Appeared in their Hall, produced certificates of their election, took the oath required by law, and constituting a quorum, proceeded to legislative business.

When the counties of Boyd and Carter (which, with a part of Elliott county, constitute one legislative district) were called, Mr. Mordecai Williams presented and laid on the Clerk's table the following papers, viz:

"The Commonwealth of Kentucky, etc.:

"We, R. B. McCall, deputy sheriff, for John J. Kouns, sheriff of Boyd county, and Stephen Nethercutt, sheriff of Carter county, Ky., duly authorized to compare the election returns for the counties of Boyd and Carter, and for districts Nos. 3, 4, and 5 of Elliott county, being that part of said county taken from Carter county that votes with Carter and Boyd counties for Representatives to the General Assembly, do certify that, at an election held in said counties, and said districts of Elliott county, on the 7th day of August, 1871, upon due comparison of the returns and certificates of said election, find that Mordecai Williams and W. W. Culbertson have received the highest and an equal number of votes for Representative to the General Assembly, viz: 1504 votes each; and we have determined the same by lot in the presence of more than three persons; and upon a fair and impartial ballot, in a manner agreed upon and determined by us, do certify that Mordecai Williams is duly elected to fill the office of Representative to the General Assembly of the Commonwealth of Kentucky.

"Given under our hands this 14th day of August, 1871.

"[Signed] R. B. McCall, Dep., for

"John J. Kouns, S. B. C."

"Commonwealth of Kentucky, Boyd County:

"We, R. B. McCall, deputy sheriff, for John J. Kouns, sheriff of Boyd county, and Stephen Nethercutt, sheriff of Carter county, Ky., duly authorized to compare the election returns for the counties of Boyd and Carter, and for districts Nos. 3, 4, and 5 of Elliott county, being that part of said county taken from Carter county, and that, according to an act of the last General Assembly, votes with Boyd county and Carter county for Representative to the General Assembly, do certify that, at an election held in said counties, and part of said Elliott county aforesaid, on the 7th day of August, 1871, upon due comparison of the returns and certificates of said election, we find that W. W. Culbertson and Mordecai Williams have each received the highest and an equal number of votes for Representative to the General Assembly of the Commonwealth of Kentucky, viz: W. W. Culbertson 1,504 (one thousand five hundred and four) votes, and Mordecai Williams 1,504 (one thousand five hundred and four) votes, each. We agreed to decide who was elected by lot, as follows: Four
similar tickets were to be placed in a hat, on two of which said Culbertson's name should be written, and upon the other two said Williams' name should be written in like manner; the one whose name was drawn twice first should be the Representative. Nethercutt proposed that they blindfold a man, and let him draw after he, Nethercutt, had examined the tickets. Said Stephen Nethercutt then demanded, several times, permission to examine the tickets, which had been prepared in another room by another party, and was told each time by the party who prepared them, and said McCall, that he could see them after they were drawn. This Nethercutt declined, and then put his hands in the hat and picked up the ticket to examine it and see if it was fair, as he had said he wanted to. As soon as he picked it up R. B. McCall took it from his hand and unfolded it, and said it was for Williams, and that it was a draw. Sheriff Nethercutt said that it was not a draw; that he only wanted to look at the ticket to see if it was all right; and that he did not pick it up for the purpose of drawing. McCall insisted that he proceed. He said he would examine the tickets, and would draw, but would not be treated that way. They waited some time, Nethercutt wishing to examine the tickets and then draw, McCall wishing the above to be counted a draw. Then McCall said: 'Captain Nethercutt, I will exhibit the tickets.' Nethercutt said he was wishing to draw fair, but would not agree to that way of drawing. McCall pulled out two more tickets, on each of which he said Culbertson's name was written. This was in the presence of more than three persons; and if it amounted to a draw or decision by lot, we hereby certify that W. W. Culbertson is duly elected to fill the office of Representative to the General Assembly of the Commonwealth of Kentucky from the said counties, and part of said county. If it did not amount to a draw, then we certify that it is a tie.

"Given under our hands this 14th day (being first Monday after the said election) of August, 1871.

Mr. Chrisman called for a division of the question.

Pending the consideration of said resolution,

On motion of Mr. Bascom, the House adjourned until to-morrow morning at 10 o'clock.

WEDNESDAY, DECEMBER 6, 1871.

A message was received from the Senate, announcing that they had met in their Chamber, and having a quorum present, had elected their officers, and were ready to proceed to legislative business.

Mr. Hoskins offered the following resolution, viz:

Resolved, That a committee of three members of this House be appointed by the Speaker to wait upon the Senate and inform them that a quorum of this House being present, had duly organized, and were ready to proceed to legislative business.

Which was adopted.

And thereupon the Speaker appointed on said committee Messrs. Hoskins, Griffith, and Deaderick.

The House then took up the resolution offered by Mr. Graves on yesterday.

Mr. Cooper offered the following amendment by way of substitute for the original resolution, viz:

Resolved, That a committee of five be appointed to revise the rules of this House, and until they report, the rules adopted at the session of 1869-'70 be adopted.

The question was then taken on the adoption of the amendment proposed by Mr. Cooper, and it was decided in the affirmative.

Said resolution, as amended, was then adopted.

A message was received from the Senate, announcing that they had appointed a committee, to act in conjunction with a committee of this House, to wait upon the Governor, inform him of the organization of both Houses, and that they were ready to receive any communication he may be pleased to make to them.

Mr. Varnon offered the following resolution, viz:

Resolved, That a committee of three be appointed to wait upon the Governor, inform him that this General Assembly is now organized, and ready to receive any communication he may have to make, after having first advised the Senate of their appointment for this purpose,
and that they act in conjunction with the committee appointed by the Senate.

Which was adopted.

And thereupon the Speaker appointed Messrs. Varnon, Todd, and Chrisman on said committee.

And after a time the committee returned into the House, and Mr. Varnon, from the same, reported that they had discharged the duty assigned them, and were informed by the Governor that he would shortly transmit to each House a communication in writing.

Mr. McAlee offered the following resolution, viz:

Resolved, That the Sergeant-at-Arms furnish each member of this House with two newspapers, to be selected by the members respectively.

Mr. Cooper moved to amend said resolution by striking out the word "two" therein, and inserting in lieu thereof the word "three."

And the question being taken on the proposed amendment, it was decided in the negative.

Said resolution was then adopted.

The Speaker laid before the House the following communication, viz:

St. Louis, Mo., December 3, 1871.

To the Speaker of the House, Kentucky Legislature:

Fellow-Citizens of the Senate and House of Representatives:

In greeting you for the first time as the Governor of the Common-wealth, called by the partiality of her people to the discharge of Executive duties, I congratulate you upon the comparative prosperity of the State, and its exemption from many of the evils to which others less favored by Providence have been subjected. While in the interval since the adjournment of the last General Assembly war and internal strife have scourged a part of Europe, our own country has enjoyed peace—and while pestilence and famine have been the lot of some, health and plenty have blessed our land. In some of our sister States fires have desolated cities and fields, while to us a merciful Providence has extended His protecting care in this as in all things relating to our material welfare.

In other respects we have been equally favored. Our progress as a State has been steady and healthful. New avenues of trade and travel have been opened, and others are being successfully prosecuted to completion. Our schools have prospered, and the interests of education have been advanced under our recent enlightened and fostering legislation. Society is recovering from the pernicious effects of the late civil war, and there is a growing respect for law and a corresponding decrease of disorder. Our financial condition, as compared with that of the Federal or State Governments, is gratifying, and the burdens of taxation are not severe. It is, therefore, with unfeigned pride and gratulation that I greet you, and suggest for your consideration some of the matters which occur to me as of interest to you and the people.

STATE DEBT.

At the close of the fiscal year ending the 10th day of October, 1870, the entire State debt (exclusive of school bonds) was $1,424,394. On the 10th day of October, 1871, the close of the last fiscal year, the Commissioners of the Sinking Fund had redeemed and canceled, of that amount of outstanding bonds, $356,000—leaving a balance on that day unpaid of $1,068,394.
The bonds outstanding on the 10th of October, 1871, are described as follows:

| Bonds past due | $5,394 00 |
| Bonds maturing in 1871 | $59,000 00 |
| Bonds maturing in 1872 | $226,000 00 |
| Bonds maturing in 1873 | $439,000 00 |
| Bonds maturing in 1874 | 8,000 00 |
| Bonds maturing in 1875 | 20,000 00 |
| Bonds maturing in 1876 | 2,000 00 |
| Bonds maturing in 1877 | 141,000 00 |
| Bonds maturing in 1878 | 162,000 00 |
| Bonds maturing in 1879 | 6,000 00 |

Total: $1,068,394 00

The resources of the Sinking Fund on the 10th of October, 1871, to meet the indebtedness of that date, are as follows:

Deduct outstanding debt on 10th October, 1871: $2,456,494 73

Amount of excess of resources over debt: $1,888,100 72

It will be seen from this statement that I have not included in the estimate of the resources, to pay the outstanding indebtedness of the State, the balance due by the Federal Government for advances made during the war.

This balance, due on account of advancements, as shown by the books of the Third Auditor of the Treasury, as I am assured by the Quarter-Master General of the State, is $1,613,098 51, of which sum $525,258 72 stands adjusted by the accounting officers in the Treasury Department, but which has not yet been paid. Should these
claims, or any part of them, be collected, the resources of the Sinking Fund will be increased to that extent.

| Amount of expenditures from 10th October, 1870, to 10th October, 1871 | $1,288,488.49 |

| Deficit 10th October, 1871                                     | 105,411.86   |

To this deficit should be added unpaid claims against the Treasury for current expenses of the State, estimated by the Auditor at $75,000, and $181,063.33, unpaid appropriations, which swells the deficit on the 10th of October, 1871, to $861,475.21.

The total receipts for the fiscal year ending the 10th of October, 1872, are estimated at $983,028.03, and the total expenditures, estimated for the same period, exclusive of the amount owing to the Sinking Fund, is $1,289,500—leaving, according to these estimates of receipts and expenditures, a deficit in the Treasury at the close of the current fiscal year of $286,471.97.

And if additional appropriations should be made during the sitting of the present General Assembly, this deficit will be increased in that proportion.

That this deficit exists should not be a matter of surprise, in view of the fact that the necessary current expenses of the State have so largely increased since the war.

The necessary annual expenses of the several charitable institutions alone have, within this period, more than doubled. The whole amount expended during the fiscal year ending the 10th of October, 1865, for this purpose, including the cost of conveying pauper lunatics to the asylums, was $104,517.45; whilst the expenses of the same institutions during the fiscal year ending 10th October, 1871, amounted to $243,022.92; showing an increased expenditure for this one purpose, during the last fiscal year, over that of 1865, of $138,505.47.

In addition to this largely increased expenditure for necessary and indispensable expenses, the Legislatures have been compelled, in order to accommodate and supply the wants and necessities of these unfortunate classes of our population, to appropriate from time to
time large sums of money. Within the period stated, $392,133 have been paid out of the public Treasury on account of these appropriations.

The increased expense on account of criminal prosecutions has also been very large. During the fiscal year ending 10th of October, 1865, the cost of prosecuting criminals, including jailers' fees, and rewards paid for apprehending and delivering persons charged with crime, was $86,080 18; whilst the amount paid for similar purposes during the fiscal year ending 10th October, 1871, was $192,002 88; showing an increased expenditure under this head of $105,922 70. These two items of increased annual expenses, with the appropriations aforesaid, aggregate, as will be seen, the sum of $526,561 17, being an amount largely in excess of the existing deficiency in the Treasury, less the amount owing the Sinking Fund for money borrowed.

This subject of recurring annual deficits in the Treasury was considered by the last Legislature. That body, recognizing the superabundance of assets belonging to the State, but dedicated to the exclusive purpose of paying the public debt, and seeing that the debt had been reduced to a merely nominal sum compared to its original magnitude, passed an act, which was approved 7th March, 1871, providing for the sale of those assets, and paying off the public debt, with the view that the excess of moneys—now set apart for sinking fund purposes—might be diverted into the Treasury, and thereby meet the deficiency. In pursuance of the provisions of that act, I appointed Hon. Lyttleton Cooke, of the city of Louisville, agent for the State, to buy in her outstanding bonds. He entered at once upon the discharge of his duties, and his report to me accompanies this message. It will be seen that he could most probably have bought in the entire bonded debt; but it was not deemed prudent to do direct, until it was known that the funds were ready in the hands of the Commissioners of the Sinking Fund to meet and honor his draft. The Commissioners of the Sinking Fund have not, as yet, sold any of the stocks of the State in banks, railroads, &c., referred to, and directed to be sold, in said act. Their report will show that they have made overtures to effect such sale, from time to time, since last spring, but have not been able to do so upon such terms as they thought they ought to accept. They are now engaged in negotiations which promise some success. If these stocks were all sold at their cash value, the amount produced, as is seen from the preceding
statements, would be greatly more than enough to pay the public debt, and meet the wants of the Treasury. Until that is done, it is incumbent upon the Legislature to make other provisions to supply existing deficiencies—a duty which I cannot too strongly urge upon you. Indeed, I regard it of paramount importance that the representatives of the people should not return to their constituencies without being able to say to them that they had provided the means necessary to liquidate every just demand against the Treasury, and thus vindicate the honor and credit of the State. It would be a just cause of reproach if you were to fail to do so, and a great wrong to those who hold claims against the Commonwealth. It is peculiarly within your province to determine the way and manner by which this deficiency is to be provided for; but I respectfully suggest that it may be done in one of three ways: First, by increasing the rate of taxation on the taxable property of the State for a limited time. Second, by increasing and equalizing the valuation of property subject to taxation. Third, by issuing the bonds of the State for an amount sufficient to raise the sum required.

The first two modes, however, in my judgment, are objectionable in this, that if either of them is adopted, the means which are needed now cannot be made available until the revenue of 1872 is collected and paid in, thus compelling a large number of the creditors of the State to wait twelve months for their money, which is now due; besides, since this provision need be only temporary, it would hardly be good policy to raise the people's taxes unless the exigencies were greater.

I therefore recommend that the Commissioners of the Sinking Fund be authorized and empowered to issue the bonds of the State for an amount—say five hundred thousand dollars—bearing a rate of interest not exceeding eight per cent. per annum, payable semi-annually, and due within five years from date, reserving, however, on the face of each bond, the right to redeem them in one year, on giving due and sufficient notice through the public prints. It is confidently believed, that, before these bonds would mature, the entire State debt (exclusive of the school bonds, which are not redeemable), will be fully paid out of the present resources of the Sinking Fund, and a surplus left in the Treasury amounting to nearly, if not quite, $1,500,000, provided the claim against the Government of the United States, for money advanced by this State during the
war, be collected. And when the bonded debt of the State is paid off, it will then be within the power of the Legislature to divert the entire receipts of the Sinking Fund to the relief and in aid of the Treasury, except so much of them as may be necessary to pay the interest on the school bonds.

The Auditor estimates that, after the bonded debt of the State is liquidated, and after all the stocks and bonds held by the Commissioners of the Sinking Fund, as a part of the resources of that Fund, are sold, and the proceeds applied to the payment of the State debt, and after leaving an amount sufficient to pay the interest on the school bonds in the Sinking Fund, there will be then left $250,000 accruing annually, which may safely and prudently be diverted into the revenue proper. This amount, added to the present resources of the revenue, it is believed, will be amply sufficient to meet all ordinary demands against the Treasury.

An act was passed and approved 22d March, 1871, entitled "An act to change the time for the payment of the revenue into the Treasury, and to amend the revenue laws." The effect of this act has already been to increase the embarrassed condition of the finances, by diminishing the receipts into the Treasury at a period of the year when money is most needed, and at the same time retarding the collection of the public revenue. The Auditor informs me that the receipts into the Treasury at the close of last month were $850,000 less than at the same period of time last year. The effect of this act is virtually to extend to the sheriffs and other revenue collectors time until the fourth Monday in June in which to pay into the Treasury the public revenue, inasmuch as no judgment can be taken against them until that time, there being no fiscal court earlier than that date. In my judgment this act is a serious injury to the financial interests of the State, without any corresponding benefit to the people. I therefore recommend its repeal.

The present system of assessment and valuation of the landed property of the State for taxation has been a subject of much thought and reflection with me, and demands most serious consideration at your hands. No system of taxation can be just without being equal, or as nearly so as practicable. It certainly is the wish of all the people of this State to be just to each other, and to have the burdens of taxation equally distributed. Yet this is far from being so. An examination of the Auditor's Report will show how unequal
and unjust are the present assessed values of the lands of the State. In some few counties they seem to be valued full high, whilst in a great majority of the counties they are assessed at an average rate not exceeding half their value. I most respectfully call your attention to this evil, and recommend that you pass some act which will secure its correction.

It will doubtless become your duty to make appropriations of various sums of money from the public Treasury during your term of office. I shall cheerfully co-operate with you in all proper and just appropriations, yet I urge the strictest economy in all such legislation; and I especially recommend that no bill be passed appropriating money without providing for its payment. The good old rule, "pay up as you go," applies as well in legislation as in private affairs.

THE CLAIM UPON THE GENERAL GOVERNMENT FOR EXPENSES INCURRED BY THE STATE IN DEFENCE OF THE UNITED STATES.

This claim, commonly known as the "Kentucky War Claim," has not as yet been paid. Proper vouchers to the amount of five hundred and twenty-five thousand two hundred and fifty-eight dollars and seventy-two cents ($525,258.72) have been settled and passed upon by the proper accounting officers of the Treasury of the United States, as required by the act of Congress, approved 27th day of July, 1861; and the Secretary of War drew his requisition for a warrant in favor of the State for that amount on the 30th day of June last. The Secretary of the Treasury of the United States declined to comply with this requisition, for the reason, as alleged by him, that the claim did not come within the provisions of certain rules adopted by his predecessor, which he did not feel himself justified in setting aside. It is to be regretted that the Secretary felt himself constrained to abide by the construction of the act of Congress, as set forth in these rules; but he has announced that his opinion, as given, "must be considered as the final disposition of the case, so far as the Treasury Department is concerned." Under this decision the only alternative left to the State was to appeal to Congress or the Supreme Court of the United States. The latter was adopted, and that tribunal now has the case under consideration. It is to be hoped that their judgment will be favorable to the State. Should it, however, prove otherwise, the only means left will be an application to Congress. As the claim is admitted to be just, and as the Secretary of
the Treasury has only declined payment on account of what he conceived to be a proper regard to the rules adopted by his predecessor, I cannot entertain a doubt but that the Congress of the United States, actuated by that spirit of justice and magnanimity becoming a great government, will speedily provide, by proper enactment, for the payment not only of the amount already settled, but for the entire claim.

SALE OF TURNPIKE STOCK.

The last Legislature passed an act directing the Commissioners of the Sinking Fund to sell the stock owned by the State in turnpike roads, but provided that they should first ascertain its probable value, and then that the sale should secure at least two hundred thousand dollars. In accordance therewith the Commissioners appointed an agent, whose report is now on file in their office, showing the proximate value of the stock. They have also caused advertisements to be published, and are endeavoring to effect the sale as the statute directs. A further communication on this subject will be laid before you within this session.

LAW AND ORDER.

That there has been, in certain localities within the State, a degree of disorder and a reckless disposition to disregard and defy the law, is a fact which requires consideration. Just what the Legislature can, or ought to do, to remedy this evil, it is difficult to determine. There are already upon the statute books of the State ample laws, with adequate penalties, for all crimes and misdemeanors. The difficulty lies not in the want of penal statutes, but in their enforcement. Upon both these points much unjust criticism has been indulged, toward both the Legislature and the civil officers of the State. The lawlessness has, in some instances, assumed an organized form, executing its violence and perpetrating its acts under cover of the night, by bodies of men too powerful to be resisted by the citizens, and so disguised that they cannot be recognized and brought to trial for their misdeeds; and thus are enabled to defy both the law and its officers. This state of things is to be deeply deplored, and should be corrected as speedily as possible. There is no safety to the public peace but in the observance and enforcement of law, and the whole power and force of the Commonwealth, if need be, should be exerted for the protection of her humblest citizen. The mob,
when once aroused, does not discriminate between the innocent and
the guilty, and often, upon a bare accusation, hurried its victim to
punishment without trial or proof of guilt. In such a state of things
there is no safety for the life or liberty of any citizen, since the
purest and most innocent may fall a sacrifice to the passions and
prejudices of the hour upon a charge utterly wanton and malicious,
preferec by some one who has the ear of the mob.

We can understand how the commission of an atrocious and re-
volting crime in a community may so outrage public sentiment as
to provoke summary punishment by an infuriated populace. Such
occurrences have existed in all nations and under all governments;
and whilst they are to be deprecated, yet, being only occasional out-
breaks, excited by the perpetration of enormous crimes, they do not
threaten any serious or permanent danger to the peace and safety of
the country.

But when men organize themselves into vigilance committees, clans,
or leagues, or whatsoever other name they may assume, with the
avowed or practical purpose of taking the law into their own hands,
to inflict punishment upon any member of the community who may
be obnoxious to them, they become themselves the most dangerous
class of law-breakers; they have all the elements of a mob; they are
a mob, and a mob is no remedy for anything; and, if acting in such
unlawful combination, they inflict death upon any one, they and all
who give aid, encouragement, or countenance to their act, are guilty
of murder. It matters not how guilty or how heinous the crime of
their victim, their crime is still murder. The number or respecta-
bility of those engaged in the commission of a crime cannot sanct ify
the deed or extenuate their guilt; but rather aggravates the offense,
and intensifies the danger to the public peace. Not only the officers
of the Commonwealth, but all good citizens, should feel it to be their
solemn duty to discountenance all such lawless acts, and to bring
their perpetrators to trial and punishment. Disorder ever tends to
reproduce and multiply itself, and in its presence no right of the
citizen is secure. Besides, the influence of the evil-doer in this case
involves much more than insecurity and injustice to good and law-
abiding citizens. To permit such outrages to go unpunished tends
to impair among the people that reverence for the authority of law,
which is the chief safeguard of society, and to destroy that confi-
dence in the ability of Government to protect his life and vindicate
his rights, which is the just foundation of the citizen's allegiance, and
strikes a blow at the fabric of State rights, resting as it does on the maintenance of law and order, which may be disastrous to our civil and political liberty.

In every instance brought legally to the notice of the Executive, all the means authorized by law have been employed to secure the arrest and trial of guilty parties. Rewards have been offered; requisitions issued; the militia ordered to render assistance in the arrest of criminals, and the public invoked by proclamation to discomfit the offenders, and aid in securing their punishment; and though acts perpetrated by such organized bands are decreasing in all sections of the Commonwealth, yet we cannot claim that they have entirely ceased. Whether any further legislation for their suppression is necessary, and if so, of what nature, is a matter for your deliberation and decision.

I will suggest that the *posse comitatus*, which is the only reliance of the civil officer for aid in pursuing and arresting offenders under the law at present, is not adequate to the emergency, in cases of the sort under consideration. Lawless bands are usually drilled and always armed; whereas, the *posse* are neither drilled nor armed, and hence are not prepared to encounter the offenders. To organize for duty companies of militia in localities annoyed by law-breakers is expensive, and has, when the experiment has been made, not proven efficient. There is too much machinery required to bring the ordinary militia organization into the field. Long before the necessary orders can be procured, and arrangements made for pursuit, the law-breakers have disappeared. I shall certainly "take care that the laws be faithfully executed;" but the powers and duties of the Executive in this regard are prescribed in the laws upon our statute books; and it will be seen that he is restricted, in the use of the militia, and in the offering of rewards for arrest, to the call of certain other officers. I recommend that you pass such additional laws as shall be necessary to more certainly reach the various forms of crime as it crops out at the hands of organizations and other evil-disposed persons, so much to the terror and shame of the people. I submit to your wisdom whether you should not enact some law imposing more stringent and severe penalties upon public officers for their failure and neglect to look after and enforce the penal and criminal laws of the State. It is apparent that there has been too much neglect in this regard. I also most respectfully suggest that you provide additional means by law for the capture and bringing to trial of offenders. Whether this

should be by the organization of a police force in each county, and such other localities needing it, or in some other way, your wisdom will determine.

I am profoundly impressed with the urgent necessity of something being done to effectually check and break up these disorders; and the people of Kentucky, in my opinion, demand and expect this Legislature to provide their officers with additional means to secure such desirable end.

I appeal to you, the honored representatives of a generous constituency, to provide a remedy for these evils. I feel sure that the people of Kentucky will, in their patriotic devotion to their country, their love of order and good government, and their keen appreciation of the honor of the State, not only approve your action in the premises, but welcome any burden such legislation may render necessary.

CONFLICT OF JURISDICTION.

It cannot be doubted that much of the lawlessness existing among us has been provoked and aggravated by the unwarranted interference of Federal authority in our local affairs, and its intrusive assumption of jurisdiction in administering the laws of this Commonwealth. Under this assumed jurisdiction, citizens who had been arrested and held for trial by the State tribunals for offenses against colored persons, have been seized by Federal officers, taken to distant points, and deprived of the right of trial by a jury of the vicinage, and the parties subjected to great annoyance and expense, and sometimes to onerous and unreasonable penalties. The fact that offenses against only one class of our population are brought before that court, leaves an impression upon the popular mind that the Federal jurisdiction is asserted and enforced only for the purpose of aggravating the prejudices between the races, and promoting the interests of party. I am constrained to believe that this condition of things has tended to produce much of the lawlessness which still disturbs the good order of society in our State.

Already a case is pending before the Supreme Court of the United States, in which the question of the jurisdiction of the Federal Court in the class of cases alluded to is involved, and it is to be hoped that a decision will be reached at an early day, and that it will be such as to remove this cause of irritation.

Even if it is conceded that the right of jurisdiction claimed by the Federal Court is strictly constitutional, still the exercise of that right
would be more than injudicious—it would be mischievous and productive of evil. The fact that it discriminates between the two races, favoring the negro and oppressing the white man, would be a constant source of trouble. If a white man is charged with a capital crime, committed against a negro, it wrests him from under the authority and protection of the sovereign and independent State of which he is a citizen—if, indeed, sovereignty and independence can be predicated of a State in such a case—deprives him not only of the benefits of its statutes, but of his rights at common law, such as his right of trial by a jury of his vicinage, incarcerates him in a distant prison among strangers, away from sympathizing friends and the facilities of proving his innocence, which his own neighborhood would afford him, and with the testimony of a worthless negro weighing down that of the most trustworthy of his own race. Can you wonder that, to the high-spirited and justice-loving citizen of Kentucky, a court, otherwise honored, should, in the exercise of such jurisdiction, become as odious as ever the Star-Chamber was to the friends of liberty in England? Again, such jurisdiction, whether intended or not—and if intended, a vile purpose never dishonored the legislation of a nation—will tend inevitably not only to widen the breach which nature has made between the races, but to array two classes of citizens in permanent political antagonism. Whatever honest difference of opinion upon questions of Federal policy may have in the past divided our citizens into Federalists and Democrats, Whigs and Democrats, Know-Nothings and Democrats, Republicans and Democrats, all have felt proud in calling themselves citizens of our noble old Commonwealth. All have been zealous in defense of the rights, the interests, and honor of their State. But we have reason to fear this will not be so with the negro under the political tuition he is now receiving. The very existence of a Federal court, exercising special jurisdiction in his favor, coupled with other Federal measures, will serve to impress upon him a lesson which he has already received from his teachers, that he holds his civil rights as a "Federal citizen," not as a citizen of Kentucky. Once thoroughly imbued with this lesson, he will pride himself in being a citizen, not of this Commonwealth, but "of the nation"—nay, absurd as it may sound, of the Federal Government. The rights and interests of the State will be as nothing, and less than nothing, to him, and he will be a willing tool, ready and prepared when the struggle shall come, for subverting the rights and liberties of the State, and laying them, at the feet of a usurping central power.
This conflict of Federal and State jurisdiction will, sooner or later, if not remedied, produce the most serious consequences. I have been unable to find in the Federal Constitution any grant of power to the General Government which would authorize the punishment, by Federal authority, of breaches of the State laws. We have a State law denouncing the penalty of death against one citizen for murdering, within the State, another. So have we State laws punishing assaults and batteries, affrays, &c., committed within the jurisdiction of the State. If Congress has passed any law punishing these offenses, when committed within the jurisdiction of the State, it is certainly without warrant of the Constitution. It was never designed by the framers of that instrument that the local police of the States should be assumed by the Federal power; and the fact that this, in a great measure, is now being done through the instrumentality of the Federal courts and the military, is cause for the greatest apprehension and alarm for the safety of our institutions. Those who are responsible for these unwarranted assumptions of power have attempted to justify them on the ground that the State is unable, through her officers, to suppress crime and enforce the laws. This charge against the State is untrue; and if left to herself, and not interfered with, she would soon suppress the law-breakers, and secure as perfect order as we ever had. It is well known that our State, in common with all her sisters, reaped her share of the lawlessness and desperate characters engendered by the late civil war; and that outbreaks and violations of law have resulted in the last few years from the great number of this class in all the States; but that this should justify the displacement of State jurisdiction, and the setting up an unwarranted Federal power in its stead, is preposterous. We must not, however, allow this assumed interference in our local affairs to silence or lessen our efforts to capture and bring to punishment all violators of law and good order in our State.

TESTIMONY.

Whilst domestic slavery existed among us, it was deemed necessary and expedient to enact laws discriminating in favor of the dominant race, and restricting the rights of the slave. Such are the laws which still remain on our statute books, imposing restrictions on negro testimony. That this legislation was due mainly, if not solely, to the relation of the two races as master and slave, and that
the incompetency of the negro to testify was regarded as simply a legal and statutory, and not a natural disability, is clear, from the fact that in civil and criminal actions, wherein his own race alone was interested, he was recognized by law as a competent witness. With the abolition of African slavery the reason of the law on this subject has ceased, and from whatever motives of prudence these statutes have been retained hitherto, I think the time has arrived in which their repeal is required, both by justice and expediency. The late amendments to the Constitution of the United States, however wrongfully obtained, and the Congressional legislation under them, have not only emancipated the negro, but invested him with, and he is now in the actual enjoyment of, both civil and political rights.

We feel indignant and abhor the manner in which these amendments were adopted, and have no sympathy or countenance of approval for very much they contain. And whilst we regard some of the legislation of Congress, claiming to be in pursuance thereto, as outrageously unconstitutional and oppressive, and feel determined, with firm tenacity of purpose, to rest not until, in a legal and proper mode, they, the amendments and legislation, are repealed or modified by judicial interpretation or otherwise, so as to harmonize with free government—still, we are bound to recognize and give effect to these amendments and this legislation, until so repealed or changed, as the supreme law of the land. Moreover, our own laws have recognized the negro as a citizen; and I am satisfied that, so fixed is the public sentiment of Kentucky upon this point, no political party will be able, nor will any considerable number of our citizens ever desire, to call in question his right of citizenship.

As a citizen, therefore, with all the avenues of industry open to him, competent to hold and convey property, to incur the obligation of contract, to sue and be sued, plead and be impleaded, in all our courts, the law should secure to him the amplest protection of those rights which it has conferred upon him. In declaring the legal competency of negro testimony, however, we are not bestowing a franchise on an inferior race, but doing an act of justice to the whole community. The question to be considered is not, Shall the negro have the right to enter the witness-box; but this: Shall a citizen, shall any person, whose life, liberty, or property is in jeopardy by judicial proceedings, or shall the Commonwealth, prosecuting the claims of justice, have a right to arrive at all the facts of a case—
summoning, if need be by compulsory process, to the witness-stand, all who have knowledge of those facts, and are rationally competent to state them? No right has been held dearer at all times and more jealously guarded than this, by all English-speaking people.

The common law, as given by Blackstone, teaches us that "all witnesses, of whatever religion or country, that have the use of their reason, are to be received and examined, except such as are infamous, or such as are interested in the event of the cause. All others are competent witnesses, though the jury, from the circumstances, will judge of their credibility." The exigencies of slavery made it necessary and proper for the public welfare to declare, by statute, that the testimony of a negro, however valuable and trustworthy, should not be received in legal proceedings against a white man; but that the State should continue to prohibit to its courts the use of such evidence, often highly important, and even essential to the due administration of justice, when the necessity which justified such prohibition no longer exists, is, to say the least, very impolitic. We must bear in mind, also, that this state of things will not only often tend to defeat the claims of justice, but furnish a pretext for perpetuating that conflict of jurisdiction between the Federal and State courts which is so irritating to our people. Moreover, there is diversity of ruling in our State courts on this subject. Able and conscientious judges have felt compelled, under their interpretation of the amendments to the Federal Constitution, to declare the laws of this Commonwealth, restricting negro testimony, null and void; and have accordingly admitted that class of testimony in their courts, contrary to the statutes. Other judges of equal ability and integrity enforce the provisions of these statutes, and exclude negro testimony; and thus the same uniform rule upon this subject does not prevail all over the State. However much this diversity of judicial decisions, in a matter of such grave importance, is to be regretted, it is, perhaps, inevitable, and uniformity can scarcely be expected so long as the legislation in question remains upon our statute books.

It has been objected that, by admitting the negro to testify, we will greatly increase the number of worthless witnesses in our courts. This is no doubt true; just as by granting universal suffrage, even to the white population, the number of pliant voters at the polls is greatly increased. Yet, in either case, it would be folly to take away the right because it is liable to abuse; with this difference, however, that
suffrage being a political franchise, the State may grant or withhold it as seems best for the public good, whilst to have the benefit of competent testimony is a civil right, founded on natural equity, sacred and indefeasible, which cannot be justly denied to any person. Besides, the abuse of the witness-box is provided with a remedy which that of the ballot-box has not. Votes do not vary in value; testimony does. Ballots are merely counted; evidence is weighed. The judge decides upon the legal competency of a witness; the jury judges of his intellectual and moral competency—his credibility; and often, when a score of witnesses have testified in a case, the evidence of two or three of them, of superior intelligence and character, has determined the verdict. It is a popular apprehension, that if we admit the negro to testify in the courts, we will be led to recognize his competency also as a juror. Did I believe that the adoption of this measure could have such a result, I should cease at once to favor it; for the wrong thereby inflicted upon the interests of public justice, in my opinion, would more than counterbalance all the benefits that might be derived from unrestricted testimony. Not only is the freedman, in his present condition, utterly incapable of discharging the duties of such a trust; but, I am convinced that, whatever culture may do for him—how great soever may be his intellectual and moral improvement in the future—the difference of race and color, with the inveterate prejudices attached to them, will indelibly mark him as belonging to a distinct and inferior caste; and no people of Caucasian birth will voluntarily intrust him with such jurisdiction over the life and fortunes of a citizen.

There is no cause for apprehension. The rights are distinct, and rest upon different principles. There is no parity of reason in the two cases, and all codes of jurisprudence have placed their claims upon different grounds. When a person under our law is indicted for a capital offense, a minor, a woman, a man who is not a householder, a foreigner, and, if the accused is of his own race, a negro, are competent witnesses in the case; but none of them can enter the jury-box. A lad of fourteen may give a clear, intelligent statement of facts which may determine the verdict of the jury; yet he would be utterly incompetent as a juror to represent the awful majesty of the law, and the public justice of his country, to judge of the law and evidence, and render a decision touching the life of a fellow-being. The laws of most nations, ancient and modern, go beyond ours, and require additional qualifications in those intrusted
with the duties of so solemn and responsible an office, carefully providing that no one indicted for felony shall be tried by those who are not, at least, his peers; and to subject any person to trial by jurors of an inferior race would not be sanctioned, either by natural equity or any laws found in the codes of civilized nations.

Satisfied, therefore, of both the wisdom and justice of the proposed measure, I earnestly recommend that an act be passed declaring the legal competency of the negro as a witness, subject only to the same restrictions as all other citizens, and repealing all laws on our statute books which are in contravention thereof.

I recommend also that you pass a law, with proper restrictions and limitations, extending our rules of evidence, so as to allow parties to civil actions, and all interested in the issue, to be competent to testify as witnesses upon the trial. This has been found to work well in the courts of the United States, in England, and in many of the States of this Union, and I believe it will facilitate the ends of justice, and be found to be an improvement on our own system.

EDUCATION.

The report of the late Superintendent of Public Instruction, and the suggestive report of the present incumbent, will call your attention to the very gratifying and hopeful working of the educational department of the State. It will be seen that they both recommend various changes and improvements in the present laws—in many of which I doubt not you will heartily concur. I trust you will give this subject your careful consideration, and provide every facility necessary for the acquisition of knowledge to the youth of our State. There is no subject upon which you are called to legislate of more importance to the public welfare, and which should excite a more earnest interest in all who love their country and their kind. The stability of our free institutions, and the good order of society, rest upon the virtue and intelligence of the people, to the promotion of which nothing except religion, which is beyond the sphere of your authority, can more efficiently contribute than a wise and thorough system of popular education. The cheerfulness with which the people have voluntarily assumed the burthen of taxation in support of a system of State education, is an assurance of their deep interest in this matter, and of their hearty sympathy with you in all measures which are necessary to its success.
The taxes heretofore imposed upon the colored people for the education of their children were, by an act of the last Legislature, taken off; and for the year 1871 that portion of our population paid taxes upon their property only for revenue purposes of the State, and there is now no law upon our statute books providing for the education of that people. I recommend that you pass an act setting apart all the revenue taxes which shall hereafter be collected by the State from the property of colored people, after paying expenses of collection, as a fund to be used exclusively for the education of their children; and I suggest that you provide such increase of their taxes as will be reasonable for that purpose, and enact such laws in reference to establishing and carrying on schools for their children, at their own expense, as will be just and beneficent. This beneficence and liberality upon our part toward that weaker and dependent element of our population I feel to be just, and will promote the best interests of the State.

INSURANCE BUREAU.

The Insurance Bureau, organized in June, 1870, under an act of March previous, is now in successful operation.

By the terms of the law, it is made the duty of the Insurance Commissioner to require annually, of every company doing insurance business in this State, a detailed statement of its affairs for the year ending on the 31st December. This statement is to be made by the companies to the Commissioner within sixty days after the expiration of the year. The Report of the Insurance Commissioner, giving an outline of the method of calculating the net value of life insurance policies, and an abstract of the annual statements of the companies for the year 1870, has been printed, and will be laid before you. The whole number of insurance companies now doing business in this State is 128. Of this number, 15 are organized under the laws of this State, 108 under the laws of other States of the Union, and 5 under the laws of foreign countries. Of the whole number, 41 are life and 86 are fire and inland, and 1 accident insurance. Of the 15 Kentucky companies, 13 are fire and inland, and 2 are life companies. The amount insured upon property by the Kentucky companies on 31st December, 1870, was $35,467,872, and upon lives it was $30,827,062.

The whole amount insured upon property by companies other than those of Kentucky doing business in this State was $4,158,-
720,804, and upon lives the amount was $1,816,300,146. The total amount insured upon property and lives by all the insurance companies doing business in this State on 31st December, 1870, was $6,920,315,884. The total of premiums received for insurance upon property in Kentucky by Kentucky companies, during 1870, was $474,088. Losses incurred by them during the same time amounted to $162,562. By other than Kentucky companies the premiums received during the year for insurance on property in Kentucky, so far as reported, amounted to $510,110. Losses paid, $346,083. The total premiums received for insurance upon lives in the State, by Kentucky companies, during the year, $266,406. Losses incurred during the year, $81,980. By other than Kentucky companies, the premiums received in 1870 for life insurance in Kentucky amounted to $1,184,063; and losses paid, as far as reported, $246,002.

The expenses of the Bureau, from the time of its organization in June, 1870, to the end of the fiscal year, October 10, 1871, amounted to $25,609 49. The fees and total income for the same time amounted to $23,334 35—showing a deficiency of $2,275 14, which sum must be made up either by fees received after that date or by assessment on the insurance companies; because the law provides that in no case shall any part of the expenses of the Insurance Bureau become a tax upon the people or the property of the State. I heartily concur with my predecessor in regard to the importance of the general insurance laws, and the advantage that must arise therefrom without tax to the people of the State. The insurance companies pay all the expenses; they are largely interested in having this supervision wisely administered, and have expressed entire willingness to pay for the service rendered. When the general insurance laws were passed, the designation of the salary of the Commissioner was somewhat an experiment, because very few persons in this State were at that time aware of the nature of the business it was proposed to regulate and control, or the qualifications necessary for the proper administration of the laws. I have reason to believe that those companies fully appreciate the magnitude of the duties of the office, and are willing that the Commissioner of Insurance shall be paid by the State, out of fees collected from them, a salary commensurate with the importance of the work to be done.

I respectfully call your attention to the proceedings of the Convention of Insurance Commissioners, held in the city of New York, in
May and October of this year. I feel assured that the Legislature of this State will take special notice, and accord full consideration, to the action of that Convention, in which twenty-nine States were represented. It is believed that these conventions have already produced great benefit to all interested in insurance, either as shareholders or policy-holders. The published proceedings show that Kentucky was ably represented in the convention by the distinguished gentleman, General Gustavus W. Smith, who organized the Insurance Bureau, and who now holds the position of Insurance Commissioner of this State.

The insurance law authorizes the payment of the sum required to procure "actuarial assistance necessary to the discharge of all the duties devolving by law on the Bureau or the Commissioner." I have the pleasure of congratulating the people of Kentucky upon the fact, that one of our own native-born Kentuckians, the present Commissioner, has, by his own knowledge, been able to thoroughly organize this office without having to send abroad for actuarial assistance, and that to him the community is indebted for a clear and intelligible exposition of a subject which has been hitherto regarded as a kind of cryptic science, which only the initiated professional actuary could comprehend. The present salary of the Commissioner, it is well known, would not be sufficient to command the services of a first-class actuary. I therefore recommend that the compensation of the Insurance Commissioner be increased to an amount more in accordance with the vast interests he is appointed to guard, and the high special qualifications undoubtedly required in order to properly perform the duties of such an important office.

QUARTER-MASTER GENERAL.

The report of the Quarter-Master General will exhibit to you the condition and workings of that office for the past year. This office, in the commencement of the late war, was a mere honorary sinecure, held by persons unacquainted with the forms and returns necessary to a well-arranged, thoroughly systematized office. The war coming in all its magnitude, found it without the most ordinary appliances for a proper record of its transactions. The vast amount of labor required of it under the most urgent necessity, gave no time for inaugurating such a system as is indispensable in keeping such a record, hence many of its most important acts were committed to mere memoranda, leaving proper entries to be made at some future
day. This condition of things necessarily engenders great confusion, and involves often a laborious search and tedious delay in supplying information important to the State or to her citizens. Sometimes such information cannot be found at all; yet it ought to be, and perhaps is, in the office.

A thorough organization of the office is needed for the preservation of its records, and above all, that the transactions and business of the office be set forth in a practical, tangible manner. Besides the claim made out and presented heretofore against the Government of the United States, and which has been, and is being, pressed for payment, there is due to this State for ordnance account a sum amounting to about two hundred thousand dollars, the vouchers for which should be made out and arranged for collection, and that duty will devolve upon the Quarter-Master General. In view of that important service, and the general necessities to the State of the office, I recommend that it be continued on its present footing, and that its incumbent be directed to thoroughly organize and put the books, papers, and records appertaining thereto in good order and condition.

ADJUTANT GENERAL AND MILITIA.

I refer you to the report of the Adjutant General for full information in reference to that office, and urge you to give its suggestions and recommendations your serious consideration.

The militia law of 1865, with a very few changes and amendments, will give us a reliable and efficient militia force. Let the officers be selected with care, choosing only such persons as will bring ability and zeal to build up such organizations as the State would take pride in, and would cheerfully cherish and sustain. The members of such a force should, on the one hand, be distinguished by certain privileges and immunities that would dignify and honor the organization. On the other hand, in return for these privileges, they should be held to a rigid discharge of their duties, and the law should uphold and sustain the officers in enforcing discipline. But above all, this force should be constantly looked after and encouraged by the higher and chief officers of the State.

There is in the Treasury quite a sum of money set apart for military purposes. The fines which might be exacted as one of the means of enforcing discipline would furnish enough to defray all necessary expenses, which need not be great. We do not need the elaborate, expensive systems maintained by the Northern States, but
only a small force in the larger towns, cities, and densely populated districts—a force under such discipline as will make it a reliable and efficient aid in the enforcement of law, and at the same time serve as a valuable nucleus for the full organization of the military force of the State, when needed in case of war. I earnestly call your attention to this subject, and submit that you either blot out of existence the sickly system we now have, or put it upon such a footing as will reflect credit upon the State.

DEAF AND DUMB ASYLUM.

The reports from the Superintendents and others having charge of the charitable institutions of our State will be laid before you at an early day, and will furnish you with full information of their progress and condition.

The Deaf and Dumb Asylum, situate at Danville, dates as the fourth institution of its kind founded within the United States, and is now in the 48th year of its existence—having been established under the recommendation of Gov. Desha, in 1823. It was the first educational asylum established by the State, and amply has the result of its labors repaid the public beneficence which created and has so liberally fostered it. Among all those missions of mercy by which the compassion of Christian charity has sought to relieve the unfortunate of our race, none have had a nobler aim, or been rewarded by a more complete and gratifying success, than that which has so patiently striven, in the spirit of the Divine Master, to cause, as it were, the deaf to hear and the dumb to speak.

By what money value shall we estimate the benefits which our asylum at Danville has accomplished for this unfortunate class of our fellow-citizens? Rescuing the deaf-mute from a life of blank isolation; introducing him to the conversation of his kind; fitting him for useful employment and the discharge of social duties; unsealing for him the fountain of knowledge; revealing to his mind the secrets of nature, the history of his race, the achievements of thought, and, above all, the idea and knowledge of God.

Since its foundation, this institution has educated and sent out four hundred and eighty-five deaf-mutes, male and female, prepared to be useful members of society, and has at present eighty-one pupils under its tuition. It is a gratifying fact, and speaks well both for the healthiness of its location and the sanitary regulations of the asylum, that during its existence of forty-seven years, only nine deaths have occur-
red among its pupils. That its affairs have been managed with
great economy is shown in the fact that, whilst our neighboring State,
Ohio, has within a few years expended six hundred and sixty thou-
sand dollars in the purchase of lands, erecting buildings, and furnishing
its asylum, our noble charity has cost us in this respect, from
its foundation to the present time, only about thirty-seven thousand
dollars, and that the cost of boarding and tuition for a pupil—one
hundred and forty dollars in our institution—is not more than half of
the average cost in the asylums of the principal States of the North.
You will see from the report of the Commissioners that they solicit
an increase in the annual appropriation to the asylum. I regard the
request as moderate and reasonable, and heartily recommend that
the increased appropriation be made.

SCHOOL FOR FEEBLE-MINDED CHILDREN AND IDIOTS.

This worthy State charity was organized in 1860. At the time of
its organization there was a distrust in the public mind of its success.
It was one of the results of an advanced Christian civilization, and
its success has been equal to the most sanguine expectations of its
warmest friends. Popular prejudice, in a great measure, has given
way, and a healthy public sentiment has been created in its behalf.
The report of the Superintendent presents an array of facts not to
be ignored, and demands your serious consideration. Much has been
done for this unfortunate class of our population, and with the con-
tinued fostering care of the State, may we not confidently hope for
still greater results? The Superintendent desires that you shall
each, by personal examination, satisfy yourselves of the improve-
ment of a large majority, if not all, of the children in the school. The
suggestions made by him in reference to improvements, &c., I trust
will receive your attention as their importance may demand. The
fidelity and zeal with which he has discharged the important trust
committed to him, are fully attested by the Board of Commissioners.
Let us not forget the injunction, "Comfort the feeble-minded," for
we know not how soon our own loved ones may need the fostering
care of this institution.

INSTITUTION FOR THE EDUCATION OF THE BLIND.

I have not yet received the report of the Trustees of this Institu-
tion, but have no doubt that, when laid before you, it will show that
usual steady growth in interest and success which has so encour-
The State of Kentucky, actuated by a spirit of Christian philanthropy which has always characterized her people, has already erected, and is now maintaining, two Lunatic Asylums. These institutions have been, and are still, accomplishing great results, but are now full beyond their capacity, and patients cannot be received by them, except as vacancies in their wards occur by the removal of those now there. Yet there is a large and constantly increasing number of insane persons, who are still unprovided for, and who must remain so under existing circumstances. My information is that there are, at this time, from one hundred and seventy-five to two hundred and twenty-five of these unfortunate sufferers in the State, besides those in the Asylums, and many of them, from the necessity of the case, are confined in the common jails—the associates of felons—others are at large, in a condition rendering them dangerous to person and property, and a source of constant terror to the community and to their friends. It has, therefore, become to be a pressing necessity that further provision for the insane should be made; and, in view of this necessity, some action is demanded upon your part to prevent damage to the public and suffering to the afflicted. There are duties that sometimes devolve upon a Legislature which cannot be ignored without resulting in harm to the public, as well as to individuals. In all Christian communities the "insane poor are the wards of the State," and as such, demand earnest efforts in their behalf. From the quiet discharge of their obligations to the community, the asylums of the State, perhaps, do not occupy that prominent place in the public estimation that their usefulness demands. No good reason can be given why our own State should not stand among the foremost in the march of political and Christian civilization, and I feel it incumbent on me to urge upon you to do all that seems necessary to ameliorate the pitiable condition of the insane, and especially everything that can minister to their recovery. It is well understood by all who have given attention to the subject, that insanity is much more successfully treated in asylums than elsewhere, by reason of the advantages that cannot be commanded in any establishment which is not especially designed for the insane.
The financial interests of the State are protected by affording speedy facilities for the treatment of all. The outlay for this purpose at first may be considerable; yet no investment that can be made of the public money can yield so large a return. As evidence of this fact, I quote substantially from a report of one of our own asylums: “The importance of early hospital treatment has been frequently urged in the reports from this institution. In an economical point of view, the results of the past year are very impressive. Of the seventeen recoveries, fifteen were recent cases, and the average time spent was about four months. Of the whole number of deaths, one only was a recent case, leaving sixteen who had been insane more than one year prior to admission. The average time spent in the asylum by those who died was rather more than six years; the fifteen recent cases cost the State in the aggregate $750. On the other hand, the chronic cases cost, at the same rate of support, $600 each, or $9,000 for the whole. These statistics, I am informed, find their parallel in the history of most, if not all, the well-ordered asylums in the country.” Add to this, also, the fact that the fifteen persons placed under treatment at an early period of their attack were restored to their families and to usefulness, and no one can fail to see that economy demands such provision for the insane as will insure early treatment for all who may require it.

Who can say of the great number that have been denied admission into the asylums during the past year, for want of room, how many will become permanent burdens upon the public Treasury? while, with timely care they might have been restored to reason, and have resumed useful positions in life. There are now in the Eastern Lunatic Asylum 552 patients, which is from 150 to 200 above the proper capacity of the buildings; and in the Western Lunatic Asylum 360, which is the full capacity of that institution. The experience and concurrent testimony of all the able and most successful conductors and superintendents of such institutions is, that no institution should ever have a number exceeding five hundred. The increasing ratio of our population, and consequent probable increase of this affliction among our people, coupled with the many we now have who are unprovided for, indicate to my mind that our path of duty is to make provisions, by law, at the earliest day we can, for the purchase of ground and erection of suitable buildings for a third lunatic asylum in our State, and I recommend that it be done.
An evil has, of late years, invaded these asylums, to which I call your attention. It is, that desperate criminals sometimes, upon their trials in court, succeed in evading a more severe punishment for their wrongs, and, upon the idea of "moral insanity," are sent to one of the humane institutions of the State. It is no fit place for that class of men, and provision should be made to protect them against such abuse.

GEOLOGICAL SURVEY.

A geological survey of the State was commenced in 1854, and continued until 1859, under the direction of Professor D. D. Owen. The work was diligently and skilfully prosecuted by that distinguished geologist and his able, scientific assistants; the result of whose labors are embodied in his reports, and are of great value; but in the time, and with the means at his command, little more could be accomplished for a great part of the State than a geological reconnaissance. Much, also, of this time and means was consumed in correcting the geography of the State, which at that time was very imperfectly and erroneously mapped, as a necessary preliminary to an accurate geological survey. Much more, therefore, must be done to complete our acquaintance with the physical geography of Kentucky. Accordingly my predecessors have, at different times, called the attention of the Legislature to the subject, and recommended a further prosecution of the detailed survey. I earnestly renew this recommendation. We can hardly estimate the influence which the completion of such an undertaking will exert upon the fortunes of our people.

I am satisfied that accurate and generally diffused information, such as science is able to give us, concerning the vast natural resources of our State, will form the starting point of a new era in the industrial progress and prosperity of the Commonwealth. A complete and detailed geological survey will have for its object not only to ascertain the correct geography, construct an accurate topographical map, and describe the various geological formations of the State, with their contents, but to encourage and direct enterprise and industry by supplying them with information of the highest practical value. It will be its duty, for instance, to designate the productive and non-productive coal-fields, ascertaining the dip and identity of coal measures; to distinguish the different ores of iron and other metals, with the comparative value of each; to point out in the sev...
eral localities the facilities for mining operations; to analyze the various soils, suggesting the crops for which they are best suited; to describe the varieties and quality of building stones, as also of other useful rocks, minerals, and mineral springs; to make us acquainted, to some extent, with the fauna, and more minutely with the flora, of each region, and especially with the varieties of valuable timbers contained in our forests; and to indicate the routes by which all this natural material wealth may be made most accessible, furnishing facts which may be made available in constructing railroad lines and in slack-water navigation.

With such information, enterprise will no longer be discouraged by the remembrance of disastrous failures attributable to the want of such knowledge. Capital, industry, and skill, assured of rich rewards for their efforts, will soon find the key to those treasures now locked up in our mountains and forests; legislation will be stimulated, instructed, and intelligently directed to comprehend these interests in all schemes of internal improvements, and a desirable immigration will be induced to flow into regions now almost a wilderness. Then it will be no longer matter of shame to a citizen of Kentucky that, with the two greatest coal-fields of the world traversing our State, with the richest coal measures west of the Pennsylvania anthracite; with inexhaustible beds of ore, producing the best quality of iron; with unlimited supplies of the finest building stone, and rocks useful in the arts; with salines able to furnish salt not only for home consumption, but for exportation; and with every variety of the most valuable timber, we are still dependent upon other and distant States for the supply of all these materials and the articles manufactured from them, when at half the cost, these very necessaries of life, more abundant in quantity and of superior quality, are to be found lying around our doors.

With this realization of our natural advantages, not only will agriculture be improved, the treasures of mine and forest developed and manufactures created and sustained, but millions of acres of our mountain lands, admirably adapted for grazing purposes, now scarcely worth their taxes, will be covered with countless herds and flocks, forming one of the greatest sources of our wealth. That such anticipations are not dreams, witness the rapid growth and prosperity of much younger States around us—States which, within the memory of the living, some of them within the recollection of our children, were a pathless wilderness, inhabited only by wild...
Indian tribes; and although other causes may have discriminated in their favor, I feel assured that a principal reason for this disparity in progress is found in the fact, that, whilst attention has been earnestly invited to the resources of those States, our own superior natural advantages have been unknown in a great degree, both to our own citizens and the world. Nor should we forget how much such a survey will contribute to scientific research, and serve to extend the boundaries of knowledge—aan interest in which no enlightened people can be indifferent—by furnishing new and valuable facts to the student of natural science.

REGISTRATION.

I would call your attention to the fact that there is at present no law on our statute books providing for the proper registration of births, deaths, and marriages. I recommend that an act for this purpose be passed, requiring in each case a detail of such accompanying facts as may be of statistical value. The information thus furnished will not only interest the student of general statistics, but will be of especial importance to the physician and actuary, and, through its bearing on the sciences of medicine and life insurance, of great practical value to the entire community. Claims to inheritance, also, may often depend on the evidence which such records would afford.

FISH CULTURE.

The supply of fish in our waters has been for many years notably and constantly diminishing. There has been not only a decrease in production, but entire species have nearly, or quite, disappeared from many streams. It is a matter of no small concern to our population that a wholesome article of food, once abundant and cheap, has not only become scarce, but is to be reckoned amongst the costly luxuries of the table, its supply for a considerable portion of the State coming from the distant lakes bordering on Canada.

The acts which have, from time to time, been passed for the protection of fish in certain streams, or parts of streams, have, perhaps, more frequently been designed to secure sport for the angler than to increase the supply of food. And if, indeed, it be true, as asserted, that the principal breeding places of fish are to be found near the sources of rivers, and that most species of fish are migratory, with no fixed locality, ascending and descending the water-courses at certain seasons, then to protect merely one or more sections of a stream
will accomplish but little for the preservation of its fish. A general law for this purpose might be advisable, extending its provisions to all the rivers of our State and their tributaries. But shall we stop here? It is a question worthy of your serious consideration whether, in addition to prohibitory laws, measures should not be adopted to secure both the increase of production and the introduction of new species of fish in our streams. The art of promoting the propagation and nurture of fish has recently attracted great attention in England and in this country. The Federal Government, and many of the States, have legislated upon the subject, and appointed commissioners intrusted with its interests; and some successful experiments have been made by private enterprise in our own State. The uniform success in all these experiments has been such as to encourage further efforts. Should you deem it inexpedient to legislate on this subject at present, still a thorough investigation of it, and a careful report by a committee, would, I am convinced, furnish facts interesting and valuable to the public.

IMMIGRATION.

The greatest and most important wealth of a community is its citizens. If, from any cause, its numerical standard is reduced, not only its physical power is curtailed, but its prosperity begins to droop. In view, therefore, of its special prominence, this question should receive the most careful investigation and the most liberal treatment. Hand in hand with the development of our internal resources a wise system of encouragement to immigration within our borders is the most essential feature of true progress. There can be no thorough enlargement of our wealth or influence without the necessary accompaniment of intelligent and skilled labor. Under the old system we have been content to deal with those elements in our midst, left to us by our fathers as their legacy. The changed order of circumstances imposes new obligations upon us, and relieves us, perhaps, from embarrassments which we might have found eventually to be a heavy burden.

One principal element of our laboring population in the past decade was a mere machine performing stipulated tasks, but divested of that higher order of cultivation which enables its possessor to continue operations, even when the directing mind is withdrawn from active supervision; and, as we are suffering from the temporarily damaging effects of the destruction of our labor
system, it is the part of wisdom to look back carefully at its defects, and, whilst filling the vacuum, to improve all those elements of power, of wealth, of Christianity and morality, summed up in that State action which advances the social and intellectual condition of the laboring classes.

These truths will be so readily acknowledged that their discussion is unnecessary. Therefore, whilst encouraging all those citizens, who prove themselves, by their industry, their integrity, and their morality, entitled to confidence and to employment, we should at the same time look elsewhere for a steady influx of population, which will eventually give to Kentucky her proper influence and deserved high position among her sisterhood of States.

Our State is rich—its debt extinguished, in fact, by the assets in hand—and its credit high. We should not hesitate so much at the cost of a well-tried successful experiment, or dole out with parsimonious hand insufficient supplies to accomplish an object so greatly to be desired. The dissemination abroad of information as to the resources, climate, and capability of Kentucky, is one of the essential characteristics of such legislation.

The appointment of eminent, distinguished citizens as agents, is another,such men as would be received everywhere cordially because of their social position and known integrity, and whose influence in the official circles of any country would be marked and decided; and the system can neither be complete nor humane without embracing in its details provisions for ascertaining the labor wants of each district in the State, and pointing to homes and employment beforehand for the stranger who may be induced to settle among us.

In new countries the grand feature is their ability to endow the immigrant with a free homestead, which overcomes the reluctance to encounter hardship and to give up the comforts and protection afforded by more civilized settlements. To meet this difficulty Kentucky, having no lands to give, might substitute some other inducement.

In England, Belgium, Germany, and France, there are tens of thousands of the best mechanics, farm laborers, miners, and others, who would gladly come to our State, if facilities could be offered for them to do so. The increase of wealth resulting from this accession to our population would be almost incalculable.
These people are honest laborers—moral and religious. They are not paupers; but the avenues of labor are so crowded as to reduce prices to the limit of bare sustenance, and families which support themselves during good health, have no savings at the year's end to enable them to look forward to the means of escape to our hospitable shores. This is a peculiarly appropriate time for action. All Europe is armed to the teeth in anticipation of impending war. The air is filled with the odor of revolution—even in England; and hundreds of thousands see and hear the threatening storm. These thousands of people, who have no means of escape from enrollment into armies, at the first signal of warfare would eagerly grasp any offer to relieve themselves and their families, by immigration, from such impending calamity.

**FIRE-PROOF OFFICES.**

By an act of the last Legislature fifty-five thousand dollars were appropriated for the completion of fire-proof public offices, for the use of the State officers at Frankfort. The provisions of that act required the Governor and two Commissioners, recommended by him and confirmed by the Senate, to use that money, first, in payment of such debts and liabilities against the State created by the former Board of Commissioners, as should, within thirty days after the passage of said act, be certified by the old Board of Commissioners to them as just and correct; and the balance to be expended in finishing the fire-proof offices. The old Board of Commissioners reported and certified debts as just and unpaid amounting to thirteen thousand two hundred and eighty-six dollars and thirteen cents, leaving for our use toward completion of the offices $41,713.87; and this sum, or within a fraction of the whole, has been, as I feel certain, judiciously and advantageously applied to that purpose. There will be at an early day a detailed report laid before you, showing a full account of the labor and expenditures of that Board of Commissioners, which I am satisfied will bear the test of the strictest scrutiny. I respectfully invite you to make, each, personal examination of the building and all its parts. Your own good judgment will suggest that provision should promptly be made for finishing the rooms on the second and third floors, with a view to their occupation by the public officers, and thereby saving to the State the heavy rents now paid. All the rooms on the first floor will be ready for occupation within a few days, needing only some furniture.
They are designed to reduce the support of poor persons end to provide housing accommodation. All support. The number of hundred thousand is the thousand improvement into any offer from such

It is gratifying to observe the spirit in favor of internal improvement which is developing in every portion of the State. Turnpike roads are rapidly multiplying; rivers are being improved and rendered navigable, which have not been so heretofore; and a number of important railroads are in course of rapid construction in various parts of the State; whilst still a larger number are projected, and with prospects rendering their completion only a question of time. Within the next ten years we may safely predict that vast advances will be made in the development of the resources and substantial wealth of the State through these means. As the benefits arising from the means of intercommunication and facilities of commerce, afforded by the building of railroads, are demonstrated, the determination to enjoy them is formed by the people, and they spring up as if by magic. It will afford me great satisfaction to approve any properly guarded legislation looking to the increase of railroad facilities in all portions of the Commonwealth; and it is the duty as I doubt not it will be the pleasure, of the Legislature, to foster and encourage this by the passage of laws granting franchises as liberal as is consistent with the safety of the citizens, and their protection against imposition.

Great enterprises, like the construction of railroads, can only be accomplished by an association of capital through the medium of incorporated companies; and in granting charters to these companies, whilst exercising liberality in the grant of powers, due care should be observed to throw around them the proper safeguards, protecting the public and affording ample and adequate remedies to individuals.

The individual citizen is placed at great disadvantage in a controversy with a powerful corporation, which, it must be borne in mind, is fettered not by the restraints of sympathy and moral obligation, but insists upon the bare, the bald, bare letter of the law. There are many charters now in existence in Kentucky which confer upon companies powers which should not have been granted; and it should be remembered that franchises thus granted are in the nature of a contract between the State and the company, and when accepted, and money invested under them, they become vested rights, and cannot be abrogated by the Legislature. Good faith requires, and the courts will see, that the company which invests money under a charter passed by the Legislature is protected in the full enjoyment
of the franchises granted. Hence the necessity for circumscription in this matter, and the reservation of a supervisory power in the representatives of the people, and the insertion, in each charter granted, for whatever purpose, of all needful safeguards.

PENITENTIARY.

The report of the Keeper of this Institution will show its healthy and prosperous condition. It is being managed and carried on with humanity to the convicts, and with proper discipline. There were in that prison on the first of March, 1871—

| Number of deaths | 17 |
| Discharged under Executive pardon | 60 |
| Escapes | 5 |

Leaving now in prison | 580 |

The visitor in passing among the convicts, cannot fail to perceive that the prisoners are well fed and clothed, and that a healthy discipline prevails. It is a sad picture to see there, in prison garb, so many young men, and mere boys; and one visiting there would naturally turn his mind to our projected State House of Reform, and wish for its completion, in the hope that this latter class of offenders may be separated from older and worse men, and placed under influences more encouraging for their reclamation.

It is the custom of the Executive to issue pardons to convicts the day before, or some days before, the expiration of their term, in every instance where they, from good conduct in prison, are entitled to it. This they all understand, and it has a good influence upon them. Whether any legislation is necessary providing additional means of encouragement to them, and further moral culture with religious instruction, is a question to which I invite your thoughtful attention.

There are many good citizens in our State who feel anxious upon this subject, and believe much could be done, and that our duty as a Christian people, abhorring crime, does not stop at mere confinement in the prison, but that we should make a strenuous effort to reclaim and reform them.
WAREHOUSE FOR PENITENTIARY.

An appropriation of $28,311 was made last session of the Legislature to build a fire-proof warehouse for the Penitentiary, and the Governor, Auditor, and Treasurer were directed to contract for and secure its building. A report of their action in the premises will be presented for your inspection. I take great pleasure in saying that they have caused to be erected upon the grounds, as directed, a most excellent fire-proof building, now about complete. It is a substantial structure, admirably adapted for the purposes for which it is designed, and, perhaps, a better and more faithful job of work was never done in the State, its cost being only twenty-four thousand dollars; leaving $4,311 of the appropriation which will not be called for in aid of this item of improvement.

STATE HOUSE OF REFORM.

The “State House of Reform for Juvenile Delinquents,” in the completion and successful operation of which the people all over the State feel great interest, I regret to say, is not yet completed; and, although I have no formal report from the Commissioners having it in charge, I am satisfied it will not begin readiness for use before next spring. The Commissioners will lay before you their report, and it will discover to you whatever necessary action will be required, upon your part, to finish the enterprise and open the doors for the reception of convicts. The great need and usefulness of such an institution as a means of reclaiming the wayward youths of the State, I am sure will challenge your especial attention. The State has already invested upwards of fifty thousand dollars in the purchase of grounds, preparing buildings, &c., all which has been most judiciously expended and faithfully applied by the Commissioners. Shall that investment stand there yielding no return to the State? Or will you provide the Commissioners with the additional funds necessary to complete the institution—at all events sufficient to carry it into practical operation.

KENTUCKY MILITARY INSTITUTE.

This flourishing institution is steadily increasing in interest and usefulness. The able and efficient Superintendent, Professor R. T. P. Allen, and his excellent corps of teachers, deserve the highest meed of praise for their indefatigable and successful efforts in the interests of scientific education, the benefits of which have been experienced and recognized both in Kentucky and many of her
sister States. The report of the Board of Visitors will be laid before you, showing the condition and progress of the institution in detail.

SPECIAL LEGISLATION.

Annual sessions of the Legislature have been chiefly attributable to, and their time greatly consumed by, the consideration of a multitude of bills of a purely private and local character, for the benefit of individuals or companies seeking some relief or franchise, the granting of which would, in my opinion, be properly transferred, as in some cases has been done, to other and inferior tribunals.

I submit to your wisdom whether it would not be advisable to enact a general law making such transfer of jurisdiction in most, if not all, cases of this class. Such a measure would not only relieve the State of considerable expense, amounting to not less than $30,000 per annum, but would greatly lighten the burden of legislation.

Assuring you of my high respect and confidence in your wisdom, integrity, and love of country, and of my readiness to co-operate with you in all your labors of legislation, I commend you to the care and oversight of Him who is God over all, and the Supreme Lawgiver of the world.

DOCUMENTS ACCOMPANYING GOVERNOR'S MESSAGE.

Louisville, September 12th, 1871.

His Excellency, Preston H. Leslie, Governor of the Commonwealth of Kentucky, Frankfort, Ky.:

Sir: In accordance with the request contained in yours of the 8th inst., I have the honor to report—

That, in pursuance of your instructions, I proceeded to the city of New York, in the month of May, for the purpose of ascertaining, as far as possible, who were the holders of the bonds of the State of Kentucky, and the terms upon which said bonds could be redeemed; and I inclose herewith a paper marked "A," which, I believe, contains a list of all, or nearly all, of the bonds, the coupons of which are paid in New York, together with the names of the owners or their agents.

It is proper to state that I believe that if I had been authorized to purchase the bonds, I could have readily redeemed them at the current rates at which they were quoted in the New York market; but as I was instructed not to conclude any purchases at that time, and being assured that conditional purchases at the market rates could not be effected, I did not make any overtures to their holders, fearing
that it would have the effect to induce speculators to rush into the
market and buy them up, and hold them for a higher price before 1,
as the agent of the State, could be fully authorized to purchase them.
I was sustained in this view of the matter by the President and
Cashier of the Bank of America, which bank has long been the
fiscal agent of the State in New York.

Owners (resident in this State) of about two hundred of the "War
Bonds" have offered to sell them to me at prices ranging from
ninety-five cents on the dollar to par; but I was compelled to decline the
purchase thereof for the want of the necessary authority.

Previous to my visit to New York, I purchased, in accordance
with your instructions, and delivered to the Auditor for canceling,
fourteen (14) bonds, a list of which is herewith inclosed, marked "B."

Although the act of the General Assembly, under which I hold my
appointment, may not be perfect and complete, yet, with the cordial
and hearty co-operation of the Commissioners of the Sinking Fund,
I believe I should have no great difficulty in carrying out the obvious
intent and meaning thereof within a reasonable length of time. It
may not be improper to add, that I shall hold myself always in readi-
ness to obey your instructions, and to co-operate with you in carry-
ing out the provisions of said act.

Very respectfully, your obedient servant,

LYTTLETON COOKE,

(A.)

Said resolutions read as follows, viz:

WHEREAS, The tax upon cotton levied and collected by the Government of the United States during the years 1865, 1866, and 1867, was, in our judgment, most unjust and oppressive to the people of the cotton-growing States, in that it was a direct tax upon industry, and imposed upon them at a time when they were prostrated and impoverished by war and the attendant consequences; and whereas, the people of those States have, through their respective Legislatures and Chambers of Commerce, petitioned the Congress of the United States
to authorize the refunding of this tax; and whereas, we believe the refunding of this, an unequal tax, levied, as it was, on the industry of a minority of the States, to be only a matter of even-handed but tardy justice to those with whom the people of this State are identified, as well by ties of blood as by common interest; therefore, be it

1. Resolved by the General Assembly of the Commonwealth of Kentucky, that we do most respectfully and earnestly memorialize the Honorable the Congress of the United States to pass a law refunding to the people of the cotton-growing States the amount of taxes collected on cotton during the years 1865, 1866, and 1867.

STATE OF KENTUCKY, EXECUTIVE DEPARTMENT, FRANKFORT, December 13, 1871.

Hon. James B. McCreary, Speaker of the House of Representatives:

In compliance with the resolution of the House of Representatives, addressed to the Commissioners of the Sinking Fund, concerning the sale of turnpike stocks, &c., I here present to that body, through you, the response of said board.

Respectfully,

P. H. Leslie.

Hon. J. B. McCreary, Speaker of House of Representatives:

In response to a resolution of the House of Representatives, requiring the Commissioners of the Sinking Fund to report, at their earliest convenience, "all that they have done under the act authorizing and directing the sale of the interest and stock owned by the State in turnpike roads or turnpike road companies," approved March 7th, 1871; also, what they have done under the act to provide for the payment of the State debt, approved March 23d, 1871; and what amendments are necessary, if any, to either of said acts, to protect the interests of the State, and carry out the original intention of said acts," the board begs leave to report:

That on the 16th of September, 1871, they appointed as the principal agency, at the city of New York, the Bank of America to sell 406 shares of Bank of Louisville stock, and 2,789 shares of the stock of the Bank of Kentucky.

After some correspondence with the Bank of America, it was thought most advisable not to put these stocks on the market in large quantities, but to sell them in small amounts at a time, as the demand should justify, as it seemed to be the opinion of the best informed bankers that any considerable amount of these stocks placed on the market at one time would most certainly depreciate the price.

It seemed to be the opinion of those best informed on this subject, that Louisville would be a better market for these stocks than New York or any Eastern city, and such is the opinion of this board.

Some time in the month of October, 1871, the board appointed Grant Green, Esq., and one of the members of the board, Attorney General Rodman, to visit the two above named banks, and ascertain "what reserved funds or accrued dividends are held by the Bank of Kentucky and Bank of Louisville," before they should make any
sales of the shares of stock aforesaid, who executed the duty assigned them, and made report to the board.

The Bank of Louisville being the holder of a larger amount of the bonds of the State than this board holds of its stock, some effort has been made to exchange the one for the other, as far as the amounts may go; but no agreement as yet has been arrived at.

A negotiation has been opened with the Bank of Kentucky, looking to the appointment of that bank as the agent of this board to sell our bank stocks and pay off the State bonds of the State; but the terms not having been agreed upon, no definite arrangement has been made. That bank will, by the 15th of this month, make the board a definite proposition, which can then be accepted or rejected.

There has been no sales made of these stocks, or any of them, as yet, because the board believes they are, intrinsically, worth more than the market quotations; yet it will not be an easy matter to sell them for more.

On the subject of sales of the State's shares of stock in turnpikes, the board, in strict adherence to the directions of the act of March 7th, 1871, appointed an agent and had an appraisement made, and minimum price fixed, of the stock of each road in which the State owned shares, with the exception of a few of inconsiderable value, which appraisement fixed the aggregate value of the State's shares in twenty turnpike roads at $279,782; and the board directed their agent to correspond with the county courts as directed by said act, and make an effort to sell to them, which he reported was done, but that the county courts were disinclined to purchase.

The board then caused advertisement to be made, inviting bids for the State's stock in each of said twenty turnpikes so valued as aforesaid, reserving the right to accept or reject any bid that might be made.

Bids were made for the greater part of the stock so offered, and these bids were opened, examined, and listed in presence of the board, some being absolutely rejected, and others, to-wit: for the State's shares in eleven turnpike roads, accepted—a majority of the board voting therefor—with the proviso that the State is entitled to its proportion of the money and securities now in the hands of the Treasurer, or other officer or agent of the several roads; and the further proviso, that the State shall be entitled to the dividend to be declared on her stock in each of said roads in January, 1872.
The agent was ordered to notify the bidders, whose bids were accepted, of the fact, and of the two provisos, and if acquiesced in by them, to prepare bonds for the purchasers in accordance with the terms of sale, and with the foregoing provisos embodied in each, and report back to the board. But before any report was made, or any contract was closed, this board being requested by resolution of the House of Representatives to suspend all further proceedings under said act of March 7, 1871, and the Senate having also passed a similar resolution, the agent was so instructed, and no contract has been closed.

A majority of the board believed, when they accepted the bids with the provisos aforesaid, that the amounts bid were such that the sales of the residue would make up, with that which they had thus conditionally sold, the full amount of $200,000, as contemplated by the 10th section of said act.

P. H. LESLIE,
Chairman of Board of Commissioners of Sinking Fund.

The rule requiring joint resolutions to lie one day on the table being suspended, said resolution was taken up, twice read, and unanimously adopted.

The House took up the amendment proposed by the Senate, to a bill which originated in the House of Representatives, entitled

An act to incorporate the Observer and Reporter Printing Company.

Said amendment was concurred in.

Under the joint resolution heretofore adopted, directing a select committee of each House to prepare and bring in a bill to divide the State into Congressional Districts, the Speaker appointed the following committee on the part of this House, viz:

From a report made to this board by Messrs. Grant, Green and John Rodman, in pursuance of a resolution of the board to ascertain all the matters mentioned therein, we have derived all the information in our power, and we beg leave to make that report a part of our response; and we respectfully suggest, that said report covers every point of inquiry contained in your resolution.

$4,299,398 07

There is but little change since this report in the condition of the bank, outside of the earnings, which will go principally to the payment of the next January dividend, and may add something to the surplus fund; and, as the bank could not furnish us with a consolidated statement since the one above, we assume it as the basis from which to make our statement in regard to the surplus:

The surplus, as shown above, is ................................. $511,976 35
There should be added to this of the fund for redemption of circulation, amount for unredeemed circulation, which will never be presented for redemption ........................................ 60,000 00

And we have the surplus .......................................... $571,976 35

Assuming that all the assets of the bank are good, this makes the stock worth 23½ per cent. above par.

This bank, however, like all the old banks of the State, had large debts created before and during the war, some of which were accumulations of years, and were hanging on for settlement, and others that were good, but debtors so crippled by the war and its general effects upon the commerce and business of the country, that they could not pay. All the paper of this sort which has been ascertained to be bad beyond question, has been charged off. There is still
another class which has been renewed from time to time, and kept alive with the hope of its ultimate settlement; but some of it must be finally lost, and with it, perhaps, other paper which is looked upon as good; and we have concluded, after sealing the different items of reported assets, that $288,741 10 would be a liberal amount to take off to cover all losses that might occur in any contingency; and, assuming this basis, the surplus fund would stand as follows:

<table>
<thead>
<tr>
<th>Surplus fund reported by bank, with amount to cover circulation which will not be redeemed</th>
<th>$571,976 35</th>
</tr>
</thead>
<tbody>
<tr>
<td>Estimated amount above to cover losses</td>
<td>283,741 10</td>
</tr>
<tr>
<td>Leaves surplus unquestionably good</td>
<td>$288,235 25</td>
</tr>
</tbody>
</table>

This makes the stock worth nearly 12 per cent. premium; the amount taken off, we think, very liberal, but we prefer to overestimate, that your board may know the unquestionable value of the stock.

The condition of the Bank of Louisville, on the 30th day of June, 1871, as shown by the printed report, was as follows:

There is no change in the condition of the bank since the above report was made that will change the surplus, and hence we assume the printed report as our basis for calculation:

The surplus above is __________________________  $47,700 00
Add circulation that will not be redeemed __________________________  31,958 00

And we have surplus of __________________________  $79,658 00

Assuming that the assets of the bank are all good, and will be realized, this makes the stock worth 6 per cent. premium. This bank has also a large ante bellum debt, and debts created during the war (some of which are not very good), and has met with heavy losses. Some of this paper is still hanging on in a suspended condition, and some unused and kept alive for future settlement, with a view of getting as much as possible out of it; and we estimate that $168,973 55 would fully cover the losses from the reported assets of this bank. Assuming this basis, the stock of the bank would be worth about 93. The officers of the bank think the stock would be worth par if the bank were wound up now.

The market price of the stock of the Bank of Kentucky is par to 1 per cent. premium, and with little selling and little inquiry for it. It is the opinion of the best informed bankers and brokers in the city, that par could be realized for the stock if placed upon the market in the hands of a discreet banker, in lots of fifty shares at a time, or in quantities to meet the demand as it may come up; but that, if a larger quantity is placed upon the market at one time, the value would be decreased in proportion. It is our opinion that no large quantity could be sold without a concession from the present market price, and would not advise the sale of it, except in small quantities, and that through the agency of a president and discreet banker. Kentucky, and Louisville in particular, we think, would furnish the best market for this stock, though as a good deal of it is owned in Philadelphia and New York, some sales might be made at those points, though the tendency in the East to get rid of stocks in Kentucky and Southern State banks has been rather a prominent feature in the stock market in the last few years, and it is constantly going into the hands of persons in the State who have confidence in the management of the banks. In this way the banks have been materially strengthened. The money market, both in Louisville and New York, at this time, is working close, the principal part of it being needed and used at this time for moving hogs, grain, and cot-
ton, and it is in demand at high rates of interest. The stock market has almost been thrown into a panic by the immense quantity of stock thrown upon it by the insurance companies to meet their losses by the Chicago fire, which has increased the demand for money to cover losses and rebuild and supply lost stocks, and also to supply losses by fires generally throughout the Northwest. These things all taken together have brought about, at this time, the peculiar state of the market that makes money scarce, the rates of interest high, and forces down the best stocks in the country, and drives us to the conclusion that, at this time, the placing of a large amount of the very best stocks upon the market will, irresistibly, force it down to a price largely below its real value. The stock of the Bank of Kentucky, if placed upon the market in a large quantity, for the reasons stated, we think, would not bring more than $5, which would be a heavy loss on stock unquestionably worth $12, and likely to continue paying a dividend of 8 per cent. per annum.

The market price of the stock of the Bank of Louisville is $0, and it is decidedly weak at that price. Any quantity of over 30 or 50 shares at a time thrown upon the market would depress it materially, and we are satisfied, that if the stock owned by the State were all placed upon the market at one time, it would not sell for more than 75.

We herewith present a proposition from this bank for an exchange of the State bonds held by the bank for bank stock held by the State. This proposition is, substantially, to take bank stock at $0, and sell Kentucky bonds at par. We think, however, from a conversation with the bank officers, that the bank would exchange at the market price for each; and if the market price for the State bonds were fixed at $5, would advise the exchange to be made, for the reason that the bank cannot, in our opinion, be very profitably managed as long as it continues the Paducah and Flemingburg branches, though it might still pay 6 per cent. dividend. A negotiation with the bank, on the terms of the market values of the stocks, would certainly be better than selling the bank stock at what it would bring upon the market, and then purchasing the bonds with the proceeds of the sale.

As to what policy should be pursued by the Sinking Fund Commissioners in regard to the sale of the stocks of the State in banks, &c., under all the circumstances surrounding them, is not within the
...scope of our commission to say; but having fulfilled the commission given us to the best of our ability, with the lights before us, we are respectfully,

[Signed] GRANT GREEN,
JOHN RODMAN.

Mr. Corbett presented the following letter from J. D. Wilds to him upon the subject of teaching and changes in the common school law,

Blandville, Ky., December 29th, 1871.

Hon. Thomas H. Corbett:

Sir: I cheerfully comply with your request to send you my views upon our Common School System, growing out of my experience both as a teacher and Commissioner under that system; but in doing so, I will confine myself to the operation of the school law, as exemplified in the county, and will only say of the Superintendent, that if the law would provide that he should, in his own person, attend each County Teachers' Institute once in two years, I believe it would be of immeasurable advantage to the cause, by diffusing a greater interest throughout the county; it would make the teachers
and Commissioner more efficient; and, though the Superintendent might not come among us to hold an inquest or examining court upon the administration of the Commissioners, yet every malcontent in the county would rush up to the Superintendent with his complaint, and so every fraud, illegal act, and neglect of duty on the part of the Commissioner, would be ventilated. Commissioners would foresee this, and discharge their duties with more thought and more faithfully. This may consume too much of the Superintendent's time; if so, let him come once in three years; but do not allow him pay to send out deputies to the County Institutes. These deputies are irresponsible, unreliable persons; they act under no oath; can be chosen exclusively upon grounds of personal friendship, without merit; they wish to travel, and get their traveling expenses paid; and the people would not turn out to hear deputies, or lay in their complaints against the Commissioner.

We cannot overrate the importance of affording the people an opportunity to have their complaints heard by a tribunal acquainted with the law. What does our county court know of the law, or, indeed, anybody else in the county!

When the Superintendent attended our County Institute, we (teachers) would sit still and listen; would learn many new ideas. The next year, when he was absent, we (all the teachers of the county) would hold a family Institute, and with a year's study on these new ideas, and "nobody present but us," we would exchange views freely; and would, perhaps, be more benefited than if the Superintendent were here every year.

COMMISSIONER.

1. School law, article 4, section 1, should be amended by adding thereto, no person shall be eligible to the office of Commissioner till he shall have first obtained a first-class certificate from his county board of examiners, at some time since the new school law was enacted, and also have taught school (either subscription or common schools) not less than three sessions of five months each, the last of which sessions should have been taught within two years next preceding his application for certificate to become a candidate for Commissioner. A man who taught three sessions twenty years ago is not now up with the age, and ought not to have the direction of all the schools; and we cannot expect to have good schools unless we have able and experienced Commissioners. Just here let me say,
that no kind of legislation, nor any amount of pay or revenue, can ever make our common schools worthy of our State or the age, unless the law will guard the office of Commissioner against inefficient, worthless incumbents. We may always secure the very highest ability in the Superintendent; and he may always accurately inform the Legislature as to what is being done throughout the various counties; but he can never vitalize the schools, or improve what is being done in a county oppressed with the dead weight of an indifferent, or even an ignorant, Commissioner. The Commissioner does the work; the Superintendent merely reports in what manner that work has been done.

2. Article 4, section 6, school law, should be amended by striking out "visit each school district of his county at least once during the year," and insert, "visit each school at least twice during school year, and take charge of and teach each school the whole day on his first visit, and direct the operations, &c.; and on the second visit require him to stay at the school the whole day," but leave him to his own discretion as to how he will "investigate" the operations of the school, and require him, on both occasions, to lecture the patrons and children. If the Commissioner has to teach in all the schools, he will take more pains to post himself, and many inefficient candidates will be deterred from running for the office; and to teach the school is the best way to ascertain the thoroughness of the teacher's work, and this will be an inducement for the teacher to be thorough. I have tried it, and teachers have told me they were ashamed of their schools in my hands, promised to be more thorough, and begged me to come back that I might commend their thoroughness next time.

3. Section 5 of the amendment to new school law, passed 13th March, 1871, should be so amended as to insert, "1st November," before the words: January, April, and July.

4. Article 4, section 9, should be amended by inserting the word "alone" after the word "Commissioner," because we are forced to take for trustees many persons who are so ignorant they cannot understand the law; and when trustees have come to make their reports, they have rarely failed to ask for information as to their duties, and were surprised and alarmed to learn all the requirements of the law upon the trustees. Others denied the existence of the law till I showed it to them; and almost all of them would have totally failed in their duties but for the opportunities offered me, by swearing them to their reports, to interrogate and post them.
5. Article 4, section 12, merely requires the Commissioner to make a “settlement” with county judge concerning any devise or gift in aid of common schools, and should be so amended as to direct him, or leave him a discretion how to appropriate such devise or gift, in cases where the devisor or donor gives no special directions. As the law now stands, the Commissioner would be at a loss what to do.

6. Article 4, section 13, and section 1 of an amendment to said section 13, article 4, passed 13th March, 1871, ought to be so amended as to strike out of said amendment the words “1st and 20th of January and July,” and insert “10th of February and August,” because many of the teachers fail to come and get their money before the 20th of those months; and because that only gives the Commissioner ten days to send on his orders to Frankfort, get the drafts back, and then get the drafts cashed, which is too short a time; and, consequently, the Commissioner, when he comes to settle with the judge, has all the money in his hands, and the Commissioner cannot draw any of the one per cent. on money disbursed by him. In fact, has but little to settle for, and is kept out of his own wages six months longer.

7. Article 4, sections 8 and 13, differ. Section 8 gives the Commissioner 30 days, section 13 gives him 90 days, to pay out money. They ought both to be so amended as to read: “Pay out to those entitled on demand, made on or after 30 days from the time the Commissioner received, or ought to have received, the money;” and, for such failure, let him be fined in the same amount named in said section. But surely the law does not contemplate that the Commissioner must leave his office with the money and go all around the county and hunt up the teachers; but there ought to be a demand. Neither ought the Commissioner to be made liable to such heavy fines, and then be placed at the mercy of irregularity in the mails, and rascals; for if the demand were made on the next day after the Commissioner could ordinarily have received the draft, a little delay of the mail, and a rascal and enemy of the Commissioner, could make the demand and have the best Commissioner fined and disgraced. But give the Commissioner a living chance—30 days before he can be fined for not paying on demand, and then make him “toe the mark.”

8. Article 4, section 14. The Commissioner ought to be required to be in his office every Saturday in the year, and also on the Friday before the 1st days of November, January, April, and July.
If the Commissioner is keeping up as much interest among the people on the school question as he ought, he will have plenty of business on nearly every one of those days; and then he ought to have so much business definitely prescribed that he will have but little time to spare to other vocations.

9. Article 4, section 18, ought to be amended by striking out the words "sufficiently examined," and insert the words: the Commissioner shall not give a certificate to any applicant whom he has not personally examined, and who, on such examination, failed to answer three fourths of the questions correctly, for a second-class certificate, and reads and spells well; and, for a first-class certificate, eight ninths of the questions. This would make clear the duty of the Commissioner to examine the applicant, where now, under the words "sufficiently examined," some Commissioners are satisfied by merely asking the applicant two or three commonplace questions about a horse or a farm, then give a first-class certificate without asking him a question in the books required to be taught in the school, or hearing him read. This law would help the Commissioner to do his duty without incurring reproach, as has been my lot in trying to do mine.

10. Article 4, section 2. Commissioners ought to be elected as now, by the court of claims, and not by the people. There is not enough money in the office for a man to spend two or three months in electioneering, nor would the people choose a more worthy man than the magistrates would. But the Commissioner ought not to go into office till the first day of the new school year. The present law of changing Commissioners during the year has a tendency of making both Commissioners neglect their duty; and what is two men's business is no man's business, and sometimes we are at a loss to know what proportion of the year's wages each should have.

11. There should be a Commissioner for each county, as at present. I know I have worked diligently on my school interests two thirds of my time, and if I had done every thing a good Commissioner ought to have done, and neglected nor postponed nothing, the other one third of my time could have been well put in. It is a penny-wise policy, and prepostorous, to talk about one Commissioner discharging all the duties of his office for three or four counties, when the parents generally need more encouragement and instruction in their duties than the children do. My four thousand Ballard children are all I want, or could attend to.
12. The Commissioner ought to go into office on the first day of
the new school year, and not in the middle of it.

13. Article 4, section 14. The Commissioner should be required to
reside at the county seat, and should be prohibited from pursuing
any other vocation, and he required to give his entire time and
attention to the duties of his office, as is now the law in regard to
Superintendents. Because, where the Commissioner is permitted to
follow other avocations, as the chief source of his livelihood, he will
always regard his official duties as an irksome form, satisfied with
an indifferent compliance—he will have no soul in his official duties.
The examination of teachers will be wholly inadequate, as well as
of the schools. "We cannot serve two masters, but will hate the
one and cling to the other." Always remember that the Commissi-
oner does all the work, and the Superintendent merely reports how
that work has been done.

14. The teacher of a common school is as much an officer of
the State as is a Circuit Judge, and should be treated with as much
respect at the school-house (whether on the play-ground, or in the
school-house) as the judge is; and the Commissioner ought to be
required to present to the Grand Jury any patron, or other person,
who may go to the school-house and insult or abuse a teacher, or in
any manner disturb a school. We now have a statute against dis-
turbing public examinations; but, surely, it is not so productive of
injury to disturb an examination, at the close of a session, as it is to
have all the teacher's efforts and influence paralyzed and destruc-
ted near the beginning of the session. I would not teach another day
if I had to stand and take a cursing before my school; for I know I
could not afterwards do any good without beating the children to all
the work I got out of them; and, in that case, it would be said of me
that "I could tyrannize over children, but ain't there when men come
for me." Each person owes it to society not to break up the school
for the whole neighborhood. Such an offense should be fined not
less than fifty dollars, and for the second offense imprisoned not
less than thirty days. If a man is outraged he can, by legal means,
have the teacher dismissed, or he can flog the teacher on Saturday.
This offense has been repeatedly committed in this county.

15. Article 4, section 23. The compensation of the Commissioner
should be at least seven hundred dollars. The Commissioner, if he
has a family, cannot live a year on less, and he must be enabled
to live on his salary before he will give his official duties that attention and interest which is indispensable to the effective direction and management of the schools. All over what is now drawn by the Commissioner of the county might be levied upon his county; but such county levy ought to be a preference claim, and to be paid the same year the services are rendered. The said amount is just barely enough to support a teacher when paid promptly; and what would a claim on Ballard county be worth to a Commissioner when he would have to wait four years for it? Just fifty cents on the dollar. The Commissioner, being forbidden all other vocations, must be paid promptly.

16. The Commissioner ought to be required to visit negro free schools, if the negroes should organize any such schools in his county, exclusively for negro children; and should be required to send to the Superintendent a separate census report of the negro children in his county, said report to be based upon a like separate report of the district trustees. If negroes must stay among us and vote, it is better to have them educated than remain in a forced ignorance and hostile to the whites; besides, they can, under the Federal laws, break up our white schools just whenever they please. One negro determined to be educated, or acting under the malicious directions of a Yankee, could now, by a persistent application for admission to one free school after another, break up every school in the county; for teachers and trustees never know whether the negro resides in his district or not. The Legislature ought to make some provision to educate the negro separately from the white children; or far better, to expend the same amount of money in colonizing every Kentucky negro into the arms and family circles of the "man and brother," the Massachusetts Yankee, where the Yankee can give the negro the full benefit of his fostering care and his schools, so much better than any we can offer.

TEXT-BOOKS.

Article 2, sections 5 and 6, and section 17 of the instructions and information given by the State Board of Education. These ought to be made more definite. The State Board of Education ought to recommend three series of text-books, one of which series must be adopted and used in each county of the State; and when once adopted in a county, should be exclusively used for four years; and the county board of examiners should have the power to make the
selection from among those recommended by the State Board, and
not leave a matter requiring so much study, and of so much impor-
tance, to the trustees, as has been done by the State Board; or better
still, let the State Board adopt one series of text-books for the whole
State, and for four years, and which shall not then be changed
without six months' notice to the publishers and County Commissi-
ners; and when the State Board of Education shall have examined
the various series of school text-books, they should be required, out
of the three best series of school-books, to give to that publishing
company that would make the lowest bid the business of furnishing
said books to all the schools in the Commonwealth for four years.
I am satisfied that by this means we could save to the people of the
State twenty-five per cent. on all their school books. This plan has
been adopted by some of the States.

Article 5 should be amended by granting to every school district
in the State the same privilege to vote a tax upon themselves that
is now granted to Paducah, Lexington, and Louisville.

TRUSTEES.

Article 6, sections 1 and 2, should be amended by adding thereto
that "no person shall be eligible to the office of trustee who cannot
read and write, or who is not a man of sober, moral habits;" and
the new trustees, though elected as now, on first Saturday of April,
should not go into office until the first of July ensuing. We ought
to have three trustees to the district, and not one, as is recommended
by the Superintendent. The one trustee may be a person personally
obnoxious to a number of persons in the district, who would there-
fore be deterred from sending to school. The one trustee might
employ a teacher who was a friend, who was both a libertine and
indolent, and give him all the recommendations as to moral charac-
ter any Commissioner could require; and as the Commissioner only
visits the school once during the session, and as such reports are
generally mere rumor and hard to trace to reliable authority, and as
the small attendance of children on that one day the Commissioner
does attend, and the inaccuracy of his pupils in their studies, is sure
to be attributed by such a teacher to the irregularity of the pupils'
attendance, scarcely any Commissioner is willing to take the respon-
sibility of dismissing the teacher, especially in the teeth of the fair
statements of the trustee, and his express denial of all the charges.
Something must be done to secure a better class of trustees; or, indeed, that we may have any trustees. The labor and penalties affixed by the law to the office of trustee have already deprived the schools of the services of our best men, and next year, I very much fear, there are many districts in which we cannot find a single man willing to accept the office under the present law. Just let the Grand Jury find bills against half a dozen trustees for neglect of duty, and not another man would be willing to accept the office. We only have trustees now because they have been permitted to neglect their duties with impunity; and certainly we have no need of trustees unless they discharge their duties faithfully and efficiently. Trustees should be paid, or they should be compelled to serve, just as overseers of the road are; or, perhaps, they should be released from working the roads and serving on petit juries during their term of office.

Article 6, section 8. Out of what fund shall the trustees allow their collector of the teacher's subscription a "reasonable compensation?" If such allowance is to come out of the teacher's subscription, why not leave the whole matter with the teacher? If out of the trustees' own pockets, it is a great privilege, to say the least of it, and no other fund is provided.

Trustees should not receive the money, but it should be paid directly to the teacher by the Commissioner; and—since the 7th section of the amendment passed 13th March, 1871—so much will be due the county at one time, if the Auditor sends a single draft for the whole amount, the Commissioner cannot get it cashed by a merchant or the sheriff at par; but will be compelled to discount it at some bank, or send it back to Frankfort and get it there cashed at par; and by the delay thus occasioned will lose more than thirty days, and become liable for such delay. The Treasurer ought to be required to send the money itself to the Commissioner.

Article 6, section 7. Trustees should be required to give all the free-school money to the teacher; but might contract for more than a five months' school.

TEACHERS.

Article 7, sections 1, 2, and 3. The law relating to the examination and qualifications of teachers is second in importance only to the law concerning the Commissioner; and must be so definite and explicit as to preclude any evasion of it by the Commissioner, and
prevent the Commissioner from giving a certificate to any applicant until the Commissioner has personally examined the applicant, and required him to stand a thorough and approved examination on each and every book required to be taught in the common schools, according to a standard prescribed and fixed—definitely fixed—by the law.

Under the existing ignorance of the masses, the long years the schools have been oppressed and scourged with ignorant and imbecile teachers, and the consequent indifference of the people, and their want of faith in the schools ever furnishing the pupils with a true and practical knowledge and training, the cheapest teacher is, with the masses of both trustees and people, the best teacher, no regard whatever being paid to the ability or moral habits of the teacher. Out of the aforesaid indifference and ignorance of the people arises an almost universal public opinion and organized weight of opposition against any Commissioner who tries to raise the standard of scholarship for teachers, and make them more thorough and efficient.

I have endeavored to make the teachers of my county more thorough and efficient; and have always confined my questions to the books required by the law to be taught in the common schools, and to the most important principles of those books; and I know that the opposition is now so great, and, from the very nature of its cause, will continue to be so great, that not even able and conscientious Commissioners will be able to overcome it, unless they are backed by the plain letter of the law; and I know, further, that a heedless Commissioner, who uses the office merely to secure his own popularity, wants nothing better than for the law to be indefinite, to enable him to resign himself into the muddied current of popular opinion, and become a common plank among the driftwood, instead of being the head and helm to safely guide the whole crew upon a prosperous and glorious voyage. An unconcerned Commissioner will, if the law is indefinite, give any man a certificate, without an examination, merely upon the request and suggestion of the trustees that the man is competent to teach in their district. This has been the practice, and will continue to be until the law is made definite.

Article 7, section 1, makes the standard high enough for a first-class certificate, but ought to be made more definite by requiring that...
a first-class certificate shall be issued only to those who have, on examination upon each and every book required to be taught in the common schools, shown a thorough and accurate knowledge thereof, which shall be tested by his having read well and answered correctly and accurately eight ninths of the questions propounded him.

The wording of the law in regard to second-class certificates just simply amounts to no law on the subject. Under that word "imperfect" knowledge, the greatest fool outside of the Lunatic Asylum may get a certificate. The standard for second-class ought to be fixed at three fourths of the questions answered correctly, and good reading.

Article 7, section 2. The county board of examiners should hold their sessions once each month for the first nine months of each school year. Said board should continue in session two days, and the time should be fixed by law, say third Friday and Saturday of each month. All examinations should be in writing, which is certainly the best test, and the fairest to the teacher, because it gives the teacher more time, and removes all causes of embarrassment.

Article 7, section 5. Teachers should be required to keep perfect order in the school-room, prohibit "loud studying" and whispering in school, and enforce such discipline as would be exercised by a judicious parent; and in no case should the teacher be permitted to resort to cruel or unusual punishment; and for every abuse of this discretion, the teacher ought to be dismissed, and forfeit thirty per cent. of his whole wages: the Commissioner to hold examining court and inquire into such abuse. The spirit of the age tends towards abolishing corporal punishment in the school. While I entirely concede that he is the best teacher who can secure perfect order in the school-room, and prompt, accurate, and thorough recitations every day, with the least amount of corporal punishment, my observation and experience demonstrates to me that not even good teachers can, under the existing general ignorance and indifference of the people, and their failure to co-operate with the teacher—may, their frequent condemnation of the teacher in the presence of their children—enforce in their schools that prompt and respectful obedience, that orderly routine and thorough application, which characterizes all true training of the mind, without sometimes giving an additional persuasion to his arguments by a judicious use of the rod.

Under the aforesaid parental influences, what folly to say to a school
of little children, on the first day of the session, you shall not be punished for any offense, however grievous, but will be expelled. What do such children care for expulsion; and the teacher will be glad to be rid of them.

"Diseases that are desperate grown
By desperate remedies are relieved, or not at all."

Expulsion does not remedy the evil of a little child's course, but rather hardens him in it.

TEACHERS' INSTITUTES.

Article 8, sections 1 and 2. The Commissioner should be required to hold a Teachers' Institute in his county every year, whether he receives any aid from the Superintendent or itinerant directors of Institutes or not. Such a law would make the Commissioner prepare himself better for conducting the Institute. The law ought to permit the Institute to be held in any month of the year, so that the Superintendent might visit every one in the State during his term. Teachers should be required to attend the full term of the Institute under pain of forfeiting their certificates, if already obtained, or of being prohibited from teaching in the common schools for one year, if they have not previously obtained certificates; and no excuse for such failure except unavoidable casualty.

There should be no examination of teachers during the Institute. It disarranges the whole morning exercises; and one hour is too short a time for a thorough examination in one book.

SCHOOL-HOUSES.

The act passed for the Eighth and Ninth Congressional Districts is indispensable to the success of the schools in our county; but we ought to have stoves instead of chimneys to our school-houses. We have but few carpenters and lumber patrons of our country districts, therefore we should be allowed to raise more of the cost of the school-house by tax. Trustees should have the power to condemn land for a school-house.

Respectfully, your friend,

J. D. WILDS,

Common School Commissioner for Ballard County.

Which was received, the reading dispensed with, and referred to the Committee on Education.
On motion of Mr. Corbett, the Public Printer was directed to print the usual number of copies thereof for the use of this House.

Mr. McElroy, from the Committee on Enrollments, reported that the committee had examined enrolled bills, which originated in the Senate, of the following titles, viz:

An act to authorize the county clerk of Cumberland county to procure books and indexes for the purpose of transcribing the mutilated records of the surveyor’s office of said county;

An act to amend the charter of the town of Mayfield;

An act to better define the duties of overseers of public highways in Cumberland county;

An act to amend an act to protect small birds and game in the counties of Daviess and Lyon;

An act for the benefit of J. E. Cossen, H. G. Trimble, and E. D. Porch, of the county of Pulaski;

An act for the benefit of common school district No. 8, in Lewis county;

And also enrolled bills and a resolution, which originated in the House of Representatives, of the following titles, viz:

An act to revise and codify the charter of the city of Covington;

An act for the benefit of W. J. Lisle, administrator of Thomas W. Lisle;

An act for the benefit of Floyd county;

An act to increase the county levy of McLean county;

An act in relation to taxes for road purposes in Henderson county;

An act for the benefit of the town of Glasgow;

An act to amend an act, entitled “An act for the benefit of manufacturing, furnace, and mining establishments in the counties of Greenup, Boyd, Carter, and Lawrence,” so as to extend the provisions of said act to the counties of Lyon and Trigg;

An act to amend the charter of the Owensboro and Russellville Railroad;

Resolution in relation to disposition of State's stock in certain railroad companies;

And had found the same truly enrolled.

Whereupon the Speaker affixed his signature thereto.

Ordered, That Mr. McElroy inform the Senate thereof.

A message was received from the Governor by Mr. Botts, Assistant Secretary of State, announcing that the Governor had approved and
signed enrolled bills and resolutions, which originated in the House of Representatives, of the following titles, viz:

An act for the benefit of school districts No. 8, fractional, and No. 51, in Hart county.

An act to authorize the county court of Warren county to levy a tax and issue bonds for bridge purposes.

An act to amend an act, entitled "An act to incorporate the West Paris Bridge Company," approved March 15, 1871.

An act to amend an act, entitled "An act to amend the charter of the city of Frankfort," approved March 15, 1871.

Resolution in relation to the funeral of Mrs. C. S. Morehead.

Resolution directing distribution of surplus fund in Bank of Kentucky.

A message was received from the Senate, announcing that they had passed a bill, entitled

An act to incorporate the Louisville Union Depot and Transfer Company.

Which was read the first time and ordered to be read a second time.

The rule of the House and constitutional provision as to the second reading of said bill being dispensed with,

Ordered, That said bill be referred to the Committee on Railroads.

On motion of Mr. Reeves, a committee, consisting of Messrs. Reeves, Cooper, and Clay, were appointed to wait upon the Senate and request to withdraw therefrom the announcement of the passage by this House of a bill, entitled

An act to amend the charter of the city of Hopkinsville.

Having discharged that duty, the committee returned and laid said bill on the Clerk's table.

The Speaker laid before the House the following communication in response to a resolution adopted on the 20th ult., viz:

OFFICE, AUDITOR PUBLIC ACCOUNTS,
FRANKFORT, KY., January 9, 1872.

Hon. James B. McCready, Speaker House Representatives:

Sir: In obedience to the resolution adopted in the House of Representatives on the 20th ult., calling on me for information in regard to the amount of money paid per annum by the State for public printing, and what has been paid for paper per annum furnished the Public Printer, since the first day of August, 1860; also the amount
paid by the State per annum for public binding since the same period, and the cost of the paper per annum furnished the Public Binder by the State within said time," I submit the annexed statement, giving all the information on these several matters at my command.

I will state, for further information, that, under the provisions of an act, entitled "An act in relation to the office of State Librarian," approved March 2, 1863, it is made the duty of that officer to purchase, and issue on requisition, all the stationery used by the State; so that there is nothing in this Department showing the cost or value of paper issued to the Public Printer or the Public Binder. (See Myer's Supplement, page 508.)

Previous to the passage of the act approved March 2, 1863, it was made the duty of the Auditor, under the provisions of section XXII, article II, of chapter V, of the Revised Statutes, to purchase and issue the public stationery; but it would be very difficult, if not impossible, for me to state, from any paper on record in this office, how much of the public stationery was issued either to the Public Printer or the Binder.

I have the honor to be,

Very respectfully,

Your obedient servant,

D. HOWARD SMITH, Auditor.

Attest: D. HOWARD SMITH, Auditor.

On motion of Mr. Todd,

Ordered, That said response be printed.

Mr. Graves offered the following joint resolution, viz:

Resolved by the General Assembly of the Commonwealth of Kentucky,
That from and after the expiration of the terms for which the present Public Printer was elected, and that of Public Binder, shall expire, the Auditor of Public Accounts is hereby directed and required, in auditing the accounts of the Public Printer and Binder (yet to be elected), to deduct therefrom twenty per cent. from the present price authorized by law.

Mr. Chrisman offered the following resolution, viz:

Resolved, That the Public Binder of this Commonwealth be, and he is hereby, requested to furnish this House with the following information:

1st. As Public Binder, do you do the work yourself or do you sublet it? If you sublet, at what rate or price?

2d. What pay or compensation have you drawn from the Treasury of the State as Public Binder?

Mr. Blackburn read and laid on the table the following joint resolution, viz:

Resolved by the General Assembly of the Commonwealth of Kentucky,
That the Committee on Charitable Institutions of the House of Representatives, and the like committee of the Senate, be, and they are hereby, directed to proceed to visit the several charitable institutions of this Commonwealth, and examine into the present condition and management thereof; and they are hereby instructed to make a full and complete report of such visit of examination to their respective Houses within the next thirty days.

Mr. Graves read and laid on the table the following preamble and joint resolutions, viz:

WHEREAS, By orders of the Government of the United States, through the Commissioner of Internal Revenue, an officer of the Bureau of the Treasury Department, the distillers of the United States, and especially of Kentucky, were required to purchase the Tice metres at enormous expense; and whereas, the Tice metres proved to be utterly worthless, and of no account whatever, to test the flow of spirits from the worms of distilleries, either as to quantity or quality, so much so that the said metres could not be successfully...
attached to the worms of distilleries, and only attempted in a few instances, where they invariably proved to be miserable failures, and in truth, and in fact, long since abandoned by the government as worse than useless; and whereas, those distillers who were the most prompt to comply with the rulings of the Internal Revenue Bureau as aforesaid, have, it is believed, lost their money, which was unjustly and unconstitutionally extorted from them and paid over to the manufacturer of the Tice metres, by order of the Commissioner of Internal Revenue, approved by the Secretary of the Treasury; and whereas, a large sum has gone into the Treasury of the United States by virtue of its order to distillers, who were required to pay over the money as aforesaid, under the no less penalty than a stoppage or confiscation of their distilleries; and whereas, the principles of justice and moral right require that the Government of the United States should be just to that class of citizens who pay nearly one half of the revenue into the Treasury that is collected under and by virtue of its Internal Revenue system of taxation; therefore, be it

1. Resolved by the General Assembly of the Commonwealth of Kentucky, That our Senators in Congress be instructed, and our Representatives requested, to use all honorable means to have enacted a law, by which money thus wrongfully obtained from distillers, to have the same refunded to them at the earliest day practicable.

2. That our Senators be instructed, and our Representatives requested, to try to have the law of 1868, and all other laws and rulings of the Internal Revenue Bureau, so amended that a distiller shall only pay tax on the quantity of spirits actually produced; that the principle of making a manufacturer pay on distilled spirits never manufactured is no better than for the manufacturer not to pay on all the spirits really distilled; that fraud against the government, on the part of the manufacturer, in not paying tax upon all the whiskies distilled by him, is wrong and unjust, and should be adequately punished; and for the government to cause the honest distiller to pay tax on spirits never produced is, in principle and justice, no better; and that appropriate legislation to correct this abuse is demanded by the best interest of the country.

Mr. Waring, from a majority of the Board to whom was referred the petitions, papers, &c., in the matter of the contest for a seat in this House between Messrs. Mordecai Williams and W. W. Culbertson, from the counties of Boyd and Carter and part of Elliott, made the following report, viz:

The undersigned, a majority of the Board to whom was referred the matter of the contest for a seat in this House between Messrs. Mordecai Williams and W. W. Culbertson, as the legally elected Representative from the counties of Boyd, Carter, and part of Elliott, respectfully report:

That they caused the parties to come before them, heard them and their counsel, as also the evidence and proof offered by each, and, on due consideration thereof, they are of opinion that Mordecai Williams received the highest number of legal votes cast at the last general election for Representative from the district aforesaid; that is to say, that Mordecai Williams received 1,504 (fifteen hundred and four) votes, and W. W. Culbertson received 1,500 (fifteen hundred votes), showing a majority, therefore, of votes for Mordecai Williams.

They return herewith to the House all the papers, proofs, and exhibits, had and used before the committee.

They therefore report, for the adoption of the House, the following resolution:
JAN. 12.]

HOUSE OF REPRESENTATIVES.

Resolved, That Mordecai Williams is the legally elected Representative to the House from the counties of Boyd, Carter, and part of Elliott, and that he be now permitted to qualify and take his seat as such.

J. L. WARING, Chairman,
A. W. BASCOM,
W. W. AYERS,
BRYAN S. McCLURE,
JOHN A. BELL,
WM. MYNHEIR,
J. L. NALL.

Mr. Little, from a minority of said Board, presented the following report, viz:

To the Honorable House of Representatives:

The undersigned, member of the Board selected and sworn to try a contested election supposed to be pending between W. W. Culbertson and Mordecai Williams, involving the right to a seat in this House as the Representative from Boyd and Carter counties, not being able to concur in the report of the majority of said Board, respectfully begs to present his views of the whole matter in the form of a minority report.

The State Constitution (section 24, article 8) declares that "the General Assembly shall provide by law for the trial of any contested election of Auditor, Register, Treasurer, Attorney General, Judges of the Circuit Court, and all other officers not otherwise herein specified.

Section 24, of article 3, provides for the trial of contested elections of Governor, &c., "according to such regulations as may be established by law;" and section 20, of article 2, reads as follows: "Each House of the General Assembly shall judge of the qualifications, elections, and returns of its members; but a contested election shall be determined in such manner as shall be directed by law." It is believed that these are the only constitutional provisions on the subject; and they evidently require that laws shall be provided for the regulation of the trial of contested elections. It was meant that the rules governing such trials should be permanent and fixed, and not liable to be changed by the predominant partisan feeling of each Board, nor of each House of Representatives.

Pursuant to those constitutional requirements, the Legislature long since enacted laws for the regulation of such trials, and they are found prescribed in article 7, of chapter 32, Revised Statutes (1st Stanton, 443 to 448, inclusive). Those regulations are laws, and binding upon the Board sworn to try this cause.

Mr. Culbertson objected to any adjudication of this case by the Board upon the ground that the essential basis of their jurisdiction was lacking, viz: the notice specifying the grounds of contest, expressly required by the 5th section of said article (1st Stanton, 447).

No sort of notice of contest was given, and none could have been given, as Mr. Culbertson was not the officer returned (1st R. S., 447).
The undersigned agreed with Mr. Culbertson on this point, and thought a circuit court might as legally assume jurisdiction of a matter without any pleading being filed, and summons served, or notice given, as this Board could of this case without the service of the requisite notice.

And the majority of the committee also actually agreed that they had so right to hear a contested election between the parties, but assumed the power to try something else.

The undersigned thought that neither their oath nor the law required or permitted them to make a case, and then proceed to try it against the protest of a party interested. The duty of the Board was plain; and the order of this House appointing them (a copy of which is filed herewith as part hereof) not only prescribes the duty of the Board, but actually on its face refers to the provisions of the Revised Statutes under which the Board was to act.

The undersigned were clearly of the opinion that they were either a Board to try a contested election or nothing. If a Board to try a contested election, then, clearly, they could not proceed, because of the absence of the notice required; and if they were not a Board, the undersigned knew of no law or order of this House which fixes what they were. There is certainly nothing that gave the Board the right to determine the rights of any one except in a contested election. Although there was no notice and no law or order to authorize it, yet the Board permitted the introduction of proof as to the merits of the case. To this the undersigned could not agree for several reasons, viz: 1st, because the notice of contest was not given as above stated; and 2d (so far as the depositions are concerned), because those depositions were taken before a contest was begun. It was thought by us that it was as widely variant from all rules of law to admit them, taken in the way they were, as to admit depositions taken before the suit is begun in our ordinary courts—a thing unheard of except in regard to certain cases providing for the taking of proof de bene esse, &c., which it is not pretended apply here.

I conclude that the Board had no right, either to hear evidence on the merits of the case, or to determine it; and that their whole action in the premises was superservicable, if not usurpation. Unless there was a contested election being tried, in the course of which a tie vote was found to exist, this Board had no authority to have a casting of lots to decide it, nor to take any other steps under subsection 8 of section 1 of said article 7. (1 R. S., 444.)

The fact is that this Board is not the proper tribunal to settle the difficulty between Messrs. Culbertson and Williams; and furthermore, it is perfectly apparent that there is just here a lapse in the law, a defect which the Board had no right to remedy by enacting a law to suit this case. No mode is provided by the statute to remedy the failure of the sheriffs to do their duty as prescribed by the statute. The courts of equity, however, give a remedy by mandamus, and that is the course that ought to have been followed by the parties interested in this case. That it would be proper to refer to Clark v. McKenzie, 7 Bush, 525; 29 Illinois, 414.
This Board was selected to try a contested election, and not to discharge a duty which the sheriffs of Boyd and Carter counties failed to perform.

I shall not elaborate the argument that by a proper construction of sections 1 and 3 of article 5, chapter 32, Revised Statutes, the proper officers never attempted to compare the certificates of the votes in said counties made by the proper examining boards. Only the sheriffs may properly do that; their deputies have no such authority given by law, nor can the authority given by those sections be delegated in any manner, except in writing. (Section 2, article 1, chapter 32, 1 R. S., 430, and section 6, article 6, chapter 32, 1 R. S., 442.)

In order that the House may see at once the force of the objections urged by me to the action of the Board, I copy a few clauses of section 5 of article 7, of the chapter of the Revised Statutes referred to. (1 R. S., 447.)

Section 5. No application to contest the election of an officer shall be heard unless notice thereof in writing, signed by the party contesting, is given to the officer returned.

1. The notice shall state the grounds of contest, and none other shall afterwards be heard as coming from such party.

2. Immediately after such notice, either party may proceed to take proof by depositions, under the same rules and regulations that govern the taking of depositions in chancery suits, except that no dedimus is necessary.

4. Such depositions, properly taken, may * * * * be read before the Board having jurisdiction of the case.

The undersigned cannot think that the functions of a Board to try a contested election are other than judicial, and hence I, in this investigation, have felt the binding force of the law made for their government, and have not felt willing to ignore the rights of Mr. Culbertson, as shown by that law.

In regard to the action of the two sheriffs, or rather of the sheriff of Carter county, and a deputy of the sheriff of Boyd, we remark that it is plain, from the papers and proof heard (however inadmissible that proof was), that there was never any determination by lot, by the officers named, of the election of Representative from the two counties. The statements of the sheriff of Carter county, both in his testimony and in his certificate, show that to be the fact.

The sheriff of Carter, as required by law, on the proper day, went to the county seat of Boyd county, to join the sheriff of that county in the discharge of their duty, in comparing the certificates of the examining boards of the two counties, as to the number of votes for Representative cast in each. On the comparison of the certificates (with the poll-books the two sheriffs had nothing to do. 1 R. S., 437), it was found that both Culbertson and Williams had each received the highest, and an equal number of votes, at that election, for Representative.

It was then agreed between the sheriff of Carter and the deputy of the sheriff of Boyd to determine the election by lot, and it was expressly agreed that he should be the winner whose name was first drawn from a hat in which were placed slips of paper, some of them
having the name of one and some of them that of the other candidate on them.

When the drawing was about to take place, the sheriff of Carter county was moved by a very natural desire to see if the papers in the hat were all right, for he had never seen them. To this the deputy sheriff of Boyd objected. Nevertheless, the sheriff of Carter took one of the papers out of the hat and looked at it. It had on it the name of Williams. The sheriff swears that he didn't mean to make a draw. He certainly ought to know what his intention was better than any living man, and there is no sort of proof that he was not a credible witness. Soon after this, the deputy sheriff of Boyd drew twice out of the hat, and each time drew the name of Culbertson. So that it is clear that out of the three times that a draw was made Culbertson's name was twice drawn. From this it would seem obvious that Culbertson was entitled to the seat, if either of the gentlemen was; but the undersigned, in view of the confusion and evident misapprehension attending the supposed drawing, believe that, in fairness, no determination should be considered as having taken place.

For the information of the House, and for that purpose to be read with this report, the undersigned file, and make part hereof, the certificate of the sheriff of Carter county, and a copy of the certificate of the deputy sheriff of Boyd.

From these it appears, beyond doubt, that each party had received an equal number of the votes cast, and this brings me to the consideration of the most curious and inconsistent conduct of the majority of the Board. It is difficult to characterize that conduct otherwise.

After they had decided that they could not try this case as a contested election, because no notice had been given; after they had refused to give any weight to the testimony of witnesses tending to prove that illegal votes had been cast for Mr. Culbertson; and after Mr. Senator Prichard, who acted as counsel before the Board for Mr. Williams, had admitted before them that they could not try this case as a contested election, then it was that a majority of said Board, assuming to itself unlimited power to ignore both the law and the rights of Mr. Culbertson, proceeded to hear proof in regard to the matters now to be developed.

"The Commonwealth of Kentucky, sc.:

"We, R. B. McCall, deputy sheriff, for John J. Kouns, sheriff of Boyd county, and Stephon Nethercutt, sheriff of Carter county, duly authorized to compare the election returns for the counties of Boyd and Carter, and for districts Nos. 3, 4, and 5, of Elliott county, being that part of said county taken from Carter county that votes with Carter and Boyd counties for Representative to the General Assembly, do certify that, at an election held in said counties, and said districts of Elliott county, on the 7th day of August, 1871, upon the comparison of the returns and certificates of said election, find that Mordecai Williams and W. W. Culbertson have received the highest and an equal number of votes for Representative to the General Assembly, viz: 1,504 votes each; and we have determined the same of
lot in the presence of more than three persons; and upon a fair and impartial ballot, in a manner agreed upon and determined by us, do certify that Mordecai Williams is duly elected to fill the office of Representative to the General Assembly of the Commonwealth of Kentucky.

"Given under our hands this 14th day of August, 1871.

"R. B. McCALL, Dep., for
"JOHN J. KOUNS, S. B. C."

COMMONWEALTH of KENTUCKY, BOYD COUNTY:

"We, R. B. McColl, deputy sheriff, for John J. Kouns, sheriff of Boyd county, and Stephen Nethercutt, sheriff of Carter county, Ky., duly authorized to compare the election returns for the counties of Boyd and Carter, and for districts Nos. 3, 4, and 5, of Elliott county, being that part of said county taken from Carter county, and that, according to an act of the last General Assembly, votes with Boyd county and Carter county for Representative to the General Assembly, do certify that, at an election held in said counties, and part of said Elliott county aforesaid, on the 7th day of August, 1871, upon due comparison of the returns and certificates of said election, we find that W. W. Culbertson and Mordecai Williams have each received the highest and an equal number of votes for Representative to the General Assembly of Kentucky, viz: W. W. Culbertson 1,504 (one thousand five hundred and four) votes, and Mordecai Williams 1,504 (one thousand five hundred and four) votes, each. We agreed to decide who was elected by lot, as follows: Four similar tickets were to be placed in a hat, on two of which said Culbertson's name should be written, and upon two said Williams' name should be written in like manner; the one whose name was drawn twice first should be the Representative. Nethercutt proposed that they blindfold a man, and let him draw after he, Nethercutt, had examined the tickets. Said Stephen Nethercutt then demanded several times, permission to examine the tickets, which had been prepared in another room by another party, and was told each time by the party who prepared them, and said McColl, that he could see them after they were drawn. This Nethercutt declined, and then put his hand in the hat and picked up the ticket to examine it and see if it was fair, as he had said he wanted to. As soon as he picked it up R. B. McColl took it from his hand and unfolded it, and said it was for Williams, and that it was a draw. Sheriff Nethercutt said that it was not a draw; that he only wanted to look at the ticket to see if it was all right; and that he did not pick it up for the purpose of drawing. McColl insisted that he proceed. He said he would examine the tickets, and would draw, but would not be treated that way. They waited some time, Nethercutt wishing to examine the tickets and then draw, and McColl wishing the above to be counted a draw. Then McColl said: 'Captain Nethercutt, I will exhibit the tickets.' Nethercutt said he was wishing to draw fair, but would not agree to that way of drawing. McColl pulled out two more tickets, on each of which he said Culbertson's name was written.
This was in the presence of more than three persons; and if it amounted to a draw or decision by lot, we do hereby certify that Capt. W. W. Culbertson is duly elected to fill the office of Representative to the General Assembly of Kentucky from the said counties, and part of said county. If it did not amount to a draw, then we certify that it is a tie.

"Given under our hands this 14th day (being first Monday after the said election) of August, 1871.

It was absolutely necessary, in order to arrive at the conclusion reached by the majority of the Board, that by some means one of the votes counted by the Examining Board for Culbertson should be in some way got off, or else the tie would remain, and of course then neither party could be said to be entitled to the seat.

The process by which the majority arrived at this result has the merit of the most conspicuous originality and novelty. It was briefly this: The editor of the Yeoman, in the city of Frankfort, as is the custom of editors in this State, sent a blank to the Carter county clerk, and asked him to send him a "statement of the polls." With this request the clerk complied, and sent to the editor such statement over his signature as clerk. This statement of the clerk to the "Yeoman" showed that Culbertson received one vote less than the official certificates of the election, signed by sworn officers in the discharge of their duty, showed him to have received. It was hunted up by Mr. Williams, and the majority of this Board actually permitted it to be read as evidence in this case against the objection by Mr. Culbertson that it was unofficial; that it was nothing more than a private correspondence between outside parties, and besides, contradicted positive, official, record testimony.

Not unnaturally it was thought that this private newspaper correspondence between outsiders needed some corroboration, in order that it might secure the object sought, of stripping one vote from Culbertson's number, so that there might no longer be a tie.

This corroboration, which was deemed ample by the majority of the committee, was found in the statements of a man named Brown, examined as a witness. Brown, being of a statistical turn of mind, had looked over the poll-books in Carter county, and after making a calculation, had concluded that the clerk in his statement to the "Yeoman" was right, and that the examiners of the poll-books were wrong.

The poll-books of Carter county were not before the Board at all at that time. Brown had no duty to perform about the poll-books, but merely examined them for the purpose, doubtless, of statistical information; and yet he is allowed by the majority of the Board to
and if it shall appear that it is not a majority that it was the intention of the representatives was the said election to be a draw, the board shall, after the evidence is heard, by a majority vote, either declare a vacancy to exist; and I shall append a resolution to that effect, which I ask the House to adopt.

The undersigned was clearly of opinion that this request should have been granted, but the majority of the Board decided otherwise.

As both of the gentlemen received the same number of votes, I think one is just as much, and no more, entitled to the seat than is the other; and my conclusion is, that, as neither party has asked for a mandamus to compel the sheriffs to act, as by law they ought to have done, that the proper course is to declare a vacancy to exist; and I shall append a resolution to that effect, which I ask the House to adopt.

The undersigned now insisted that the majority of the committee were in fairness bound to report in favor of Culbertson, if their previous positions were sound and tenable; but the undersigned thinking they were not so, was still in favor of declaring that no election had been perfected in the counties, and that, consequently, a vacancy existed.

There was no sort of evidence of any thing wrong with the poll-books, and the clerk explained that the statement sent to the Yeoman had been made on a mistaken count.
This state of case having arisen, in order to enable the majority to come to the conclusion at which they have arrived, it became necessary for them to recur to the proof of supposed illegal votes for Culbertson, which Mr. Williams' counsel had admitted could not be done, if the board were to be governed by the rules regulating contested elections, though he stated at the time that the majority had decided not to be governed by said rules, and which, until this exigency, the majority of the committee had ignored. As it was understood and admitted that, had the report been made by the majority before the testimony of Mr. Davis had been heard, and when, after admitting the letter to the Yeoman as evidence, the majority had decided that Williams had a majority of one, nothing would have been said by them in their report about illegal votes; for then they would not have regarded it as necessary; but now it became necessary, in order, at all events, to report in favor of Williams, whom they determined to believe was entitled to the seat, to go back to the proof about illegal votes.

The undersigned, still believing that this Board had no right, or power, or authority from this House, or by law, to try the rights of these parties, or to determine by its vote who should represent the people of Boyd and Carter counties; and believing, in view of all the facts, that it was not competent for this committee to say that either Williams or Culbertson was entitled to the seat; and, as neither party had, by mandamus, compelled the proper officers to act, does now recommend to the House the adoption of the following resolution:

Resolved, That neither Mordecai Williams nor W. W. Culbertson appears to be entitled to a seat in this House; but that a vacancy exists in the office of Representative for Boyd and Carter counties.

And this is respectfully submitted.

G. W. LITTLE.

Ordered, That the Public Printer forthwith print the usual number of copies of said reports; and that the further consideration thereof be postponed to, and made the special order of the day for, Tuesday, the 16th inst., at 11 o'clock, A. M.

The House then, according to order, at the hour of 11 o'clock, A. M., took up for further consideration a bill, entitled

A bill to authorize the trustees of the Cincinnati Southern Railway to acquire the right of way, and to extend a line of railway through certain counties in this Commonwealth.

Ordered, That said bill be engrossed and read a third time.

Said bill being engrossed, was read a third time as follows, viz:

WHEREAS, It is represented to this General Assembly that Miles Greenwood, Richard M. Bishop, William Hooper, Philip Heidelbach, and Edward A. Ferguson, of the city of Cincinnati, in the State of Ohio, were appointed, under and by virtue of an act of the General Assembly of the said State of Ohio, passed on the fourth day of
May, in the year eighteen hundred and sixty-nine, a Board of Trustees, with authority to borrow a fund not to exceed ten millions of dollars, and to issue bonds therefor in the name of said city of Cincinnati, under the corporate seal thereof, of which said fund the said Miles Greenwood, Richard M. Bishop, William Hooper, Philip Heidelbach, and Edward A. Ferguson, and their successors, are to be trustees, with power to expend the same in procuring the right to construct, and in constructing, a single or double-track railway, with all the usual appendages, including a line of telegraph, between the said city of Cincinnati and the city of Chattanooga, in the State of Tennessee, to be called and known as the Cincinnati Southern Railway; and with power and capacity for the purposes aforesaid to make contracts, appoint, employ, and pay officers and agents, and to acquire, hold, and possess all the necessary real and personal property and franchises, either in the said State of Ohio or in any other State in which the said line of railway may extend, and with other powers in said act expressed; and whereas, the said line of railway cannot be constructed, nor the powers of the said Board of Trustees be exercised within the Commonwealth of Kentucky, without the consent of the General Assembly thereof. The General Assembly reserves the right to change, alter, or modify this act, and to regulate, by general laws, the rates of charges for the transportation of freights and passengers on said railway; therefore,

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That the said Board of Trustees, namely: Miles Greenwood, Richard M. Bishop, William Hooper, Philip Heidelbach, and Edward A. Ferguson, and their successors, by the name of the Trustees of the Cincinnati Southern Railway, be, and they are hereby, authorized to extend, construct, and maintain, within the Commonwealth of Kentucky, the said line of railway, with a single or double track, with all the usual appendages, including a line of telegraph, and to exercise the powers vested in them under and by virtue of said act of the General Assembly of the State of Ohio, subject to the provisions and restrictions in this act provided.

§ 2. For the purpose of examining and surveying routes for the said line of railway, the said trustees may, subject to liability for the actual damage done, enter upon any land in the counties of Josh Bell, Knox, Whitley, Laurel, Clay, Owsley, Jackson, Estill, Madison, Clark, Bourbon, Harrison, Pendleton, Campbell, Kenton, Boone, Gallatin, Grant, Owen, Scott, Franklin, Anderson, Woodford, Fayette, Jessamine, Mercer, Garrard, Boyle, Lincoln, Rockcastle, Casey, Pulaski, Russell, Wayne, Clinton, Cumberland, Monroe, Metcalfe, and Adair, and select from the routes so examined and surveyed a route for the same, commencing at a point to be selected by the said trustees where the said line of railway will cross the southern boundary of this Commonwealth, and running through either of said counties to the northern boundary line thereof, and across the Ohio river, so as to connect with the same line of railway in the State of Ohio. A copy of the survey and location of such route, and any alteration therein, shall be filed in the county clerk's office of the
counties through which the said railway runs, within one year after such location or alteration.

§ 3. For the purpose of constructing and maintaining said line of railway and its appendages, the said trustees may acquire, by purchase or gift, so much land as may be necessary to construct, complete, and operate their railway and its appendages; and it shall be lawful for them to apply to any circuit or county court, of any county through which it may be proposed said railway may pass, and for said court to appoint a competent engineer, and two disinterested commissioners, to examine the proposed route of said railway, and to take from the proprietors of land over which it is to pass a grant of the right of way, of such width as may be desired, provided the same shall not exceed one hundred feet, and which may include the right to take stone, timber, earth, or gravel for the construction of their road; and they, jointly and severally, shall have the power and authority to take and certify, under their hands and seals, the acknowledgment of such grants in fee or right of way, and the separate acknowledgment of married women, that the clerks of the several county courts have; and on the presentation of the grant and acknowledgment to the clerk of the county court where the land lies, it shall be the duty of the clerk to record the same as other deeds; and they shall be effectual against all persons according to their tenor: Provided, That where the parties are infants, or absent, or refuse to make the grant, they shall hear any proof that may be adduced, and upon their own view proceed to value any land required for the right of way, or lands required for turn-outs or depot stations, or other appendages of said road, and also of earth, stone, gravel, or timber for the construction of said road, and report the value they have fixed, together with the evidence adduced to the court appointing them, with a map or profile of the required ground; and said report shall be filed with the clerk of such court, and a summons issued to the proprietors to show cause against the confirmation of the report; but if the proprietor shall be out of the Commonwealth, the summons may be executed upon a known agent, if there be one in the county; and if there be no known agent in the county, then the court may order the appearance of the party at a named day, and appoint the clerk to give the proprietor notice by letter; and in case of there being infant, idiot, or lunatic proprietors, the court shall appoint guardians ad litem for them, and cause the guardian to appear and act for them; and in case an absent defendant does not appear, the court shall appoint an attorney of the court to act for them. It shall be lawful for the trustees or any proprietor, or both, to traverse the report, and for the court to have the traverse tried in open court by a competent jury, on which trial the report and evidence returned as aforesaid shall be heard, together with such other proof as either party may produce. A new trial to the finding of the jury may be granted as in other cases. The report shall stand for hearing, as to any proprietor, when the process has been executed ten days, or after appearance of a proprietor on a day fixed for his appearance; and the court shall have jurisdiction to confirm the report, if no traverse is filed; and in case a traverse is filed, to have
the same tried by a jury, and to give judgment upon the report or finding of the jury, and order the payment of the money, and the execution of the grant in accordance with the report; and to have the grant executed by a commissioner appointed by the court, and to order them to be recorded in the county court clerk's office of the county; and either party may appeal from the judgment of the court.

§ 4. That the commissioners or jury, in estimating the value of the lands proposed to be taken, shall not be confined to the actual value, but may take into consideration any consequential damage that may result to the adjoining proprietors of the land taken, and also the advantages and disadvantages the proposed road will be to such lands.

§ 5. That upon the affidavit of the engineer of said trustees, made and filed before the county judge of any county through which the proposed road may pass, that at any point more than one hundred feet is necessary properly to construct and operate said road, said trustees may acquire the right to so much land as may be necessary for that purpose, and in the manner provided in the preceding section.

§ 6. The said trustees may also, for the purpose of constructing and maintaining said line of railway, occupy or use any road or street or other public way or ground, or any part thereof, upon such terms and conditions as may be agreed upon between said trustees and the municipal or other corporations, persons, or public authorities owning or having charge thereof; and in case it shall be necessary to provide a new road, street, or other ground, in place of that so used or occupied, they may acquire the necessary land and cause the necessary improvement to be made thereon. If no agreement can be made for the right to use or occupy any road, street, or ground that may be necessary, the said trustees may take and appropriate said rights in the manner provided in the next section: Provided, That, before the damages are assessed, the court may fix such terms and conditions as may be deemed best for the public interest.

§ 7. The appropriations authorized in the preceding section shall be made in the manner, and subject to the same right of traverse, writ of error, and appeal, provided by law for taking private property for the use of turnpike and plank road companies, except that the petition shall be filed in the circuit court of the county in which such turnpike, plank roads, streets, or other public ways or grounds, may lie; and if a continuous portion of the same, lying in more than one county, is sought to be used or occupied, the proceedings may be instituted in the circuit court of any county in which any part of such continuous portion may lie; and the damages shall be assessed for the whole of such portion, whether lying in the county wherein the proceedings are instituted or in other counties; the writ shall be directed to the sheriff of the county in which the petition is filed.

§ 8. If, during the construction or after the completion of said line of railway, it shall be found necessary by said trustees to change the
location or grade, or substitute other works or conveniences for those originally designed or constructed, or to provide additional side-tracks or other appendages for the proper management and operation of said railway, the said trustees may make such changes and provide such additional appendages, not departing from the general route originally selected by them; and, for the purpose aforesaid, may acquire or enter upon, take and appropriate, such lands or rights, as may be necessary, in the mode hereinbefore prescribed.

§ 9. Wherever, along the route selected by said trustees, there shall be a railroad already constructed, or rights of way or depot or other grounds acquired therefor, which railroad, rights of way or grounds, can be adopted as part of the said line, it shall be lawful for the persons, company, or corporations owning the same, to sell to the said trustees the said railroad, rights of way or grounds, or any part thereof, upon such terms and conditions as may be agreed upon between the said trustees and such persons, or the president and directors of such company or corporation: Provided, That no such agreement shall be binding upon the stockholders of any such company or corporation unless a majority in interest of said stockholders, as shown by the books of such company or corporation, shall ratify the same in person or by proxy, at a meeting to be held at the place of holding the election of directors, to be called after notice given of the object of the meeting, in the manner provided for notice of such elections.

§ 10. No permanent bridge or other work shall be so constructed as to materially interrupt or impair the navigation of such streams as are naturally navigable, or as have been declared to be so by law.

§ 11. And whereas, under and by virtue of the above mentioned act of the General Assembly of Ohio, the said board of trustees have power to borrow a fund for the construction of said line of railway, not to exceed ten millions of dollars, and to issue bonds therefor in the name of the city of Cincinnati, under the corporate seal thereof, bearing interest at a rate not to exceed seven and three tenths per centum per annum, payable at such times and places and in such sums as shall be deemed best by said board; which bonds are to be signed by the president of said board, and attested by the city auditor of said city, who is to keep a register of the same, and are to be secured by a mortgage on the said line of railway and its net income, and by the pledge of the faith of said city and a tax, which it is made the duty by said act of the council of said city annually to levy, sufficient, with said net income, to pay the interest, and provide a sinking fund for the final redemption of said bonds. That the respective holders of all such bonds are hereby declared to be entitled to hold, by way of mortgage, without any conveyance, the said line of railway and its appendages, and the net income thereof, and all the estate, right, and title, and interest of the said city of Cincinnati, and of the said board of trustees therein, until the respective sums mentioned in said bonds, and the interest thereon, shall be fully paid, without any preference one above another, by reason of priority of date of any such bonds, or of the time when such holder became the owner of the same, or otherwise howsoever.
The mortgage lien hereby given is to vest, as soon as rights of way or lands, whereon are to be placed the works and conveniences used in constructing, maintaining, or operating said railway, are acquired or taken, by virtue of the powers of the said trustees: Provided, That nothing herein contained shall affect the lien of any vendor upon lands sold to said trustees, nor to be held to include the rolling stock used in operating said road: And provided further, That any mortgage that may be made by any lessee or lessees of said line of railway, or persons or company operating it, on the rolling stock used in operating said road, shall not have precedence over, but shall be at all times inferior in priority to, judgments that may be obtained against them, in any county through which said road may run, for wages, materials, and supplies in running said road; for damages for breaches of contracts of affreightment, for injury, loss, or destruction of any property put on the cars on said road for transportation, or for any injury to persons or property occasioned in the running of said road.

§ 12. Said trustees shall survey and locate the route of said line of railway, and actually commence the construction thereof, within two years from the passage of this act; and shall continue such construction and complete the work within five years from its commencement, or within such further reasonable period, not exceeding ten years in all, as the Governor may grant upon satisfactory evidence that they are progressing with due diligence and in good faith. The gauge of said railway shall be five feet.

§ 13. The charge for transportation on said railway shall not exceed thirty-five cents per hundred pounds on heavy articles, and ten cents per cubic foot on articles of measurement for every hundred miles, and four cents a mile for every passenger.

§ 14. The taxes imposed on said line of railway and its appendages shall not exceed the rate imposed on other railroads within this State.

§ 15. The said trustees may sue and be sued, contract and take and hold property, and convey and transfer the same, by the name of the "Trustees of the Cincinnati Southern Railway." Conveyances by said trustees shall be signed by not less than three of them. They shall keep an office and an agent in the city of Covington, and an agent in every county through which said railway runs, upon whom service of process may be made. Actions against them or against the lessee or lessees of said line of railway, or persons or company operating it, other than those mentioned in sections ninety-three and ninety-four of the Code of Practice in Civil Cases, may be brought in any county in which any part of said railway lies. When an action is rightly brought in any county, process may be issued to the county in which the office of the trustee is situate, and may be served and returned by mail. And it is hereby made a condition upon which said trustees construct and maintain said railway within this Commonwealth, that they thereby waive the right to remove any case from any of the courts of this State to any of the courts of the United States, or to bring a suit in any of the courts of the United States against any citizen of this State; and a violation of this con-
dition shall operate as a forfeiture of the rights, privileges, and
immunities granted in this act.
§ 16. The persons or company operating said railway, or any part
thereof, as lessee or otherwise, shall receive and carry all passengers
and freight coming or brought to it or them to be carried; and they
shall make no discrimination against citizens of Kentucky in carry-
ing freight or passengers on said line of railway, or any part thereof;
nor shall they make any unjust discrimination in favor of through
freights or passengers against any way freights or passengers, or
against freights or passengers from other railroads connecting with
said railway in this State; but they shall charge and receive only the
same, and no more, for the same services in transporting freight or
passengers going to or coming from one connecting road, that they
charge or receive upon those going to or coming from any other.
They shall keep an office and agent at some point along the line
within this Commonwealth, and an agent in every county therein
through which said railway runs, upon whom service of process may
be made; and it is hereby made a condition upon which such per-
sons or company may lease said railway, or any part thereof, or
make any arrangement for operating the same, that such persons or
company thereby waive the right to remove any case from any of
the courts of this State to any of the courts of the United States, or
to bring a suit in any of the courts of the United States against any
citizen of this State; and a violation of such condition shall operate
as a forfeiture of all rights acquired under such lease or arrange-
ment; which forfeiture, and the other provisions of this section, this
Commonwealth reserves the right to enforce by all necessary reme-
dies and additional legislation.
§ 17. That the rights, privileges, and immunities granted by this
act shall continue for, and during the period of, ninety-nine years,
and not longer; and shall, during that time, be subject to be declared
forfeited by any court of competent jurisdiction, by an action insti-
tuted by the direction of the General Assembly in the name of the
Commonwealth, for any failure on the part of said trustees, their
successors or assigns, to comply with the terms, stipulations, and
obligations imposed herein for the benefit and security of this Com-
monwealth or the people thereof; and before entering on any lands
in this State, said trustees shall accept the provisions of the act.
§ 18. The following words and expressions in this act shall have
the several meanings hereby assigned to them, unless there be some-
thing in the context repugnant to such construction: that is to say,
the word "lands" shall include not only lands and every estate
therein, but also easements and franchises connected therewith.
The word "trustees" shall mean the trustees for the time being
appointed under the said act of the General Assembly of the State
of Ohio, and shall include the said board of trustees and their suc-
cessors. The expression "line of railway and its appendages" shall

other buildings, bridges, viaducts, tunnels, arches, piers, abutments,
embankments, approaches, ways, aqueducts, culverts, sewers, drains,
wharves, yards, fences, telegraph posts and wires, tracks, turn-outs, and turn-tables, and the rights of way and lands belonging to said trustees, whereon the said and other like works and conveniences used in constructing, maintaining, or operating said railway are placed. The expression “Act of the General Assembly of the State of Ohio” shall mean the act of the General Assembly of the State of Ohio, entitled “An act relating to the cities of the first class, having a population exceeding one hundred and fifty thousand inhabitants,” passed on the 4th day of May, in the year 1869. The expression “line of railway” shall mean the line of railway between the city of Cincinnati, in the State of Ohio, and the city of Chattanooga, in the State of Tennessee.

Craig was relieved from paying certain amounts stipulated by him and his securities to be paid to the Commissioners of the Sinking Fund, for the use of the Penitentiary while Craig was keeper of that institution; and whereas, by an act of the General Assembly, approved March 28th, 1861, J. W. South was relieved from paying certain amounts stipulated by him and his securities to be paid to the Commissioners of the Sinking Fund, for the use of the Penitentiary while South was keeper of that institution; and whereas, by an act of the General Assembly, approved February 6th, 1860, Harry I. Todd was relieved from paying certain amounts stipulated by him and his securities to be paid to the Commissioners of the Sinking Fund, for the use of the Penitentiary while Todd was keeper of that institution; and whereas, John Rodman, Attorney General of Kentucky, has sued the said Todd to recover the amount he was released from paying by the act referred to, because, as he alleges, the act releasing said Todd is unconstitutional, and has not sued either Craig or South; therefore,

Resolved, That the Committee on the Judiciary be, and are hereby directed to inquire into this matter, and report to this House whether, in its opinion, the Attorney General has discharged his official duties faithfully and to the best of his ability, as required by his oath of office, and if not, what legislation is necessary to compel him to do; also what legislation is necessary to place all citizens occupying the same position upon equality, and thereby protect them from expensive and malicious litigation on the part of State officials.

Mr. Graves read and laid on the table the following preamble and joint resolution, viz:

Whereas, Experience has demonstrated that the omission in the Constitution of the United States to prohibit a re-election of the President, has left the country open to the worst forms of abuses and wrongs, and that the growing political power of the President has put it within his means to re-elect himself to the Presidency pretty much at his will; and whereas, this temptation to re-elect himself has the constant effect of inducing the President to appoint applicants to office who will do his bidding generally, in preference to a faithful and honest discharge of the duties of their offices as prescribed by law; and whereas, the recommendations contained in the farewell addresses of General Washington and General Andrew Jackson, respectively, to the people of the United States, has favored the one-term principle of the Presidency of the United States, as well as the advocacy and support of such statesmen as Henry Clay, General William H. Harrison, and other statesmen; and, therefore, be it

Resolved by the General Assembly of the Commonwealth of Kentucky, That our Senators in Congress and our Representatives be requested to use all honorable means to have the Constitution of the United States so amended that no citizen who has ever served out one term as President of the United States shall ever be eligible for a second term thereof; and that the Governor of this Commonwealth be requested to forward these instructions as above set forth.

Hon. James B. McCreary, Speaker of the House of Representatives:

Howard Smith, State Auditor.

Resolved, That said bill do pass, and that the title thereof be as aforesaid.

A message was received from the Governor by Mr. Butts, Assistant Secretary of State, which was taken up and read as follows, viz:

Gentlemen of the Senate and House of Representatives:

I respectfully call your attention to certain defects in the revenue laws of the State in providing for the collection of taxes on land. Our present laws, I think, discriminate unduly in favor of the landowner, giving an indulgence, and often securing impunity, to delinquent tax-payers of this class, alike unjust to other tax-paying citizens and injurious to the public interests.

The Auditor's report for 1871, which has been laid before you, shows that "there are now due the Commonwealth taxes from
persons returned delinquent $119,343 02, and $100,001 07 on lands forfeited for taxes—making the aggregate $318,354 09;" nearly all of which," he adds, "would, doubtless, have been collected and paid into the Treasury years ago, but for the fact that sheriffs have no power to sell real estate for taxes due on it."

The official exhibit from which this statement is made goes back only to the year 1862. But whilst I have no accurate information as to the delinquent lists previous to that time, I am satisfied that the amount of uncollected revenue now due the State, on the assessments of the last twenty years, is not less than one million dollars, and the Auditor's books show that the delinquency is constantly increasing.

The deficit in the collection of our assessed taxes is due almost solely to our exceptional revenue laws, under which sheriffs and other collectors of revenue, whilst they are required to levy upon and sell for taxes any personal property of the citizen, not exempting even the last bed of the poor widow, are not permitted to levy upon and sell lands. The wealthy non-resident, the grasping corporation, or the unscrupulous speculator, may own large tracts of land, and neglecting to pay the taxes assessed on them (often, indeed, they escape assessment altogether), and having no personal property in the State, they cannot be coerced to payment, under our existing laws, for six years; and when at last the lands are declared to be forfeited, and brought regularly to sale, they being made redeemable within a given time, rarely can a purchaser be found; and thus the public revenue is defrauded; and this, too, by due course of law.

Our present system of collecting delinquent taxes has necessitated the establishment of a distinct department in the Auditor's office, requiring the services of a first-class clerk to keep the accounts between the State and delinquent tax-payers; and in subjecting forfeited lands to sale other agencies must be employed.

I know of no other State whose laws discriminate so unequally between real and personal estate in their liability for non-payment of taxes; and I recommend that our laws on this subject be so amended as to authorize and require collectors of the public revenue to levy upon and sell land for the payment of taxes, when the delinquent has no accessible personal property, allowing a reasonable time for its redemption, and adding as penalty to the purchase price a larger per centage than is now required.
Authority should also be given to revenue officers to list and tax lands of non-residents and others, who have neglected to list the lands owned by them, large quantities of which are now not assessed; and it would be well, perhaps, in such cases, to add a moderate per centage to the usual tax, as a penalty for negligence.

Under such revenue laws, thus amended, the State would be able at the end of each year to close up its accounts with all who are able to pay their taxes; the care and interest of redeeming forfeited lands would be transferred from the State to the purchaser and owner; the public expenses would be considerably retrenched; the revenue of the Commonwealth would be largely increased; and the reform thus introduced would tend to lighten the necessary burthens of taxation.

I desire also to call your attention to some items of public expenditures which require additional legislation. The public buildings not supplying sufficient accommodation for the State offices, several of them have, of necessity, been located in private tenements; and this must continue to be the case until the completion of the new edifice now being erected on the Capital grounds. The rents for the rooms thus occupied as public officers have been paid, as is just and proper, by the State. As, however, not a dollar ought to be drawn from the Treasury but by authority of law, and as there is at present no express legislative provision as to some of them, I recommend that an act be passed authorizing the payment of these rents by the State until suitable accommodations shall be provided for her officers in public buildings.

In chapter 78, article 2, section 3, of the Revised Statutes, it is implied that the public offices should be supplied with water at the expense of the State. This has accordingly been done, though not explicitly authorized by the statute; and as water, especially hydrant water, is unfit for use in warm weather without ice, accounts for that article have also been allowed and paid, without, however, any express provision of law. If it is your pleasure that these supplies be allowed (as I believe they should be), I recommend that you so amend the statute as to expressly include them.

I also recommend that the statute (chapter 16 of Revised Statutes) be so amended as more precisely to define what is comprehended under the term "stationery." By specifying, as far as practicable, the articles to be furnished under this name, you would relieve of
much embarrassment the officer whose duty it is to issue stationery, and guard against prodigality in this item of public expenditure.

I have called your attention to these matters in accordance with that maxim which should be rigidly adhered to by all administrators of government—that no warrant should be drawn upon the Treasury without a statute clearly and satisfactorily authorizing it; and that all avoidable license in the doubtful construction of laws should be guarded against.

P. H. LESLIE.

Ordered, That said message be printed for the use of this House.

Mr. Sacksteder, from the Committee on the Judiciary, to whom was referred a bill from the Senate, entitled

The Speaker laid before the House the following communication, viz:

OFFICE LOUISVILLE TOBACCO BOARD OF TRADE,
LOUISVILLE, January 19, 1872.

Mr. Jno. G. CARLISLE, Speaker of Senate:

Dear Sir: In answer to the action of the Legislature calling upon the Tobacco Board of Trade for an expression of opinion in regard to the State tobacco law, we beg to ask your attention to the annexed copy of the proceedings of our meeting this day. We deem it proper to add, that this action was one of the most perfect and entire unanimity on the part of all the warehousemen and buyers. The manifest propriety of such an interest as the leaf tobacco trade of Louisville regulating its own affairs, and being on the same footing as other Kentucky tobacco markets, is too plain for argument. Your efforts to effect a speedy repeal of the present tobacco law (excepting the clause exemptions from auction dues) are respectfully solicited, and will be highly appreciated by the entire tobacco trade.

Very respectfully,

M. B. NASH, Secretary.

P. MEGUIAR, President.

ABOLITION OF TOBACCO INSPECTION.

At a meeting of the Tobacco Board of Trade, held January 19, 1872, the following address to the Legislature was unanimously
adopted, and Secretary instructed to forward copies to the Speaker of the Senate and Speaker of the House of Representatives:

To the Legislature of Kentucky:

At a meeting of the members of the Louisville Tobacco Board of Trade, held at their rooms the 19th inst., the undersigned, its officers, were requested, in response to the resolution which passed your honorable body on the 17th inst., asking for an expression of opinion regarding the existing tobacco law, to say, that we regard the tobacco trade as of far too much importance to this city and to the tobacco-growing counties, and both warehouse proprietors and buyers of tobacco have too much capital at stake, to be jeopardized by the agitation for repeal or amendment that comes up every winter in the Legislature. In our opinion the only remedy is the repeal of all laws regulating the sale and inspection of tobacco in Louisville, so that this article may be sold by our warehousemen as commission merchants, as all other products of the soil are. We would also respectfully suggest that this repeal should include everything except that clause which exempts all tobacco sold in Louisville from auction dues. These dues go to the support of the Louisville Marine Hospital, and there would be manifest injustice in taxing the farmers to support an institution from which they could derive no possible benefit whatever.

P. MEGUIAR,
President Tobacco Board of Trade.

M. B. NASH, Secretary.

Mr. Chrisman, from the majority of the Board selected and appointed to inquire into, and report upon, the matter of contest between T. J. Walker and B. E. Woodworth, for a seat on this floor as Representative from the county of Lewis, made the following report, viz:
The undersigned, a majority of the Board to whom was referred the petition of Benjamin E. Woodworth, contesting the right of T. J. Walker to a seat in this House as a member thereof from the county of Lewis, and claiming the right to the same, respectfully report:

That they find the testimony in this case a confused mass of legal and illegal evidence and ex parte statements in the form of affidavits, from which the board have found it impossible to deduce an entirely satisfactory conclusion; and which is the cause of the delay in responding to the order of the House.

On the part of the contestant (Woodworth), it is urged that the poll-book in the Esclapia precinct, at which the sitting member (Walker) received a majority, was not sealed up when delivered to the clerk of the county court, as required by law. This, in the judgment of the undersigned, should not vitiate the return from that precinct, as the law in that regard is only directory. Besides, there is no proof or pretense that the same was in anywise changed or altered. On the contrary, the proof shows conclusively that the same, when counted by the examiners of the county, was unaltered. Our courts have adjudicated this question, taking the same view thereof to which the undersigned have arrived.

More than thirty votes registered on the poll-books were challenged by each party, making it the duty of the board to examine critically into at least sixty cases. In many the evidence, in the judgment of the undersigned, was so conflicting and contradictory as to render it doubtful in whose favor it preponderated.

The contest appears to have been heated and warmly contested, much excitement and feeling pervading the whole community, and, we feel constrained to say, was not, upon the part of the friends of the sitting member, attended with that freedom and fairness which should characterize an election; the proof clearly manifesting a spirit and disposition, at some points, to deter the friends of the contestant from voting, or rather to prevent them from taking an active part for him.

Having carefully examined and considered all the proof taken within the time prescribed by law, and the greater part, if not all, of the proof taken by the sitting member after the time prescribed by law, viz: between the 24th of November and 2d day of December, a majority of the committee were of opinion the weight or preponderance of the proof (though the proof itself was not satisfactory to the

Mr. Scales, from the minority of said Board, made the following
report, viz:

The undersigned, members of the Board to whom was referred the
contested election in which Benjamin E. Woodworth contests the

J. D. WILSON,
C. P. GRAY,
THOS. W. VARNON.
After a tedious and careful review of the proof upon either side, taken within the time prescribed by law, and laid before the board for examination, they are clearly of the opinion that said Benjamin E. Woodworth received the highest number of legal votes cast at the last election for Representative of Lewis county.

It is evident, in their judgment, that eight votes should be stricken from the poll of Woodworth, and that sixteen be stricken from the poll of Walker, on account of their illegality. And such seemed to be the opinion of a majority of the Board—the sense of the same being taken upon each vote separately, the proof pertaining thereto being read at the time it was under consideration.

Such a conclusion would, therefore, result in the election of Woodworth by a majority of three votes, and the poll would stand: for Woodworth, 99; and for Walker, 988.

It further appears from the evidence that, at one or more of the voting precincts, threats of violence were made upon the part of Walker's friends calculated to intimidate and drive from the polls the friends of Woodworth. It is, therefore, reasonable to conclude that Woodworth was in this way deprived of votes that he would have otherwise received.

In view, then, of these facts, the following resolution is recommended for adoption:

Resolved, That Benjamin E. Woodworth is the legally elected Representative of the county of Lewis; and that he now be permitted to qualify as such, and take the seat now occupied by Thomas J. Walker.

Ordered, That the same be referred to the Committee on Charitable Institutions.

Mr. Corbett, from the Board selected, and to whom was referred the petition of D. L. Price, contesting the right of William Cassius Goodloe to a seat in this House as a Representative from the county of Fayette, and claiming the same, made the following report, viz:

The undersigned Board, to whom was referred the matter of the contest for a seat in this House between Messrs. D. L. Price and W. 33-
C. Goodloe, as the legally elected Representative from the county of Fayette, respectfully report:

That they caused the parties to come before them; heard them and their counsel, as also the evidence and proof offered by each; and, on due consideration thereof, they are of opinion that William C. Goodloe received the highest number of legal votes cast at the last general election for Representative from the county aforesaid.

The first and main ground of contest, as relied on by the said Price, is, that the election was irregularly and illegally conducted; because the county court did, on the 5th day of August, 1871, two days prior to the election, without authority of law, open one additional voting place in district No. 7, at Edrington's coal-yard, and also one additional voting place in district No. 8, at the courthouse.

A majority of the Board is of the opinion that, under an act, entitled "An act for the benefit of Fayette county," approved March 10th, 1856, the county judge of said county, if he deemed it necessary, had a right to appoint an additional set of judges and clerks in districts Nos. 7 and 8. The evidence showed, that on the 5th day of August, 1871, two days prior to the election, the county judge of Fayette county did appoint an additional set of judges and clerks for districts Nos. 7 and 8; and that the judges and clerks appointed on the 5th of August, 1871, for the 8th district, took the white vote at the courthouse; and that one of the judges appointed on the 5th of August, 1871, together with one of the judges appointed at the June term of said court, held the election at the Broadway Hotel. The Board is of the unanimous opinion that if the county judge of Fayette county had no right, under the act of 1856, to appoint the additional judges and clerks for districts Nos. 7 and 8, then the polls opened at the courthouse, in district No. 8, by the new officers, were illegal, as was the election held at the Broadway Hotel; because the officers who held the election at the above-named voting places were not legally appointed; therefore, neither can be counted. The proof further showed that the legally appointed officers to hold the election at the Broadway Hotel went there on the morning of the election to hold the same, but were refused permission to hold the election by the proprietor of the hotel; after which they retired to Edrington's coal-yard, the nearest and best place to the hotel, to hold the election, as they had a right to do under the 3d section of article 2, chapter 32, of the Revised Statutes. Then, if the Board is correct in their construction of the act of 1856, W. C. Goodloe was elected by a major-
The county of Fayette, by each of them conducted; at the court-house, at the said Edrington's coal-yard, as legal, there being 567 votes cast at that voting place for Goodloe, and 2 for Price, would still elect W. C. Goodloe by a handsome majority.

The Board returns herewith to the House all the papers, proofs, and exhibits had and used before them. They therefore report, for the adoption of the House, the following resolution, viz:

Resolved, That William C. Goodloe is the legally elected Representative to the House from the county of Fayette; and that he be permitted to retain his seat as such.

THOS. H. CORBETT, Ch'n,
JOHN P. SACKSTEDER,
ROBERT M. CARLISLE,
J. C. MOORMAN,
M. WOODS FERGUSON,
J. E. COSSON,
J. S. LAWSON,
W. A. ALLEN,
W. A. HOSKINGS.

The House then took up the resolution appended to said report.

And the question being taken on the adoption of said resolution, it was decided in the affirmative.

The yeas and nays being required thereon by Messrs. Chrisman and Corbett, were as follows, viz:

Those who voted in the affirmative, were—

Mr. Speaker (McCreary) Thomas H. Corbett, Julian N. Phelps,
Wm. A. Allen, J. E. Coisson,
George W. Anderson, John W. Dyer,
A. C. Armstrong, Walter Evans,

W. W. Ayers, M. Woods Ferguson,

William Tarlton, J. S. Taylor,
C. W. Thrakeld, Harry I. Todd,
A message was received from the Senate, asking leave to withdraw from this House the announcement of the passage by the Senate of a bill, entitled

Mr. Chrisman moved to reconsider the vote by which this House, on a former day, discharged the Committee on the Judiciary from the further consideration of a leave, to them referred, to bring in a bill to repeal the act providing for a revision of the statutes.

And the question being taken thereon, it was decided in the negative.

And so the House refused to reconsider said vote.

Mr. Rowlett, from the Committee on Enrollments, reported that the committee had examined enrolled bills, which originated in the Senate, of the following titles, viz:

An act requiring A. W. Blair, late sheriff of Nicholas county, to settle and pay over all public money in his hands;
An act for the benefit of Isabella Oxley, of Rowan county;
An act authorizing the clerk of the Nelson county court to make a cross-index to deeds in his office, and transcribe the marriage register in said office;
An act to regulate the sale of spirituous and vinous liquors in Uniontown and Caseyville;
And also enrolled bills, which originated in the House of Representatives, of the following titles, viz:
An act to regulate further the drawing of standing jurors for the Jefferson circuit court;
An act to change the boundary line of the city of Columbus;
And had found the same truly enrolled.
Whereupon the Speaker affixed his signature thereto.
Ordered, That Mr. Rowlett inform the Senate thereof.
Mr. Graves, from the Committee on Ways and Means, to whom was referred a bill from the Senate, entitled
An act to amend section 5, article 2, chapter 83, Revised Statutes, title "Revenue and Taxation,"
Reported the same without amendment.
Ordered, That said bill be read a third time.
The rule of the House and constitutional provision as to the third reading of said bill being dispensed with.
Resolved, That said bill do pass, and that the title thereof be as aforesaid;
Mr. Graves, from the same committee, who were directed to prepare and bring in the same, reported bills of the following titles, viz:
A bill for the benefit of James M. Greenwade, late sheriff of Menifee county.
A bill to legalize the action of the Commissioners of the Sinking Fund of Marion county in relation to sale of Louisville and Nashville Railroad stock, and other matters pertaining thereto.
Which were read the first time and ordered to be read a second time.
The rule of the House and constitutional provision as to the second reading of said bills being dispensed with,
Ordered, That said bills be engrossed and read a third time.
The rule of the House and constitutional provision as to the third reading of said bills being dispensed with, and the same being engrossed,
Resolved, That said bills do pass, and that the titles thereof be as aforesaid.

The House then took up from the orders of the day, and resumed the further consideration of, the bill from the Senate, entitled An act to amend the laws of evidence in this Commonwealth,

Together with the amendment proposed by Mr. Jessee.

Said amendment is as follows, viz:

§ 1.-That if, after the passage of this act, the courts of the United States shall take or assume jurisdiction of any case for a violation of any of the laws of this Commonwealth, or of any civil or criminal case, of which the laws of this State give the courts of this Commonwealth jurisdiction, on account of the fact that one of the parties to the action, in any way connected with the suit or prosecution, is a person of color, such fact shall have the effect to repeal the 7th section of this bill.

Mr. Waide moved the previous question.

And the question being taken, "Shall the main question be now put?" it was decided in the affirmative.

The question was then taken on the adoption of the amendment proposed by Mr. Jessee, and it was decided in the negative.

The yeas and nays being required thereon by Messrs. Jessee and Bascom, were as follows, viz:

Those who voted in the affirmative, were—

Wm. G. Conrad, 

Those who voted in the negative were—

HOUSE OF REPRESENTATIVES.

JAN. 24.

M. Woods Ferguson, W. L. Reeves.

And so said amendment was rejected.

Ordered, That said bill, as amended, be read a third time.

Said bill, as amended, was then read a third time as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, No person shall be disqualified as a witness, in any civil action or special proceeding, by reason of his interest in the event of the same as a party or otherwise; but such interest may be shown for the purpose of affecting his credibility.

§ 2. Nothing in the preceding section contained shall, in any manner, affect the laws now existing relating to the settlement of estates of deceased persons, infants, idiots, or lunatics, or the attestation of the execution of wills, or of conveyances of real estate, or of any other instrument required by the law to be attested.

§ 3. Neither husband nor wife shall be competent for or against each other, or concerning any communication made by one to the other, during marriage, whether called while that relation subsisted or afterwards: Provided, however, That in actions where the wife, were she a sole, would be plaintiff or defendant, the wife may testify, or her husband may testify, but both shall not be permitted to testify.

§ 4. No party shall be allowed to testify, by virtue of section 1, in any action or special proceeding where the adverse party is deaf and dumb, or an infant, or is the guardian or trustee of a child or children of a deceased person, or is the committee of an idiot or lunatic, or is the executor or administrator of a deceased person, or is the party claiming as heir or devisee of a deceased person, except in the following cases, viz:

1st. In actions or special proceedings with the executor, administrator, guardian, or trustee of infants, heir or devisee, as above specified, a party may testify to facts which occurred after the death of the decedent or parent.

2d. In actions or special proceedings upon contracts made by deceased persons through agents, and in which the agent shall testify, a party may testify to all that transpired between him and the agent in relation to such contract and the making thereof, and in relation to any conversations or transactions between himself and such agent testified to by the agent.

3d. In actions or special proceedings of either of the classes above specified, in which any adverse party, or any other person having a direct interest in the matter in controversy, shall be called as a witness, and testify to transactions or conversations with a party to such
action, such party shall also be permitted to testify as to such specific transactions and conversations.

4th. In actions or special proceedings of either of the classes above specified, in which one party calls a witness (other than an agent or person intrusted) to prove conversations or admissions of the opposite party, occurring before the death of said deceased person, but in his absence the opposite party may testify as to the same conversations or admissions.

5th. In actions or special proceedings of either of the classes above specified, in which the claim or defense is founded on book account, a party may testify as to the correctness of the original entries, if made by himself, and on such authentication of the account-book and entries, said book and entries shall be admissible as evidence in the case.

6th. If the deposition of a party who has died during the pendency of the suit shall be given in evidence on the trial of such cause, the opposite party may testify as to all matters contained in said deposition, and not excluded by irrelevancy or inadmissibility. In all actions or special proceedings by or against a surviving partner or partners, or a surviving joint contractor or contractors, no adverse party to the suit shall be a competent witness to testify to transactions or declarations or admissions made by the deceased in the absence of his surviving partner or joint contractor.

§ 5. No person who would, if a party, be incompetent to testify under the provisions of section four of this act, shall become competent by reason of the assignment of his claim.

§ 6. No person shall be deemed competent to testify in behalf of his own interest, and against the interest of an adverse party, in any action or special proceeding in which such adverse party is not before the court otherwise than by constructive service.

§ 7. No one shall be incompetent as a witness because of his or her race or color.

§ 8. This act shall be in effect from its passage.

Mr. Jessee then offered the following amendment by way of engrossed rider, viz:

§ — That if, after the passage of this act, the courts of the United States shall take or assume jurisdiction of any case for a violation of the laws of this Commonwealth, or of any civil or criminal case, of which the laws of Kentucky gives jurisdiction to its courts, or account of the fact that one of the parties to the action, in any way connected with the suit or prosecution, is a person of color, such fact shall have the effect to suspend the operation of this act; and thereupon the Governor shall issue his proclamation to that effect, and who shall make report thereof to the next General Assembly.

But the Speaker ruled the said proposed amendment to be out of order at this stage of the bill.

Resolved, That the Commissioners of the Sinking Fund be, and they
are hereby, requested to report, at their earliest convenience, to the
House, whether or not they sold the stock in the Short-Line Railroad
as directed by joint resolution of this General Assembly; and if not,

Mr. Flippen offered the following joint resolutions, which lie one
day on the table, viz:

WHEREAS, The present site of the National Capital was selected as
the most central point when the people of this Republic inhabited
only a narrow strip of country along the coast of the Atlantic; and
whereas, the population, wealth, and area of this country have vastly
increased since then, and spread almost over an entire continent;
and whereas, the present location of the National Capital is remote
and inconvenient in times of peace, and in times of war so exposed
as to require vast armies of men and millions of money for its
special protection and defense; and whereas, every reason which
operated to induce the location of the National Seat of Govern-
ment where it now is has ceased to exist, in consequence of
the great growth and development of our country; therefore,

1. Resolved by the General Assembly of the Commonwealth of Kentucky,
That the people of the United States have endured the present locat-
ed Capital of their country for three quarters of a century,
patiently waiting for the vast territory of the Union to be divided
and organized into States, and until the center of population, area,
and wealth should be determined, when a permanent site for the
National Capital could be selected. That time has now arrived,
and the interests of the American people and the welfare of our
common country alike demand that the National Capital should
be removed to the interior of the United States.

2. That the vast and fertile region known as the Mississippi Valley
must for all time be the seat of empire for this continent. This vast
plain must ever be the principal food-producing portion of the con-
tinent, and the great market for the fine fabrics and tropical produc-
tions of other sections of the Union.
3. That the natural, convenient, and inevitable place for the Capital of the United States is in the heart of the great Mississippi Valley, where the center of wealth, population, and power is rapidly and irresistibly gravitating; where the government, surrounded by numerous millions of brave citizens, would be forever safe from the aggressions of foreign foes, and where it would need neither armament nor standing armies for its protection.

4. That our Senators in Congress be instructed, and our Representatives be requested, to use all honorable and legitimate means in their power to secure the removal of the National Capital to some point in the Mississippi Valley, at such time, on such conditions, and in such manner, as in their judgment may best subserve the interests of the people of this Commonwealth and of our entire country.

5. That the Secretary of State be directed to prepare and transmit one copy of these resolutions to our Senators, and one to our Representatives, in the Congress of the United States.

Mr. Graves offered the following resolution, viz:

Resolved, That the Committee on Revised Statutes be directed to inquire into the expediency of reducing the fees of all clerks and other officers of the Commonwealth of Kentucky to the standard price fixed by law for the same, and all similar services, as it existed on the first day of January, 1860; and that they report by bill or otherwise at the earliest day practicable.

Which was adopted.

Mr. Bush offered the following joint resolution, which lies one day on the table, viz:

Resolved by the General Assembly of the Commonwealth of Kentucky, That when the present session of the Legislature finally adjourns, it will adjourn sine die, and that no extra session will be held unless called by the Executive of the State.

Mr. Garnett offered the following resolution, viz:

Resolved, That the Commissioners of the Sinking Fund be, and they are hereby, requested to inform this House, immediately, the terms of the contract made by them with the Bank of Kentucky; and whether or not, in their opinion, said contract should be completed and carried out; and what legislation is necessary in order to carry out said contract.

The Speaker laid before the House the response of the Commissioners of the Sinking Fund to a resolution adopted on the 24th inst., which was taken up and read as follows, viz:

Office Sinking Fund Commissioners,
Frankfort, Ky., January 25th, 1872

Hon. J. B. McCracken, Speaker of the House of Representatives:

In response to a resolution of the House of Representatives, passed on the 24th instant, requiring the Commissioners of the Sinking Fund to inform the House the terms of the contract made by them with the Bank of Kentucky, and whether or not, in their opinion, said contract should be completed and carried out, and what legislation is necessary in order to carry out said contract, said Commissioners beg leave to report:

That the terms of the contract indicated in the foregoing resolution are shown by a copy of the written memorandum thereof, made at the time, and subscribed by the Chairman of the Commissioners and by Thomas M. Barrett, of the committee representing the bank, bearing date 17th day of January, 1872, herewith submitted as part of this report.

The Commissioners of the Sinking Fund are of opinion said contract should be completed and carried out.

Among other reasons for this opinion are the following:

That $112 per share, cash, approximates so nearly the real cash value of the stock that it would be better for the State to accept this than to carry the bank into liquidation, if the State could do it. We think that by the time the assets—consisting mainly of bills and notes—were collected and reduced to cash, the expenses and losses would bring down the value of the stock nearly, if not quite, to $112 per share.

We do not believe we could realize as much as this from any other purchaser. We accomplish by the contract the double operation of selling our stocks and taking in our bonds without expense of agents, and with little risk of loss.

We will be enabled, in a few weeks, to retire the residue of the old bonds of the State, and relieve the financial department from the complications and embarrassments growing out of carrying the Sinking Fund in a separate account, and so far have command of our resources as to relieve, for the present, the necessity of raising the taxes, and also, it is hoped, from any necessity of issuing more than half the lately authorized loan. And we will thereby be enabled at once, after this contract is consummated, to resume full payment of claims against the Treasury.

If the proposed contract with the bank is rejected, our realization of any thing over $100 to the share must be at the end of expensive
and tedious litigation with the bank, in which the value of the State's stock, as well as that of individuals, would be depreciated greatly by the litigation.

From time to time we must make new loans and increase the State debt at a high interest, while unavailable means are lying idle for want of power to use them, until the old State debt is paid: and while these means are so lying idle, they are in constant danger of depreciation and loss.

The passage of the Senate bill now pending before the House of Representatives will be all the legislation necessary to enable the State and the bank to carry out said contract.

Respectfully,

P. H. LESLIE,
Chairman Board Commissioners Sinking Fund.

MEMORANDUM OF AGREEMENT

Between the Commissioners of the Sinking Fund and the President, Directors, and Company of the Bank of Kentucky.

The latter agree to buy from the Commissioners aforesaid the stock owned by the State of Kentucky in the Bank of Kentucky, at the rate of one hundred and twelve dollars for each share of her stock, the stock being about 7,789 shares.

The Speaker laid before the House the response of the Commissioners of the Sinking Fund to a resolution heretofore adopted, which was read as follows, viz:
HON JAMES B. McCREARY, Speaker House Representatives:

The Commissioners of the Sinking Fund, in response to a resolution of the House of Representatives, requesting them to report whether "they have sold the stock held by the State of Kentucky in the Short-Line Railroad, as directed by a resolution of the General Assembly, and if not, to report whether the sale can yet be made, and upon what terms, and whether they believe it best for the interest of the State to consummate said sale," beg leave to report:

That before the resolution referred to came before the Governor, the time fixed by the Chesapeake and Ohio Railroad Company up to which they would purchase the stock had expired, to-wit: 27th December, 1871; nevertheless, a portion of the Commissioners had given, through the public papers, a week before the time expired, information of the passage of the resolution, and determined to do all in their power to carry out the expressed will of the General Assembly.

We found, however, that no provision was made in the resolution for any security to the State for the proceeds of the stock, and we felt that we could not discharge our duty to the State unless we demanded and obtained ample security for the purchase money. That security was not mentioned in the proposition of the Chesapeake and Ohio Railroad Company to pay sixty-five cents upon the dollar for the stock. We have proposed to sell the common stock held by the State in said road to the company mentioned at the price indicated, provided they will, after we transfer it to them, indorse it in blank, and deposit it with us as collateral security for the payment of the purchase money. Inasmuch as it is a foreign corporation, we are clearly of the opinion that some security like this should be demanded. We are now in negotiation with that company upon the subject of the sale, and believe we shall accomplish it.

As to the question asked us in the resolution, "Whether we believe it best for the interest of the State to consummate said sale?" we say, we are not agreed upon that question amongst ourselves; yet we all agree that it is our duty to carry out the directions of the General Assembly to sell; and we will cheerfully do so whenever we can get such security as we regard safe for the State.

Respectfully,

P. H. LESLIE,
Chairman Board Commissioners Sinking Fund.

Ordered, That said response be printed, and that the same be referred to the Committee on the Sinking Fund.

Mr. Graves offered the following resolution, viz:

Mr. Carpenter, from the Committee on Insurance, to whom was referred a bill from the Senate, entitled

An act to re-enact an act to amend an act, entitled "An act to provide for the incorporation and regulation of Fire, Marine, Health, Accident, Live Stock, and all other than Life Insurance Companies," approved March 12, 1871,
Made the following report, viz:

The general insurance law, approved March 12th, 1870, prescribe the securities in which the capital and accumulated funds of insurance companies may be invested.

An act approved March 21st, 1870, "to require insurance companies to conform to the general insurance laws of this Commonwealth," provides, that "whereas, special privileges may have been conferred upon some corporations which are partly or wholly designed for conducting the business of insurance, and which may not be so strictly guarded as if subject to the provisions of the general laws; for remedy whereof, be it enacted, that all corporations for doing an insurance or insurance and banking business, shall be subject to all the provisions and restrictions of said general laws."

During the summer of 1870, the Insurance Commissioner notified the companies doing insurance and banking business that their capital and funds accumulated in the course of their insurance business must be invested in the securities prescribed by section six of the general fire insurance laws. The companies expressed a desire to conform to the law, and asked time to enable them to do so. At the last session of the Legislature these companies obtained the passage of an act in their favor, granting them exemption from this particular section until the first of the present year, and no longer; and they are now here asking that the time allowed them shall be indefinitely extended, as shown by Senate bill No. 33, entitled "An act to re-enact an act to amend an act, entitled 'An act to provide for the incorporation and regulation of Fire, Marine, Health, Accident, Live Stock, and all other than Life Insurance Companies,'" approved March 12th, 1870; which bill passed the Senate December 14th, 1871, and was referred to the Insurance Committee of this House on December, 1871.

The committee gave full hearing to the representatives of the companies that have made application for the passage of this bill, and have deliberately and carefully considered the subject in all its bearings, and have directed me, as chairman of the committee, to make this report.

The first important question discussed was in reference to the correctness of the principle upon which section 6, of the general fire insurance law, approved March 12, 1870, is founded; this section being that part of the law from the requirements of which the companies desire a special act of exemption.
The State, in creating insurance corporations, assumes to designate and prescribe the nature of securities in which insurance funds may be invested. In doing this, the State has forbidden banking, exchange, and discount business to be done with insurance capital, and the funds accumulated in the course of insurance business. In other words, it has declared the double business of insurance and banking shall not be conducted upon the same capital.

If this principle is correct, the general law is a good one, and it should stand. On the contrary, if the principle is admitted that banking and insurance should be conducted on the same capital, thus subjecting the banks to the greater hazards inherent in fire insurance, the general insurance laws should be changed, and all insurance companies permitted to do a general banking, discount, and exchange business, and all banks should be authorized to do a fire insurance business.

The passage of a special act, exempting these five Louisville companies from the operation of the existing law, would undoubtedly be followed by applications from other companies for the same privilege. It would be difficult, in this event, for the General Assembly to assign a good reason for not granting every application for like authority.

It is far better to adhere to the sound and correct principles, as set forth in the general laws, then to fall back upon the system of special acts, granting extraordinary privileges to a few corporations.

As evidence that the requirements of section 6, referred to, are correct in principle and should be thoroughly carried out in practice, attention is called to the provisions on this subject contained in the draft of an insurance law, recommended by a Convention of State Officers of Insurance, lately held in New York.

The Insurance Commissioner of Kentucky was chairman of the committee to which that Convention assigned the duty of reporting this law. The committee was aided by the advice of the ablest insurance men in the country, and the draft of a proposed uniform and general insurance law for all the different States was unanimously recommended by the Convention.

The following is an extract from the law referred to:

"§ 26. The capital stock and accumulations of any insurance company of this State shall be invested in the bonds or Treasury notes of the United States, or bonds of this State, or of any other State of the United States, or of any city, town, or county of this State, or of
any State of the United States, having legal authority to issue the same, bearing interest, or they may be invested or loaned on mortgages of unencumbered real estate in this, or any other State of the United States, worth at least double the amount loaned thereon, exclusive of buildings, except when such buildings are insured, and the policies duly assigned as additional security, or loaned on pledges of any of the securities named in this section: Provided always, That the current market value of such pledged securities shall be, at all times, during the continuance of such loans, at least twenty per cent. more than the sum loaned on them, and all such loans are subject to the power of the company to terminate the same in case of depreciation of the securities below the limit: And provided, That in all investments upon mortgage securities, the evidence of the debt shall accompany the mortgage or deed of trust.

This proposed section is in close accord with the present general insurance law of this State, except in the fact that it does not restrict investments to securities within the State.

By this proposed law, and by the present law of Kentucky, banking institutions are saved the fearful risks attending the business of fire insurance; and at the same time the fire insurance business is saved the unnecessary additional risk of making its safety dependent upon the permanent solvency of the banks of the country.

There is but one reason for uniting these two vastly important interests, and that is, to enable capital to make double profits by causing the public to incur a double risk. Capital, for the sake of immediate large profit, will sometimes incur the risk; but we are here to legislate for the interests of the people at large, and their interests demand that the banking business of the country shall not be subjected to the unnecessary hazards of fire insurance.

The companies asking this privilege are all located in the city of Louisville, and their business is mainly, if not entirely, confined to the limits of that city. Suppose that Louisville should be visited by a fire—not like that which recently destroyed Chicago, but similar to the great fires that have occurred within a few years in New York, Pittsburg, Portland, San Francisco, Charleston, Richmond, Vicksburg, and other cities—what would become of the fire insurance companies that had allowed their risks to accumulate within the limits of a sweeping conflagration in Louisville? All such would certainly not only be entirely ruined, but the insurers, who are annually contributing largely to swell the profits of the shareholders in years when fires are not prevalent, would obtain nothing, or next to nothing, "when the fire fiend claims its own." This is no fancy picture of what may happen. It is an illustration of what has hap-
pened recently in other cities; and all prudent men are bound to admit that it may happen in Louisville. This would surely be bad enough without breaking the banks in Louisville at the same time.

The object of fire insurance is to guarantee, as far as practicable, that in case the property of the insured is destroyed by fire, the owner will receive the amount of insurance he has paid for.

All experience shows that companies doing only a local fire insurance business in a single city will be ruined, and hopelessly unable to pay their obligations in case that city suffers from a great fire. In illustration, take only the fire corporations now applying for authority to do the combined banking and insurance business; their aggregate available assets, including capital stock, with which to pay losses by fire, was $1,378,204 on the 31st day of December, 1870. The aggregate risks or amount insured at the same time was $16,968,740, and nearly all in the city of Louisville; from which it follows that the amount at risk was more than twelve times the available assets.

Nothing but the temptation offered by the chance of probable large immediate additional profits could induce a banker to incur the hazard of fire insurance. The financial interests of the State and people demand that the banks shall not be allowed to incur this extra and very great hazard. On the other hand, all know that banks have, in times past, broken in this country, and some of them may break in the future, even without having incurred the risks inherent in fire insurance. It is for this reason, and in the interests, first, of the insured, and secondly, in the interests of the insurance companies, that the general insurance law prescribes the character of the securities in which insurance capital and funds, accumulated in the course of insurance business, may be invested.

The real question which the Legislature is now called upon to decide is, not whether these banking and insurance companies of Louisville shall be exempted from compliance with the law, but it is, whether the State will incorporate, in its general financial policy, the principle that banks chartered by this State shall be allowed to do fire insurance business upon banking capital.

Who will venture to say that if this power is, by the Legislature, granted to these five Louisville banks, that similar power will not have to be conferred upon all other banks in the State that ask for it?

It is quite certain that the conservative safe bankers are opposed, on principle, to this union of banking and insurance, as a basis for
general laws. But once grant to these five Louisville banks the power to do fire insurance business, and the sharpness of competition in business will induce other banks to ask for equal privileges, which, in equity, will have to be granted, and the banking interest of the State will have a very dangerous element ingrafted upon it, merely to gratify the desire of these five banking and insurance companies for extra profits and extra hazard; and this will be done not only in violation of the present general insurance law and banking policy of the State of Kentucky, but in opposition to the views of the Insurance Commissioner, and the formal official recommendation of the National Insurance Convention, in which twenty-nine States were represented by their respective executive insurance officers, and in opposition to the opinions and views of the most experienced and able insurance officers, and the safest and best bankers and statesmen in the United States.

For these reasons, and others of similar import, the Insurance Committee of this House have instructed me to report the Senate bill No. 33 back to the House, with unanimous and urgent recommendation that it do not pass.

Mr. E. Polk Johnson moved to print said report, and to postpone the consideration thereof until Thursday next.

And the question being taken thereon, it was decided in the negative.

Pending discussion thereon, the hour of 12 o'clock arrived,
And the House took up for consideration a joint resolution heretofore read and laid on the table, which is as follows, to-wit:

The Speaker laid before the House the following communication from the Superintendent of Public Instruction, to-wit:

FRANKFORT, February 1, 1872.

Hon. James B. McCready and the Honorable Members of the House of Representatives:

I would respectfully represent, that, upon the reports of school commissioners, warrants, countersigned by me, to pay for schools taught out, and half sessions, on the 10th day of January, 1872, have accumulated to the amount of nearly one hundred thousand dollars. On account of the taxes for common school purposes not having been paid in, there is no money in the Treasury to liquidate these claims.

An unprecedented number of the schools have been in session during the first half of the school year, making an extraordinary draft upon the Treasury.
Teachers are clamorous for their pay, and commissioners are besieging this office with impatient letters.

I would recommend that you refer this matter to a special committee, with instructions to ascertain and report as early as practicable the method of affording immediate liquidation of these hard-earned and much-needed claims.

Very respectfully,

H. A. M. HENDERSON,
Superintendent Public Instruction.

An act to authorize the trustees of the Cincinnati Southern Railway to acquire the right of way, and to extend a line of railway through certain counties in this Commonwealth.

The amendments proposed by the Senate are as follows, viz:

First amendment: Add to the 14th section:

Provided, however, That the trustees of the Cincinnati Southern Railway Company shall pay into the Treasury of this Commonwealth an amount equal to fifty cents per capita for each through passenger across the Commonwealth of Kentucky, and twenty-five cents for each passenger for one hundred miles of travel on said road within the limits of the State of Kentucky.

Second amendment: Amend further by adding to the 14th section as amended, the following:

And the said trustees shall also pay semi-annually into the Treasury of this Commonwealth an amount equal to one cent on each one hundred pounds of through freight shipped over said road; and all payments due to the Treasury under this act shall be made
in the manner, and at such times, as may be established by the Auditor of Public Accounts of this State.

Third amendment: In line 18 of preamble, after the word "expressed," and before the word "and," insert the following:

Provided, The trustees of said road shall cause to be surveyed one or more routes for said road, by a competent engineer and assistants, from the city of Cincinnati, by the way of Nicholasville and Danville, to the State line in the direction of Sparta, Tennessee; thence on the most direct practicable route to Chattanooga, having due regard to grade and cost of construction. The engineers shall lay before the board of trustees a map of the route, exhibiting the excavation, fills, bridges, grades, tunnels, &c., with approximate estimates of the cost of constructing the road from Cincinnati to the State line, thence to Chattanooga; which estimates shall show separately the cost of constructing this line, and others that may be made, and reported by engineers. Each line surveyed shall be reported to the citizens of Cincinnati, that they may express their preference for either route by their votes; and that the trustees shall locate the road-bed as indicated by the votes of the citizens and taxpayers of said city.

Fourth amendment: Add to the 16th section the following: "Except the payments required by this act."

Mr. Blackburn moved the previous question.

And the question being taken, "Shall the main question be now put?" it was decided in the affirmative.

And so the main question was ordered.

Those who voted in the affirmative, were—

The second amendment proposed by the Senate was then concurred in.

The long amendment proposed by the Senate was then concurred in.

J. Guthrie Coke, Lewis Potter, C. H. Webb,
John W. Dyer,

And so said amendment was concurred in.

When the vote on the third amendment was being taken, and the name of Mr. Speaker McCready was called, he rose and said:

The third amendment does not locate the Southern Railroad by way of Nicholasville, Danville, and Sparta, but simply directs that a survey shall be made on that route. The trustees may survey as many routes as they choose; and when the surveys are completed, the people of the city of Cincinnati have the right to direct, by their votes, on what route the road shall be constructed. Surveys have already been made on several routes; and this amendment does not, in my opinion, interfere with the legal rights of any other railroad in this Commonwealth; but it will simply, if carried out in good faith, give the people who furnish the money to build the road the right to locate it.

The fourth amendment proposed by the Senate was then concurred in.

Mr. Blackburn then moved to reconsider the votes by which the 1st and 3d amendments of the Senate were concurred in.

Mr. Chrisman moved to lay the motion of Mr. Blackburn on the table.

FRANKFORT, KY., February 2d, 1872.

To the General Assembly:

Your Commissioners, appointed by an act approved March 13, 1871, appropriating twenty-eight thousand three hundred and eleven dollars ($28,311) for the purpose of constructing a block of warehouses, four in number, for the use of the Penitentiary, beg leave to submit the following report to your honorable body:

In pursuance to the provisions of said act we employed a competent architect to furnish a suitable plan and specifications for the construction of the warehouses provided for; and after advertising the letting of the same, as required by the terms of said act, Col. J. W. South, being the lowest and best bidder, was awarded the contract for constructing said warehouses at the sum of twenty-two thousand three hundred and sixty dollars and sixty-three cents ($22,360.63). We also paid, in addition to this amount, for services of architect and advertising, eleven hundred and eighteen dollars and three cents ($1,118.03), and seventy dollars ($70) for extra work, making the entire cost of said warehouses twenty-two thousand five hundred and forty-eight dollars and sixty-six cents ($22,548.66), leaving unexpended of said appropriation four thousand seven hundred and sixty-two dollars and thirty-four cents ($4,762.34).

Your Commissioners further report, that said warehouses were entirely completed and received by them on the part of the State,
from the contractor, on the 31st day of January, ult.; and a more substantial, well-constructed building it would be difficult to find.

Too much credit cannot be awarded the contractor for the faithfulness and honesty with which he executed his contract. We do not believe that there is a single particle of inferior material put in said building, and it is erected in the most substantial and workmanlike manner. You are respectfully requested to call and examine and inspect it for yourselves.

Respectfully submitted.

WHEREAS, The industrial and commercial interests of Kentucky and other States bordering on the Ohio river are being impaired by the long-continued low water, which renders said river almost impassable for boats of the lightest draft during a great portion of the year; and whereas, the growing commerce of the country requires the full capacity of boats of the largest class, at all seasons of the year, to carry off the accumulating commerce to the markets of the country, in order to develop our wealth and supply the wants of the people; therefore, be it

1. Resolved by the General Assembly of the Commonwealth of Kentucky, That our Senators be instructed, and our Representatives in Congress requested, to use their influence to secure a survey and estimate of the costs of so improving the Ohio river by locks and dams as to secure the navigation of said river at all seasons of the year by large-class steamers.

Said commissioners may use a sound discretion in making the sale.

§ 3. That said company shall not make more than eight per cent. on the capital stock of said company, as reduced by this sale; and that the stock of the purchaser, in ascertaining, shall be counted at the amount at which he pays the State for it, and not at the original stock.

Be it enacted by the General Assembly of the Commonwealth of Kentucky, That all such foreign corporations or persons, organized under charters granted by other States, now engaged, or that may hereafter be engaged, in running and operating any of the railroads of this State, either in their own name or that of others, are permitted to do so upon the following conditions, viz: That such foreign corporations, within sixty days from the passage of this act, or within sixty days from the time of commencing business in this State, shall procure from the board of directors or managers of such corporation a duly authenticated order or resolution authorizing its agents to contract and be contracted with in the name of such corporation, and

less than one week for each day they so offend, either or both, in the
discretion of a petit jury.

§ 4. That such corporation or companies engaged in the business
aforesaid in this State shall be deemed common carriers, and shall
not discriminate in carrying freight for or against any individual or
company, but shall, so far as its rolling stock and equipments will
permit, transport all freight over said road that may be offered upon
payment, if required or tendered, of the rates of tariff allowed by
law or the charter of such road; and if such road is not supplied
with the necessary cars to do the business required, it shall be law-
ful for any individual or company to furnish such necessary cars for
their own use; and it shall be the duty of the company or persons
controlling and operating such road to carry freight in such cars to
any point on the line of said road that may be required, and return
the cars to the parties furnishing them as speedily as can convenient-
ly or reasonably be done. That any person or company being dam-
aged by the failure or refusal of the company controlling said road
to discharge the duties enjoined in this section, may, by action, re-
cover the actual damage sustained, and fifty per cent. in addition.

§ 5. That any persons desiring to engage in the business of mining
stone-coal, milling, or the manufacture of iron, adjacent to the line
of such railroad, may, under the direction of a competent engineer,
construct a switch, to be connected with said road, for the conve-
venience of their said business, upon condition, however, that said
parties shall execute a covenant to the Commonwealth of Kentucky,
in the county court of said county, with good surety, to be approved
by the court, to the effect that he or they will keep a constant ab-
corporate of or any of the same or different evidence in the rough to which evidence is given to either through which passage is taken without any reason of the improper construction of such or negligence in keeping it properly adjusted, so as not to obstruct passing trains; and all parties injured may recover reasonable and adequate damages.

Resolved, That the title of said bill be as aforesaid.
A message was received from the Governor by Mr. Botts, Assistant Secretary of State, which was taken up and read as follows, viz:

STATE OF KENTUCKY, EXECUTIVE DEPARTMENT,
FRANKFORT, February 15, 1872.

Gentlemen of the House of Representatives:

The bill which originated in your House, and passed the General Assembly, entitled "An act to incorporate the town of Smith's Grove, in Warren county," creates the office of police judge, and makes him elective by the qualified voters of said town. It confers upon that officer exclusive jurisdiction to try and render judgment in all cases of alleged violations of the by-laws and ordinances of said town; and provides that every person convicted of such charge, and fined, "shall, in default of payment of fine and cost, be confined in the jail of Warren county until the fine and cost of prosecution are paid off, at the rate of fifty cents per day." It confers upon that officer jurisdiction in all civil, penal, and criminal cases, equal with, and as the justices of the peace have for the entire county. It makes him an examiner to take depositions, to be read as evidence in any of the courts of this Commonwealth. It gives him jurisdiction (beyond a justice of the peace or county judge) equal with all the circuit courts in punishing any one for contempt in his court. It directs the taxation of a two-dollar jury fee against the accused, in every case tried in his court by a jury for a violation of the town laws, where there is a conviction; and a fee of two dollars and fifty cents, in every case of violation of town laws tried in his court, where an attorney is employed to prosecute; and there are other extraordinary provisions in the bill. I cannot approve the bill, believing, as I do, that it will operate harshly and unjustly upon the people of the county of Warren, and particularly all persons, from whatever county they may be, who happen to be within this town and violate its laws. I am unable to see why it is that a man or woman, convicted of violating a town law in Smith's Grove, who fails to pay the fine and cost, shall be required to lie in jail, at fifty cents per day, till all the fine and cost are paid; whereas, if it was a fine for violating the penal laws of the State (assessed by the same officer), the measure of confinement in jail would be estimated at two dollars per day.

We have a general law upon our statute books which undertakes to secure to the county an officer called an examiner, to take depo-
tions. It is certainly bad policy to make innovations upon this general law by incorporating into local and private acts such power and authority, affecting so seriously the rights and interests of the entire country. The imposition of a two-dollar jury fee, and two dollars and fifty cents attorney's fee, in cases for alleged violations of the laws of said town, is extraordinary, to say the least of it, and especially when the accused has to lie in jail at fifty cents per day till it is paid.

Without suggesting other reasons, I herewith return the bill for your consideration.

Respectfully,

P. H. LESLIE

Said bill so objected to by the Governor reads as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That that portion of Warren county, included in the following boundary: Beginning at first cattle-guard of the Louisville and Nashville Railroad, west of Uriah Rasdall's store; thence east to a point south of Nathan Allen's and Joel Morehead's corner, so as to include the property of the railroad company; thence with Allen's and Morehead's line north to the street between H. T. Arnold's and Sweeney's property; thence west with said street to the county line; thence with the county line south to a black jack at Uriah Rasdall's corner; thence with Claypool and Rasdall's line south to the beginning, shall be incorporated and known as the town of Smith's Grove; capable of being contracted with; of suing and being sued; and in that name may sue or be sued.

§ 3. That on the first Saturday in April in each year there shall be an election held by two judges, appointed by the Board of Trustees, and a clerk, for a chairman and six trustees. All male persons over twenty-one years of age, who shall have bona fide resided in said town for six months next preceding the time of the election, or shall at the time be owners of real estate therein, shall be entitled to vote, naming the persons for whom they vote as chairman and trustees.

§5. All officers of the town elected by the people or appointed by the board, before entering upon the duties of their office, shall take the oath now prescribed by the Constitution of the State, and to discharge the duties of their office to the best of their ability. The chairman, police judge, and marshal shall be sworn before a justice of the peace; the chairman may administer the oath to other officers of the town.

§6. All the officers of said town, whether elected by the people or appointed by the board, shall reside and keep their offices within the limits of said town during their continuance in office. Three months' absence from town by the chairman, or either of the trustees, or any officer in said town, shall vacate the office of such absentee by a resolution to that effect, adopted by the whole number of remaining trustees; and said board may fill all vacancies occurring by resignation or otherwise until the first regular election.

§7. The chairman, when present, shall preside at the meetings of the board, and give the casting vote where there shall be a tie. He shall call the board to order, and convene the same when he may think proper; he shall countersign all orders of the board, signed by the clerk; he shall report all improper conduct of the officers appointed by the board to the board in session, who shall have power to remove them by resolution entered upon their journal; he shall have the care and superintendence of the public property; and shall perform such other duties as the board may think proper to impose on him as the chief officer of the town; he shall be required to execute bond to said town in an adequate penalty, conditioned that he will faithfully pay over, and account for, all money that may come to his hands or be placed to his credit as chairman.

§8. The chairman may be compensated for his services out of the funds of the corporation, to be fixed by the Board of Trustees, exclusive of the chairman. The chairman, by the advice and consent of the majority of the board, may remit any fine imposed by law or ordinance; but such remission shall be upon payment of costs. The regular meetings of the board shall be held on the third Saturday in each month. Four trustees shall be capable of doing business when in session.

§9. The Board of Trustees shall appoint a clerk, whose duty it shall be to preserve the books, papers, and records, and every thing belonging to the office, and to deliver the same to his successor in office on application being made therefor; he shall keep a regular record of the proceedings of the board, and a correct account of the financial concerns thereof; he shall record all the acts, resolutions, and orders of the board; he shall take all the bonds and agreements between the board and other persons; he shall furnish attested copies of all acts, resolutions, and orders passed by the board, when required by persons to do so who are entitled to the same; he shall draw his order on the Treasurer for all sums of money due to persons on claims allowed by the board, or on the bonds of said town, on the application of the holders, and on the return of the assessors' lists to the board, and the assessment of taxes thereon; he shall hand over one of said lists, together with the order fixing the rate of as-
required to give bond in an adequate penalty, to be fixed by the board, conditioned for the faithful discharge of the duties of his office.

§ 10. The board may receive conveyances or consent, in writing, of the proprietors of lots or land within the town, for the purpose of locating, opening, or extending streets. Said town may petition the county court of Warren to open and condemn land for streets in the same manner as is now done for opening roads in the county.

§ 11. The Board of Trustees shall have full power and authority (two thirds of the whole number of the trustees concurring) to cause all the streets or alleys, or any of them, or any part or portion of them, in said town, now established, or hereafter to be established, to be graded, paved, turnpiked, graveled, or otherwise improved.

§ 12. The Board of Trustees shall have full power and authority to cause the sidewalks, or any part or portion of them, in said town, to be curbed, graded, or paved with stone or brick, and when so done to be kept in good repair, and to assess the costs and expenses of such curbing, grading, and paving or repairs adjacent to any lot, or part of lot, against the owner of the lot, or part of the lot, fronting thereon; and to secure the payment of said costs and expenses, a lien is hereby given on said lots or parts of lots. Said costs and expenses may be listed as taxes with the collector of said town, and by him collected as other taxes, who shall have power to sell and convey said lots and parts of lots, or so much thereof as may be necessary, in the same manner that real estate in said town may be sold for taxes: Provided, That infants, femmes coeur, and persons of unsound mind, shall have five years after their several disabilities are removed to redeem the same.

§ 21. The board shall annually appoint one town assessor, and one assistant, if necessary, who shall take in a list of all the taxable inhabitants and owners of property in said town separately, and forever against each the real estate in said town owned by him, or her, or them, with the value thereof, on the 10th day of January in the year in which the list is taken; and also the true and just value of such other estates of each of said inhabitants or owners, whether in goods, stocks, or other property, owned, held, possessed, used, or employed by him, her, or them in said town on said 10th of January, may be designated for taxation by said board; which list shall be made on oath of the party; or if the party refuse to give in a list, and swear to the same, the list shall be made from the best information the assessors possess; and said list shall be made to include all males over twenty-one years of age, all taverns, process, victualling, confectioners, and houses of public resort (except gambling-houses and houses of ill fame), hacks, drays, carts, wagons, and porters plying in said town for hire, if required by the board; of which list two fair copies, arranged in alphabetical order, shall be completed and returned to said board at the regular meeting in March, whereof notice shall be given, that any of said inhabitants or owners may examine the same; and if any one should feel aggrieved thereby in an excess of valuation or otherwise, application may be made to the board; and on proof being made to their satisfaction, the list may be corrected, provided the application is made within the time that may be prescribed by them; after which no abatement or change shall be made. The board shall proceed to levy and collect the taxes for the current year from estimates previously submitted to them by the chairman.

§ 22. The board shall likewise have the power, by ordinance, to provide for the taxing of any store, grocery, &c., that may be opened.
or commenced at any time subsequent to the day fixed upon for the annual assessment; and also for all itinerant merchants or vendors: Provided, That in no case shall the tax levied upon such store, grocery, &c., be less than the ratable amount (computed with the other assessments), in proportion to the time the same may be kept open or continued. The power of the collector of said town taxes shall be the same as to distraining, advertising, and selling property, as is now granted by law to the sheriffs in the collection of the State revenue and county levy; and for failing to pay taxes on real estate, the same remedies by damages and sale of the real estate shall exist, and the same lien exist on the property taxed, as in the collection of the State revenue. A lien shall exist on the real estate of said collector and his sureties for the payment of all sums placed in his hands for collection. The House then, according to order, took up for further consideration a bill from the Senate, entitled

An act to amend an act, entitled "An act to incorporate the Frankfort, Paris, and Big Sandy Railroad Company;"

With the substitute (by way of amendment) offered thereto by Mr. Bascom.

The Senate bill reads as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That whenever said Frankfort, Paris, and Big Sandy Railroad Company shall request the county judge of any county, through or adjacent to which it is proposed to construct said road, to subscribe either absolutely or upon specified conditions, a specified amount to
the capital stock of said company, the county judge so requested shall forthwith order an election to be held at the several voting places in said county, on a day to be fixed by the judge, not later than thirty days nor earlier than twenty days after the making of said order, and shall appoint judges and other officers necessary to hold said election: Provided, That if a majority of the votes cast at said election shall be adverse to the proposed subscription, then the cost of said election shall be paid by said railroad company: Provided further, That not more than one election shall be held under this act, nor that to which it is amendatory, in any city, town, county, or precinct, without further legislation: Provided further, That no election shall be held in any county wherein said company have operatives engaged in the actual construction of their road, without the consent of the county court of such county.

§2. The appointment of officers to conduct said election, the holding thereof, and whatever pertains thereto, including the counting of the vote and making the subscription in accordance therewith, shall be made and done as provided in the act to which this is amendatory.

§3. Whenever the subscription of a city, town, county, or precinct, to the capital stock of said company, shall be payable in the bonds of said city, town, county, or precinct, it shall be the duty of the mayor of such city, the chairman of the board of trustees of such town, or the presiding judge of such county, as the case may be; to issue and deliver to said company the bonds of said city, town, county, or precinct, of the character and to the amount required by the terms of the subscription in payment of which they are issued. Said bonds shall be signed by said mayor, chairman of board of trustees, or presiding judge, and be countersigned by the clerk of the common council of the said city, board of trustees, or county court, as the case may be; and in case coupons are attached, the same shall be signed only by said clerk. The provisions of this section shall apply to the case of any city, town, or county which may have already voted a subscription to the capital stock of said company.

§4. This act shall take effect from its passage.

The substitute (by way of amendment thereto) offered by Mr. Bas-
That if a majority of the votes cast at said election shall be adverse to the proposed subscription, then the cost of said subscription shall be paid by said railroad company: Provided further, That not more than one election shall be held under this act, nor that to which this is amendatory, in any city, town, county, or precinct, without further legislation: Provided further, That no election shall be held in any county, wherein said company have operatives engaged in the actual construction of their road, without the consent of the county court.

That in any proposition submitted under this act the condition shall be inserted: That in lieu of certificates of stock to be issued to the county, city, or town, or the people thereof, as provided in the act to which this is amendatory, the company upon the payment of the subscription made, shall file with the presiding judge of the county court, or the mayor of the city, or the chairman of the board of trustees, its obligation to accept at lawful payment of charges for all freight shipped from or received at the several depots or stations in said county, city, or town, the tax receipts issued to the citizens of said county, city, or town, for taxes levied and collected to pay said subscription. Said tax receipts, however, shall not be so receivable until five years shall have elapsed after the completion of said railroad; and no sale or lease of said road shall affect the obligations hereby imposed on said company, but any holder of tax receipts may, at his option, upon presentation of said receipts, in any amount not less than fifty dollars, receive therefor a certificate of stock for the amount presented, as provided in the act to which this is amendatory: Provided further, That the subscription of the county of Bourbon shall not exceed ($400,000) for one hundred thousand dollars, not more than five per cent. of which shall be made payable prior to the running of trains upon said road from the point of its junction with the Lexington and Louisville Railroad, at or near the city of Frankfort, to the eastern line of Bourbon county, and then not more than one half of said subscription shall be made payable, and the remainder shall not be payable until trains are running upon said road to the Big Sandy river, or to its point of junction with one that is in operation to that river.

§ 2. The appointment of officers to conduct said election, the holding thereof, and whatever pertains thereto, including the counting of the vote, shall be made and done as provided in the act to which this is amendatory; and if it appears that a majority of those voting in favor of the subscription as proposed, the county judge, mayor, or chairman of the board of trustees, shall order the vote to be entered on their respective records, and shall execute and deliver to the company the obligation of the county, city, or town to pay to the company, on the terms specified in the order submitting the question to a vote, the amount subscribed. In the event the amount is payable in installments, there shall be a separate obligation for each installment. These obligations shall be signed by the county judge, mayor, or chairman of the board of trustees, attested by the clerk of the county court, common council, or board of trustees, shall not bear interest before maturity, and shall not be delivered to the company until their obligations to accept tax receipts in payment
and delivered to the county judge, mayor, or chairman of the board of trustees.

§ 3. Whenever any county, city, or town shall vote a subscription to the Frankfort, Paris, and Big Sandy Railroad Company, and issue their obligations to said company, as provided in preceding section, the president judge of such county, the mayor of such city, or the chairman of the board of trustees of such town, shall pay such obligations upon presentation at their maturity, by the issue and delivery to said company of the bonds of such county, city, or town, of the denomination of not less than ($100) one hundred dollars, nor more than ($1,000) one thousand dollars, with coupons attached, under the seal of such county, city, or town, the bonds of the company to be signed by the president judge and countersigned by the county clerk, and the coupons to be signed by the clerk alone. The bonds of the company subscribing shall be signed by the mayor and countersigned by the city clerk or auditor, and the coupons shall be signed by the clerk or auditor only. The bonds of towns subscribing shall be signed by the chairman of the board of trustees and countersigned by the town clerk, and the coupons shall be signed by the clerk alone. Such bonds shall be negotiable and payable to bearer in the city of New York or in the city of Louisville, at not more than thirty (30) years from their date, and shall bear interest at a rate not greater than seven (7) per cent per annum, payable semi-annually in the city of New York or in the city of Louisville: Provided, however, That the character of the bonds issued, and the time of paying the same, shall be stated fully by said railroad company in the proposition which is submitted to the qualified voters of any county, city, or town.

§ 4. That in case any county, city, or town shall issue bonds as provided in the foregoing section, a tax sufficient to pay the principal and interest of the same shall be levied, collected, and used, as provided in sections fifteen (15), sixteen (16), seventeen (17), eighteen (18), nineteen (19), twenty (20), twenty-one (21), twenty-eight (28), and twenty-nine (29) of the act to which this is amendatory.

§ 5. None of the provisions of this act shall affect the validity of the subscription heretofore voted to said company by the county of Scott. The company may, however, in their discretion, submit to the voters of that county a proposition in accordance with the provisions of this act, with a condition inserted, that the acceptance of the same by a majority of the qualified voters of said county, and the payment of the same, shall operate as a release to said county from the subscription heretofore voted to said company.

§ 6. This act shall take effect and be in force from its passage.

Office of the Woman's Journal, No. 3 Tremont Place, Boston, February 14, 1872.

To the Speaker of the House of Representatives of Kentucky:

Dear Sir: Will you please have the enclosed memorial of the American Woman Suffrage Association presented in the body over whom you preside. If it can be offered by some member who is in favor of woman suffrage, and who will urge its reference to a joint special committee on suffrage, so much the better.

Hoping that Kentucky will treat this great political reform in a spirit of chivalrous courtesy and enlightened liberality, I remain

Yours respectfully,

Lucy Stone,
President American Woman Suffrage Association.
MEMORIAL.

To the Senate and House of Representatives of the State of Kentucky:

The American Woman Suffrage Association respectfully represents:

That whereas, the 1st section of 2d article of the Constitution of the United States expressly provides that "each State shall appoint in such manner as the Legislature thereof may direct, the electors for President and Vice President;"

And whereas, women are now unjustly excluded from any participation in the election of these highest officers of the nation;

We therefore respectfully pray your honorable bodies that you will exercise the authority thus vested in you by the Federal Constitution, and enact a law conferring suffrage upon women who are citizens of the United States, and of the State of Kentucky, in the approaching Presidential election, upon the same terms and conditions as men.

And we further respectfully represent:

That whereas, the Constitution of the State of Kentucky contains no restriction upon the exercise of suffrage by women in regard to the election of certain State, county, town, and municipal officers; we therefore respectfully pray that you will enact a law abolishing all political distinctions on account of sex, except where the same are expressly contained in the present Constitution of your State.

And we further respectfully represent:

That whereas, the Constitution of the State of Kentucky restricts suffrage for certain officers to men alone, therefore we respectfully pray your honorable bodies to take the necessary steps to amend the State Constitution so as to abolish hereafter all political distinctions on account of sex.

This memorial is presented in accordance with the resolutions adopted at the annual meeting of said American Woman Suffrage Association, held in Philadelphia on the 22d day of November, A. D. 1871, at which were present delegates from auxiliary societies in twenty-two States.

All of which buildings are to be erected upon the additional ground included by the extension of the new wall.

7. The said commissioners shall not expend, in the erection of the improvements hereby contemplated, a greater sum than thirty-five thousand dollars; and the excess of this appropriation remaining unexpended shall be expended by them, or such part as they may deem proper, in making needed repairs to the walls and public buildings now built and owned by the State as a Penitentiary.

Mr. Graves read and laid on the table the following preamble and resolutions, viz:

WHEREAS, We hold that all political power is inherent in the people, and free government founded on their authority and established for their benefit. That all citizens are equal in political rights, entitled to the largest religious and political liberty compatible with the good order of society, as also the use and enjoyment of the fruits of their labor and talents; and no man, or set of men, is entitled to exclusive separable endowments and privileges, or immunities from the government, but in consideration of public services; and any laws destructive of these fundamental principles are without moral binding force, and should be repealed. And believing that all the evils resulting from unjust legislation now affecting the industrial classes can be removed by the adoption of the principle contained in the following declaration; therefore,

1. Resolved, That it is the duty of the government to establish a just standard of distribution of capital and labor by providing a purely national circulating medium, based on the faith and resources of the nation, issued directly to the people, without the intervention of any system of banking corporations, which money shall be legal tender in the payment of all debts, public and private, and interchangeable at the option of the holder for government bonds, bearing a rate of interest not to exceed — per cent., subject to future legislation by Congress.

2. That the national debt should be paid in good faith according to the original contract, at the earliest option of the government, without mortgaging the property of the people or the future exiguities of labor to enrich a few capitalists at home and abroad.

3. That justice demands that the burdens of government should be so adjusted as to bear equally on all classes, and that the exemption from taxation of government bonds bearing extravagant rates of interest is a violation of all just principles of revenue laws.

4. That the public lands of the United States belong to the people, and should not be sold to individuals nor granted to corporations, but should be held as a sacred trust for the benefit of the people, and should be granted to landless settlers only, in amounts not exceeding 160 acres of land.

5. That Congress should modify the tariff so as to admit free such articles of common use as we can neither produce nor grow, and lay duties for revenue mainly upon articles of luxury, and upon such articles of manufacture as will, we having the raw materials, assist in further developing the resources of the country.

6. That the presence in our country of Chinese laborers, imported by capitalists in large numbers for servile use, is an evil, entailing want and its attendant train of misery and crime on all classes of the American people, and should be prohibited by legislation.
7. That the protection of life, liberty, and happiness, are the three cardinal principles of government, and the first two are more sacred than the latter; therefore, money used for prosecuting wars should, as it is required, be assessed and collected from the wealthy of the country, and not entailed as a burden on posterity.

8. That there should be such reform in the civil service of the National Government as will remove it beyond all partisan influence, and place it in the charge and under the direction of intelligent and competent business men.

9. That as both history and experience teach us that power ever seeks to perpetuate itself by every and all means, and that its prolonged possession in the hands of one person is always dangerous to the interests of a free people, and believing that the spirit of our organic laws, and the stability and safety of our free institutions are best obeyed on the one hand, and secured on the other, by a regular constitutional change in the chief of the country at each election; therefore, we are in favor of limiting the occupancy of the Presidential chair to one term.

10. That we are in favor of granting general amnesty and restoring the Union at once on the basis of equality of rights and privileges to all, the impartial administration of justice being the only true bond of union to bind the States together and restore the people of the government.

Ordered, That the same be referred to the Committee on Federal Relations.

Mr. McAfee, from the Committee on Military Affairs, to whom was referred a memorial of citizens of Franklin and other counties, on the subject of certain alleged outrages therein, presented the following report, viz:

The Committee on Military Affairs, to whom was referred the memorial of a number of citizens of Franklin county, complaining of outrages committed within the limits of said county by unlawful bands of men, respectfully report, that they have been in session every day for a period of about three weeks, having under investigation the matters referred to them. They have examined a large number of witnesses, both white and black, including not only those who could testify to facts of their own knowledge, but also many others who had investigated the subject of alleged outrages, and whose conclusions and opinions were, in the opinion of the committee, entitled to consideration. The greater part of the testimony received by the committee was not positive, but was circumstantial in character, and much of it was hearsay evidence—the broadest latitude having been given to the examination—the desire of the committee having been to obtain all the information that would throw any light on the subject under investigation. After patient
A number of gross injuries to the persons and property of citizens of Franklin county have been perpetrated by armed and disguised bodies of men, unlawfully banded together. These bands generally move in bodies of from ten to twenty, and their operations are generally confined to the night time. All the indications are, that they are of a low and illiterate class of white men. They are generally mounted, and appear to disperse as soon as the immediate purpose of their combination has been accomplished. Their disguises appear to have been sufficient, in most of the cases brought to the knowledge of the committee, to prevent their full identification; but, in many instances, the identity of the intruder has been suspected from a supposed recognition of the voice. It has, however, been stated to the committee on the very highest authority, that many men who have engaged in these unlawful acts are well known.

The investigations of the committee have extended back over a period of from fifteen to eighteen months, and most of the cases brought to their notice occurred during the remotest period to which their investigations have been extended. The injuries referred to have not been confined to any one class of citizens; but, in the majority of instances of visits from these bands of men, the parties visited were colored people. In perhaps every such case a demand has been made for arms, and in the search for arms the intruders have ransacked the premises, and, in many instances, forcibly taken small articles of property, and sometimes food. In some cases these parties, in effecting a forcible entrance to houses, have broken down doors, and have wantonly injured and destroyed property. Men have been visited at night, forcibly removed from their homes, and severely whipped; and, in one instance, two colored men were dunked in a neighboring stream in extremely cold weather. In other instances men have been notified to leave the neighborhood within a given time, and, in consequence of such notification, many of them precipitately abandoned their homes, often leaving their property without protection. In one instance narrated to the committee, it appears that a young colored girl was ravished by one of a small party of disguised men; but the father of the victim testified that, in his belief, this party was not the same, nor of the same character, as those who have committed the alleged outrages which the com-
mittee have had under investigation. The same witness also testified that the men who he suspected of having committed or participated in this crime were, in consequence of this and other outrageous conduct, subsequently driven out of the country. The committee have had other instances of ravishment reported to them, but it has not been made to appear that they were anything but isolated cases of the commission of this crime, which are of exceptional occurrence in every community. It appears that the violence of these bands has extended in some cases to shooting and wounding, and occasionally, in cases of resistance to their demands, even to killing the victims of their lawlessness. It is proper to state, that, in at least one of the cases of reported outrages by these bands, it turned out on investigation that the only foundation for the report was the visit of a number of young men in disguise to the house of a neighbor, on the occasion of a wedding party, merely for purposes of amusement.

The characters of the colored people who have been thus maltreated appear to have been both good and bad. Disorderly colored men, who appear to have annoyed the neighborhood in which they lived, have been whipped and driven off by these bands. But many colored men and women of good character have, by threats and intimidation from these unlawful bands, been forced or induced to leave their homes for places of better security.

Where personal injury, by actual or threatened violence, has been inflicted on white men, it appears that the victim has been generally a person of bad or doubtful character, or one who has committed some offense against the order or morals of his neighborhood, that has called down upon him the unlawful retribution meted out by these bands of men.

But many of the most law-abiding and respectable white citizens of Franklin county have been interfered with in a manner to indicate that there was some other cause than personal hostility. In some cases, however, such citizens have been subjected to annoyances of this kind, which appear to have been committed in revenge for open and public denunciation of the unlawful acts of these disturbers of the public peace. Many of the most respectable white citizens have, in personal visits, often attended by rude and boisterous conduct, been notified to discharge all their colored employees and servants. In other cases, these notifications have been made through means of anonymous letters and posted notices. There is also evidence tending to show that property of such citizens has
been injured or destroyed, because they appeared reluctant to comply with these orders, or too loudly denounced them.

The effect of these unlawful combinations and acts has been to drive away all the colored labor from some sections of Franklin county, and to make it difficult to obtain labor of any kind. The opinion of the witnesses generally is, also, that the effect has been to depreciate the value of lands. It is evident, also, that, from the same cause, farming operations and business of all kinds in the most disordered portions of the county have been materially injured, and in some cases completely paralyzed.

The committee are of the opinion that these unlawful acts are committed by organized bands of outlaws, who do not remain together, but gather for a special purpose, and when that purpose is accomplished, quietly disperse. These organizations, as proved by the testimony of all the witnesses, are not of a political character. The men who have suffered from these predatory acts are Democrats and Republicans, former Union men and former Confederates.

After a thorough sifting and analysis of all the evidence adduced, and a full and careful consideration of the opinions and suggestions of intelligent witnesses of high character, who have investigated these disturbances and given thought to them, the committee are of the opinion that these organizations had their inception in the disordered state of the country consequent upon the late war, and were originally intended to suppress anticipated disturbances among the emancipated slaves, and to summarily punish the unlawful acts of bad white men. This condition of affairs afforded an opportunity to evil disposed white men to engage in unlawful acts, under the guise of these organizations, for the gratification of private vengeance, the indulgence of their prejudices against, and jealousy of, free negro labor, and for an opportunity for plunder.

The original character and purpose of these organizations were soon abandoned. Such citizens as had gone into them merely from a mistaken sense of what was necessary to the preservation of the peace, soon left them; but the evil consequences of this assumption of the law remained in the shape of the irresponsible and plundering bands of outlaws who have been and are now exercising a reign of terror in portions of Franklin county. The committee do not make this statement as an excuse for these organizations, or as a palliation of their unlawful acts. The statement is made only
as an explanation of the character and the purposes of the recent or present organizations.

The fact that, in some cases, where these unlawful bands have taken the law in their own hands, the objects of their vengeance have been men who have committed offenses against the public peace, or have been persons of dangerous character, or bad reputation, has induced an indifference among the better part of the community that has produced the effect of apathy in all efforts to suppress disorder. This cause, together with apprehension of danger to those who might interest themselves actively in denouncing and opposing disturbances of the kind referred to, appear to have deterred any attempt at the suppression of disorder through the instrumentality of the moral force of the community. But whatever may be the cause, the fact is established that all attempts to hold public meetings in Franklin county to denounce the prevailing lawlessness, or to put it down by force, have signally failed.

The fact appears that the present constituted civil authorities of Franklin county have not succeeded in preserving the peace of the county. The committee have given full weight to the difficulties under which the civil authorities have labored; but from a careful consideration of all the evidence before them, the committee are forced to the opinion that the authorities of Franklin county have not exercised that diligence in the investigation of offenses against the public peace, and in the discovery of the offenders, that the disordered condition of the county demanded.

The committee have carefully considered the question of an appropriate remedy for the existing evils. As these unlawful bands appear to be mere local organizations, who gather quickly and disperse as soon as the immediate purpose of their gathering is accomplished, an organized force of conservators of the peace moving in a body could not be operated effectively against them. Many persons who have been strongly suspected of complicity in these outrages have never been arrested, or questioned, or any investigation had of their suspected offenses. The committee are assured on the highest authority that, in many cases where disorders of this kind have existed, the disturbers of the public peace are well known to the public, and to the officers of the law. The committee, therefore, can see no necessity for creating any special secret service department to ferret out the parties who are suspected, and they are of the opinion that the present appliances of the law, if used
The recently enacted law making persons of color competent witnesses, and parties in interest competent to testify in their own behalf, will undoubtedly have a salutary effect in diminishing the number of these outrages. But the committee are of the opinion that the true and only remedy for the present condition of affairs, wherever there is disorder in our State, is in the enforcement of the law. The committee attribute much of the lawlessness in this Commonwealth to the loose administration of our criminal laws within the past few years.

If our judges will do their whole duty in forming their grand juries and in properly instructing them, and compelling a performance of their duties, and the grand juries will use the diligence that this committee has used in the investigation of these alleged outrages, many of the mysteries of the so-called Ku-Klux will be dispelled, and sufficient evidence may be discovered upon which to bring more indictments.

If, when indictments have been found, or when outrages have been committed, our officers of the law would remember that they are conservators of the peace, as well as collectors of taxes and fees, more arrests may be made. If, when violators of the public peace have been convicted by a jury of their country, the law is permitted to take its course, without the too indulgent interference of executive clemency, the majesty of the law may be enthroned upon a firmer seat. When the officers of the law enforce the law, the moral force of the law-abiding portion of the community will have full play, and will be able to suppress, by more denunciation, all attempt at such systematic and wholesale outrages as now disgrace our Commonwealth.

The present provisions of the law appear to be sufficient to cover all the offenses of which these unlawful bands are guilty, except that of sending anonymous threatening letters, or posting threatening notices, and intimidating quiet and law-abiding people by riding about armed and disguised. The committee, therefore, recommend that the matter be referred to the Committee on the Judiciary, with instructions to prepare and report a bill covering these, or other defects, if any, relating to the same subject, in our criminal laws.

Mr. F. A. Wilson offered the following preamble and joint resolu-
tions, which lie one day on the table, viz:

WHEREAS, A war of unparalleled bitterness and atrocity has been
waged for more than three years, and is now being waged, by the
Government of Spain, under the leadership of the creature Val-
maseda, denominated the Captain General of Cuba, against the
patriots of the island of Cuba, said merciless war being carried on
by Spain for the sole purpose of destroying the germ of republican-
in and advancement of liberal ideas in keeping with the present
century, and for greed, and the profits arising from the sales of the
cargoes of living freight of humanity which her slavers have trans­
ported from benighted Africa, with the sanction of her Government.
In order to keep up her slave trade she has, by intrigue and artifice,
kept up a continual tribal war among the natives in tropical Africa,
whereby whole sections and nations have become depopulated, and
turned into a potter's field that once teemed with happy human
beings, and for the purpose of buying the captives of war of the
successful party, irrespective of age or sex, to supply her slave
pens in Havana. To enforce her ideas and principles, the relic of
the dark ages, which all other nations of the world have abandoned
as abominable in the sight of God, has, with her mailed squadrons
and maddened volunteers, bathed every field on the devoted island
with the best blood of the descendants of the conquerors of Grenada,
and saddened every family circle of the patriots by the loss of some
member, at the hands of a soldiery who carry on a war of exter­
mination, and whose commanders have forgotten the rules of inter­
national war; therefore,
Resolved by the General Assembly of the Commonwealth of Kentucky,
That our Senators be instructed, and our Representatives in Con­
gress requested, to use all lawful and honorable means within their
power to secure the recognition of Cuba as a free and independent
nation by our Government.
Resolved, That should the Spanish Government continue to carry
on a war of extermination, and disregard the laws of warfare, our
Senators and Representatives in Congress are requested to urge on
our Government to speak with imperious tone that Cuba must and
shall be free.

The hour of eleven o'clock, A. M., having arrived, according to order, the House resolved itself into a Committee of the Whole on the state of the Commonwealth, the Speaker retiring from, and Mr. Waide being called to, the Chair; and, after a time spent therein, the committee rose, and Mr. Waide, the Chairman, reported that the committee had had under further consideration a bill, entitled

A bill to revise, amend, and reduce into one the laws relating to the common schools of Kentucky,

And had made still further progress therein, but not having time to complete its consideration on this day, had risen, and directed him to report progress, and to ask leave to sit again on to-morrow at 11 o'clock, A. M.; which was granted.

A message was received from the Governor, in writing, by Mr. Botts, Assistant Secretary of State, which was taken up and read as follows, viz:

Gentlemen of the House of Representatives:

The bill which originated in your body, entitled “An act to incorporate the Falls City Levee and Bridge Company,” creates a corporation and allows its capital stock to be two millions of dollars. It provides that when twenty-five thousand dollars of stock is subscribed for, and five per cent. of that subscription is paid in, the company may organize and proceed to business.

The company is authorized by the fourth section to “levee, drain, and reclaim the land, or any part thereof, lying in the bottom near and northeast of Louisville, Kentucky, between the Ohio river and the hills, and extending from the mouth of Beargrass creek, and what is known as the ‘Cut-off,’ to Goose creek or to Harrod’s creek.” Power is given to the company to make surveys, locate and construct dykes, ditches, levees, embankments, wharves, piers, culverts, roads, bridges, guard locks and dams, anywhere, and upon or through the lands of any person within the territory before mentioned; and the company is authorized to clear out obstructions, straighten streams, widen any creek or branch, and to divert the course thereof; construct
works over, under, or across any public road, and take and appropriate to its own purposes such lands, earth, stone, and all other materials necessary to the ends aforesaid. If the owners of the land or material desired by the company shall be unwilling to give or sell it, the company is vested with power to proceed by writ of "ad and dominum, and take possession of it. Commissioners are to be appointed to ascertain what lands will be benefited by such improvements, and to report the names of the owners and the value of the lands. An election is then to be ordered by the county court, at which all the voters within the territory are to be allowed to vote on the question whether they are in favor of the improvement or against it. If the vote be for it, then the county court is directed to levy a tax upon all the lands so included in the boundary found by the commissioners to be benefited by the proposed improvements—not to exceed two dollars on each acre—and a collector thereof is to be appointed by the court, who is required to collect and pay the same to the treasurer of the company; and if any land-holder fails to pay the tax levied upon his land, on or before the 15th June of each year, the company may, by a proceeding in the Louisville chancery court, have the land sold for such delinquent taxes. After such sufficient amount has been collected to pay for the ditching, levees, embanking, bridging, &c., an annual tax is then to be levied upon the land owners to keep the same in repair. This corporation is made up of a few private individuals, to-wit: those who shall become stockholders; and the bill expressly allows them, proceeding in their corporate name, to take from the citizen his land and other property, and appropriate the same to their own uses and purposes.

The company is authorized to turn loose upon the citizen's farm an unwelcome water-course, to cut and open ditches, build levees, bridges, &c., through and upon his farm, as they shall fancy will most conduce to his convenience or to their interest, or they may turn away from his farm a valuable stream of water. It provides for the imposition of a tax of two dollars on each acre of all the land within the territory named in the bill (and indeed all other lands which, in the judgment of the commissioners, will be benefited by the proposed improvement), and directs it to be collected and paid over to the company; and if any land-holder shall fail to pay the tax till after the 15th June, the land is to be sold therefor by a proceeding prosecuted in the Louisville chancery court. And whilst all these

88-H. R.
extraordinary powers and privileges are conferred upon the company, there is no provision whatever requiring the company to expend or use any portion of the money so collected from the people in making any of the improvements under pretense of which the collection is made; but the corporation is left with the people's money in its hands to make the improvements, or not, as it shall choose. The provision in the bill directing an election to be held is vague, uncertain, and of doubtful construction. I presume it was intended to mean that a majority of the votes cast, being in favor of levying the tax, should be a condition upon which it could be assessed and collected; but it occurs to me that private property cannot be voted away by majorities and given to the private purposes of others; it is levying an exaction upon the many for the benefit of a few; it is a species of agrarianism that destroys all rights in property, and is, in my judgment, violative of the Constitution, which wisely provides that "no man or set of men are entitled to exclusive separate public emoluments or privileges from the community but in consideration of public services." This bill does give "a set" of men exclusive privileges, authorizing them to exact from the community, within the boundary named, an indefinite amount of money, and that without any service to the community.

The bill also gives the corporation the right to "locate and construct works over, under, or across any public road;" but no provision is made to secure the public travel against danger to life, or damages that may result thereby. Why should such exclusive privileges be granted? And if granted, ought not the public to be protected from every danger resulting therefrom? A close inspection of the bill will manifest other provisions extraordinary and dangerous to the public, which, together with the objections hereinbefore indicated, impel me to withhold my approval, and I herewith return the bill for your reconsideration.

Respectfully,

P. H. LESLIE.

The bill so returned by the Governor is as follows, viz:

may sue and be sued; contract and be contracted with; own such real estate by gift, purchase, or subscription, as may be necessary for the purposes hereof, and sell and convey the same; have a common seal, and alter it at pleasure; make by-laws not inconsistent with the Constitution and laws of this State or of the United States.

§ 2. The capital stock shall be one hundred thousand dollars, which may be increased, as deemed necessary by the board of directors, to two millions of dollars, said stock to be divided into shares of one hundred dollars each, and may be subscribed for by any individual, town, city, county, or corporation; and whenever twenty-five thousand dollars of the capital stock is subscribed for, and five per cent of the subscription is paid in, the directors may organize the company by the election of president and other officers.

§ 3. The individuals above named shall constitute the first board of directors, and hold office until their successors are elected and qualified, and may fill all vacancies occurring in their body by death, resignation, or otherwise. No one can act as director who does not hold at least one share of stock. The election of directors shall be held at such times and in such manner as prescribed by the by-laws, each share of stock entitled to one vote, which may, in said election, be cast by the owner thereof or by proxy.

§ 4. This company is authorized and empowered to levee, drain, and retain the land, or any part thereof, lying in the bottom near, and northeast of, Louisville, Kentucky, between the Ohio river and the hills, and extending from the mouth of Beargrass creek, and what is known as the "Cut-off" to Goose creek or to Harrods creek.

§ 5. In order to accomplish the objects proposed, said company is hereby invested with all the powers necessary for a body-corporate; and may survey, locate, and construct dykes, ditches, levees, embankments, wharves, piers, culverts, roads, bridges, guard locks and dams; may clear out obstructions, straighten or widen any creek or branch, and divert the course thereof, within the territory named; may locate and construct works over, under, or across any public road; and may appropriate to the uses and purposes contemplated by this act such lands, earth, stone, and all other materials necessary to the establishment, construction, alteration, and maintenance of the dykes, ditches, levees, culverts, roads, bridges, embankments, &c., as aforesaid; and for these ditches, dykes, levees, roads, dams, culverts, &c., said company may acquire the right of way by gift, purchase, or otherwise. If, however, persons whose land or materials are needed for the purposes aforesaid are unwilling to have the same appropriated, and cannot agree with the board of directors as to the amount to be paid for the same, by application of said company to the county court of Jefferson county, the same may be condemned by writ of ad valorem issued therefrom, and said company shall be adjudged to pay the owners what may thus be found to be the value of the land and materials. In case either party shall be dissatisfied with the finding of the jury, or of the court, upon the trial
of the said writ, an appeal may be had to the court of common pleas of Jefferson county, where the case shall be docketed and tried as other cases; but from the decision of the court of common pleas there shall be no further appeal.

§ 8. As the benefits arising from the work proposed by this company will inure to all who own land in and adjoining the bottom lands mentioned, it is but just and fair that every man or estate benefited thereby should pay his proportional share of the expense incurred in levying, draining, and reclaiming these bottom lands as proposed; and to accomplish this the county court of Jefferson county may cause a tax to be assessed and collected upon the lands so benefited, in the manner hereinafter provided. The tax thus imposed shall be a personal demand against the property-holders, and shall be laid upon their land. The amount of tax shall not exceed two dollars per acre. The collector thereof shall be appointed by the judge of the county court of Jefferson county, who, before entering upon his duties, shall give bond, with approved security, for the faithful performance of his duties; to-wit: That he will use due diligence in making collections from the persons assessed by this act, and make prompt payment of all money received by him to the treasurer of this company.

§ 7. The judge of the county court of Jefferson county shall appoint three commissioners, whose duty it shall be to ascertain at once what lands are benefited by the proposed improvements, and report the names of the owners thereof; and, at the same time, designate, by a general boundary, the territory which, in their opinion, will include all the lands which derive benefit from, and should be taxed for, the improvements contemplated by this company.

§ 8. When said report is made, it shall be the duty of said county judge to order an election at some convenient point within the district of lands reported by the commissioner as benefited by the proposed works, at which the voters within said boundary may express themselves in favor or against the levying and draining of said bottom lands as proposed. Twenty days' notice through the daily newspapers of Louisville, and by handbills posted in the most public places within the territory to be taxed, shall be given by said county judge. There shall be three judges of the election appointed by the county court, and they shall keep the polls open from ten o'clock in the morning until two o'clock in the afternoon; on the day fixed by said court for this voting. Said judges shall, upon oath report the result of said vote to the court aforesaid; and if it be in favor of the improvements and tax proposed, then the commissioners appointed under section seven of this act shall ascertain the number of property-holders within the boundary to be taxed, and the number of acres of land owned by each, and make an assessment against the property of each according to the valuation thereof, and thus fix the amount which every property-holder is to pay for the benefits accruing to his or her land, by reason of the improvements provided for by this act. On or before the 17th day of June of each year the commissioners shall furnish to the county court a report
containing the names of all the property-holders in the territory named, with the number of acres owned by each, an estimate of the benefits, and the tax assessed therefor, calculated and extended up to the date of the return of said report. A certified copy of this report or tax list shall then be placed in the hands of the collector, and the amount assessed shall be due and payable on the fifteenth day of June of each year, and he shall proceed to collect the same; and as fast as said tax is collected, he shall pay the amounts received by him to the treasurer of this company. For final settlement, he is given until the first Monday of December in each year; and said collector upon said settlement shall be allowed the same commissions as the sheriff receives for the collection of the county taxes.

§ 9. After a sufficient amount has been collected as aforesaid, to pay for the levees, drains, embankments, &c., proposed, and the work has been done and paid for, the board of directors of this company, by application to the county court, may, through the said commissioners and collector, assess and collect a tax upon the lands within the boundary above mentioned, sufficient in amount each year to keep and maintain the levees, dykes, ditches, wharves, &c., in repair.

§ 10. If the owners of land, or any of them, within the boundary aforesaid, shall fail or refuse to pay the tax levied upon his, her, or their lands, in accordance with the provisions of this act, this company, through their board of directors, may sue for and recover the same in the Louisville Chancery Court by petition; and said court is hereby fully vested with jurisdiction of all cases which may arise under this act. Said court may, upon the application of said Falls City Levee and Bridge Company, foreclose and enforce the lien herein given upon the lands, and for the tax as above described and provided for.

§ 11. The treasurer of the company, before entering upon his duties, shall execute a bond, with such security as is required of the collector. It shall be his duty to make all settlements with the collector, to receive all moneys due from said collector, from all other sources, to the company; he shall pay out the same upon orders signed by the president and secretary of said company.

§ 12. Said Falls City Levee and Bridge Company is hereby invested with all the rights, powers, and privileges necessary to the construction of a bridge across the Ohio river, from some convenient point above the corporate limits of the city of Louisville to some convenient point on the Indiana side of said river; and also to purchase and condemn, by writ of ad quod damnum, provided by statute law, as much real estate as may be necessary for the site of said bridge, and for the piers, abutments, toll-houses, and suitable avenues leading to the same: Provided, That said bridge be so constructed as not to obstruct navigation further than the laws of the United States shall hold to be legal. Said company may extend a railway over said bridge, with as many tracks as may be deemed necessary, and shall have the right to fix fair and reasonable rates of toll for passing over said bridge, and collect the same from all and every person or persons passing thereon, upon all goods and chattels, vehicles and ani-
mals, of every kind and description, passing or carried thereon; and for this purpose toll-gates may be erected at each or either end of said bridge, and the rates of toll shall be posted in conspicuous places where tolls are demanded.

§ 13. That if any person or persons shall willfully and knowingly do any act, or anything whatever, whereby said bridge, or anything thereto belonging, shall be impaired or damaged, the said person or persons so offending shall forfeit and pay three times the amount of the damages sustained, together with the costs of suit, recoverable before any court of competent and legal jurisdiction; and any person or persons who shall pass or attempt to pass over said bridge without paying the toll or tendering it, if there be any person present to receive it, shall forfeit and pay three times the amount of the toll or tolls which he, she, or they were liable to pay for passing over said bridge, recoverable before any justice of the peace in this Commonwealth. And further, if any person or persons shall willfully set fire to said bridge or burn the same, or any part thereof, such person or persons so offending, with their aiders and abettors, shall be guilty of arson, and punished accordingly.

§ 14. Said company is authorized to borrow money upon such time, terms, and rates of interest as they may deem expedient, and may issue bonds of such denomination as they may choose, from one hundred dollars to one thousand dollars each; and as security for said bonds and the coupons thereto attached, all the property, profits, franchises, rights, &c., may be pledged by mortgage; and all bonds issued shall be binding upon said company, and may be hypothecated or sold, as the president and directors may determine.

§ 15. No bridge, or anything herein allowed, shall be done or erected within the corporate limits of the city of Louisville without the consent of the general council thereof.

§ 16. The stock subscribed for in this company may be paid in cash, in real estate, or in work and labor, or in materials furnished, and shall be considered personal property, and transferred by assignment.

§ 17. This act to take effect from its passage.

A message was received from the Governor by Mr. Botts, Assistant Secretary of State, which was taken up and read as follows, viz:

STATE OF KENTUCKY,
EXECUTIVE DEPARTMENT.

Gentlemen of the Senate and House of Representatives:

I respectfully call your attention to a movement which is receiving the earnest consideration of philanthropists and statesmen in all civilized nations, and the successful prosecution of which I regard as a matter of the highest public interest. This movement is the calling of an International Congress for the prevention and repression of crime, to be held in the city of London on the 3d of July next.

The principal governments of Europe and America will be represented in this Congress. Already delegates have been appointed in our own country by the Federal Government and several of our
sister States, and I earnestly recommend that you provide for the appointment of a delegate to represent the Commonwealth of Kentucky in this important convention.

The object which the conference has in view must commend itself to every thoughtful mind as one of no ordinary concern to the welfare of society. It proposes to attempt the solution of some of the most perplexing but vital problems connected with the administration of criminal justice, the conduct of penal and reformatory institutions, and the treatment of our criminal population. There is no result of our Christian civilization which more clearly evidences its Divine origin than the active sympathy it has summoned to the relief of suffering humanity, and the compassionate charity which forgets not even the fallen and the erring—a charity which pities while it condemns, and loves whilst it chastens—which, whilst it makes no compromise with crime, and would not make vice less odious, still recollects that the culprit is our fellow-man.

Amid the disorders of the convulsive times upon which we have fallen, such an enterprise of wise benevolence presents a cheering, hopeful sign. We instinctively feel that that cannot be a degenerate age in which the names and memory of John Howard and Elizabeth Fry are still revered, their labors of love accounted among the highest types of heroic virtue, and the spirit of philanthropy which animated them breathes in so many generous hearts a living power in society.

Scarce a century has elapsed since that stern but great hearted philanthropist, John Howard, began to thrill the hearts of all men, from the cottage to the throne, with his pleadings for the poor prisoner. Up to that time the convicted criminal was abhorred as an outcast beyond the pale of humanity, bearing the brand of Cain, an object only of vindictive punishment. This great and good man shared not such prejudices. He felt that society was unjustly and unwise in afflicting a great wrong, even upon the wrong-doer; and with no morbid sentiment, of which his stern, grave nature, was incapable, but with a true enthusiasm of humanity, a wise and God-given charity in his warm heart, he devoted his life and fortune to the reform of prison discipline. Not in England only, but throughout Europe, he visited the most loathsome dungeons, and made the wretched felon feel that he was not an utter outcast from common humanity. He stood before kings and emperors, and plead the cause of the poor prisoner till every sceptre touched his plea with assenting
sympathy. The self-denial, the charity, the wise words of the great philanthropist, sank deep in men's hearts; the world would not, could not, let them die, and their fruit is with us to-day.

As interest in the subject increased, larger views were taken. Thinking men began to realize that the matter extended beyond the sphere of the mere philanthropist. The statesman saw that it involved one of the gravest questions with which society has to deal.

The truth of Beccari's axiom, that it is much better to prevent crimes than to punish them, was recognized, and to-day, in treating of the reform of prison discipline, the object is not so much (as in the days of Howard) to secure the convict humane treatment, as to adopt the best method of reclaiming him and preventing crime. Since the establishment of the reformatory schools for juvenile delinquents at Mettray (in France) in 1839, numerous others of the kind, and similar ones for the reformation of adult criminals, have been established both in Europe and America. A great amount of good has been already accomplished, giving hope of the happiest results in the future. In the meantime the systems in different institutions vary so much, and theories so opposite have claimed success, that to attain greater uniformity, and communicate results of the different methods, the National Prison Association of the United States has ventured to call the proposed International Congress at London—a call which has been generally and heartily responded to by the leading governments of the world.

Hoping that you will concur with me in the wish that our good State should be represented in this Congress,

I am, respectfully,

P. H. LESLIE.

Ordered, That said message be referred to a select committee, consisting of Messrs. Corbett, Wright, Varnon, Thomas, and Thomas M. Johnson.

A message was received from the Senate, asking to withdraw from this House the announcement of the passage of a bill by the Senate, which originated in this House, entitled

An act to incorporate the Citizens' Gas-light Company, of Louisville.

And the question being taken on granting the leave asked, it was decided in the negative.

Mr. Tucker, from the Joint Committee appointed to visit Kentucky Agricultural College at Lexington, and to make certain inquiries in regard thereto, made the following report, viz:

The undersigned, a committee appointed by the General Assembly "to visit Kentucky Agricultural College at Lexington, and ascertain if the contract between the Kentucky University and the State has been complied with, and whether it is desirable to take from that Institution the agricultural funds of the State, and establish a State Agricultural College at that or some other point," would respectfully report:

That, in pursuance of the above resolution, we visited the Agricultural and Mechanical College of Kentucky University, at Lexington, and made a patient and careful investigation of the management of that Institution. Our labors were materially lightened by the alacrity and candor with which the officials afforded every facility for a full and searching examination. Eleven depositions were taken upon interrogatories, sufficiently comprehensive, in our judgment, to cover the whole ground. They are herewith reported for the scrutiny of the members of the General Assembly. The witnesses are a high order of men, whose scholarship, veracity, and unblemished characters, malice itself cannot successfully question. The students were selected and examined privately by the committee, and are youths of intelligence and promise. Many were personally talked with by individual members of the committee, and in every instance their statements corroborated the sworn testimony herewith transmitted. The Faculty of the Agricultural and Mechanical Col-
The Agricultural and Mechanical College has the use and benefit of a model farm, comprising 433 acres, hardly unsurpassed, and made illustrious by its indissoluble association with the name and memory of Kentucky's greatest statesman—the Sage of Ashland. This great institution offers to the poor and penniless the inestimable blessings...
of a complete education. Youths with but a few dollars in their pockets have toiled their way upon foot, in some cases from adjoining States, to the University, and by their labor alone have been enabled to acquire a thorough education. During the five months just passed, 115 students have received instruction without charge, and thousands of dollars paid to students for work done in the machine shops or on the farm. The following figures, which we believe are substantially correct, prove that the State has made, and is enjoying, a most advantageous bargain with Kentucky University:

We are of the opinion that "the contract between the Kentucky University and the State" has not been violated, and that it is not "desirable to take from that Institution the interest on the agricultural fund;" that to do so would seem like an attempt to injure a great college which is not only non-sectarian, but broad, catholic, and comprehensive in its spirit and scope.

The undersigned, members of the board selected to investigate the contested election case of Singleton Hodge vs. J. N. Woods, of Crittenden county, submit the following as the result of their investigation:

On Friday, December 8th, 1871, the Speaker of the House of Representatives laid before this body the written notice of Singleton Hodge contesting the seat of J. N. Woods, of Crittenden county, and setting forth the grounds upon which he contested it; and on the same day a board was selected according to law to investigate the case. The sitting member claims that said notice came too late, and that this committee was not selected within the time required by law. The House was organized on Tuesday, the 5th of December, 1871. (Journal of the House, page 11; Cushing's Law and Practice of Parliament, section 277.) The statute under which the committee was selected and organized reads as follows: "When the election of a member of the General Assembly is contested, that branch of the
Legislature to which he belongs, within three days after its organization, shall, in like manner, select a board of not more than nine nor less than five of its members, for determining the contest. The first question is, what are the three days within which the board shall be selected?

The well-known common law rule of computing time was to include one day and exclude the other; and this rule is adhered to in some of the earliest decisions of our State Court. (Woods vs. Pace, Hardin's Rep., 457, decided in 1803; 2 A. K. Marshall, 264; 4 Mon. 464.) The Legislature has adopted substantially the same rule. It is enacted in the Revised Statutes (page 189), that "when a statute requires a notice to be given, or any act to be done, a certain time before any motion or proceeding, there must be that time exclusive of the day for such motion or proceeding. But the day on which such notice is given, or such act is done, may be counted as one day and part of the time." All the authorities, both early and recent, that we have been able to find, lay down this rule, viz: When the computation of time is to be made from an act done, the day on which the act was done must be included; but when the computation is to be made from the day itself, and not from the act done, then the day on which the act was done must be excluded. (13 B. Mon., 40; 1 Met., 547; 1st Duvall, 387; 1 Bush, 473; and the authorities there cited.) The language of the 371st section of the Civil Code of Practice, in reference to an application for a new trial, is, that it "must be made at the term the verdict or decision is rendered, and shall be within three days after the verdict or decision was rendered." This language has been construed by the Court of Appeals in 1 Duvall, 387; and 1 Bush, 473; and it is there expressly settled that the day on which the verdict was rendered must be counted, and that the application can be made only in the three days of which that is the first. The second clause of section 5 of article 7, chapter 32, of the Revised Statutes, requires, that in case of such offices as that of justice, the notice of an intention to contest the election shall be given within ten days after the final action of the board of examiners. In the case of Bateman vs. Megowan, &c., 1 Met., 519, where the final action of the examining board was taken on the 6th of the month, and the notice was given on the 16th, the Court of Appeals decided that the 6th was the first of the ten days, and that the 16th is not one of them; and concludes thus: "As, therefore, the notice was not given within the time allowed by the statute, the contesting board acted properly."
in refusing to hear the application to contest the election. The applicant has lost the office by the error committed by the examining board and his own failure to proceed within the time prescribed by law for the correction of that error.

The language of the statute here is, within three days after the organization of the House. The organization is the thing or act done; the terminus agreed the computation of the time is to be made; and unless we reverse the whole current of decisions, and establish a new mode of computing time, the day on which the House organized must be taken as the first of the three days in which the committee must be selected. The organization took place on the 5th, and the committee was selected on the 8th of December; which was too late, being outside of the three days.

The delay in selecting the board is the fault of contestant, who failed to send the notice in time. It is in no sense the fault of the House or of any of its officers. The committee was selected as soon as the notice was presented. The authorities above cited show conclusively that the language, "shall within three days," is mandatory and exclusive, and in effect a statute of limitation.

We are aware that the Constitution makes each House the judge of the qualifications of its members; but it further says: "A contested election shall be determined in such manner as shall be directed by law." The laws in reference to contested elections, then, are just as binding as if they were part and parcel of the Constitution; and construing these laws as they have been interpreted by the Court of Appeals, we are bound to conclude that the selection of the board was not made within the three days, and that the failure to proceed within the time allowed by law would be fatal to contestant, even if there were nothing else in the case.

We think the whole course of contestant in prosecuting his contest prior to the 9th of January, 1872, savors of an inexcusable negligence. Not a syllable of proof was taken to sustain his case prior to the convening of the General Assembly. This House was not apprised of his intention to contest the seat of the sitting member until after the expiration of the three days allowed by law for the selection of the contesting board; and after the selection and organization of the board, he not only failed to present any proof to sustain his case, but even failed to appear before the committee, either in person or by attorney, until after the 9th of January; and when he did appear, he, in our judgment, failed to show that he had
used due diligence in preparing his case for trial, or to give any reason for his failure to appear before the committee any sooner, except that he was master commissioner of the Crittenden circuit court, which had been in session, and that he was necessarily detained at home in discharge of his duties as such. And all this while the sitting member was present in person and by attorney urging an investigation, and opposing any delay or any further extension of time for taking proof, contrary to precedent and without good cause shown. The excuse offered for not appearing before the committee sooner, if worth anything, in our opinion, serves but to give additional force to the point made by the sitting member, that it shows contestant to be the holder of an office incompatible with a seat in the Legislature.

Section 27 of article 2 of the Constitution provides, that “no person, while he holds or exercises any office of profit under this Commonwealth, or under the Government of the United States, shall be eligible to the General Assembly, except attorneys at law, justices of the peace, and militia officers: Provided, That attorneys for the Commonwealth, who receive a fixed annual salary, shall be ineligible.”

The office of master commissioner existed before the adoption of the Constitution, and was not interferred with by it. The Court of Appeals, in the case of Smith vs. Cochran, have decided this position to be an office, and the Commissioner himself to be a quasi judicial officer. They, in that case, further decided, that it was not a county or district office, and that the chancellor had no jurisdiction over the office of commissioner, but only a supervisory power over his conduct. The 27th section, quoted above, is very broad. The exceptions expressly made prove that the framers of the Constitution regarded the language, “holds or exercises any office of profit under this Commonwealth,” as broad enough to include attorneys at law.

If an attorney at law, who receives his license from two judges, and takes an oath to support the Constitution, is an officer under this Commonwealth, doesn’t it follow a fortiori that a master commissioner who receives his appointment from one of the same judges, and has to take the same oath taken by the attorney, and in addition thereto, an oath to faithfully and to the best of his ability, discharge the duties of the office of master commissioner, and who has also to execute bond to the Commonwealth for the faithful discharge of his duties as commissioner, &c., is also an officer under
this Commonwealth? If a public officer, who is not a district, county, or municipal officer, is not an officer under this Commonwealth, of what and under what is he an officer? Certainly the office is a public one; certainly it is one of profit, and certainly it is held under and by virtue of the Constitution and laws of this Commonwealth.

But it is claimed that although it is an office held under the Commonwealth, it is not an office in the meaning of the Constitution, because the Constitution refers only to such offices as were created by it. This is a gratuitous assumption, unsustained by the language in question or the context of the Constitution, the 16th section of which provides, that "no Senator or Representative shall, during the term for which he was elected, nor for one year thereafter, be appointed or elected to any civil office of profit under this Commonwealth which shall have been created, or the emoluments of which shall have been increased, during the said term, except to such offices or appointments as may be filled by the election of the people." The Constitution here recognizes an office created by the Legislature as an office of profit under this Commonwealth, and in the next section provides that the holder of an "office of profit under this Commonwealth" shall be ineligible to a seat in the Legislature. Can any one say that what is expressly called an "office of profit under this Commonwealth" in the 26th section of the Constitution, cannot be one within the meaning of the 27th section thereof?

The word profit is broad enough to include any sort of salary, whether fixed or contingent, paid by the State or by the individuals or parties for whom the service of the officer is rendered; and the use of the terms appointment and election, in the alternative, in connection with an office of profit, shows that such an office may be filled either by an appointment or an election; and the provisions of the Constitution apply equally to all the offices contemplated by it.

But the argument proves too much. If only the offices created by the Constitution are meant, all chancellors and judges of common pleas courts and criminal courts which were established by the Legislature are eligible. We can think of no reason for making the holders of offices established by the Constitution ineligible, which does not apply with equal force to the master commissioner and the holders of those offices established by the Legislature; and we are forced to conclude that the master commissionership is an "office of profit
under this Commonwealth." If so, contestant is ineligible, and the votes cast for him are illegal and void. (Revised Statutes, chapter 71, section 6.)

But entertaining these views in relation to these preliminary questions did not prevent us from giving this case a full investigation upon its merits. We have carefully weighed all the testimony, and do not hesitate to say that the sitting member, Mr. Woods, received a majority of the votes cast. In fact, in our judgment, the majority upon which he received his certificate of election has been increased rather than diminished by the investigation of the case. Contestant attacked seventy-one of the votes given for the sitting member. Of these we think he sustained only ten, not counting those living in disputed boundaries, resulting from a change of precinct lines made by order of the county court.

There are thirty bona fide voters living within these disputed boundaries; and the only question made is, not as to their right to vote somewhere, for that is admitted by all, but as to their right to vote at the precinct where most of them had voted for eight or ten years, and where alone the judges of the election decided they could vote. Our view of the law is, that they voted at the right precinct; and that the judges of the election properly admitted their votes. The Constitution requires every voter to vote in his precinct, but the law provides that the courts may change the precinct lines. The court cannot allow a man to vote outside of his precinct as a personal privilege, but it can change the boundaries of a precinct so as to include his residence. At one corner of the Union and Marion precincts the lines had several times been so changed as to include in the Marion precinct persons living near the lines; first, those nearest, and then those living a little further out, until finally the court, in 1856, made this order: On motion of Chas. Butler and others, it is ordered, that the line between voting precincts No. 1 and No. 7, of Crittenden county, be, and the same is hereby, so changed as to include the following named persons in district No. 1, to-wit: Charles Butler, Sam. J. Crider, Alfred McDowell, Joseph L. McDowell, William B. Crider, John C. James, and A. T. Crider.

These parties lived on the line of a quasi arc of a circle, extending from one point of the line proposed to be changed to another, and the effect of said order, in our judgment, was to change the line between the two precincts from a straight line to the arc of a circle. In this segment of a circle, of which a line passing through the persons named in the order is the arc, and the original line between
the two precincts is the cord, resided nineteen men who voted for the sitting member. Our view is, that the change of the precinct lines, so as to include the persons named in the order, necessarily included these nineteen persons not named in the order, and that it was not necessary to mention them in the order. The change was understood at the time to include them. From the date of the order those of them who voted at all voted at Marion. The judges of election have invariably ruled that Marion was their voting place; and at the August election a man living in this boundary went to another precinct and tried to vote, and the judges there ruled that Marion was his precinct, and refused his vote. Another one went to Union, in which contestant claims that he resided, and was refused permission to vote. He returned to Marion, where it was decided he could vote, and voted; and now his vote is challenged on the ground that the first was his precinct, and, according to the ruling of a part of the board, his vote is rejected. We cannot consent to do such violence to law and equity, as we understand them. We think the whole nineteen are legal voters and should be counted. But if we are mistaken in supposing the lines so changed as to include those nineteen not mentioned in the order, certainly we cannot be mistaken in concluding that the order is broad enough to include those expressly named in it, and all who live on the places where they resided when the order was made. The change must attach to the territory, and not to the person; and it would be a singular ruling to include the father and exclude the son living in the same house, or even to exclude those living on the same farm where any of the persons named in the order resided.

If we take from contestant those votes which his own ruling in regard to the precinct lines clearly takes from him, and allow those to vote who resided on the places named in the order, it will still leave the sitting member a clear majority, very little, if any, decreased from that on which he received his certificate.

Wherefore, we recommend the adoption of the following resolution:

The substitute, as amended, is as follows, viz:

§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That it shall be the duty of the several sheriffs or other collecting officers of the public revenue of this Commonwealth, on the first Monday in April in each year, or within ten days thereafter, to make out and report to the county judge of his county a complete list of all lands, town or city lots, listed with him for taxation, giving as accurate and minute a description of the same as may be the names of the owners, and the amount of taxes due to the State on each, and which he has not been able to collect by distraint on personal property or otherwise; which said lists, when so made out by the several sheriffs or tax collectors, shall be verified by them as correct before some officer of the law authorized to administer oath. Immediately upon the filing of said list with the county judge, it shall be his duty to order said list to be recorded, in a book to be kept for that purpose, by the clerk of his court. A correct list of the same shall be made out and certified to by such clerk, and delivered to the sheriff or tax-collector, who shall immediately advertise the same for sale (giving thirty days' notice) in a newspaper published in his county, if any, and if no newspaper is published in the county, then by printed or written handbills, posted in not less than three public places in each voting precinct in such county, and one at the door of the court-house in said county, and proved to sell such tracts of land, city or town lots, or so much thereof as may be necessary to pay the taxes due thereon, together with all costs and damages, to the highest and best bidder, for cash in hand. He shall also make out a complete descriptive list of each piece of property sold by him, the amount sold for, and the name of the purchaser, and return the same to the county judge, who shall immediately order said list to be recorded by the clerk of his court, in a separate book to be kept for that purpose.

§ 3. It shall be the duty of each sheriff or tax-collector to tax, as costs, for advertising, twenty-five cents on each list of property advertised by them, and the fees that may be due clerks for services rendered under the provisions of this act, which shall not exceed the amount now allowed by law for similar services, which said costs
when collected, shall be paid over to the proper parties, in the same
manner, and upon the same conditions, that other fees are collected
by law, except that no sheriff or collector shall charge any commis-
sion for collecting said costs.

the provisions of this act, shall have two years within which to redeem
the same, by paying the full amount of purchase money to the pur-

may succeed them as collectors of the revenue of the State in their
respective counties, at the end of the time in which persons have
the right to redeem property sold under the provisions of this act,
and fail to redeem the same, to make a deed to the purchaser, or his
assignee, to the property so purchased by him; and said deed,
when duly recorded, as now provided by law, in the clerk's office of
the county in which the property lies, shall vest the grantees with the
full title of the persons against whom taxes were assessed; should
any officer fail or refuse to convey property as herein provided, it
shall be the duty of the county judge in which the same lies, upon
due and sufficient notice being given, to cause said conveyance to
be made by a commissioner to be appointed by him for that purpose.
§ 6. It shall be the duty of the clerks of the several county courts
in this Commonwealth to make out and certify to the Auditor of
Public Accounts a complete list of all property advertised to be sold
for non-payment of taxes, and all property sold for taxes, within
thirty days after said lists are reported to him, and he shall receive
for his services the same rate of fees allowed for copying assessor's
books. It shall be the duty of the Auditor to report, annually, to the General Assembly, the number of acres of land and lots advertised to be sold, the amount of taxes due on the same, and also the number of lands, and lots sold, and the amount paid on
same, together with costs of sale.
§ 7. Any and all officers failing to perform the duties imposed upon
them in this act shall be subject to a fine of fifty dollars for each
defense, to be recovered on motion in the Franklin circuit court.

Treasury to the credit of the revenue proper, and it shall be the
duty of the Auditor to see that the provisions of this section of this
act are enforced.

bracted by him for the State, and on failure to do so, such sheriff,
or collector of the State revenue shall be liable to a fine of $500, to be recovered by motion in the county court of the county where said failure shall occur; and further, it shall be the duty of the county judge to require from the sheriff or revenue collector of his county a monthly statement from said duplicate tax receipt book, a true list of all State taxes thus collected, and said county judge shall certify said report, having first compared the same with said duplicate tax receipt book, to the Auditor of Public Accounts, countersigned by the sheriff or collector of the State revenue so reporting; and the said sheriff or revenue collector shall pay into the State Treasury all moneys so collected, commencing on the first day of August in each year, and every sixty days thereafter, until the whole amount of taxes for which he is bound shall have been fully paid into the State Treasury as now provided by law; and upon his failure to pay into the State Treasury any portion of the taxes or revenues of the State, as required by this act, he and his sureties shall be liable therefor, with ten per cent. per annum interest on the same, from the time it should have been paid into the Treasury until paid, together with ten per cent. damages, if not paid within thirty days after said settlement with the county judge, and to be proceeded against in the manner now prescribed by law.

The undersigned committee, appointed by the Speaker of the House of Representatives, to inquire into and ascertain how much business there is before the Legislature that has not been acted on, respectfully report, that there are in the orders of the day and special orders, not acted on, sixty three bills; that there are one hundred and eighty-four House bills in the Senate that have not been acted on, and that there are in the hands of the committees, from the best information that the committee can obtain, over one hundred and fifty bills and leaves that have not been acted upon and reported; that some of the most important bills now pending, to wit: the bills in relation to the revenue, the school bill, the bill to suppress lawlessness, the asylum bill, cannot be acted upon, giving each that consideration that they deserve, by the 20th inst., the time fixed for the adjournment.
There are in the hands of the Committee on Banks a very important bill, which has passed the Senate, and has not been acted upon by the committee, which is an act, entitled "An act to provide for the organization and regulation of banking companies." This is an important bill, and will require some time to act upon it; also the Congressional ballot bill, and registration bill, still pending, not acted upon.
Your committee will further report, that as soon as the revisers of the Statutes and Codes of Practice complete their labors, the Legislature should examine the same, and adopt or reject them.
The committee, after having advised and consulted with the best legal minds in the city of Frankfort, are of the opinion that the enumeration of the qualified voters can only be done in 1873.
Taking into consideration all of these facts, together with the fact that the Legislature of Kentucky has met every year since she was admitted into the Union, except four, the necessities for annual meetings of the Legislature are greater now than they ever have been. council of the city of Louisville, in relation to the compensation of the chancellor, shall apply equally to the compensation of the vice chancellor.

§ 2. It shall be the duty of said vice chancellor to discharge the duties of chancellor in the absence of the chancellor, or in case of his incapacity, from any reason, to sit in any cause; and also to hear and determine any other causes or questions which may be assigned to him by the chancellor. He shall in no wise interfere with or change the rules of said court, but shall be governed by them.

§ 3. In the absence of the judge of the Jefferson court of common pleas, it shall be competent for said vice chancellor to hold the court in place of said judge; and all orders and proceedings, trials and judgments, before him, shall be as valid as if done before the judge of said court; or when such judge is incapacitated to try any cause, it shall be the duty of the vice chancellor to assume jurisdiction of and try such cause.

§ 4. Whenever the said court of common pleas shall fall so far behind the trial docket as, in the opinion of the judge thereof, it shall be deemed expedient and necessary so to do, then it shall be the duty of the clerk of said court to notify the vice chancellor of the fact; and thereupon it shall be the duty of the vice chancellor to open court, and hold the same for the trial of all causes, the day of trial for which has been reached; and such court of such vice chancellor shall be held for such purpose so long as the said court of common pleas shall continue behind its docket.

§ 5. It shall be the duty of the officers having charge of the court-house in Louisville to provide and furnish an appropriate room in the court-house for the court of the vice chancellor, to be paid for as other expenses of the court-house are paid for by the city of Louisville and the county of Jefferson. And the sheriff and clerk of the Jefferson court of common pleas, and the marshal and clerk of the Louisville chancery court, shall furnish proper deputies for said court, accordingly as the same may be sitting as a chancery court or court of common pleas. Whenever the services of a jury are required by such vice chancellor sitting as a common pleas judge, the unemployed juries of the common pleas court shall serve as such, and all vacancies in the panel be filled according to the practice of said court.

§ 6. No action, finding, or decision of the judge of the Jefferson court of common pleas, or of the chancellor of the Louisville chancery court, in any cause, shall be set aside, annulled, or modified, by the vice chancellor, nor shall any action, finding, or decision of the vice chancellor, be set aside, annulled, or modified, by the chancellor, or by the judge of the Jefferson court of common pleas. New trials can be granted only by that one of the three judges before whom the trial was had, so long as such judge remains in office.

§ 7. It shall not be necessary, in any case, for the record to show that the vice chancellor had jurisdiction of any cause tried before him in either court; but his jurisdiction shall be conclusively presumed if the court in which he officiated had jurisdiction as a court to try the cause.
§ 8. Whenever the chancellor and vice chancellor are both absent, or both incapacitated for any reason to sit in any cause, then a special chancellor shall be elected as provided by existing laws.

§ 9. This act shall take effect and be in force from and after its passage; and until the next general election the vacancy existing, as well as all vacancies hereafter occurring, shall be filled by appointment by the Governor.

STATE OF KENTUCKY, EXECUTIVE OFFICE,
FRANKFORT, MARCH 22, 1872.

Gentlemen of the Senate and House of Representatives:

I herewith transmit to you a communication addressed to me in reference to procedure, under an act of Congress, making provision
for "extending the triangulation of the coast survey, so as to form a
geodetic connection between the Atlantic and Pacific coasts of the
United States."

You will perceive from the communication that the determination
of geographical positions has been already commenced in the State
of Kentucky, and it is expected that, during the present year, the
triangulation can be entered on.

I recommend that the Legislature pass an act granting the rights
and protection necessary to the successful prosecution of the enter-
prise, and for information as to the facilities required. I also trans-
mite a copy of an act passed by the State of Connecticut relating to
the coast survey.

Respectfully,

P. H. LESLIE.

WASHINGTON CITY, D. C., December 27, 1871.

To the Hon. P. H. LESLIE, Governor of the State of Kentucky:

Sir: In the "Act making appropriations for sundry civil expenses
of the Government for the year ending June 30, 1872, and for other
purposes," passed by Congress and approved by the President 1871,
the following paragraph occurs under the head of survey of the
coast:

"For extending the triangulation of the coast survey, so as to form
a geodetic connection between the Atlantic and Pacific coasts of the
United States, including compensation of civilians engaged in the
work, per act of March 3d, 1843: Provided, That the triangulation
shall determine points in each State of the Union which shall make
provision for its own topographical and geological surveys."

Under the above authority the determination of geographical po-

tions has been already commenced in Kentucky, and it is hoped
that before the next meeting of the Legislature the triangulation
will be started.

The assistants in the survey, who may be employed on this duty,
and necessarily have the right to enter upon private lands, erect
signals, and secure the stations for future use, either for national or
State purposes; and I have, therefore, the honor to request that you
would recommend to the Legislature of Kentucky the passage, at its
present session, of a law similar to the laws passed by the seacoast
States for the protection of the signals and stations of the triangula-
tion and of the officers engaged in its execution, and for the assess-
ment of damages in case of disagreement as to the extent of the

§ 1. Be it enacted by the Senate and House of Representatives in General Assembly convened, Persons employed under an act of the Congress of the United States, passed the tenth day of February, in the year eighteen hundred and seven, and the supplements thereto, may enter upon lands within the State for any purpose which may be necessary to effect the objects of said act, and the supplements thereto; and may erect works, stations, buildings, or appendages for that purpose, doing no unnecessary injury.

§ 2. If the parties interested cannot agree upon the amount to be paid for damages caused thereby, either of them may petition the county commissioners of the county in which the land lies, who shall appoint a time for a hearing as soon as may be, and order at least fourteen days' notice to all persons interested, and with or without a view of the premises, as they may determine, hear the parties and their witnesses, and assess the damages.

§ 3. The county commissioners shall file, in the office of the clerk of the superior court of the county in which the land is situated, a report of their doings, which shall be conclusive, unless one of the parties shall, within thirty days after filing of such report, file a petition to said court for a new hearing, to be had in such superior court; in which case, after such notice of such petition to the opposite party, as the said superior court, if in session, or if in vacation, as any judge thereof, or of the supreme court, or any county commissioner of the county in which such petition is pending, shall direct, a trial shall be had in said court in the same manner as other civil actions are tried; and such hearing shall take precedence of all other civil actions.

§ 4. The persons so entering upon land may tender to the party injured amends therefor; and if the damages finally assessed do not exceed the amount tendered, the person entering shall recover costs; otherwise the prevailing party shall recover costs.

§ 5. The costs to be taxed and allowed in all such cases, either before the county commissioners or the superior court, shall be the same as are ordinarily taxed according to the rules and practice in the superior court.
§ 6 Whoever willfully injures, defaces, or removes any signal, monument, building, or appendage thereto, erected, used, or constructed under said act of Congress, shall forfeit the sum of fifty dollars for each offense, and shall be liable for damages sustained by the United States, to be recovered in an action of tort.

The Speaker laid before the House the following communication from the Auditor, viz:

OFFICE AUDITOR PUBLIC ACCOUNTS,
FRANKFORT, Ky., March 21st, 1872.

HON. JAMES B. McCREADY, Speaker of House of Representatives:

Sir: In pursuance of an act, entitled "An act to settle the affairs
of the Old Bank of Kentucky," approved January 21, 1870, I undertook to discharge the duties imposed upon me by the terms of said act; but finding it impossible to do so without neglecting other and more important official duties, I employed H. Blanton (formerly cashier of said bank) to examine its books, and state the accounts of its creditors.

I herewith submit to you his report to me, which is full, able, and complete. It will be seen from it that said bank is indebted to individual depositors in the sum of $1,315 08, and to stockholders for unclaimed dividends $21,941 78, making the total sum of the indebtedness of said bank $23,256 86. To pay this amount, there is a fund in the Treasury, to the credit of said bank, of $8,426 90. There is, in addition to the foregoing amount, some $400 or $500 owing by the estate of P. Swigert, deceased, which, doubtless, would have been settled and paid by him but for his protracted illness and death.

I have felt it to be my duty to lay the foregoing facts, together with the report of Mr. Blanton to me, before the General Assembly for its information, and for the information of the creditors of said bank, in order that any additional legislation may be had (if any be deemed necessary) to make a complete and final settlement of its affairs.

I have the honor to be,
Very respectfully,
Your obedient servant,

D. HOWARD SMITH, Auditor.

JUNE 26th, 1871.

Col. D. HOWARD SMITH, Auditor Public Accounts:

Under my appointment made by you of December 1st, 1870, to examine the books of the Old Bank of Kentucky, I proceeded to examine the same, and extracted from each dividend book the names of the several stockholders, stating the number of shares held by each, the amount undrawn and to which he or they were entitled yet to draw, running from 1808 to 1845, inclusive, showing each year separately. These extracts are recorded in one of the old dividends, giving each year separately. Then the whole is condensed, giving the amount due to each in a single line, and giving the aggregate of the whole in the condensed estimate. I have also given the names, and the amount due each individual depositor, from the cash ledger. All of these names are the proper persons to whom the amount in your hands properly belong, after paying expenses. The extracts which I have made from the old dividend books, and recorded, are properly headed and explained for every year. These statements, as well as the condensed statement, are attested by me.

All of which is respectfully submitted.

H. BLANTON.
