Thomas Parrish Program
On Sunday, 13 July, members of the Library Associates heard Mr. Thomas Parrish discuss his work as editor of *The Simon and Schuster Encyclopedia of World War II*. In the course of his talk, entitled “The Biography of a Book,” and in an extensive question and answer session following, Mr. Parrish revealed a great deal about methods of historical research, appraisal of evidence, contacts with witnesses both great and obscure as well as the organizational and financial realities of the publishing world. A widely-known author, Mr. Parrish is a resident of Berea and a former vice-president of the Associates.
