Forages at KCA

Presented by:

University of Kentucky
Kentucky Cattlemen’s Association
Kentucky Forage and Grassland Council

Saturday, January 21, 2017
Lexington, KY

S. Ray Smith and Krista Lea, editors
Foreword

This marks the twenty-second consecutive year we have had a Forage Symposium at the Kentucky Cattlemen’s Convention. We challenge you to consider the content of the proceedings and the discussions of the day in light of your overall forage program. It is our hope you will go away with at least one idea or practice that you can implement to improve your overall forage-animal program.

On behalf of the program committee, I want to thank Mr. Dave Maples and his staff at KCS for their support, assistance and encouragement. In addition, I want to thank the Kentucky Forage and Grassland Council for their continued support of Forages in Kentucky. My thanks to Drs. Michael Flythe and Chris Teutsch for their presentations and papers for the proceedings.

Special thanks are extended to Mrs. Krista Lea for her effort in program planning and in preparing and editing the proceedings.

I would encourage you to stay in up-to-date with the latest forage research in Kentucky by subscribing to our online newsletter, Forage News, by visiting www.uky.edu/ag/forage. In addition, you will find a wealth of publications and other resources to better forage management.

Dr. Ray Smith
Program Chairman
# Table of Contents
