REVIEW OF TRAFFIC PROVISIONS OF KRS/KAR AND KENTUCKY DRIVERS MANUAL
Our Mission

We provide services to the transportation community through research, technology transfer and education. We create and participate in partnerships to promote safe and effective transportation systems.

We Value...

Teamwork -- Listening and Communicating, Along withCourtesy and Respect for Others
Honesty and Ethical Behavior
Delivering the Highest Quality Products and Services
Continuous Improvement in All That We Do

EXECUTIVE SUMMARY

This study included a review of selected sections of KRS and KAR that relate to traffic and safety. Also, the entire Kentucky Drivers Manual was reviewed. The review involved an evaluation of the applicability and consistency of these documents as well as their agreement with nationally recognized standards and guidelines. Recommendations were made relating to additions, modifications, and deletions from these documents.

Detailed comments were provided to the Kentucky State Police after a thorough review of the Kentucky Drivers Manual. An emphasis was placed on the portions of the manual where traffic control devices were described. Many of these comments and suggestions were incorporated into the revised manual.

Each section of KRS Chapter 189 and each chapter of KAR Titles 601 and 603 were reviewed. Possible modifications or questions concerning various aspects of the legislation or regulations were identified for many of these sections and chapters. Also, a request was made for members of the research study advisory committee to provide their suggestions. All of the comments were then summarized and presented to the advisory committee for comments and discussion. A list of recommended modifications was prepared and approved by the committee. The product of this review was a list of recommended changes to KRS and KAR, including the basis for the recommendation.
ACKNOWLEDGMENTS

Appreciation is expressed to the following members of the advisory committee who provided guidance in the completion of this study. Also included are Kentucky State Police personnel who were consulted as part of the review of the Drivers Manual.

Jo Anne Tingle  Transportation Cabinet, State Highway Engineer’s Office, Chair
Larry Irish  Transportation Cabinet, Division of Traffic Operations, Vice Chair
Mack Bushart  Transportation Cabinet, Department of Vehicle Regulation
Major Sonny Cease  Justice Cabinet, Kentucky State Police, Administrative Division
Terry Chism  Federal Highway Administration
Steve Coffey  Transportation Cabinet, Driver Licensing
Paul Deines  Kentucky League of Cities
Lt. Tim Hogg  Justice Cabinet, Kentucky State Police
David Leddy  Justice Cabinet, Kentucky Vehicle Enforcement
Capt. Tim Lucas  Justice Cabinet, Kentucky State Police
Capt. Melvin Nicholson  Justice Cabinet, Kentucky State Police, Drivers Testing Branch
Marcie Mathews  Kentucky Transportation Cabinet, Research Liaison
Ned Sheehy  Kentucky Motor Transport Association
Carl Sumner  Insurance Institute of Kentucky
Colonel Joe West  Justice Cabinet, Kentucky State Police
Tony Young  Federal Highway Administration
1.0 BACKGROUND

There is a continuing need to provide the most current and applicable statutory and regulatory guidance related to traffic safety both to the general public and to representatives of enforcement and judicial functions. Traffic-related provisions contained in the Kentucky Revised Statutes (KRS), Kentucky Administrative Regulations (KAR), and the Kentucky Drivers Manual are documents that affect the overall safety of drivers.

The Kentucky Drivers Manual provides drivers with the rules and regulations related to driver eligibility, rules of the road, the meaning and application of traffic control devices, the operation of vehicles, and the use of the roadway. Traffic laws are described in the KRS with KAR providing supplementary information that expand upon KRS and provide specific guidance relative to the responsibilities of government agencies. The administrative regulations need to be compatible and consistent with the statutes to insure proper guidance is provided. Revision or elimination of outdated rules and regulations would reduce ambiguity related to these documents and could provide the basis for clarification to drivers, law enforcement, county officials, judicial representatives, and others with a resulting improvement in traffic safety.

2.0 SCOPE

This study included a review of selected sections of KRS and KAR that relate to traffic and safety. Also, the entire Kentucky Drivers Manual was reviewed. The review involved an evaluation of the applicability and consistency of these documents as well as their agreement with nationally recognized standards and guidelines. Recommendations were made relating to additions, modifications, and deletions from these documents.

3.0 PROCEDURE

3.1 Drivers Manual

The Kentucky Drivers Manual is updated periodically to reflect new legislation and changes in national standards and guidelines. For example, the Manual on Uniform Traffic Control Devices (MUTCD) was updated in 2000 and 2003. There were changes in some traffic signs which should be reflected in the drivers manual. Also, there are ongoing changes in legislation which should be included in the manual.

The Kentucky Drivers Manual is the responsibility of the Kentucky State Police (KSP). A review of the manual had started concurrently with the start of this study. A committee was formed by KSP to review the manual. Several meetings were held with representatives of the KSP to provide input into needed revisions and additions. Certain sections of driver manuals from other states were reviewed.
3.2 KRS/KAR

Relevant portions of the Kentucky Revised Statutes (KRS) and the Kentucky Administrative Regulations (KAR) were reviewed to determine where revisions were warranted based on consistency or a need to be updated. Specifically, Chapter 189 (Traffic Regulations-Vehicle Equipment and Storage) of the KRS and Title 601 (Transportation Cabinet Department of Vehicle Regulation) and Title 603 (Transportation Cabinet Department of Highways) of KAR were reviewed. A sample of statutes in other states were reviewed on specific topics. The Uniform Vehicle Code (UVC) was reviewed in detail to evaluate its consistency with KRS.

4.0 RESULTS

4.1 Drivers Manual

Detailed comments were provided to the KSP after a thorough review of the Kentucky Drivers Manual. An emphasis was placed on the portions of the manual where traffic control devices were described. Many of these comments and suggestions were incorporated into the revised manual. For example, changes in traffic signs in the 2003 MUTCD were incorporated into the drivers manual.

4.2 KRS/KAR

Each section of KRS Chapter 189 and each chapter of KAR Titles 601 and 603 were reviewed. Possible modifications or questions concerning various aspects of the legislation or regulations were identified for many of these sections and chapters. Also, a request was made for members of the research study advisory committee to provide their suggestions. All of the comments were then summarized and presented to the advisory committee for their comments and suggestions. A list of recommended modifications was prepared and reviewed by the committee. Following is the list of recommended changes to KRS and KAR as a resulting from this review. A reference to the basis for the recommendation is made in several instances.

KENTUCKY REVISED STATUTES
CHAPTER 189

189.030. Time when lights must be on
(1) replace “lights” with “head lamps”

189.040. Front lights - Flashing lights
(6) change 200 feet to 300 feet to agree with Uniform Vehicle Code (UVC) 12-217
(7)(c) omit this section since it refers to headlights with a single distribution of light add paragraph to section referring to the height of headlights (to the center of the light to level ground with vehicle unloaded) (UVC 12-202) (other states give range of 24 to 54 inches)
189.043. Flashing white or amber lights to warn of traffic hazard permitted
refer to red lights in title

189.050. Rear, side and clearance lights
(1) add that the rear of vehicles must be equipped with at least two red lights (exempt vehicles equipped with one light when manufactured); omit reference to replacing reflector for red light (refer to UVC 12-206)
(2) omit this section
(3) reference of 200 feet too low and not consistent with 500 feet given in (1) and (4); omit reference to yellow light for brake application
(4) omit reference to green color; have two lights visible from rear
(5) 100-foot visibility distance too low as compared to 500 feet used in other section; change reference to lamp to light

189.055. Brake lights
add requirement that vehicle be equipped with at least two red lights on rear (exempt vehicles originally equipped with only one light) (refer to UVC 12-206)

189.060. Lights on vehicles in tow and projections
(2) replace reference to green light with amber light; refer to UVC 12-211 which states visibility distance to rear should be 1,000 feet rather than 500 feet
(3) refer to UVC 12-209; project more than 4 feet rather than 5 feet; require two flags or lights marking the width of the overhang

189.070. Motor vehicles to carry and use required flares or similar signals
(1) refer to type of vehicle required to carry such devices (trucks only; Motor Carrier Safety Standards); omit reference to “electric lantern”
(2) add “and in such time” to last sentence

189.080. Horns and other sound devices
add requirement that horn be heard from at least 200 feet (refer to UVC 12-401)

189.090. Brakes
(3) (a,b,c) cannot use one stopping distance requirement for all vehicle types-refer to UVC 12-301 (stop in 40 feet from 20 mph) and KMVSS (Section 571.1.121) for braking distance from 20 mph which is different for different vehicle types; FMVSS Part 571 for air brakes requires service brake stopping distances of 32 to 38 feet for various buses and trucks

189.110. Unobstructed windshields-Display of American flag-Windshield wipers
add paragraph to section providing guidelines for the extent of windshield breakage to be classified as unserviceable
189.125. **Requirements of use of seat belts and child restraint systems-Exceptions**
   (1) omit exemption “c” relating to farm trucks

189.130. **Mirrors**
   give specific location of mirror(s) (refer to UVC 12-403)
   (1) omit view requirement of 200 feet to rear

189.190. **Chains and lugs on wheels-Thickness of solid rubber tires**
   add 189.191 stating that a tire with 2/32 of an inch or less of tread depth is unsafe

189.222. **Increased height, length, and weight limits on designated highways-Cabinet**
   may promulgate administrative regulations to implement 23 C.F.R. Part 658-
   **Restriction of cabinet’s enforcement powers on locally-maintained roads**
   (1)(c) weight/inch of tire should be 600 rather than 700 to be consistent with other sections

189.285. **Regulations for operating and riding on motorcycles-Headgear**
   requirements-Definitions of motorcycle and moped
   (1) add UVC 11-1307 that headlamps lighted at all times
   add rules given in UVC 11-1302 and 11-1303 relating to operating motorcycles

189.287. **Bicycle safety regulations and standards**
   add appropriate portions of UVC 11-1203 through 11-1212 for bicycles

189.290. **Operator of vehicle to drive carefully**
   add section 189.291 to be used as reckless driving statute; refer to operating vehicle in reckless
   (willful and conscious disregard) or aggressive manner

189.300. **Vehicles to keep to right**
   (1) omit reference to 150 feet and replace with the more general reference such as given in
   UVC 11-305

189.310. **Vehicles meeting other vehicles and animals**
   (3) omit portion which states driver shall stop if requested by rider of animal

189.330. **Turning and right-of-way at intersections**
   (6)(b) replace “right-hand lane” with “left-hand lane”
   add section (6)(c) for two-way left turn lanes (which is UVC 11-601(d))

189.336. **Installation of flasher lights near schools-Speed limits**
   rewrite to define who can establish school speed limits on specific types of roads (Secretary of
   Transportation on state highways, fiscal courts on county roads, and cities on city streets) and
   remove technical details (refer to standards described in KRS 189.337)
189.337. Traffic control signs, uniform standards to be prescribed-Sign to conform
add UVC section 11-206 which relates to unauthorized signs
add UVC section 11-207 relating to interference with traffic control devices (similar to 189.2329
for devices in work zones)
(2) manual should apply to all roads “open to public travel”

189.338. Limitation of colored lights used in traffic-control signals-Rules for vehicular
and pedestrian traffic controlled by traffic-control signals
replace reference to “word message” for pedestrian signal with “symbolic message”
(1) add that vehicular traffic that entered an intersection on a circular green or yellow
indication are allowed to complete their left turn during the red indication
(3)(a)1,2 clarify, where there are two right or left turn lanes, whether the turn on red be made
from both lanes or only the curb lane

189.340. Overtaking vehicles-Traffic lanes-Following vehicles
(4) replace returning to lane within 100 feet of approaching vehicle with the 200 foot
distance listed in UVC 11-305
(8)(b) question of basis of the following distance of trucks of 250 feet (CDL recommends four
seconds at 40 mph for 40-foot vehicle which would be 240 feet and six seconds at
40 mph for 60-foot vehicle which would be 360 feet)

189.345. Prohibitions against driving on left side of roadway
(1)(b) omit since the Transportation Cabinet’s policy is to mark no passing zones at
intersections which meet certain volume requirements

189.375. School or church bus signaling device-Use-Stopping regulated
revise to include reference to installing a School Bus Stop Ahead sign if there is restricted sight
distance

189.390. Speed-Parking
(1) replace definitions for business and residential districts to include size of lots and spacing
of access points
(4)(b) add that speed limit cannot be reduced by more than 10 mph without an engineering or
traffic investigation
(6) add UVC 11-805(b) which relates to setting a minimum speed limit

189.394. Fines for speeding-Doubling of fines in highway work zones-Highway work
zone safety fund
(5) add information from 603 KAR 5:320 related to application of double fines in highway
work zones
189.450. Stopping, standing, or repairing vehicle on roadway or shoulders of highway
add UVC 11-1004 (a) and (b) relating to parking within 12 inches of curb
(1)(a) note that 24 hours not consistent with 603KAR5:025 Section 4 which refers to 6 hours
(5) add (from UVC 11-1003): on any controlled-access highway; within a highway tunnel;
within 15 feet of a fire hydrant; on a crosswalk; in the area between roadways of a
divided highway, including crossovers

189.480. Towed vehicles
add requirement for brake lights on towed vehicles

189.490. Trailer operation restricted
add requirement for brake lights on trailers

189.515. Restrictions on operation of all-terrain vehicles
(4) omit this exemption for headgear
(5)(b) add “and a person under the age of 16 shall not operate an ATV on any public highway”
(6)(b) omit this exemption for allowing use on a public highway

189.520 Operating vehicle not a motor vehicle while under influence of intoxicants or
substance which may impair driving ability prohibited—Presumptions
concerning intoxication
move to Chapter 189A

189.560. Railroad crossings
(2) Replace “stop at not less than ten feet” with “stop at a marked stop line but no less than
15 feet” (as given in the MUTCD)

189.565. Operator of motor vehicle used in transporting inflammable liquids or
explosives to stop vehicle at railroad crossings—Exceptions
change not less than 10 feet from nearest track to not less than 15 feet (from MUTCD)

189.570. Pedestrians
omit (4) since not consistent with (6) (a)

189.580. Duty in case of accident
(3) add “when an investigation is not conducted by a law enforcement officer”

189.630. City may require accident reports
omit this section given availability of records through CRASH

189.635. Vehicle accident reports by operators, law enforcement officers, and
agencies—Availability to parties to accident and news-gathering organizations
(7) omit this section
189.751. **Abandonment of vehicle on county road or city street-Penalty-Removal-Disposition**
change to 24 hours to be presumed to be abandoned to be consistent with 189.450 (1)(a) which refers to 24 hours as maximum time on shoulder

189.752. **Definitions for KRS 189.753**
change reference to an abandoned vehicle as only an automobile to refer to any vehicle

189.753. **Abandonment of motor vehicle on state highway-Presumption-Notification-Removal**
change to 24 hours to be presumed to be abandoned to be consistent with 189.450 (1)(a) which refers to 24 hours as maximum on shoulder

**Slow-Moving Vehicle Emblem**
no comments

**Emergency Vehicles**
189.910. **Definitions for KRS 189.020 to 189.950**
further define that a personal vehicle used as an emergency vehicle must have required flashing lights and siren

189.920. **Flashing lights**
add requirement for flashing lights for personal vehicle used as emergency vehicle

**Public Safety Vehicles**
no comments
KENTUCKY ADMINISTRATIVE REGULATIONS

TITLE 603. TRANSPORTATION CABINET DEPARTMENT OF HIGHWAYS

Chapter 1  Construction and Materials

020  Driveway approaches, entrances; construction and maintenance
Note: This section should be in conformance with Kentucky Access Management Plan when it is formally adopted

Chapter 2  Preconstruction
no comments

Chapter 3  Maintenance

030  Primary road system classifications
Section 1. (1)(b) replace “toll is paid” with “toll is or has been paid”

Chapter 4  Right-of-way

035  Logo signs; placement along fully-controlled and partially-controlled access highways
Section 5. (6) define the retroreflectivity reference to 50 percent

045  Cultural and recreational supplemental guide signs and boundary signs
Section 13. Refer to the current editions of various reference materials

050  Limited supplemental guide signs
Section 3. (b,c) use appropriate reference (Division of Traffic Operations)

Chapter 5  Traffic

025  Fully-controlled access highways
Section 4. change reference to 6 hours as time limitation for disabled vehicle stopped on shoulder to 24 hours

030  Right or left turn on red signal prohibitions
note that left turns refer to an intersection of two one-way streets

040  Use of rest areas
increase the maximum time a rest area can be used from 4 hours during 24 hours
050 Uniform traffic control devices
update reference of MUTCD from 2000 to current version
update Cabinet website to www.Transportation.ky.gov

066 Weight (mass) limits for trucks
add reference to increased limits on extended weight system (KRS 177.9771)

120 Access control of highway
should be in conformance with Kentucky Access Management Plan (when it is adopted)

150 Encroachment permits
Section 2 (b) refer to proper title for Division of Traffic Operations (and correct address)
add section dealing with acceptable mailbox receptacle (refer to U.S. Postal Services regulations)

230 The extended weight coal or coal by-products haul road system and associated
bridge weight limits
Section 10 (2)(a) proper address

301 Weight (mass) classification of the state-maintained system of highways
Section 1 (3) proper address

320 Safety in highway work zones
Section 7 (2) proper address

Chapter 7 Mass Transportation

020 Nonurbanized Public Transportation Program and Elderly and Handicapped Program
Section 2 proper address

040 Public Transportation Capital Assistance Program
Section 2 proper address

050 Local Rail Service Assistance Program
Section 2 proper address

060 Urbanized area transportation planning
Section 2 proper address

070 Carpool project
Section 2 proper address

080 Human service transportation delivery
Section 19 (2) proper address

090 Railroads
Section 6 (2) proper address

Chapter 8 Transportation Scholarship Program

010 Transportation Scholarship Program
remove reference to civil engineering technologists; in Section 5 change priority 4 to high school graduates applying for university freshman scholarships and change priority 5 to upper-class university students not in the program

Chapter 9 Division of Planning
no comments

TITLE 601. TRANSPORTATION CABINET
DEPARTMENT OF VEHICLE REGULATION

Chapter 12 Driver’s License
no comments

Chapter 13 Driver Improvement

025 Point System
reference research study (KTC-98-11) for updates to the point system (moving violations and mandatory violations)
(2) proper address

090 Medical Review Board
reference research study (KTC-99-23) recommendations relative to awareness of medical review process

100 Medical standards for operators of motor vehicles
reference research study (KTC-99-23) recommendations concerning medical standards for vision

Chapter 14 Motorcycle and Bicycle Safety

020 Bicycle safety standards
reference that all related traffic control shall conform to Part 9 in the MUTCD
5.0 REFERENCES

Following is a list of specific references used in the review of the Kentucky Drivers Manual, Kentucky Revised Statutes, and Kentucky Administrative Regulations. In addition to these references, statutes from other states relating to specific topics were reviewed.

5. Federal Motor Carrier Safety Regulations (FMCSR), United States Department of Transportation, Federal Motor Carrier Safety Administration.
