500 acres of Alfalfa
175 acres Round-up Ready
Thank You
Fertilizer: How much is in each bale?

Dr. Dennis Hancock
Extension Forage Specialist
Crop and Soil Sciences – UGA
Phosphorus Supply

- Phosphorus over short term appears stable
- Price of MAP/DAP may be suppressed by inc. imports from Morocco & Russia.
  - 500%+ increase in imports in 2010 & 11.
  - Morocco has 40% of world's supply of P
- Long term supply is questioned.
  - US has 19% of world's supply of P
  - 65% of that comes from one area (Tampa)
