

HELP IMPROVE THE LIVES OF KENTUCKY CANCER PATIENTS!

L.A.U.N.C.H.

LINKING & AMPLIFYING USER-CENTERED NETWORKS THROUGH CONNECTED HEALTH

INNOVATION

STUDIO

OCTOBER
7 & 8, 2019

The University of Kentucky Markey Cancer Center will host Innovation Studios to brainstorm new and better ways to manage symptoms during cancer treatment and survivorship using broadband connectivity.

We invite anyone who has/had cancer, been part of a family experiencing cancer, those who provide clinical and personal care for cancer patients, those in the telecommunications and technology sectors, and any interested community members to come and create solutions with us. No artistic, technological, or design experience is necessary. Just bring yourself, your ideas, and your enthusiasm to change the lives of cancer patients in Kentucky.

Monday, October 7, 11am-2pm

Event Theme: Improving symptom management

Location: University of Kentucky Healthcare Pav. A, Room A01.605B Conference room (behind cafeteria)

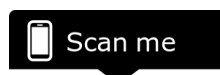

Tuesday, October 8, 11am-2pm

Event Theme: A supportive ecosystem for symptom management

Location: University of Kentucky Healthcare Pav. A, Room A01.123 Conference room

Participation is free and open to approximately 25 participants each day. You may attend one or both sessions. Lunch will be served. Reserve your spot now!

Register: For more details or to register, scan the QR code, visit <https://bit.ly/2HsKtbd> or contact Anna McCowan at almc264@g.uky.edu or 606-224-1827.

HealthCare
MARKEY CANCER CENTER

LAUNCH is in collaboration with the National Cancer Institute, University of California-San Diego, the Federal Communications Commission's Connect2HealthFCC Task Force, and Amgen.
