Upcoming Events	58

## Foreword

The Heart of America Grazing Conference is a unique opportunity for producers and specialists from 5 states to share ideas and successes. We are all united in our common goal of promoting forage use and improving the economic viability of farming in the eastern United States. In planning this event, our goal has been to provide a learning environment from both the presentations as well as from one another.

On behalf of the program committee, we want to thank the Kentucky Forage and Grassland Council for their continued support of Forages in Kentucky. Thanks to all of the speakers for their presentations and papers for the proceedings.

Special THANKS are extended to Mrs. Krista Lea, Mrs. Rehanon Pampell, and Mrs. Christi Forsythe for their extra effort in program planning and in preparing and editing the proceedings. We want to thank Mr. Gene Olson for coordinating and helping set up the silent auction.

We have a great group of sponsors and exhibitors for this event; they represent some of the best products and services in agriculture. I encourage you to visit their booths and learn about their enterprises. Many have also donated items to our silent auction, offering you an opportunity to purchase items for less than retail and help cover the travel expenses for student teams from Kentucky Universities that will be competing at the American Forage and Grassland Council Forage Bowl contest.

I would also like to invite you to visit our website, [www.uky.edu/ag/forage](http://www.uky.edu/ag/forage), for up-to-date information regarding future events, publications, the KY Forages YouTube channel and our monthly e-newsletter, Forage News.

Dr. Ray Smith, Dr. Jimmy Henning and Dr. Chris Teutsch  
Program Chairs
