and we think we know better our wants and necessities, and the wants and necessities of our clients, than strangers can know them. We, therefore, respectfully urge our right to be heard, and do most respectfully but earnestly protest against any legislation upon this subject that will interfere with the office as it stands, or with its conduct and management. It is thoroughly understood by the bar, is managed to our entire satisfaction, and the system is as near a perfect one as can be devised. Experience has taught that the two offices (commissioner and receiver) should be combined. The general law throughout the State combines them, and any law disconnecting them would be unsatisfactory, and would tend to produce confusion and delay in the business of the court. It is unnecessary for us to explain the details of these two offices (commissioner and receiver) as now organized. Suffice it to say, that they are well understood by both the court and the bar. They are satisfactory to the bar, and do not retard the business of the court; and we oppose any change in or separation of them.

In so far as this controversy may have assumed a personal character, we would be understood as taking no part whatever. This remonstrance is presented in no spirit of opposition to the honorable chancellor, nor as partisans of the commissioner.

We respectfully but earnestly protest against the proposed legislation, only because we know that it would prove highly injurious to ourselves and our clients.

Gov. Bramlette then read the following letter:

"To the Louisville Bar:

"Gentlemen: Learning that a call has been made for a meeting of the bar at three o'clock this P. M., which I presume to be concerning the change of the law now proposed to be enacted by the Kentucky Legislature in reference to my office, let me say to you that, notwithstanding my personal interest may be involved in the proposed change, I beg of you not to let this interfere with your action. You elected me. I am your servant, and hold myself subject to your will and action, and whatever you may do will be satisfactory to me. If you think that my continuance in the office will interfere with the dispatchful conduct and management of the business of the court, I beg you will so say, and let me retire. Whatever you may indicate by your action shall be my pleasure.

"I am, respectfully, your obedient servant,

"February 7, 1870.

"THOS. P. SMITH."

On motion, the memorial was adopted with but one dissenting voice.

On motion of Hon. P. B. Muir, it was

"Resolved, That the members of the bar sign the memorial."

Mr. W. G. Anderson moved the following resolution, viz:

"Resolved, That the bar adopt the memorial offered by the committee as an expression of their sentiments; that our Representatives..."
from the city of Louisville and the county of Jefferson be requested to co-operate with the bar, and sustain the views and opinions expressed in said memorial."

Mr. J. L. Clemmons offered an amendment, that the memorial be taken as an expression of the opinion of those signing it only. The amendment was rejected.

After a full discussion by Hon. W. F. Bullock, Hon. Thos. E. Bramlette, Hon. P. B. Muir, Louis N. Dembitz, William Mix, and Robert F. Baird, Esqs., in favor of Mr. Anderson's resolution, and J. L. Clemmons, Peter C. Fox, and Col. Mark Mundy, in opposition thereto, the resolution was adopted.

To the General Assembly of the Commonwealth of Kentucky:

Your Committee, appointed by joint resolution to visit the city of Louisville, for the purpose of examining the system of inspecting and selling tobacco under the present law, and suggesting such changes or modifications thereof as, in their judgment, would redound to the general good, respectfully report:

That, in accordance with the requirements of said resolution, they visited the city of Louisville, examined a number of witnesses, warehousemen, buyers, and planters, and upon the proof so acquired have drafted a bill, which they offer herewith as a substitute for the present law. The prominent features of the present law have been retained. The changes made consist mainly in the manner of appointing the inspectors and weighers; a reduction of the fees paid to these officials of four cents on each hogshead of tobacco inspected
and weighed; a provision that such officials shall receive pay only for labor actually performed; the weight of sample furnished to be not more than five pounds, instead of ten pounds, as now fixed by law; and others, which will be seen by the bill offered.

The proof taken is herewith appended, and made part of this report.

They respectfully recommend the adoption of the said bill, believing that the public interest will be subserved thereby.

Testimony of Witnesses examined by Tobacco Inspection Committee.

WILLARD HOTEL, LOUISVILLE, KY, JANUARY 20, 1870.

The Joint Committee of the two Houses of the General Assembly on Tobacco Inspection, &c., met at the time and place above indicated.

Present—Hon. A. K. Bradley, Chairman, and Hon. Wm. McK. Fox, of the Senate; and Representatives Skiles, Hindman, Wilson, Griffith, and Glass.

John R. Strange was appointed Clerk.

The object of the meeting being explained, the Committee proceeded to hear the statements of witnesses.

W. A. Ronald, Esq., being duly sworn, stated in substance as follows:

"I am the proprietor of a Tobacco Warehouse in the city of Louisville. I am, perhaps, the oldest warehouseman in this city. I am of opinion that the business of inspecting tobacco could be done by a less number of inspectors than four; I think that three would be amply sufficient. The present inspection system is necessary to protect both buyer and seller.

"Weighers are necessary to see that tobacco is correctly weighed. I could afford to have tobacco weighed at my warehouse at ten cents (10c.) per hogshead. Under the existing law it now costs sixty cents (60c.) per hogshead for every hogshead of tobacco sold in this city—that is, ten cents to each of the six weighers.

"At least two thirds of the tobacco brought here to be sold is weighed by the owner before it is sent here, and such weights rarely ever agree with the warehouse weights—varying from sixty to seventy-five pounds, and in a few instances as much as two hundred pounds."
"At the present time, when there is not much tobacco in the market, the weighers are engaged about one hour in the morning, and about the same length of time in the evening.

"Weighers, under the existing system, can be easily dispensed with; but inspectors are necessary, because there must be some disinterested person to inspect the tobacco, in order to prevent discontent and conflicts between buyers, sellers, and warehousemen.

"It was at the instance of the tobacco planters that the present laws concerning tobacco inspection and weighing in this city were adopted, and from that class of persons I have never heard any complaint.

"There were thirty-nine thousand and some three or four hundred hogsheads of tobacco sold in this city last year—that is, from November, 1868, to November, 1869.

"It is necessary to have six weighers. There must be one for each warehouse. The cost, from the time tobacco reaches the depot of the Louisville and Nashville Railroad in this city until it is sold, is five dollars per hogshead, and one per cent. charged to the seller on the net amount. Of this amount, the drayage is fifty cents, which is paid by the seller. The other charges are

To the four Inspectors, 10 cents each...
To the six Weighers, 10 cents each...
To the Warehouseman for selling...

Making the sum of...

Which is equally divided between the buyer and the seller—making the cost of selling two dollars and twenty-five cents each to the seller and buyer. There are no inspection or weighers' fees charged on packages of tobacco in less bulk than 500 pounds.

"I was a tobacco warehouseman before the adoption of the present law, and the sales were about 3,000 hogsheads per annum. It is my opinion that the present system has had a good deal to do in increasing the quantity of tobacco sold in this market.

"We sold here last year, about four million dollars' worth of tobacco. The cost of selling that tobacco was about two hundred thousand dollars.

"In the present system the interest of the buyer and seller do not conflict. Buyers sometimes become dissatisfied, and complain that the tobacco was not fairly sampled. But this is rather the result of selling by sample, than of the present system of selling.

"A good, competent inspector, can be employed for $2,000 per annum—perhaps for $1,500.

"The inspectors appointed by the Governor work only two or three hours each day. Eight cents per hogshead would be sufficient pay to inspectors, taking the fluctuations of the market from year to year into consideration.

"The present law is the most beneficial system that has ever been in existence, and I am satisfied that it could be improved.

"It is my opinion that the costs of inspection and weighing should not be more than half what it now is."
Mr. James Clark was then duly sworn. Being questioned, answered as follows:

"I think the present system costs too much. If the costs of selling were reduced, it would mutually benefit both buyer and seller. Three inspectors would be sufficient. Six weighers are necessary. The present law is better than the old system of selling on commission. I think, if there is any advantage, the seller has it, under the present system. Two inspectors would not be sufficient; it would require three. Competent inspectors from (in) the city can be procured at one half the present cost.

"The larger quantity of tobacco sold here goes to foreign countries—to Germany, France, Italy, and England.

"I think the amount of the charges and cost of selling tobacco would be reduced if the present law was repealed and the old system of selling on commission again resorted to.

"There is $4 50 charges on each hogshead of tobacco sold, which is divided between buyer and seller.

"Andrew Graham has been engaged in the business some 25 years. Outsiders say he is the largest tobacco buyer in this market.

"The average cost of selling tobacco is from $5 75 to $6 00 per hogshead.

The tax under the present law is heavy on both buyer and seller—higher than it used to be when tobacco was sold on commission. The business could be carried on at 55 cents less than the present cost, by reducing the number and salaries of inspectors.

"The present system is a good one. Three inspectors would be sufficient. Six weighers are necessary. The present law is better than the old commission system.

"I think the seller has the advantage under the operations of the present law.

"If weighers and inspectors would attend to their business, the law would be carried out more fully, and would be more beneficial to both planter and buyer.

"I know but little of the tobacco market in Cincinnati.

"Perhaps the present system is more satisfactory to the farmer than the old; but as a buyer, I would be contented with the old system.

"The charge to the shipper in New York is about $2 50 per hogshead; but one can make arrangements with his commission merchant by which less rates can be obtained. They also charge about 2½ per cent. commissions.

"The business can be done in this city with reduced fees, and by the present number of warehouses."

Mr. Clark re-examined:—"I have bought tobacco in Covington and Cincinnati. Those markets are not controlled by any State law or special legislation."

Mr. W. H. Brierly was then duly sworn and examined:

"I have bought tobacco at Clarksville, Tennessee, and in this city; have been in the business for the last fifteen years, and exclusively for about twelve years past."
"The charges, or costs of selling in Clarksville, are three dollars and fifty cents to the seller and one dollar to the buyer. The tobacco inspectors are appointed by the justices of the peace for the county.

"The cost of inspection, weighing, and selling tobacco in this city should be reduced.

"The present system is a good one, and can be improved by reducing the cost of inspection and weighing."

On motion, the Committee adjourned until to-morrow morning, 11 o'clock.

Mr. Lindsey was then examined, and stated, on oath—

"I have been in the tobacco business in this city ever since 1839, as a commission merchant or tobacco broker.

"I think the present law is defective. Inspectors and weighers are unnecessary to the trade. It would be better if the warehousemen were weighers, and held responsible for the weights for the space of thirty to sixty days; and they should also be held responsible for the samples or inspection. Under the present law, it is almost impossible to fix responsibility on anybody for sampling. Samples are usually taken from about the same place in each hogshead, and about three samples are usually taken from a hogshead. There should be at least four breaks in the hogshead, and those breaks should not be made in any particular place. Two inspectors would be sufficient to do the business.

"There should be one weigher to each warehouse. The tying up and sealing of tobacco is unnecessary.

"Inspecting and weighing can be done at from three to five cents per hogshead.

"The present system bears heavily on both the buyer and seller.

"Weighers and inspectors often go off and stay for some time, and in their absence the warehouses have the weighing and inspecting done. They are engaged from two to three hours each day.

"The cost to a farmer for selling an average crop of tobacco is about $3.25. These fees should be reduced.

"I have never purchased tobacco anywhere except in this market. I know but little of other markets.

"The present system is not as satisfactory to planters as the old system.

"I have not purchased tobacco in any other market.

"The present system is not as satisfactory to planters as the old system for two reasons: 1. The charges are higher; and, indeed, too high; 2. Tobacco being weighed a second time, there is a gain of from seventy-five cents to one dollar, caused by recoopering. This gain is paid to the warehousemen, and farmers and sellers think that they ought to receive as much for their tobacco as the warehousemen get.

"Under the old commission system, the charges would be less than they now are under the operations of existing laws."

Mr. McGuire was sworn, and stated:

"I am buying tobacco in this market. There are a greater number of inspectors than are necessary; two or three would be sufficient."
"I would prefer that warehousemen should be the weighers, and responsible for the weights to both buyers and sellers."

"The present system of inspection should be continued, and the fees of inspectors reduced."

"It would be satisfactory to all parties if a committee, consisting of three from the Tobacco Board of Trade, and three members of the Legislature, would jointly elect inspectors."

"There is a deduction of ten pounds made by the warehousemen from each hogshead of tobacco before it is sold: instance, a hogshead weighing 1,510 pounds is sold as weighing 1,500 pounds."

"It is fair and equitable for the seller to receive just what the buyer pays for."

Mr. Spratt was then examined, and stated:

"I have been a tobacco warehouseman for thirteen years. I am perfectly satisfied with the present system. I am not a low-priced man. Men have spoken before you of getting inspectors for three cents per hogshead. I would not trust a three-cent man. One should not come in my warehouse."

"The weighers and inspectors have generally been attentive. Some of the weighers, however, have been remiss."

"I do not think warehousemen should be weighers. They could easily deduct fifty pounds or more from each hogshead, and the poor farmers would rarely ever detect the swindle."

"I know but little of the Covington and Paducah markets. It costs the planter about twice as much in the New York, New Orleans, and St. Louis markets, to sell their tobacco as it does in this."

"Planters should be paid by the first weight. They prefer it, because tobacco is weighed first in the morning, and they get their money and leave that evening, without incurring the expense of stopping at a hotel for 12 or 24 hours."

"The average cost of selling a hogshead of tobacco, after it reaches the warehouse, is four dollars and twenty-five cents."

"The present 1 per cent. commission is necessary, and it would be better to increase it to 2½ per cent.; at least, if left to me, I would do it."

"I have heard but little or no complaint among planters. My opinion is, that complaints do not come from the planters—they come from a certain class of sore-heads."

"There should be four inspectors. They should receive at least 8 cents per hogshead."

"The present system was originated by the buyers and warehousemen."

Mr. Clark recalled, stated:

"In Cincinnati the charge is two dollars per hogshead to the buyer and the same to the seller, and 1½ per cent. for commission and "war tax,' and buyers are required to remove their tobacco immediately, or pay 50 cents per hogshead per month storage. I don't know what the charges are in Henderson, Ky."

W. R. Usrey, Esq., being sworn, stated:

"I have been buying tobacco here for thirty years."
"I think the present system a good one.
"I don't think the present fees are too high.
"In inspecting tobacco, the hoghead should be broken in four instead of three places.
"It costs more to sell tobacco in New York and New Orleans than here.
"I don't think the warehouses charge too much.
"In order to meet competition elsewhere, and bring the tobacco to Louisville, the present warehouse charges are necessary."

Mr. John Page, examined, stated:
"I think three inspectors necessary.
"There must be a weigher to each warehouse.
"I am principal proprietor of the Farmers' warehouse. I cannot afford to do the warehouse business at less than the present fees."

Mr. Mitchell:
"I am a tobacco warehouseman.
"There must be at least three inspectors and six weighers.
"Weighers can be procured at about seventy-five to one hundred dollars per month, who will give good bond. It is better to have a disinterested weigher at each warehouse.
"Weighers are often absent, and warehousemen have to have the weighing done.
"The present system is the best I know of—much better than in either the New York or New Orleans markets—in both of which I have sold tobacco.
"For inspectors, none but men experienced in tobacco ought to be selected, and they should receive as much compensation as the law now allows."

Mr. Glover, a tobacco warehouseman, heard the statements of Mr. Mitchell, and said that Mr. Mitchell had fully expressed his views on the subject.

The foregoing was all the testimony before the Committee.

On motion, the meeting then adjourned, subject to be called together again at Frankfort by the Chairman.

and Edward A. Ferguson, of the city of Cincinnati, in the State of
Ohio, were appointed, under and by virtue of an act of the General
Assembly of the said State of Ohio, passed on the fourth day of
May, in the year eighteen hundred and sixty-nine, a Board of Trust-
ees, with authority to borrow a fund not to exceed ten millions of
dollars, and to issue bonds therefor in the name of said city of Cincin-
nati, under the corporate seal thereof; of which said fund the said
Miles Greenwood, Richard M. Bishop, William Hooper, Philip Hei-
delbach, and Edward A. Ferguson, and their successors, are to be
trustees, with power to expend the same in procuring the right to
construct and in constructing a single or double track railway, with
all the usual appendages, including a line of telegraph, between the
said city of Cincinnati and the city of Chattanooga, in the State of
Tennessee, to be called and known as the Cincinnati Southern Rail-
way; and with power and capacity, for the purposes aforesaid, to
make contracts, appoint, employ, and pay officers and agents, and to
acquire, hold, and possess all the necessary real and personal prop-
erty and franchises, either in the said State of Ohio or in any other State into which the said line of railway may extend, and with other powers in said act expressed; and whereas, the said line of railway cannot be constructed, nor the powers of the said Board of Trustees be exercised, within the Commonwealth of Kentucky, without the consent of the General Assembly thereof; therefore,

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That the said Board of Trustees, namely: Miles Greenwood, Richard M. Bishop, William Hooper, Philip Heidelbach, and Edward A. Ferguson, and their successors, by the name of the Trustees of the Cincinnati Southern Railway, be, and they are hereby, authorized to extend, construct, and maintain, within the Commonwealth of Kentucky, the said line of railway, with a single or double track, with all the usual appendages, including a line of telegraph, and to exercise the powers vested in them under and by virtue of said act of the General Assembly of the State of Ohio, subject to the provisions and restrictions in this act provided: Provided, That the Governor of this Commonwealth shall, every two years, appoint five citizens of Kentucky, to be confirmed by the Senate, who shall act as directors on the part of the State of Kentucky; and each of them shall have a vote equal to each one of said trustees in all matters pertaining to said line of railway; and before the right to use and operate any portion of said line of railway shall be rented or leased to any person or company, the terms and conditions of leasing and operating it, and the person or company to whom it is proposed to be leased, must be approved by a majority of said directors so appointed. And after the final completion of the whole line of said railway, the terms and conditions, which shall be fixed and provided by the council of Cincinnati, of the lease of the right to use and operate said line of railway, and the person or company to whom it is proposed to be granted, must be approved by a majority of said directors so appointed, before said lease shall be made.

§ 2. For the purpose of examining and surveying routes for the said line of railway, the said Trustees may, subject to liability for the actual damage done, enter upon any lands in the counties of Josh Bell, Knox, Whitley, Laurel, Clay, Owsley, Jackson, Estill, Madison, Clark, Bourbon, Harrison, Pendleton, Campbell, Kenton, Boone, Gallatin, Grant, Owen, Scott, Franklin, Anderson, Woodford, Fayette, Jessamine, Mercer, Garrard, Boyle, Lincoln, Rockcastle, Casey, Pulaski, Russell, Wayne, Clinton, Cumberland, Monroe, Metcalfe, and Adair, and select from the routes so examined and surveyed a route for the same, commencing at a point to be selected by said trustees where the said line of railway will cross the southern boundary of this Commonwealth, and running through either of said counties to the northern boundary line thereof, and across the Ohio river, so as to connect with the same line of railway in the State of Ohio. A copy of the survey and location of such route, and any alteration therein, shall be filed in the county court clerk's office of the counties through which the said railway runs, within one year after such location or alteration.
§ 3. For the purpose of constructing and maintaining said line of railway and its appendages, the said trustees may occupy or use any turnpike or plank road, street, or other public way or ground, or any part thereof, upon such terms and conditions as may be agreed upon between said trustees and the municipal or other corporations, persons, or public authorities owning or having charge thereof; and in case it shall be necessary to provide a new road, street, or other ground, in place of that so used or occupied, to acquire the necessary land, and cause the necessary improvement to be made thereon.

§ 4. The said trustees may acquire, by purchase or gift, so much land as may be necessary to construct, complete, and operate their railway and its appendages; and it shall be lawful for them to apply to any circuit or county court of any county through which it may be proposed said railway may pass, and for said court to appoint a competent engineer and two disinterested commissioners, to examine the proposed route of said railway, and to take from the proprietors of land, over which it is to pass, a grant of the right of way, of such width as may be desired: Provided, The same shall not exceed one hundred feet, and which may include the right to take stone, timber, earth, or gravel, for the construction of their road. And they, jointly and severally, shall have the power and authority to take and certify, under their hands and seals, the acknowledgment of such grants in fee or right of way, and the separate acknowledgment of married women, that the clerks of the several county courts have; and in the presentation of the grant and acknowledgment to the clerk of the county court where the land lies, it shall be the duty of the clerk to record the same as other deeds; and they shall be effectual against all persons according to their tenor: Provided, That when the parties are infants, or absent, or refuse to make the grant, they shall hear any proof that may be adduced, and upon their own view proceed to value any land required for the right of way, or lands required for turn-outs or depot stations for said road; and also of earth, stone, gravel, or timber for the construction of said road, and report the value they have fixed, together with the evidence adduced, to the court appointing them, with a map or profile of the required ground; and said report shall be filed with the clerk of such court, and a summons issued to the proprietors to show cause against the confirmation of the report; but if the proprietor shall be out of the Commonwealth, the summons may be executed upon a known agent, if there be one in the county; and if there be no known agent in the county, then the court may order the appearance of the party at a named day, and appoint the clerk to give the proprietor notice by letter; and in case of there being infant proprietors, the court shall appoint guardians ad litem for them, and cause the guardian to appear and act for them; and in case an absent defendant does not appear, the court shall appoint an attorney of the court to act for them. It shall be lawful for the trustees, or any proprietor, or both, to traverse the report, and for the court to have the traverse tried in open court, by a competent jury, on which trial the report and evidence returned as aforesaid shall be heard, together with such other
proof as either party may produce. A new trial to the finding of
the jury may be granted, as in other cases. The report shall stand
for hearing as to any proprietor, when the process has been executed
ten days, or after appearance of a proprietor, on a day fixed for his
appearance; and the court shall have jurisdiction to confirm the
report if no traverse is filed; and in case a traverse is filed, to have
the same tried by a jury, and to give judgment upon the report or
finding of the jury, and order the payment of the money, and the
execution of the grant in accordance with the report, and to have
the grant executed by a commissioner appointed by the court, and
order them to be recorded in the county court clerk's office of the
county; and either party may appeal from the judgment of the
court. That the commissioners or jury, in estimating the value of
the lands proposed to be taken, shall not be confined to the actual
value, but may take into consideration any consequential damage
that may result to the adjoining land of the proprietors of the lands
taken, and also the advantages and disadvantages the proposed road
will be to such lands. That upon the affidavit of the engineer of
said trustees, made and filed before the county judge of any county
through which the proposed road may pass, that at any point more
than one hundred feet is necessary properly to construct and operate
said road, said trustees may acquire the right to so much land as
may be necessary for that purpose, in the manner provided in the
preceding section.
§ 5. If, during the construction, or after the completion of said line
of railway, it shall be found necessary by said trustees to change the
location or grade, or to substitute other works or conveniences for
those originally designed or constructed, or to provide additional side
tracks or other appendages for the proper management and opera
tion of said railway, the said trustees may make such changes, and
provide such additional appendages, not departing from the general
route originally selected by them; and for the purpose aforesaid
may acquire or enter upon, take, and appropriate such lands or
rights as may be necessary, in the mode hereinbefore prescribed.
§ 6. Wherever, along the route selected by said trustees, there
shall be a railroad already constructed, or rights of way, or depot,
or other grounds acquired therefor, which railroad, rights of way, or
grounds can be adopted as part of the said line, it shall be lawful
for the persons, company, or corporations owning the same, to sell
to the said trustees the said railroad, rights of way, or grounds, or
any part thereof; upon such terms and conditions as may be agreed
upon between the said trustees and such persons, or the president
and directors of such company or corporation: Provided, That no
such agreement shall be binding on the stockholders of any such
company or corporation, unless a majority in interest of said stock
holders, as shown by the books of such company or corporation,
shall ratify the same, in person or by proxy, at a meeting to be held
at the place of holding the election of directors, to be called, after
notice given of the objects of the meeting, in the manner provided
for notice of such elections.
§ 7. That in the construction of bridges across any navigable stream, the said trustees shall have the same so constructed as not to impede or obstruct the navigation of the same by boats, barges, other water craft, at any time, and shall be liable to damages to the parties injured for any such obstruction, impediment, or the detention of any such boats or water craft, to be recovered as other damages in any of the courts of this Commonwealth.

§ 8. And whereas, under and by virtue of the above mentioned act of the General Assembly of Ohio, the said board of trustees have power to borrow a fund for the construction of the said line of railway, not to exceed ten millions of dollars, and to issue bonds thereof, in the name of the city of Cincinnati, under the corporate seal thereof, bearing interest at a rate not to exceed seven and three tenths per centum per annum, payable at such times and places, and in such sums as shall be deemed best by said board, which bonds are to be signed by the president of said board, and attested by the city auditor of said city, who is to keep a register of the same, and are to be secured by a mortgage on the said line of railway and its net income, and by the pledge of the faith of said city, and a tax, which it is made the duty by said act of the council of said city annually to levy, sufficient, with said net income, to pay the interest, and provide a sinking fund for the final redemption of said bonds: Be it further enacted, That the respective holders of all such bonds are hereby declared to be entitled to hold, by way of mortgage, without any conveyance, the said line of railway and its appendages, and the net income thereof, and all the estate, right, title, and interest of the said city of Cincinnati and of the said board of trustees therein, until the respective sums mentioned in said bonds, and the interest thereon, shall be fully paid, without any preference one above another by reason of priority of date of any such bonds, or of the time when such holder became the owner of the same, or otherwise howsoever. The mortgage lien hereby given is to vest, as soon as rights of way or lands, whereon are to be placed the works and conveniences used in constructing, maintaining, or operating said railway, are acquired or taken, by virtue of the powers of the said trustees: Provided, That nothing herein contained shall affect the lien of any vendor upon land sold to said trustees, nor be held to include the rolling stock used in operating said road: And provided further, That any mortgage that may be made by any lessee or lessees of said line of railway, or person or company operating it, on the rolling stock used in operating said road, shall not have precedence over, but shall be at all times inferior in priority to, judgments that may be obtained against them in any county through which said road may run for wages, materials, and supplies in running said road; for damages for breaches of contracts of affreightment; for injury, loss, or destruction of any property put on the cars on said road for transportation; or for any injury to person or property occasioned in the running of said road; and such judgment shall be enforceable by execution against such rolling stock.

§ 9. Said trustees shall survey and locate the route of said line of railway, and actually commence the construction thereof, within two
years from the passage of this act, and shall continue such construction and complete the work within five years therefrom, or within such further reasonable period, not exceeding ten years in all, as the Governor may grant; upon satisfactory evidence that they are progressing with due diligence and in good faith. The gauge of said railway shall be five feet.

§ 10. The charge for transportation on said railway shall not exceed thirty-five cents per hundred pounds on heavy articles, and ten cents per cubic foot on articles of measurement for every hundred miles, and four cents a mile for every passenger. No discrimination shall be made against the citizens of Kentucky in the carrying of freights and passengers upon said railway, or any part thereof; and the General Assembly reserves the same legislative control over this railway that it has over other railroads within this State.

§ 11. The taxes imposed on said line of railway and its appendages shall not exceed the rate imposed on other railroads within this State.

§ 12. The said trustees may sue and be sued, contract and take and hold property, and convey and transfer the same, by the name of the "Trustees of the Cincinnati Southern Railway." Conveyances by said trustees shall be signed by not less than three of them. They shall keep an office and an agent in the city of Covington, and an agent in every county through which said railway runs, upon whom service of process may be made. Actions against them, or against the lessee or lessees of said line of railway, or person or company operating it, other than those mentioned in sections ninety-three and ninety-four of the Code of Practice in civil cases, may be brought in any county in which any part of the said railway lies. When an action is rightly brought in any county, process may be issued to the county in which the office of the trustees is situate, and may be sent and returned by mail. And it is hereby made a condition upon which said trustees construct and maintain said railway within this Commonwealth, that they thereby waive the right to remove any case from any of the courts of this State, to any of the courts of the United States, or to bring a suit in any of the courts of the United States against any citizen of this State; and a violation of this condition shall operate as a forfeiture of the rights, privileges, and immunities granted in this act.

§ 13. The persons or company operating said railway, or any part thereof, as lessees or otherwise, shall receive and carry all passengers and freight coming or brought to it or them to be carried; and they shall charge and receive only the same, and no more, for the same services in transporting freight and passengers going to or coming from one connecting road that they charge or receive upon those going to or coming from another. The rights and privileges granted in this act are confirmed by the General Assembly, and must be accepted on the fundamental condition that, in operating said railway, there shall be no unjust discrimination made by said trustees, or any agent of them, or by any lessee or lessees of said line of railway, or by any person or company operating said railway, or any part thereof, in favor of through freights or passengers against way
freights or passengers, or against freights or passengers from other roads joining it in this State; and farther, that all such way freights and passengers, and freights and passengers from other roads joining it in this State, shall be received as promptly and transported as expeditiously on said road as through freights and passengers are. And this fundamental condition may be enforced by the courts of this State, and additional legislation may be passed to carry it out if necessary. And the General Assembly reserves the right to change, alter, or modify this act, and to regulate by general laws the rates of charges for the transportation of freight and passengers on said road. They shall keep an office and an agent at some point along the line within this Commonwealth, and an agent in every county therein through which said railway runs, upon whom service of process may be made; and it is hereby made a condition upon which such persons or company may lease said railway, or any part thereof, or make any arrangement for operating the same, that such persons or company thereby waive the right to remove any case from any of the courts of this State to any of the courts of the United States, or to bring a suit in any of the courts of the United States against any citizen of this State; and a violation of such condition shall operate as a forfeiture of all the rights acquired under such lease or arrangement, which forfeiture and the other provisions of this section this Commonwealth reserves the right to enforce by all necessary remedies.

§ 14. That the rights, privileges, and immunities granted by this act shall continue for and during the period of ninety-nine years, and not longer, and shall, during that time, be subject to be declared forfeited by any court of competent jurisdiction, by an action instituted by the direction of the General Assembly in the name of the Commonwealth, for any failure on the part of the said trustees, their successors or assigns, to comply with the terms, stipulations, and obligations imposed herein, for the benefit and security of this Commonwealth or the people thereof; and before entering on any lands in this State, said trustees shall accept the provisions of this act.

§ 15. The following words and expressions in this act shall have the several meanings hereby assigned to them, unless there be something in the context repugnant to such construction; that is to say, the word "lands" shall include not only lands and every estate therein, but also easements and franchises connected therewith. The word "Trustees" shall mean the trustees for the time being appointed under the said act of the General Assembly of the State of Ohio, and shall include the said Board of Trustees and their successors. The expression "line of railway and its appendages," shall extend to and include the works and conveniences of the said railway, such as offices, stations, shops, sheds, depots, car-houses, and other buildings, bridges, viaducts, tunnels, arches, piers, abutments, embankments, approaches, ways, aqueducts, culverts, sewers, drains, wharves, yards, fences, telegraph posts and wires, tracks, turn-outs, and turn-tables, and the rights of way and lands belonging to said trustees whereon the said and other like works and conveniences, used in constructing, maintaining, or operating said railway, are placed. The expres-
sion, "act of the General Assembly of the State of Ohio," shall mean the act of the General Assembly of the State of Ohio, entitled "An act relating to cities of the first class, having a population exceeding one hundred and fifty thousand inhabitants," passed on the 4th day of May, in the year 1869. The expression "line of railway," shall mean the line of railway between the city of Cincinnati, in the State of Ohio, and the city of Chattanooga, in the State of Tennessee.

§ 16. Be it further enacted, That this act shall take effect from and after its passage.

John N. Furber,

And so said bill was laid on the table.

The hour of 11 o'clock, A. M., having arrived, according to order, the House again resolved itself into a Committee of the Whole on the state of the Commonwealth, the Speaker having retired from, and Mr. Spalding being called to and taking the Chair; and after a time spent in discussion, the committee rose, the Speaker resumed the Chair, and Mr. Spalding, the Chairman, reported that the Committee had had under consideration

A bill to revise, amend, and reduce into one the laws relating to the common schools of Kentucky,

And the amendments offered thereto;

And after proceeding with the consideration of the same for a time, had risen, and directed him to report said bill and amendments to the House.

Bills were reported by the several committees who were directed to prepare and bring in the same, of the following titles, viz:

By Mr. Price, from the Committee on Charitable Institutions—

A bill to incorporate the Agricultural and Mechanical Association of Colored People, of Fayette county.

By same—

A bill to incorporate the Union Benevolent Society, No. 2, of Colored People, at Lexington.

Ordered, That said bills be engrossed and read a third time.

The rule of the House and constitutional provision as to the third reading of said bills being dispensed with, and the same being engrossed,

Resolved, That said bills do pass, and that the titles thereof be as aforesaid.

Mr. Furber, from a select committee, to whom was referred a bill:

from the Senate, entitled
An act for the incorporation and regulation of Fire, Marine, Health Accident, Live Stock, and all other, except Life Insurance Companies,

Reported the same without amendment.

Ordered, That said bill be read a third time.

Said bill was then read a third time as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That hereafter any number of persons, not less than twelve, may associate to form an Insurance Company for any other purpose than Life Insurance; they shall publish a notice of such intention once in each week for at least four weeks, in a public newspaper in the county in which such Insurance Company is proposed to be located, or published in this Commonwealth, and having general circulation in said county, and shall, also, under their hands and seals, make a certificate specifying the name assumed by such company and by which it shall be known, the object for which said company shall be formed, the amount of its proposed capital stock, and the place where the principal office of said company shall be located, which certificate shall be acknowledged, certified, and forwarded to the Auditor, who shall submit the same to the Attorney General for examination; and if found by him to be in accordance with the provisions of this act, and not inconsistent with the Constitution and laws of this State and of the United States, he shall certify the same and deliver it back to the said Auditor, who shall have the right to reject any name or title of any company applied for, when he shall deem the name too similar to one already appropriated, or likely to mislead the public. For the examination provided for in this section, the Attorney General shall be entitled to a fee of ten dollars, to be paid by the corporators.

§ 2. Upon the approval of said certificate by the Attorney General and the Auditor, the said Auditor shall cause it to be recorded in a book to be kept for the purpose, in the office of the Bureau of Insurance; and said persons, when incorporated, and having procured the certificate of the Insurance Commissioner of this State that they have, in all respects, complied with the provisions of this act, are hereby authorized to carry on the business of insurance, as named in such certificate of incorporation; and by the name and style provided therein, shall be deemed a body corporate, with succession; they and their associates, successors, and assigns, to have the same general corporate powers, and be subject to all the obligations and restrictions of this act, and of the general laws of this Commonwealth.

§ 3. No joint stock company shall be incorporated under this act with a smaller capital than one hundred thousand dollars nor more than one million dollars, as may be specified in the certificate of incorporation, which stock shall be divided into shares of one hundred dollars each, nor shall any company, on the plan of mutual insurance, commence business in this State until agreements have been entered into for insurance with at least two hundred applicants, the pre-
miums on which shall amount to not less than one hundred thousand dollars, of which at least fifty thousand dollars shall have been paid in cash, and notes of solvent parties, founded on actual and bona fide applications for assurance, shall have been received for the remainder. No one of the notes received as aforesaid shall amount to more than five hundred dollars, and no two shall be given for the same risk, or be made by the same person or firm, except where the whole amount of such notes shall not exceed five hundred dollars; nor shall any note be represented as capital stock unless a policy be issued upon the same within thirty days after the organization of the company, upon a risk which shall be for no shorter period than twelve months. Each of said notes shall be payable in part or in whole, at any time when the directors shall deem the same requisite for the payment of losses by fire or inland navigation, and such incidental expenses as may be necessary for transacting the business of said company. And no note shall be accepted as part of such capital stock, unless the same shall be accompanied by a certificate of a justice of the peace of the precinct where the person making such note shall reside, that the person making the same is, in his opinion, peculiarly good and responsible for the same; and no such note shall be surrendered during the life of the policy for which it was given.

§ 4. Having published the notice and filed publisher's proof of such publication with the Auditor, together with the certificate as required by the first section of this act, the persons named in the certificate of incorporation, or a majority of them, shall be Commissioners to open books for the subscription of stock in the company, at such times and places as they shall deem convenient and proper, and shall keep the same open until the full amount specified in the certificate is subscribed; or, in case the business of such company is proposed to be conducted on the plan of mutual insurance, then open books to receive propositions and enter into agreements in the manner and to the extent specified in the third section of this act.

§ 5. The affairs of any company organized under this act shall be managed by not more than twenty-one nor less than five directors, all of whom shall be stockholders or members, as the case may be. Within one month after the subscription books shall have been filed, a majority of the subscribers shall hold a meeting for the election of directors, each share entitling the holder thereof to one vote; and the directors then elected shall continue in office until the first or third Monday in January thereafter, as the by-laws of the company may direct, and until others have been chosen to succeed them in the trust, and have accepted the same.

§ 6. It shall be lawful for any Insurance Company organized under this act, or incorporated under any law of this State, to invest its capital and the funds accumulated in the course of its business, or any part thereof, in bonds and mortgages, or deeds of trust on unencumbered real estate within the State of Kentucky, worth fifty per cent. more than the sum loaned thereon, exclusive of buildings, unless such buildings are insured, and the policy transferred to said company, and continued in force so long as the loan continues; and
also in the bonds of this State, or the bonds of the United States; and also in the bonds of any county or incorporated city or railroad company in this State, authorized to be issued by the Legislature; and to lend the same, or any part thereof, on the security of such bonds, or of bonds and mortgages and deeds of trust, as aforesaid; and to change and reinvest the same as occasion may, from time to time, require: Provided always, That the current market value of such bonds, or other evidences of indebtedness, shall be at all times, during the continuance of such loans, at least twenty per cent. more than the sum loaned thereon: And provided, That in all investments made upon mortgage securities, the evidence of the debt shall accompany the mortgage or deed of trust.

§ 7. Upon receiving notification that the proceedings required by the sections foregoing have been had, the Commissioner of Insurance shall cause an examination to be made, and certified under oath that the capital herein required of the company named, according to the nature of the business proposed to be transacted by such company, has been paid in, and is possessed by it in money, or in such bonds and mortgages as are required by the sixth section of this act; or if a mutual company, that it has received, and is in actual possession of, the capital, premiums, or bona fide engagements of insurance, or other securities, as the case may be, to the extent and value required by the sixth section of this act; and the name and residence of the maker of each premium note forming part of the capital, and the amount of such note, shall be returned to the said Commissioner; and the corporators or officers of such company shall be required to certify, under oath, that the capital exhibited to those persons is bona fide property of the company. Such certificates shall be filed in the office of the Insurance Commissioner, who shall thereupon deliver to such company a certified copy of said certificates, under the seal of the bureau, which, on being placed on record in the office of the clerk of the county court where the company is to be located, by the said clerk, in a book provided for that purpose by him, shall be their authority to commence business and issue policies; and such certified copy of said certificates may be used in evidence for or against said company, with the same effect as the originals.

§ 8. It shall be lawful for any company organized under this act, first, to insure houses, buildings, and all other kinds of property, against loss or damage by fire, in and out of the State; and to make all kinds of insurance on goods, merchandise, and other property, in the course of transportation, whether on land or water, or on any vessel or boat, wherever the same may be; second, to make insurance upon the health of individuals, and against personal injury, disablement, or death, resulting from traveling or general accidents by land or water; third, to receive on deposit and insure the safe-keeping of books, papers, moneys, stocks, bonds, and all kinds of personal property; fourth, to insure horses, cattle, and other live stock, against loss or damage by accident, theft, or death, or any unknown or contingent event whatever, which may be the subject of legal insurance; and to cause itself to be insured against any loss or risk it may have incurred in the course of its business, and upon the interest which it
may have in any property by means of any loan or loans which it may have made on mortgage, and generally to do and perform all other matters and things proper to promote these objects; Provided, That no company shall be organized to issue policies of insurance for more than one of the above four mentioned purposes; and no company that shall have been organized for either of said purposes, shall issue policies of insurance for any other; and no company organized under this act, or transacting business in this State, shall expose itself to loss on any one risk or hazard, to an amount exceeding ten per cent. on its paid up capital, unless the excess shall be reinsured by the same in some good and reliable company.

§ 9. The annual meeting for the election of directors shall be held on the first or third Monday in January, and called meetings at such times as the by-laws of the company may direct: Provided, however, That if, for any cause, the stockholders shall fail to elect directors at any annual meeting, they may hold a special meeting on some subsequent day for the purpose, by giving notice thereof thirty days in some newspaper in general circulation in the county where the principal office of the company shall be kept; and the directors chosen at any such annual or special meeting shall continue in office until the next annual meeting, and until their successors duly elected shall have accepted.

§ 10. The directors shall choose a President from their own number, and shall fill all vacancies that may arise in the Board or in the Presidency thereof; and the Board of Directors thus constituted, or a majority of them, when convened at the office of the company, shall be competent to exercise all the powers vested in them by this act.

§ 11. The directors of any such company shall have power to appoint a Secretary, and any other officers or agents necessary for transacting the business of the company, paying such salaries, and taking such securities as they may judge reasonable; they may ordain and establish by-laws and regulations not inconsistent with this act, or with the Constitution and laws of this State and of the United States, as shall appear to them necessary for regulating and conducting the business of the company; and it shall be their duty to keep full and correct entries of their transactions, which shall at all times be open to the inspection of the stockholders and the Insurance Commissioner of this State.

§ 12. All policies or contracts of insurance made or entered into by the company, may be made, either with or without the seal thereof; they shall be subscribed by the President or such other officer as may be designated by the directors for that purpose, and shall be attested by the Secretary, and, being so subscribed and attested, they shall be obligatory on the company.

§ 13. Transfers of stock may be made by any shareholder, or his legal representative, subject to such restrictions as the directors shall, from time to time, make and establish in their by-laws, except as provided in sections thirty and thirty-one of this act.

§ 14. That whenever any company organized under this act, with less than the maximum capital limited in section three, shall, in the opinion of the directors thereof, require an increased amount of cap-
ital, they shall, if authorized by the holders of a majority of the stock, file with the Commissioner a certificate setting forth the amount of such desired increase, not exceeding said maximum, and thereafter such company shall be entitled to have the increased amount of capital fixed by said certificate; and the examination of securities composing the capital stock thus increased, shall be made in the same manner as is provided in section seven of this act, for capital stock originally paid in.

§ 15. It shall not be lawful for the directors, trustees, or managers of any Insurance Company to make any dividend, except from the surplus profits arising from their business; and in estimating such profits there shall be reserved therefrom a sum equal to the amount received for premiums on unexpired risks and policies, which are hereby declared to be unearned premiums; and, also, there shall be reserved all sums due the corporation on bonds and mortgages, bonds, and book accounts, or other securities, of which no part of the principal or interest thereon has been paid during the last year, and for which foreclosure or suit has not been commenced for collection, or which, after judgment obtained thereon, shall have remained more than two years unsatisfied; and on which interest shall not have been paid; and, also, there shall be reserved all interest due or accrued, and remaining unpaid. Any dividend made contrary to these provisions shall subject the company making the same to a forfeiture of its charter, to be enforced by a proceeding in the nature of a quo warranto, which shall be prosecuted by the attorney for the Commonwealth in any county in which said company has an office or transacts business.

§ 16. No company organized under this act shall purchase, hold, or convey real estate, excepting for the purposes and in the manner herein set forth, to-wit:

1. Such as shall be requisite for its convenient accommodation in the transaction of its business; or,
2. Such as shall have been mortgaged to it in good faith, or conveyed by deed of trust, by way of security for loans previously contracted, or for money due; or
3. Such as shall have been conveyed to it in satisfaction of debts previously contracted in their legitimate business, or for money due; or
4. Such as shall have been purchased at sales upon judgment, decrees, or mortgages, or deed of trust obtained or made for such debts; and it shall not be lawful for any such company to purchase, hold, or convey real estate in any other case, or for any other purpose; and all such real estate as may be acquired as aforesaid, and which shall not be necessary for the accommodation of such company in the transaction of its business, shall be sold and disposed of within five years after such company shall have acquired title thereto, unless the company shall procure a certificate from the Commissioner that the interests of the company will suffer materially by a forced sale thereof, in which event the sale may be postponed for such period as the said Commissioner shall direct in said certificate.
§ 17. All notes deposited with any mutual Insurance Company at the time of its organization, as provided in section three, shall remain as security for all losses and claims until the accumulation of the profits, invested as required by the sixth section of this act, shall equal the amount of cash capital required to be possessed by stock companies organized under this act, the liability of each note decreasing proportionately as the profits are accumulated; but any note which may have been deposited with any mutual Insurance Company, subsequent to its organization, in addition to the cash premium on any insurance effected with such company, may, at the expiration of the time of such insurance, be relinquished and given up to the maker thereof, or his representatives, upon his paying his proportion of losses and expenses which may have accrued thereon during such term. The directors or trustees of any such company shall have the right to determine the amount of the note to be given in addition to the cash premium by any person insured in such company; but in no case shall the note be more than four times the whole amount of the cash premium. And every person effecting insurance in any mutual company, and also their heirs, executors, administrators, and assigns continuing to be so insured, shall thereby become members of said corporation during the period of insurance, and shall be bound to pay for losses and such necessary expenses as aforesaid, accruing in and to said company, in proportion to the amount of his deposit note or notes. The directors shall, as often as they deem necessary, after receiving notice of any loss or damage by fire sustained by any member, and ascertaining the same, or after the rendition of any judgment against said company for loss or damage, settle and determine the sums to be paid by the several members thereof as their respective portion of such loss, and publish the same in such manner as they shall see fit, or as the by-laws shall have prescribed; and the sum to be paid by each member shall always be in proportion to the original amount of his deposit note or notes, and shall be paid to the officers of the company within thirty days next after the publication of said notice. And if any member shall, for the space of thirty days next after the publication of said notice, and after personal demand for payment shall have been made, neglect or refuse to pay the sum assessed upon him as his proportion of any loss as aforesaid, in such case the directors may sue for and recover the whole amount of his deposit note or notes, with costs of suit; but execution shall only issue for assessments and costs as they accrue, and every such execution shall be accompanied by a list of losses for which the assessment is made. If the whole amount of deposit notes shall be insufficient to pay the loss occasioned by any fire or fires, in such case the sufferers insured by the said company shall receive, towards making good their respective losses, a proportional share of the whole amount of said notes, according to the sums by them respectively insured; but no member shall ever be required to pay, for any loss occasioned by fire or inland navigation, more than the whole amount of his deposit note.

§ 18. Every Insurance Company hereafter organized as provided in this act, shall, if it be a mutual company, embody the word
“mutual” in its title, which shall appear upon the first page of every policy and renewal receipt; and every company doing business as a cash stock company shall, upon the face of its policy, in some suitable manner, express that such policy is a stock policy. Nor shall any company transact the business of insurance in this Commonwealth on both the stock and mutual plans.

§ 19. It shall be the duty of the president or vice president and secretary of each company organized under this act, or incorporated under any law of this State, annually, on the tenth day of January, or within one month thereafter, to prepare, under oath, and deposit in the office of the Bureau of Insurance, a statement of the condition of such company on the thirty-first day of December then next preceding, exhibiting the following facts and items, in the following form, namely:

5. The amount of all other payments and expenditures.
6. A balance sheet of the business of the company, taking as the basis the net assets of the company on the 31st day of December of the year preceding that for which the statement is made, which annual statement shall be brought down to the 31st December next preceding that in which the statement is required to be returned.

§ 20. The Insurance Commissioner is hereby authorized and empowered to address any inquiries to the officers of any Insurance Company, in relation to its doings and condition, or any other matter connected with its transactions; and it shall be the duty of any company so addressed to promptly reply, in writing, verified by the oath of its Secretary or other chief officer, to any such inquiries.

§ 21. The statement of any company, the capital of which is composed, in whole or in part, of notes, shall, in addition to the foregoing, exhibit the amount of notes originally forming the capital, and also what proportion of said notes is still held by such company and considered capital. Every Insurance Company, organized under any law of this State, failing to make and deposit such statement, or to reply to any inquiry of the said Commissioner, shall be subject to a penalty of five hundred dollars; and an additional five hundred dollars for every month that such company shall continue thereafter to transact any business of insurance.

§ 22. The Insurance Commissioner is hereby authorized to amend and revise the form of annual statement hereinbefore prescribed, and to propose such additional inquiries as are necessary to elicit a full exhibit of the business and standing of the various Insurance Companies doing business in this Commonwealth.
§ 23. The Commissioner may extend the time hereinbefore prescribed for filing annual statement in favor of any company for good cause shown, but not more than sixty days next after the limit hereinbefore prescribed for filing the same.

§ 24. It shall not be lawful for any insurance Company, association, or partnership, organized or associated for any purposes specified in this act, incorporated by or organized under the laws of any other State, of the United States, or any foreign government or government of the United States, directly or indirectly, to take risks or transact any business of insurance in this State, unless possessed of the amount of one hundred and fifty thousand dollars of actual capital paid up; and any such company desiring to transact any such business as aforesaid, by an agent or agents in this State, shall file with the commissioner a written instrument, duly signed and sealed, authorizing any agent or agents of such company to acknowledge service of process for and in behalf of such company in this State, consenting that service of process, mesne or final, upon any such agent, shall be taken and held to be as valid as if served upon the company according to the laws of this or any other State, and waiving all claim or writ of error by reason of such acknowledgment or service; and service of process upon any such agent in any county of this State shall be deemed good and valid, and authorize trial of the cause in the court whence such process issued. It shall be the duty of the clerk of the court, in which suit may be brought against any such Insurance Company, at the commencement of the action, to place in the post-office a copy of the summons or other process which may be issued in the cause, directed to the company at the place of the location of its principal office, postage paid; and he shall make a note or memorandum thereof on the papers of the suit, and tax the costs, postage included, as other costs of the suit: Provided, That such notification by the clerk shall not affect the time of the trial of the cause. If any such Insurance Company shall, without the consent of the other parties to any suit or proceeding against it, brought or to be brought in any of the courts of this Commonwealth, remove the said suit or proceeding into any Federal Court, or if such company shall hereafter institute any suit or proceeding against any citizen of this Commonwealth in any Federal Court, it shall be the duty of the Auditor forthwith to revoke all authority to such company and all its agents to do business in this Commonwealth, and to publish such revocation in some newspaper published in this Commonwealth. In case any such Insurance Company shall cease to transact business in this State, according to the laws thereof, the agents last designated, or acting as such for such corporation, shall be deemed to continue agents for such corporation for the purpose of serving process for commencing actions upon any policy or liability issued or contracted while such corporation transacted business in this State; and they shall also file a certified copy of their charter or deed of settlement, unless heretofore filed, together with a statement, to be made annually under the oath of the President or Vice President, or other chief officer, and the Secretary of the company for which he or they may act, in the same manner and
form required from companies organized under the laws of this State, as per section nineteen; also a copy of the last annual report, if any made under any law of the State by which such company was incorporated; and no agent shall be allowed to transact business for any company whose capital is impaired to the extent of twenty per cent. thereof, while such deficiency shall continue, unless said deficiency shall be repaired within sixty days. And any company incorporated by or organized under any foreign government shall file with the Commissioner the certificate of the Auditor, comptroller, or other chief financial officer of some other State or of the United States, under his hand and official seal, that he holds on deposit, and in trust for the benefit of all the policy-holders of such company in the United States, securities in which it is authorized to invest its capital stock by the laws of the State in which such deposit is made, or in which similar companies in this State may, by law, invest their capital and accumulations, worth at least two hundred thousand dollars, and which shall be increased in case of any depreciation in their value. But nothing herein contained shall be construed to invalidate the agency of any such company, by reason of such company having, from time to time, exchanged the securities so deposited with such financial officer for other and similar securities, or by reason of such company having drawn its interest and dividends, from time to time, for such stocks and securities: Provided, That companies organized under the laws of any foreign government, depositing the amount of securities aforesaid with the Auditor of this State, who shall receive the same in his official capacity, and producing and filing a certificate thereof in the manner provided by this section, shall be held to have complied with the requirements of this section, if such certificate shall state that the aforesaid deposit is for the benefit and protection of its policy-holders in the United States.

§ 25. It shall not be lawful for any agent of any Insurance Company not incorporated by the laws of this State to do business of insurance in this State, without first obtaining license from the Auditor of Public Accounts. Before the Auditor shall issue such license to any such agent, every such company or association shall furnish to him the certificate of the Commissioner of Insurance that such company has fully complied with the laws of this State respecting it, and has the required capital not impaired beyond the designated limit, and is in a sound and solvent condition; whereupon the Auditor shall furnish to such agents as the company directs a copy of the Commissioner's certificate, to be prepared by the Bureau of Insurance, and licenses to transact the business of insurance as agents for said company.

§ 26. Licenses to agents must be renewed annually, in the same manner as original licenses were issued, upon the certificate of the Commissioner that the company represented by the agent has fully complied with the law, and maintains its required capital. The annual statements required in preceding section may, after the first, be filed within the times prescribed for filing similar statements by the companies of this State.
§ 27. Any violation of any of the provisions of the foregoing sections relating to foreign companies, or companies of other States or of the United States, shall subject the party violating to a penalty of five hundred dollars for each violation, and of the additional sum of one hundred dollars for each month during which any such agent shall neglect to file such affidavits and statements as are herein required. Every agent of any Insurance Company shall, in all advertisements of such agency, publish the location of the company, giving the name of the city, town, or village, in which the company is located, and the State or Government under the laws of which it is organized. The term agent or agents, used in the foregoing sections, shall include an acknowledged agent or surveyor, or any other person or persons, who shall, in any manner, directly or indirectly, aid in transacting the insurance business of any Insurance Company not incorporated by the laws of this State. The provisions of the foregoing sections shall apply to all foreign companies, partnerships, associations, and individuals, whether incorporated or not.

§ 28. In case of knowing and willful neglect or refusal by any Insurance Company to make such annual statement, as aforesaid, whose duty it shall be to make such statement, shall be subject to the same penalties provided by law in case of the failure of any Insurance Company, organized under the laws of this State, to make an annual statement as now provided by law; and, in addition thereto, shall forfeit the right to do business in this State till such statement is made and the law complied with.

§ 29. It shall be the duty of the Insurance Commissioner, by himself or his deputy, or whenever he shall deem it expedient so to do, at his option, to appoint one or more persons, not officers, agents, or employees of any Insurance Company, who, before entering upon the discharge of the duty, shall take an oath to perform faithfully and impartially the business with which they are charged, to examine into the affairs of any Insurance Company incorporated in this State, or doing business by its agents in this State; and it shall be the duty of the officers or agents of such company doing business in this State to cause their books to be opened for the inspection of the commissioner or his deputy, or to the person or persons so appointed, and otherwise to facilitate such examination so far as it may be in their power to do: and for that purpose the said commissioner, or person or persons so appointed by him, shall have power to examine, under oath, the officers and agents of any company relative to the business of said company; and whenever the said commissioner shall deem it for the interest of the public so to do, he shall publish the result of such investigation in one or more papers of this State; and whenever it shall appear to the commissioner, from such examination, that the assets of any company incorporated in this State are reduced more than twenty per cent. below the capital stock required by this act, or its charter, after reserving fifty per cent. of the amount received for premiums on any paid annual, term, or short-risk policies, which are hereby declared unearned premiums, he may direct the officers thereof to require the stockholders to pay in the amount of such deficiency within such period as he may
designate in such requisition, not exceeding sixty days, and in default thereof, he shall communicate the fact to the Attorney General, whose duty it shall then become to apply to any circuit or chancery court for an order requiring them to show cause why the business of such company should not be closed, and the court shall thereupon proceed to hear the allegations and proofs of the respective parties; and in case it shall appear to the satisfaction of said court that the assets and funds of said company are not sufficient, as aforesaid, or that the interests of the public so require, the said court shall decree a dissolution of said company and distribution of its effects upon equitable principles. The court shall have power to refer the application of the Attorney General to a referee, to inquire into and report upon the facts stated therein.

§ 30. Any company receiving the aforesaid requisition from the said commissioner, shall forthwith call upon its stockholders for such amounts as will make its capital equal to the amount fixed by the charter of said company; and in case any stockholder of such company shall refuse or neglect to pay the amounts so called for after notice personally given or by advertisement, in such time and manner as the said commissioner shall approve, it shall be lawful for the said company to require the return of the original certificate of stock held by such stockholder, and in lieu thereof to issue new certificates for such number of shares as the said stockholder may be entitled to, in the proportion that the ascertained value of the funds of the said company may be found to bear to the original capital of the said company; the value of such shares for which new certificates shall be issued to be ascertained under the direction of the said commissioner, and the company paying for the fractional parts of shares; and it shall be lawful for the directors of such company to create new stock and dispose of the same, and to issue new certificates therefor, to an amount sufficient to make up the original capital of said company. And in the event of any additional losses accruing upon new risks, taken after the expiration of the period limited by the said Commissioner in the aforesaid requisition for the filling up of the deficiency in the capital of such company, and before said deficiency shall have been made up, the directors shall be individually liable to the extent thereof.

§ 31. If, upon such examination, it shall appear to the said Commissioner, that the assets of any company chartered on the plan of mutual insurance under this act are insufficient to justify the continuance of such company in business, it shall be his duty to proceed in relation to such company in the same manner as herein required in regard to joint stock companies; and the trustees or directors of such company are hereby made personally liable for any losses which may be sustained upon risks taken after the expiration of the period limited by the said Commissioner for filling up the deficiency in the capital, and before such deficiency shall have been made up. Any transfer of the stock of any company organized under this act, made during the pending of any such investigation, shall not release the party making the transfer from his liability for losses which may have accrued previous to the transfer.
§ 32. The Insurance Commissioner shall be authorized to examine into the condition and affairs of any Insurance Company, as provided for in this act, doing business in this State, not organized under the laws of this State, or cause such examination to be made by some person appointed by him; and whenever it shall appear to the satisfaction of said Commissioner that the affairs of any such company are in an unsound condition, he shall notify the said Auditor, who shall revoke the certificates granted in behalf of such company, and shall cause a notification thereof to be published in one or more newspapers of general circulation, and to be mailed to the agents licensed by the Auditor; and the agent or agents of such company are, after such notice, required to discontinue the issuing of any new policy, or the renewal of any previously issued; and every agent or other person, who shall willfully continue in any manner to aid or engage in issuing policies, or making contracts for any such company, shall be liable to indictment in a court of competent jurisdiction; and upon conviction thereof, shall be confined in the Penitentiary for not less than six nor more than twelve months.

§ 33. Every penalty provided for by this act shall be sued for and recovered in the name of the Commonwealth of Kentucky, by the Commonwealth's attorney of the county in which the company or the agent or agents so violating shall be situated; and said penalty, when recovered, shall be paid into the Treasury of the State; and in the case of the non-payment of such penalty, the party so offending shall be liable to imprisonment for a period not exceeding six months, in the discretion of any court having cognizance thereof. Such penalties may also be sued for and recovered in the name of the Commonwealth of Kentucky, by the Attorney General; and when sued for and collected by him, shall be paid into the State Treasury, less thirty per cent, to be paid him for his services.

§ 34. The Auditor of Public Accounts of this Commonwealth shall, in his official capacity, take and hold, on deposit, the securities of any Insurance Company, other than Life Insurance Companies incorporated under the laws of this State, which are deposited by any such company, for the purpose of complying with the laws of other States, in order to enable them to do business in such State, and give a certificate of such deposit to the company making it. The company making such deposit shall have the right to receive the income of the securities deposited, and at any time to exchange the same according to the laws of the States in which they are doing business: Provided always, That such securities shall be held in trust for the benefit and protection of all the policy-holders and creditors of the company making the deposit in the United States, and shall be subject to the payment of any forfeitures, assessments, or taxes due and unpaid to this State, or any State in which the company may do business.

§ 35. Whenever the existing or future laws of any other State of the United States shall require of Insurance Companies incorporated by or organized under the laws of this State, and having agencies in such other States, or of the agents thereof, any deposit of securities in such State for the protection of policy-holders or otherwise, or
any payment for taxes, fines, penalties, certificates of authority, license fees, or otherwise, greater than the amount required for such purposes from similar companies of other States by the then existing laws of this State, then, and in every such case, all companies of such States established or having heretofore established an agency or agencies in this State, shall be, and are hereby, required to make the same deposit for a like purpose with the Auditor of this State, and to pay to said Auditor and commissioner for taxes, fines, penalties, certificates of authority, license fees, or otherwise, an amount equal to the amount of such charges and payments imposed by the laws of such State upon the companies of this State and the agents thereof.

§ 36. The necessary expenditure of any examination made, or ordered to be made, by the commissioner, under this act, shall be certified to by him, and paid by the company examined.

§ 37. That all Insurance Companies doing any business provided for under section one of this act, or heretofore incorporated by the laws of this Commonwealth, are required to make all the returns and perform all the requirements of companies organized under this act, and are hereby made subject to all the penalties and are entitled to all the benefits of this act, the same as if organized thereunder: Provided however, That where the capital stock of such companies shall consist in part of stock notes, and at least fifty per cent. of the capital stock of such companies shall have been paid before the first day of July, 1870, the remainder of said notes may continue to be held until they shall be paid up by the dividends of such companies, made in accordance with the provisions of section fifteen of this act; and all such dividends shall be applied to their payment, until said stock notes are fully discharged; and it shall be the duty of said companies to furnish to the commissioner, in connection with their annual statement, a list of said stock notes, with names of the principals and sureties, the original amounts, and the amounts remaining unpaid, with the certificate of a justice of the peace of the precinct where the persons making such notes shall reside that the persons making them are, in his opinion, pecuniarily good and responsible for the same, or in lieu thereof may substitute other securities satisfactory to the Commissioner.

§ 38. That from and after the passage of this act it shall be unlawful for any Mutual Insurance Company or Companies to make any contract or contracts, to have effect within the limits of this Commonwealth, which, singly or in the aggregate, shall grant indemnity greater than three fourths in actual value of any loss occurring by fire originating on premises occupied by or under the control of the assured person for whose benefit said insurance was made; but said company or companies shall be held liable under any such contract made for said three fourths in value of any loss. No Insurance Company, mutual or not, shall be compelled to pay more than three fourths of the actual value of any loss occurring by fire originating on the premises occupied by or under the control of the person for whose benefit said insurance was effected, unless the loss shall be partial, when the whole loss shall be paid: Provided, That when an
Insurance Company shall charge premium for a greater risk than three fourths of the value of property insured, it shall refund such excess of premium with interest.

§ 39. That hereafter every company, association, or partnership, transacting any business of insurance within this Commonwealth, organized under or by authority of any other State or country, shall, on the first Mondays in May and November in each year, report under oath, to the Auditor of Public Accounts, the total amount of all premiums received within the six months next preceding, or since the last returns were so made, deducting therefrom the amount actually paid as return premiums on canceled policies, or paid to other companies for reinsurance, and shall at the same time pay into the Treasury of this State a tax of two dollars and fifty cents upon each one hundred dollars of the balance of said premiums so ascertained; and hereafter no clerk of any county court shall have authority to receive or receipt for any such taxes.

§ 40. That any President, Treasurer, Secretary, company, or association, who shall neglect or fail, for the space of thirty days, to report or pay, as required by the thirty-ninth and forty-third sections of this act, shall, in addition to the tax, forfeit and pay one thousand dollars as a penalty for such neglect or failure; and the party so neglecting or failing for sixty days, shall thereafter be debarred from transacting any insurance business in this State, either directly or indirectly, until such taxes and penalties are fully paid; and the Auditor shall revoke the certificate of authority or license granted such party so neglecting or failing, for sixty days after the time fixed in said sections, to report and pay.

§ 41. That nothing in the thirty-ninth section of this act shall be construed to require any report to the Auditor, or any payment of taxes into the Treasury, on premiums received by general agents, where said premiums shall have been received through local agents of their company or companies in other States, nor by local agents of this State, where said local agents shall have already made returns of amount of said premiums to the Auditor and paid the taxes thereon; but said general agents shall report and pay taxes on all premiums received by him, or by his solicitors or agents, upon property located in this State, where no previous tax shall have been paid thereon in this State; and any general agent may report the premiums and pay the taxes for any or all of his local agents or solicitors in this State, in which case he shall give the name and location of each, the amount of premiums received, the deductions made for returned premiums on canceled policies, and amount for reinsurance, balance of premiums, and amount of tax for each local agent or solicitor.

§ 42. That if any president, secretary, agent, attorney, or other person, whose duty it is to make or file any annual or other statement, report, or other instrument in writing, required by the provisions of this act, shall falsely or fraudulently so make or file such statement, report, or other instrument, he shall be deemed guilty of perjury, and, upon conviction thereof, shall be imprisoned in the county jail or the penitentiary, as may be determined by the court or jury, for a period of not less than three nor more than twelve months.
§ 43. It shall be the duty of the president, treasurer, or secretary of any Insurance Company, authorized to do the business contemplated by this act, and organized by any law of this State, to report, under oath, to the Auditor of Public Accounts, on or before the 10th day of July in each year, the amount of its capital stock and net accumulated fund above such capital, after payment of dividends and losses and expenses; and on or before the 10th day of October, in each year, every such company shall pay into the Treasury a tax upon the full amount of such capital and accumulations of fifty cents upon each one hundred dollars; but such tax shall always be upon an amount equal to the capital stock of such company.

§ 44. This act shall take effect from its passage: Provided, That agents of companies, other than those organized under the laws of this State, which may have received license prior to the passage of this act, shall not be obliged to renew application until such license shall expire; but such companies, and companies organized under the laws of this State, shall be subject to examination at the discretion of the commissioner.

§ 45. All receivers of Insurance Companies heretofore, or which may hereafter be appointed, shall make reports annually to the commissioner, and as much oftener as he may require, in the manner and form to be prescribed by him.

§ 46. That all laws and parts of laws, inconsistent with the provisions of this act, are hereby repealed.

NASHVILLE, TENN., March 4, 1870.

To Members of the House of Representatives of Kentucky Legislature,
Frankfort, Ky.:

We are sorry to see that the Kentucky Senate has defeated the Southern Railroad bill. Tennessee appropriated two hundred thousand dollars ($200,000) to the Henderson and Nashville Railroad, to be expended in the State of Kentucky alone, besides the amount appropriated to be expended on said road within our State. The State of Tennessee has aided every railroad that runs from Kentucky south, and her people are now paying and have been paying taxes, to be used in paying the interest on the bonds issued to said roads; and the people in our State, who are to be specially benefited by the Cincinnati and southern line of road, have paid their proportionate share of said taxes for years, and have received no railroad benefit. Yes, we have aided all Kentucky railroad enterprises running south, both by money and legislation, and we hope Kentucky will not refuse to aid the line of road that will benefit our State so much, and especially that portion of our State that is entirely without railroad facilities. The increasing commerce of the country demands that road, as has clearly been demonstrated by the blockade of freights south
this winter. The whole central south ask the road and will not forget her friends.

76-H. 2.
A message was received from the Governor by Mr. Samuels, Assistant Secretary of State, which was taken up and read as follows, viz:

STATE OF KENTUCKY, EXECUTIVE DEPARTMENT, 
FRANKFORT, March 7, 1870.

Gentlemen of the House of Representatives:

I herewith return an act, entitled “An act to increase the civil jurisdiction of the police court of the city of Columbus,” without my approval.

The act confers upon the police judge of a solitary town in the State civil jurisdiction to the amount of five hundred dollars, where the cause of action grows out of contract, express or implied.

I am persuaded it is unwise legislation to confer jurisdiction to increased, separate, and unequal amounts upon police judges in different localities of the State. It is unsafe jurisdiction to confer upon a police judge concurrent jurisdiction with the circuit courts to so large an amount as that conferred by this bill. But the act discriminates between residents and non-residents, and is, to this extent, unjust and unequal in its operation.

While the people of Hickman county are not subject to the increased jurisdiction of this police court, non-residents and citizens of Columbus are. While the people outside of the corporate limits of the town of Columbus are not liable to be sued on any contract, express or implied, over fifty dollars, except in a circuit court or court of common pleas, non-residents, or citizens of Columbus, are liable to be sued, upon such causes of action, to the amount of five hundred dollars, in the police court; and the act makes no provision for an appeal from the judgment of the police court to the Court of Appeals.

It is true that the act now returned contains a provision, that in all actions, except those founded upon a bond, bill, note, or other written evidence of liquidated indebtedness signed by the parties, or in cases where the amount in controversy does not exceed one hundred dollars, the defendants, or either of them, may, at the appearance term, upon motion, have the case transferred to the circuit court or court of common pleas, by executing bond, with good security, to perform the judgment of the court.

If a resident of Columbus or a non-resident be sued upon bond, note, or bill, to the amount of five hundred dollars, in the police court, he is not allowed any appeal whatever from the judgment, either to the circuit court, court of common pleas, or to the court of appeals; but if he be sued on an express or implied contract not in writing, to an amount over one but under five hundred dollars, a transfer is allowed to the circuit court or court of common pleas; and an appeal from a judgment in either of these courts to the court of appeals, even in cases where a transfer is allowed of a suit in the police court, a bond is exacted of non-residents thus sued, and of citizens of Columbus, which is exacted from no other citizens of the Commonwealth.
But in causes of action arising on bonds, notes, bills of exchange, written leases or contracts, under five hundred dollars, signed by the parties, the judgment of the police court is final, and there is no transfer or appeal provided for. So unjust, so arbitrary and unequal a discrimination in the civil jurisdiction of any court is novel in the past legislation of this Commonwealth, and I am constrained to disapprove of it, and herewith return the bill.

J. W. STEVENSON.

The bill referred to in said message reads as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That the police court of the city of Columbus shall have original jurisdiction in all actions at law where the amount in controversy does not exceed five hundred dollars, and where the cause of action grows out of contract, either express or implied. The judge of said court shall keep a docket of all actions brought in his court, shall enter judgments and orders in the same manner that circuit court clerks are now required by law to do, and shall receive the same fees as are allowed by law to circuit court clerks for similar services. He shall also keep an execution book, similar to those required by law to be kept by circuit court clerks, and shall make therein similar entries to those required by law to be made by circuit court clerks in the execution books kept by them.

§ 2. That the increased jurisdiction conferred upon said police court by the foregoing section, shall only extend to and exist in actions in which the parties defendant are all residents of the city of Columbus, or in cases in which one or more of the defendants are non-residents of this Commonwealth.

§ 3. That in all actions instituted in said police court, except when the cause of action is a bond, bill, or note, or other written evidence of liquidated indebtedness signed by the party to be charged, or where the action is to recover an amount not exceeding one hundred dollars, exclusive of interest, the parties defendant, or either of them, may, at the appearance term, upon motion, have the action removed to the circuit court or court of common pleas for Hickman county, upon the execution of a bond, with good and sufficient sureties, conditioned to perform the judgment of the court to which the action may be removed.

§ 4. All actions commenced in said court for the recovery of sums exceeding fifty dollars, exclusive of interest, shall be prosecuted by petition; and upon all such actions a tax of fifty cents shall be collected by the police judge, and by him paid to the trustee of the jury fund for Hickman county, at the succeeding term of the circuit court for said county.

§ 5. Said police court shall hold three terms each year for the trial of civil actions; said terms shall begin on the fourth Thursday in the months of April, August, and December, and shall continue until all business on the docket shall have been disposed of.

§ 6. That in all cases in which the amount in controversy exceeds twenty-five dollars, an appeal shall lie directly to the circuit court of Hickman county; and where the sum is less than twenty-five dollars,
appeals from said court shall lie to such courts as now provided by
law. The courts to which actions may be taken by appeal shall try
the same as original actions. The manner of taking appeals from
this court shall be the same as now provided by law for taking and
prosecuting appeals from quarterly to circuit courts.
§ 7. Before the police judge of the city of Columbus shall exer-
cise any of the enlarged powers conferred upon him by this act, he
shall execute, in the county court for Hickman county, a bond, with
good and sufficient sureties, conditioned that he will faithfully dis-
charge the ministerial duties hereby imposed upon him, and will pay
over to the parties entitled thereto, including the Commonwealth of
Kentucky, all moneys which may come to his hands by virtue of the
powers conferred and duties imposed upon him by this act.
§ 8. That the marshal of the city of Columbus, or other proper
officer, shall execute all process issued by said police court, and re-
turn the same as sheriffs are required by law to execute and return
such process, and shall receive similar fees with sheriffs and consta-
bles for the performance of similar duties. Said marshal shall,
before he enters upon the discharge of the duties imposed upon him
by this act, execute, in the county court of Hickman county, a bond,
with two or more good and sufficient sureties, conditioned for the
faithful performance of said duties, and that he will, at the proper
time, account for and pay over to the parties entitled thereto all
moneys which may come to his hands under color of his office.
§ 9. This act shall take effect on the fifteenth day of March, one
thousand eight hundred and seventy.

1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, There is hereby established, in connection with the office of Auditor of Public Accounts, a Bureau, to be designated the “Bureau of Insurance,” which shall be charged with the enforcement of the laws heretofore passed, or which may hereafter be passed, relating to insurance.

§ 2. The Auditor shall appoint some suitable person, skilled as an Insurance Actuary, to take charge of the Bureau of Insurance, who shall be designated “Insurance Commissioner of the State of Kentucky,” who shall hold his office until the expiration of the term for which the Auditor making the appointment shall have been elected, and until a successor has been appointed, unless sooner removed by the Auditor, with consent of the Governor. He shall not be, during his continuance in office, interested in any Insurance Company, except as a policy-holder.

§ 3. The Insurance Commissioner shall receive an annual salary of $4,000. There shall also be paid the sums necessary to secure the clerical and actuarial assistance necessary to the discharge of all the duties devolving by law on the Bureau or the Commissioner.

§ 4. The State shall not be responsible for the expense of the establishment and future management of the Insurance Bureau, but the same shall be provided for and paid by the fees and allowances named in this act.

§ 5. The Commissioner may appoint a clerk to assist him in the duties of the Bureau, who shall receive a salary of $2,000 per annum. The salaries of the Commissioner and his clerk shall be paid monthly out of the Treasury of the Commonwealth, out of the insurance fund, in the same manner as other salaries are paid. The Auditor shall assign other clerks to aid the Commissioner when it may become necessary.
§ 6. The Commissioner shall appoint one of his clerks to be his deputy, who shall possess the powers and perform all the duties attached by law to the office of principal, during a vacancy in such office, and during the absence or inability of his principal. The principal Commissioner, and his deputy, and any person authorized by them to perform a special duty, shall be empowered to administer oaths in the discharge of their several duties.

§ 7. The Commissioner and his deputy, before entering on the discharge of their duties, shall take and subscribe the oath of office prescribed by the Constitution and laws of this State, which shall be filed and preserved in the office of the Secretary of the State; and the Commissioner shall also execute a bond, with sufficient sureties, to be approved by the Governor, in the penal sum of $20,000, for the faithful discharge of all the duties of his office.

§ 8. The Commissioner shall visit and examine any Insurance Company incorporated in this State, on requisition by five or more persons, each of whom is a stockholder or creditor, or pecuniarily interested in such company; which requisition shall contain a statement made under oath, by the five or more persons making it, that they believe the company to be in an unsound condition, and shall state the grounds of such belief; and also whenever he deems an examination necessary, or suspects the correctness of any annual statement, or that the affairs of any company making such statement are in an unsound condition. At such times he shall have access to its books and papers, and shall thoroughly inspect and examine all its affairs, and make inquiries such as are necessary to ascertain its condition and ability to fulfill its engagements, and whether it has complied with all the provisions of law applicable to its transactions.

§ 9. He may, whenever he deems it necessary, or when requested, as in the preceding section, examine into the affairs and condition of any Insurance Company doing business in this State, not organized under the laws of this State, or cause such examination to be made by some person not connected with any Insurance Company, appointed by him; and whenever it shall appear to the satisfaction of the Commissioner that the affairs of any such company are in an unsound condition, or not conformable to any standard adopted by this Commonwealth, or if any such company shall refuse to permit the examination herein designated, the Auditor, at his request, shall revoke all certificates granted in behalf of such company, and shall cause a notification thereof to be published in some newspaper of general circulation published in this State; and all agents of such company are, after such notice, required to discontinue the issuing or delivering of any new policy, or the renewal of any previously issued, or the effecting in any form of any new insurance for or on account of such company, under a penalty of five hundred dollars for each offense.

§ 10. He may summon and examine, under oath, the directors, officers, and agents of any Insurance Company, and such other person as he may think proper, in relation to the affairs, transactions, and condition of said company. Whoever, without justifiable cause,
refuses to appear and testify when so required, or obstructs the Commissioner in the discharge of his duty, shall, for each offense, be punished by a fine not exceeding one thousand dollars, or by imprisonment not exceeding one year; and if the directors, officers, or agents of any Insurance Company not incorporated by the Commonwealth of Kentucky, but transacting business therein, shall refuse to appear and testify when so required, the Auditor shall, on requisition of the Insurance Commissioner, revoke the certificate of authority and license of such company and its agents.

§ 11. When, in his opinion, an Insurance Company, its officers or agents, have violated any law of this State relative to such company, the Commissioner shall forthwith report the facts, with the testimony reduced to writing, and signed by the witness, upon which his opinion is founded, to the Auditor, who shall give notice of the same to the Attorney General, whose duty it shall be at once to prosecute such company, officer, or agent, therefore: Provided, That, upon the examination of the testimony, he shall deem such prosecution proper.

§ 12. He shall annually, in September, furnish to the Insurance Companies of this State, and to the agents of Insurance Companies not incorporated in this State, and doing business therein, so far as their agents are known to him, two or more printed copies of the forms of annual returns to be made to him by all such companies.

§ 13. Upon some day in each year designated by him, the Commissioner shall calculate the existing values of all outstanding policies of life insurance in companies authorized to make insurance on lives in this State, according to the standard designated and established by the laws of this State: Provided, however, That if any company incorporated by any State where a regularly organized insurance Bureau or Department exists, shall furnish a certificate under seal, in due form, of the Insurance Commissioner or superintendent, setting forth the existing values of all its outstanding policies, such certificate shall be received as evidence by the Insurance Commissioner of this Commonwealth, and no valuation of the policies of such company shall be made by him. The cost of making every valuation under this section shall be assessed on the company whose policies are so valued.

§ 14. The Commissioner shall annually, at the earliest practicable date, after the returns are received from the several Insurance Companies doing business in this State, make a report to the Auditor of their condition, with such suggestions as he deems expedient, and shall include therein an aggregate of the calculated values of all outstanding policies of life insurance ascertained by him, in the manner prescribed in the preceding section; and in connection therewith, shall prepare an abstract of all returns and statements made to him by such Insurance Companies and agents. One thousand copies of such reports shall be published by the State, subject to the order of the Auditor, and at the expense of the Insurance Bureau. The Auditor shall place the same before the Legislature, with an account of the receipts and expenses of the Bureau.
§ 15. The Commissioner shall keep and preserve, in a permanent form, a full record of his proceedings, including a concise statement of the condition of each company visited or examined by him.

§ 16. The records of the said Insurance Bureau shall, at all times, be open to the inspection of the public, subject to such rules as may be made by the Commissioner for their safe-keeping, free from any charge whatever; and he shall, on demand, furnish certified copies of any paper, report, or document on file in his office to any person requesting the same, upon payment of the fees allowed by law.

§ 17. The said Commissioner shall, immediately upon obtaining a suitable office, which the Auditor shall provide and cause to be furnished and supplied with a suitable fire-proof vault and burglar-proof safe, apply to the Secretary of State, Auditor, and Treasurer, and any and all other persons or officers, for all books, papers, documents, and records pertaining to the subject of insurance now on file or kept in their offices, and shall deposit and safely keep the same in his office. In case any of the records are contained in books devoted to other purposes, the officer having charge thereof shall deliver to him a certified copy thereof; and every Commissioner shall, upon retiring from office, deliver to his qualified successor the possession of his office, and all furniture, papers, and property belonging to the same.

§ 18. The Auditor, with the approval of the Governor, shall devise a seal, with suitable inscription, for the Bureau of Insurance; a description of which, with a certificate of approval by the Governor, together with an impression thereof, shall be filed in the office of the Secretary of State; which seal shall thereupon be and become the seal of the Insurance Bureau, and the same may be renewed whenever necessary. Every certificate, assignment, or conveyance, executed by the Auditor, or the Commissioner, relating to the business of insurance or an Insurance Company, in pursuance of authority conferred by law, and sealed with said seal of office, shall be received as evidence, and may be recorded in the proper recording office, in the same manner and with the same effect as a deed regularly acknowledged or proved before an officer authorized by law to take the proof or acknowledgment of deeds; and all copies of papers in the office of said Bureau, certified by the Auditor or Insurance Commissioner, and authenticated by the said seal, shall, in all cases, be evidence equally and in like manner with the original.

§ 19. There shall be collected and paid to the Auditor and Commissioner the following fees and allowances, viz:
To the Auditor for ex-officio services to be rendered by him:

Said judge shall possess the same qualifications as circuit judges, and shall receive an annual salary of two thousand dollars. He shall be a conservator of the peace, and shall be commissioned and qualified in the same manner as circuit judges are, and shall be subject to impeachment and removal from office by address in like manner, and for like causes. Shall have like powers out of term time as a circuit judge, and shall have power to appoint examiners in said county, and to license attorneys to practice in any of the courts of this Commonwealth. Vacancies in office shall be filled by the appointment of the Governor; and in said court the same rules of practice shall be observed; and the same fees charged by its officers, as far as is applicable, as in circuit courts. Said court shall have a seal bearing its name and the arms of the Commonwealth.

§ 2. The said court of common pleas shall have original jurisdiction of all civil business by ordinary and equitable action, or by special proceedings, of which the circuit courts of this Commonwealth have, by law, jurisdiction, but shall not have any criminal or penal jurisdiction. Said court shall have the same appellate jurisdiction that circuit courts have in civil actions, and traverses of forcible entry and detainer; and bonds to suspend the sale of property under execution, or attachment, or distress warrant, attachment for rent, shall be taken to and tried in the said court, in the same manner that they are now tried and disposed of in circuit courts: Provided, however, That nothing in this act shall be construed so as to make the jurisdiction hereby conferred on said court exclusive; but the same is declared to be concurrent with the Fayette circuit court.

§ 3. The sheriff of Fayette county shall perform all the duties in all cases and proceedings in said court, which, by law, he is required to perform in the Fayette circuit court. And the clerk of the Fayette circuit court shall be ex-officio clerk of said court; and he shall receive for his services in said court the same fees as he is, by law, allowed for similar services in the circuit court; and his fees shall be collectable in the same manner, and he shall be responsible on his official bond for the faithful discharge of his duties as clerk of said court, in the same manner and to the same extent as he would, by law, be lia-

The jailer of Fayette county shall perform the same services in civil cases, and also in attending the court, as he is by law required in the circuit court. The provisions of the Revised Statutes, and the amendments thereto, regulating the election and qualification of pro tempore judges of the circuit courts, shall regulate and govern the election and qualification of pro tempore judges of the said court of common pleas: Provided, That in the absence or incapacity of the judge of said court to sit, the judge of the circuit court may act as judge pro tempore; and in the absence or incapacity of the judge of the circuit court to sit in the circuit court of Fayette county, the judge of the court of common pleas may act as judge pro tempore of said circuit court.

§ 5. The judge of said court shall have the same power to grant and try writs of habeas corpus, mandamus, and writs of prohibition, as circuit courts and circuit judges of this Commonwealth have; changes of venue may be had from circuit courts to said court of common pleas; and from said court of common pleas to circuit courts, in the manner provided by law for change of venue in the circuit courts.

§ 6. That any party to any action now or hereafter pending in the Fayette circuit court, may, by his written request to the clerk of said court, to be made at least ten days before it would stand for trial in the Fayette circuit court, have the same transferred to the court of common pleas; which action, so transferred, shall proceed in said court to final trial and judgment, in the same manner as if it had been originally instituted in said court of common pleas.

That where causes have been once thus transferred from one court to
the other, no second order of transfer shall be made unless with the
consent of all the parties to the action.

§ 8. The law regulating the selecting, summoning, and empaneling
petit jurors in the circuit court of this State, shall regulate the select-

tinue eighteen juridical days, if the business shall require it; and
on the third Monday in January, March, May, September, November,
and December, to continue each for six juridical days, if the
business be necessary; and the judge shall have power to call such
special terms as the business of the court shall require. Five days'
notice of a special term, posted up at the court-house door in Lex-

Commonwealth, shall execute all precepts, summons, orders, and
writs of execution, or other process which, to them, shall be directed

responsible for all neglects, disobedience, or breach of duty in re-
gard thereto, as for the like neglect, disobedience, or breach of duty
in regard to similar process issued from the circuit court of this
State; and said officers shall receive the same fees as for similar
services in the circuit courts. The judge of said court shall have
the same power to punish for contempts that the circuit judges
have.

§ 11. The clerk of the said court shall procure all the necessary
well-bound books similar to those used in the circuit court, in which
shall be kept the minutes, records, and proceedings of said court;
which books shall be paid for out of the Public Treasury in the same
manner as record books for circuit courts are now paid for. All fees
to any officer for any service performed in said court of common
pleas, shall be due and payable and collectable under existing laws.

§ 12. By consent of all the parties, any action which may now or
hereafter be pending in any of the circuits courts of the tenth judi-
cial district, may be transferred to the court of common pleas for
Fayette county, and there proceed to final trial and judgment as if
originally brought in said court. In all cases where changes of
venue in civil cases are ordered to Fayette county, the change shall
be to the court of common pleas, unless the parties consent other-
wise.

§ 13. The salary of said judge shall be two thousand dollars per
annum, which shall be paid out of the Public Treasury in the man-
ner now provided by law for the payment of circuit judges.

§ 14. The master commissioner of said court shall be appointed by
the judge only, on the petition in writing of a majority of the resi-
dent practicing attorneys of said court. He shall hold his office for
a term of six years, subject to a right of the judge to remove him:
Provided, however, That the present master commissioner of Fayette circuit court shall be ex-officio master commissioner of the court of common pleas, so long as he remains master commissioner of said court. Any party interested in said funds shall have a right of action on said bond for a breach of its conditions. And the court shall have power, by rule and attachment against the receiver and his sureties, to enforce obedience to its orders to pay money, and make good any deficit in the moneys which shall or may have come to his hands.

He shall send with such blanks proper instructions, showing how they are to be filled, so as to give correct returns of the facts desired to be collected.

2. He shall receive from the Auditor of Public Accounts the Assessor's books pertaining to marriages, births, and deaths, and make from them tabular statements, showing, in a condensed form, the information herein required to be collected, keeping the statistics of each county separate. He shall add to this report such practical remarks as may seem to be proper, and have fifteen hundred copies printed for general distribution. He shall send to each physician, surgeon, and midwife, who shall make the returns herein required of them, a copy of each annual report, neatly bound, at the expense of the State.
3. He shall have the Assessor’s books bound by the Public Binder, in volumes of size suitable for reference; the marriages, births, and deaths to be bound separately, and under each head.

4. He shall attach to each volume of marriages, births, and deaths, an index, containing the name of each person contained therein, the whites, blacks, and mulattoes being set down in separate columns respectively, and shall return these volumes to the Auditor of Public Accounts for careful preservation. These books shall be arranged in alphabetical order of counties: Provided, That whenever the clerk of any county court shall send up his copy so that they can not be conveniently examined after having been bound, then, and in that case, the Registrar shall have such books copied in a proper form, at the expense of the clerk who sent them.

5. He may, from time to time, make such alterations in the forms of blanks as experience shall suggest as proper, and require such additional information as he may consider necessary to effect more perfectly the object of this act.

OF ASSESSORS.

§ II. It shall be the duty of assessors, while they are taking the lists of taxable property, to ascertain, and record in lists furnished by the Registrar for that purpose, all the births and deaths which shall have occurred in their respective counties during the twelve months ending on the thirty-first day of December preceding the time of assessment, together with all items of time, place, etc., herein directed to be inserted in the registries. They shall make strict inquiries of all heads of families, of keepers of hotels, jails, almshouses, and hospitals, the managers of factories, or other public institutions, touching the facts herein required, and shall use the registries of physicians and midwives, in order to obtain and record correctly the information herein required.

2. It shall be lawful for the assessor, when taking the lists of births and deaths of the preceding year, to record any birth or death which may have occurred in former years, or beyond the bounds of this State; but these lists must be entirely separated from those then being regularly taken.

3. He shall return these lists of births, etc., to the clerk of the county court at the time he is now required to return his lists of taxable property. In making these returns, the assessor shall be very careful, in all cases where the number of lists will occupy more than one double page, to have the sheets sewed together in a book before any entries are made, so that there shall be no possibility of having the sheets disarranged in being bound.

OF COUNTY COURT CLERKS.

§ III. The clerk of the county court, in each county of the Commonwealth, shall, before he issues a license authorizing any clergyman or other person to celebrate any marriage, receive from the party applying therefor a certificate, stating the time and place where the marriage is to be solemnized, the name, age, place of birth, parentage of both parties (i.e. whether the parents were born
in the United States or in foreign countries); and the condition (i. e. whether single or widowed) of each of the parties to be married.

2. He shall receive from the assessor the list of births and deaths, and copy the same according to the directions of the State Registrar, and send the copy to the Auditor of Public Accounts, along with a list of marriages made out from his certificates, in the form prescribed by the Registrar, on or before the first day of July (when the tax lists are due), annually; he shall see that the lists of births and deaths, returned by the assessor, shall be in form proper to be readily understood when bound into volumes.

3. He shall cause the lists of births, of deaths, and of marriages to be securely stitched in pasteboard, in separate volumes, convenient for reference, whenever the number of each shall have accumulated so as to form a properly sized volume, taking care that the different years be placed in regular order as to time. He shall attach to each volume an alphabetical index of each name found therein; he shall carefully preserve at least one copy of each annual report in his office for convenient reference; he shall see that all blanks relating to the registration of births, etc., sent to his office by the Registrar, are properly distributed; and he shall deliver to the assessor, along with the blanks prepared for his use by the Registrar, the certificates of physicians, etc., the better to enable him to make a correct list of births and deaths. Along with his copy of the assessor's book, he shall send to the Auditor a statement of the name of each physician, surgeon, and midwife, who shall have complied with the duties required of them by this act.

PHYSICIANS, SURGEONS, AND MIDWIVES.

§ IV. It shall be the duty of each physician, surgeon, and midwife, to keep a registry of all births and deaths at which he or she shall have professionally attended, showing, in case of births, the date and place of birth, the color and sex of the child, the name, if known; whether it was born alive or dead; the residence and nativity of the parents; the name and surname of the father, and the maiden name and surname of the mother, and the occupation of the father: Provided, That when the child is illegitimate, the name of the mother shall only be given: And provided further, That when two or more physicians, surgeons, or midwives may have attended professionally at any birth, that one longest in attendance shall make the registry.

2. And in case of a death, showing the name, age, sex, color, condition (i. e. whether single, married, or widowed), place of birth, residence, and occupation of the deceased, and the cause of death, together with the names and surnames and the nativity of the parents: Provided, That when more than one physician or surgeon shall have been in attendance at the time of death, the registry shall be made by him longest in attendance.

3. The registry of each birth or death shall be filed with the clerk of the county court of the county in which it occurred, on or before the 10th day of January next succeeding.

4. The owner or keeper of every house, jail, penitentiary, factory, almshouse, hospital, steamboat, or other public institution, shall be
particular to furnish to the assessor a correct list of every birth or death which may have occurred therein, with all the items herein required.

5. To enable the assessors to collect full and correct information touching these facts, they shall have full power to swear and interrogate any person in their respective counties for this purpose; and it shall be the duty of all persons, with or without oath, when thereto required by the assessor, to give him fully and truly all information in his power touching these facts.

6. The lists of marriages, births, and deaths on file in the clerk's office, as also the copy of those lists furnished to the Auditor of Public Accounts, or a duly certified copy of the record of any marriage, birth, or death, from either of them, given and certified by the keeper of such record, shall hereafter be admitted and received in all courts in this Commonwealth as *prima facie* evidence of such marriage, birth, or death therein recorded or certified: *Provided, however,* That this section shall not apply to any marriage, birth, or death which may have occurred beyond the bounds of this Commonwealth.

**FEES.**

§ V. The Registrar shall receive for his services, for superintending the whole subject of registration, and for making the annual report, the sum of two thousand dollars, to be paid annually out of the State Treasury, upon the completion of the report. The clerks of county courts shall receive the same pay for copying the lists of marriages, births, and deaths, and transmitting them to the Auditor, as they receive for copying and forwarding the lists of taxable property; their fees to be paid out of the State Treasury. The assessor shall receive three cents for each list faithfully recorded in the regular discharge of his duty, and three cents for each birth or death which shall have occurred in former years, or in families then residing beyond the limits of the State; to be paid out of the State Treasury, except as hereinafter provided. This last price shall be paid by the person at whose instance the entry is made.

2. All blanks necessary for the carrying out of this law shall be furnished at the expense of the State.

3. Any person failing to discharge any of the duties required by this act shall, for every such failure, be fined a sum not less than ten or more than twenty dollars, by warrant before a justice of the peace, or by presentment by the grand jury; and it shall be the duty of the judges of all circuit courts to give this act in charge to the grand jury.

WHEREAS, On the first day of the present session of Congress, two bills were introduced and read in the Senate of the United States, one by the Senator from Missouri, Mr. Drake, entitled “A bill further to define and regulate the jurisdiction and powers of the courts of the United States,” and reads as follows:

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That no court created by an act of Congress, or judge thereof, shall have power in any case to adjudge or hold any act or joint resolution of Congress invalid, in whole or in part, for any supposed repugnancy between such act or joint resolution and the Constitution of the United States, or for any supposed want of authority in said Constitution for the same; nor shall the appellate jurisdiction of the Supreme Court of the United States be construed to authorize that court, in any case now pending or hereafter brought before it, to affirm any order, judgment, or decree of any inferior United States Court, or of any State Court, which shall appear to have been based upon any such adjudging or holding; but every such order, judgment, or decree, shall for that cause be reversed, vacated, and annulled; nor shall any justice of said Supreme Court, in furtherance of the exercise of such appellate jurisdiction, make any order, or authorize or issue any writ or process, or take any proceeding based upon any such adjudging or holding by him or by the said Supreme Court."

The other, by the Senator from Massachusetts, Mr. Sumner, entitled “A bill in relation to the appellate jurisdiction of the Supreme Court of the United States in certain cases,” and reads as follows:

"Be it enacted, &c., That all appellate jurisdiction of the Supreme Court of the United States, in causes or proceedings commenced by the writ of habeas corpus, is hereby repealed and abolished.

"Sec. 2. And be it further enacted, That this act shall take effect from and after its passage."

And whereas, said bills, if adopted by Congress, will, as we believe, at once render the Supreme Court of the United States powerless as an efficient co-ordinate department of the Government; remove from the President the only shield and defense provided by the Constitution for the protection of the executive against the encroachments of the legislative department; deprive the free citizen of the protection of the writ of habeas corpus now extended to him by law, and practically, if not absolutely, abolish the cardinal principles of the organic law, and substitute, in stead, the mere will of Congress as the supreme law of the land; therefore,

1. Resolved by the General Assembly of the Commonwealth of Kentucky, That, regarding the Constitution of the United States as the palladium of our rights, the Supreme Court of the United States, ordained
and established thereby, as the sheet-anchor of the Republic, and the great writ of habeas corpus as the bulwark of personal liberty, we do hereby repudiate and denounce said bills as infractions of the Constitution, encroachments on the executive and judicial departments of the Government, destructive to personal liberty, and subversive of the free institutions won by the blood and secured to us by the wisdom of our fathers; that we protest against their passage by Congress, and call upon the Legislatures and the people of all our sister States to unite with us, by petition and remonstrance, in resisting the passage of said bills, and any and all others of a like iniquitous character.

2. Resolved, That the wisdom, strength, and chief glory and excellence of our system of government consist in its checks and balances, in the proper distribution of its powers between the legislative, executive, and judicial departments; and any law, rule, regulation, or ordinance, increasing the powers of one at the expense of the others, would mar the beauty of the whole fabric, be a step towards consolidation, fatal to liberty, and destructive of the wise and good ends for which the Government was instituted.

3. Resolved, That our Senators in Congress be instructed, and our Representatives requested, to vote against the bills in question, and use all honorable means to defeat the passage of the same.

4. Resolved, That His Excellency the Governor transmit, or cause to be transmitted, a copy of the foregoing preamble and resolutions to each of our Senators and Representatives in Congress, and to each of the Governors of the several States in the United States, with the request that they be laid before their respective Houses and Legislatures.

Said preamble and resolutions were concurred in.

Mr. Furber then moved to reconsider the vote by which said preamble and resolutions were concurred in.

And the question being taken on the motion of Mr. Furber, it was decided in the affirmative.

And so said vote was reconsidered.

The question was then again taken on concurring in said preamble and resolutions, but no quorum voting thereon, the same were placed in the orders of the day.

The yeas and nays being required thereon by Messrs. Adams and Little, were as follows, viz:

Those who voted in the affirmative, were—

William Adair, J. C. DeMoss, James A. McKenzie,
Ervin Anderson, D. E. Downing, Thomas H. Moss,
P. W. Barron, John Duvall, Edward Myall,

103-H. R.

And then the House adjourned.

A message was received from the Governor by Mr. Samuels, Assistant Secretary of State, which was taken up and read as follows, viz:

EXECUTIVE OFFICE, 19th March, 1870.

Gentlemen of the House of Representatives:

I herewith return a bill, entitled "An act to protect the owners of stock on the Mobile and Ohio Railroad."

Having already signed a bill, which is now a law, extending the provisions of this act to the engineers upon all railways in this Commonwealth, I have deemed it improper to approve this bill, and therefore withhold my assent as wholly unnecessary, since the objects of the bill I return are fully provided for by the general statute, passed at your present session, and approved 15th March, 1870.

J. W. STEVENSON.

The bill referred to in said message reads as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That hereafter, whenever any engineer upon the Mobile and Ohio Railroad shall willfully, or by reason of negligence on his part, kill or cripple any live stock by any train or locomotive in his charge as such engineer, he shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than $10 nor more than $200, upon the indictment of a grand jury, or confined in the county jail not exceeding three months, or both so fined and imprisoned, at the discretion of a jury.
§ 2. That any justice of the peace, county or police judge, in the counties of Hickman or Fulton, upon complaint made to him, on oath, by any person, that the provisions of the first section of this act have been violated, shall issue his warrant for the arrest of said engineer, and when brought before him, shall hear proof, both for and against the accused; and if, upon hearing said proof, he shall have reasonable grounds for believing that the offense described herein has been committed, he shall require a bond, with good security, for the appearance of the accused in the next circuit court to be held for said county, to answer any indictment that may be found against him in a sum to be fixed by said justice or judge; and in default of giving said bond, shall, by warrant, commit the accused to the custody of the jailer of said county until the next term of said circuit court.

§ 3. That this act shall be given in charge to each grand jury hereafter empaneled in the counties of Hickman and Fulton.

§ 4. That this act shall take effect from and after the first day of April, one thousand eighteen hundred and seventy.

A message was received from the Governor by Mr. Samuels, Assistant Secretary of State, which was taken up and read as follows, viz:

EXECUTIVE OFFICE, 19th March, 1870.

Gentlemen of the House of Representatives:

I herewith return a bill, which originated in your body, entitled "An act for the benefit of J. C. Calhoun, sheriff of McCracken county."

It extends to him further time until 10th June, 1870, to collect and pay over the revenue for the year 1869, and for returning his delinquent list.

I deem the relief sought by this character of legislation partial, mischievous, and unjust. Its direct tendency in the past has been to encourage official delinquency and neglect in the discharge of official duty. Litigation and immense pecuniary loss, amounting to nearly a million of dollars in the revenue receipts of the Commonwealth during the past ten years, illustrates the impolicy of such legislation. The period fixed by the general law for the payment of the revenue into the State Treasury should operate upon all public officers equally. Special exemptions are unwise, and if indulged in, must be followed by pecuniary embarrassment in our State finances.

If this act be passed, fifty applications for similar extensions will be sought at your next session, and our annual receipts of revenue will be diminished to the extent of the relief granted. Besides, what inducement is there for punctuality on the part of the collectors of the revenue in its collection, if delinquent sheriffs know that legislative exemption can be obtained by bills like this? Extend the relief to all the sheriffs, or to none, except in extreme cases of accident, civil commotion, or other extraordinary contingency demanding an exception.

I avail myself of this occasion, when the General Assembly is about to close its session, to invoke their calm and enlightened consideration to the impolicy of permitting individual sympathy to over-
ride the general and well-considered requirements of law for the prompt collection and payment by all officers of the annual revenues of the Commonwealth.

Enforce the penalties wherever a failure occurs; make the penalties equal, just, and uniform in their operations, and you will have abundant revenue, which will be promptly paid. A contrary policy of individual exemption to officers who are careless and backward in their collections, and serious pecuniary embarrassment will follow.

Regarding this bill as a precedent for dangerous and impolitic legislation, I am constrained, by a sense of official duty, to withhold my assent to its becoming a law.

J. W. STEVENSON.

The bill referred to in said message reads as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That J. C. Calhoun, sheriff of McCracken county, be allowed the further time until the tenth day of June, eighteen hundred and seventy, next, to return his delinquent list, and collect and pay over the revenue for the year eighteen hundred and sixty-nine.

§ 2. This act to take effect from and after its passage.

A message was received from the Governor by Mr. Samuels, Assistant Secretary of State, which was taken up and read as follows, viz:

EXECUTIVE OFFICE, 19th March, 1870.

Gentlemen of the House of Representatives:

I herewith return a bill, which originated in your House, entitled "An act for the benefit of H. B. Elrod, of Warren county."

It exempts him from the payment of all corporation tax from the town of Bowling Green.

The operation of this exemption is not limited.

If the General Assembly can exempt one man from the payment of a municipal tax, it can exempt him from all taxes. If it can exempt one citizen, it may exempt twenty. The result follows, if such a power exists, it would be competent for the Legislature to make one portion of the community bear the burden of the entire revenue of a city or of the State.

The Bill of Rights in the Constitution of Kentucky forbids, in my opinion, the exercise of such power by the legislative departments. Its implicit enunciations are, "that all freemen, when they form a social compact, are equal, and that no man, or set of men, are entitled to exclusive separate public emoluments or privileges from the community but in consideration of public service."

No such ground of exemption is set out in this bill. None such, I apprehend, exists.

Grant the power to exempt one or more from their just liability to contribute to the State a municipal revenue, and the General Assembly is directly clothed with the absolute arbitrary power over the property of a portion of the people to the exclusion of others, which right exists nowhere in a Republic, not even in the largest majority.
It is expressly prohibited by the Kentucky Constitution. Resist, at all times, the slightest encroachment upon the letter and spirit of that instrument.

Whilst disclaiming against invasions of our Federal charter, let us prove ourselves worthy of the high character of enlightened freemen by setting the example of a faithful observance of all the mandates of our own State Constitution. I, therefore, must withhold my assent to the bill.

J. W. STEVENSON.

The bill referred to in said message reads as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That H. B. Elrod be, and he is hereby, exempted from the payment of all corporation tax of and for the town of Bowling Green.

§ 2. This act shall take effect from and after its passage.
