This Presentation is brought to you for free and open access by the Health Management and Policy at UKnowledge. It has been accepted for inclusion in Health Management and Policy Presentations by an authorized administrator of UKnowledge. For more information, please contact UKnowledge@lsv.uky.edu.
Learning from Network Analysis: Care Transitions, Market Competition, & Community Interventions

Glen Mays, PhD, MPH
University of Kentucky

glen.mays@uky.edu

AcademyHealth Annual Research Meeting • Minneapolis, MN • 14 June 2015
Health insurance exchanges → new markets

Managing care transitions → coordinated care

ACOs & PCMHs → incentives for efficiency, quality

Population health improvement → community-level collective actions
Networks and HSR

Networks as the institutional and/or community **context** for policy implementation

Networks as interventions (**mechanisms**)  

Networks as **outcomes**

Pawson and Tilley 1997; Berwick 2008
Dealing with complexity

- Multiple services
- Multiple providers
- Patient heterogeneity
- Heterogeneity in community/market context
Applying network analytic methods in HSR

- Design
- Sampling
- Measurement
- Analysis
- Translation/dissemination

Between network vs. Within-network
