Dear Mrs. von Allmen:

The Committee on Directories is preparing to compile the 1974 edition of the Directory of Law Libraries which Commerce Clearing House so graciously publishes for the Association every other year. The computer printouts will soon be sent to all libraries which were listed in the 1972 Directory.

We are seeking your help in locating new libraries which have been started since the last Directory or which have increased in size to warrant inclusion in the Directory. If a library contains 10,000 or more volumes, it will be listed regardless of the membership status of its librarian. If the librarian is a member of AALL, the library will be listed regardless of its size.

I would greatly appreciate your scanning your list of chapter libraries for such new entries. I am certain that most of these have probably been sent to Headquarters already, but we don't want to merely assume that.

Thanks for your assistance in making the Directory the most complete ever.

Sincerely yours,

(Miss) Jessie L. Matthews
Chairperson
AALL Committee on Directories
