My Top 5 Forage Improvements/Practices
Commercial Hay

Clayton Geralds
Hay Producer

Clayton Geralds runs a commercial hay farm in Hart County near Munfordville, Kentucky. His total farm size is 630 acres, 350 of which are leased. The focus of his operation is producing small square bales for the horse market. Clayton currently grows a range of forage species including 500 acres of alfalfa and alfalfa/orchard grass and 130 acres of timothy and orchard grass. On average he puts up 100,000 small square bales a year.
