Dear Mr. Edmonds:

For a possible grant proposal for the purchase of Ariel for COSELL libraries, I would appreciate answers to the questions on the enclosed survey.

Ariel is a document image transmission system developed by RLG. Its requirements are Ariel software loaded on a 386 or 486 PC, a scanner, a laser printer, and an ethernet connection to the Internet. If your library does not have a full Internet connection (with access to TELNET), you will not be able to use Ariel.

Thank you for your cooperation.

Sincerely,

John Doyle
