Kentucky Law Survey

Introduction

The Kentucky Law Survey is an annual review of significant court decisions affecting the law of the Commonwealth of Kentucky. The Survey is a new feature of the *Kentucky Law Journal* intended to provide members of the Kentucky bar with commentary on changes and emerging trends in the law. The Survey is not intended to be a compilation of all decisions issued by the Kentucky Court of Appeals, nor will it be limited to cases arising in this jurisdiction. Thus, in addition to the selected Kentucky cases, decisions from other jurisdictions interpreting uniform acts adopted by Kentucky, as well as federal court cases influencing the development of Kentucky law, will be included in the Survey.

The 1974 Kentucky Law Survey examines recent decisions in the areas of Evidence, Criminal Procedure, Civil Procedure, Commercial Law, Corporations, Torts, and Remedies. Cases from other areas of the law were collected and reviewed; however, discussion of these cases was either deemed unnecessary or reserved for other methods of analysis.

The Journal wishes to express its appreciation to the faculty members of the University of Kentucky College of Law who contributed to the Survey, and to the other faculty members and practitioners who assisted in its preparation. Without their efforts and expertise the Survey could not fulfill its foremost purpose of aiding the practicing bar of Kentucky by providing commentary on recent developments in the law.

---

1 The *Kentucky Law Journal* published an annual review of decisions by the Court of Appeals for the years 1962-1967.
2 The Survey participants reviewed the cases reported in 503 S.W.2d 706 through 511 S.W.2d 239.
3 Other areas reviewed but not included in the Survey are: Workmen's Compensation, Family Law, Contracts, Insurance, Trusts and Estates, Property and Wills.
4 Some cases can be more effectively treated by the *Journal* through Lead Articles and Student Notes and Comments. Such cases will be referenced in the Survey, but not discussed in detail.
